BY ABIGAIL

A mantle of sadness engulfs the Mount campus once again as the annual Commencement approaches. For the second straight year a young senior has been stricken down almost days before graduation. The tragic death Sunday of another young senior is hard to understand, but then God's ways are not those of man. We are deep with sympathy both to the college and to the boy's parents in these tragic moments.

Maryland's highway death toll appears almost certain to surpass last year's record of over 600 deaths. Already the toll is 48 ahead of last year's record shattering fatalities. Exactly thirty-three citizens met their maker last week on our state roads. This figure is staggering for a small state and there appears nothing on the horizon to brighten the picture. Defensive driving is the best thing that has come up in the past few years. You not only worry about your own vehicle but you must analyze what the other drivers about you are going to do. The State Police complement has been increased but still the death toll rises. The traffic increases each year and the state can not build enough safe and modern highways to keep pace with the increased number of vehicles on the road each year. It is apparent that some solution to the dilemma must materialize and a determined effort made to halt this ever increasing tide of highway deaths.

With the new Postoffice nearing completion and the Town's task of numbering houses is also nearing completion, this is the time to consider requesting mail carrier service for the Town proper. Shortly the old part of town will have numbers and plans are being made to take care of the new section in Emmitt Gardens. When this is done and we are located in the new Postoffice, then will be the time to start the ball rolling.

Months after Governor Tawes appeared here to discuss the dangerous by-pass and to take remedial safety measures, there still is one piece of business that was discussed and promised. This matter was the erection of signs on the by-pass indicating the business district of Emmitsburg, the two colleges, Provincial House and the Grotto. Both the Governor and Mr. John B. Funk, State Roads chairman agreed and promised to have these signs erected. To date nothing has been done. Mr. Funk made the remark that this was regular procedure when by-passes were installed and that perhaps the plans for signs had got lost in "bureaucracy and that he most certainly would look into the matter." Apparently Mr. Funk needs new glasses because his look appears to have been in vain.

Little League Action Starts Monday

The Emmitsburg Little League will open the 1966 season Monday evening on the local Little League Field. Games will be played each evening, Monday through Thursday and all games begin at 6 p.m.

Elected Social Chairman

Edward J. Ryan, son of Mrs. Valli S. Ryan, Emmitsburg R1, was elected social chairman of the class of 1967 at Mount Saint Mary's College. He was co-chairman of the Junior Prom and is a graduate of Edmondson High School, Baltimore. James F. Anderson, Syracuse, N. Y., was elected president of the class.

Mount Senior Is Killed In Mishap

Daniel R. Mannion, 22, senior education major and President of the student body at Mount Saint Mary's College, was killed Sunday afternoon when the convertible he was driving left the road and rolled over an embankment at Kump's Dam Bridge on the Harney Road east of Emmitsburg.

Mannion, who would have been a June graduate, was a native of Bethel, Conn. He was the son of Mr. and Mrs. Arthur J. Mannion, 111 South St., Bethel. In addition to his parents, he is survived by a brother, James M., who is a sophomore at the college and a brother, Arthur, who is stationed with the armed forces in Paris, France, and a married sister, Mrs. Mary Spain, Bethel, Conn.

Mannion recently was awarded the Kevin Carty Memorial Award by the student body of the college for his distinguished leadership. The award was named for a former student council officer who was also killed in an auto accident just prior to his graduation in 1963. He was also the recipient of the William F. Culhane Scholarship given by the Connecticut Chapter of the college's National Alumni Association.

His other activities at the college included membership in the Nutmeg Club, the Big Brothers, the Student Union Board, the N.E.C.C.S., the Orientation and Career Day Committees, Who's Who in American Colleges and Universities, secretary of the Inter Club Council; he was recently appointed by the College President as student representative to the Fine Arts Study Committee, and was an active participant in the college's intra-mural sports program.

Mannion was a graduate of Fairfield Preparatory, Fairfield, Conn.

He was currently practice teaching at St. Joseph's High School, and planned to enter the Officer Candidate School of the U.S.A.F. upon graduation.

Grade Kiddies Present Play

The 5th grade classes of Mother Seton School presented an original interpretation of "Mother Seton As An Educator" Friday, May 13. Excitement and enthusiasm ran high among the children because they, themselves, wrote and produced the play.

About three weeks ago the children were formed into committees according to desires and talents. The committees consisted of one for each of the four scenes representing four periods in the life of Mother Seton and various other committees for writing and copying of script, scenery, props, costumes, sound effects, etc.

The children showed remarkable judgment in their choice of characters and those who did not take special parts participated in the opening choral speech selection, or in the dancing of the minuet. The show concluded with the entire group singing Hail, Columbia, the national anthem in the time of Elizabeth Seton.

Following the program, Sister Agatha, principal, congratulated the group and distributed awards to the winners from grades six to eight, who participated in the Mother Seton contest held earlier this year. Sister announced this would be made an annual contest. Its purpose is to combine creativity among the students with a desire to make Mother Seton known and loved.

When the flood came Noah was ready. But then, he didn't have to get an appropriation bill through Congress.—Ledger - Dispatch, Norfolk, Va.

X-RAY UNIT COMING HERE NEXT WEEK

The Mass X-ray Service of the Frederick County Tuberculosis and Public Health Association will be conducted in the Emmitsburg area on May 23 and 25. The service is available to all persons 18 years of age or older as a means of detecting any chest abnormalities that may be present. A negative x-ray gives peace of mind that a person is essentially free from respiratory disease.

The health project is being sponsored in this area by the Homemaker's Club of Emmitsburg. Mrs. William R. Slemmer, Jr., president of the club, is serving as general chairman of the survey.

X-raying will begin at the Emmitsburg Manufacturing Company at 1:00 p.m., Monday, May 23 for the employees of the company. From 2:15 to 5:15 p.m., the unit will be located at the Fire Hall where the general public may be x-rayed. On Wednesday morning the unit will x-ray personnel at the H. O. Toor Shoe Company. The service is especially recommended for all persons who are required to have routine chest x-rays including food handlers and school personnel.

There is no charge for the x-ray, this is one of the Community Health Services provided through contributions to Christmas Seals. Mrs. Freda S. Doll is in charge of the x-ray service.

Banns Announced

The banns of marriage were announced for the first time at St. Joseph's Church Sunday between C. Ronald Stouter and Diane Pryor, and between Thomas Seess of St. Joseph's Parish and Mary Marshall of Saint Anthony's Parish.

CLASS TRIPS

The Eighth Grade students of Mother Seton School went to Washington last Monday on their class trip.

The Seventh Grade students went to Gettysburg and visited the Wax Museum, Hall of Presidents and Electric Map, and enjoyed a picnic lunch.

FOOD SALE

St. Anthony's Parish will sponsor a food and rummage sale Saturday afternoon starting at 2 o'clock.

New and used clothing will be on sale as well as delectable foods. The public is cordially invited to attend.

Little League Donors

Little League donors announced this week by President Thomas C. Harbaugh, are:

B. H. Boyle & Sons Inc.
Charles F. Stouter
Emmitsburg Chronicle
John (Buzz) Walter
Jay Long
Emmitsburg Pharmacy
Town of Emmitsburg
Taney Supply & Lumber Corp.,
Eric Glass
7-Up Bottling Co.
Wilbur T. Umbel
Farmers State Bank
Bernard S. Kaliss

Yale's first four football games next fall will be played in New Haven, Conn.

NEW SCIENCE BLDG. DEDICATED AT COLLEGE

Sister Rosemary Pfaff, D.C., President of St. Joseph College, in announcing the formal opening of the Dodd Science Center at the Emmitsburg campus, said, "Our new science building has been named 'The Dodd Science Center' to honor and perpetuate the memory of a man of deep faith, wisdom and vision, the Very Reverend Francis J. Dodd, C.M., who twenty years ago charted the course for college development and the realization of its hopes and dreams."

"During his term of office as president from 1944-1953, Father Dodd coordinated and directed the various departments of an emerging college along the way to intellectual achievements and academic excellence. His administration was distinguished for his deep concern for the individual growth of faculty members and students, the depth of his knowledge, his love of people, and his administrative ability."

A native of Brooklyn, N. Y., Father Dodd was a graduate of St. John's University, and was ordained priest in the order of the Congregation of the Mission in 1912. In 1927 he was elected president of Niagara University, at that time the youngest college president in the United States. In 1930 he was appointed Assistant Director of the Daughters of Charity of St. Vincent DePaul at Emmitsburg, and in 1944, was elected President of St. Joseph College. Father Dodd's retirement as president in 1953 was observed by his alma mater, St. John's University, with the conferral of the honorary degree of Doctor of Laws. Because of age and ill health, he retired to Mary Immaculate Seminary, North Hampton, Pa., in 1962, and died there a few months later.

At a brief ceremony prior to the dedication of the Dodd Science Center, Sunday, Sister Rosemary formally accepted and unveiled a "Self Portrait" of General Dwight Eisenhower. The oil painting, a serious likeness of the General, was given its final touches last Christmas at the Eisenhower farm in Gettysburg. The portrait is a gift to the college from the General and Mrs. Eisenhower, who received an honorary degree in 1959.

In accepting the portrait, Sister Rosemary said, "I consider the presentation of this picture a signal honor for St. Joseph College. Displayed as it is on this wall of the Dodd Science Center lobby, through which countless numbers of people will pass, the inspiration of a life devoted to the service of our nation and our society, cannot help but exert a strong influence for good on all who would view this portrait. It will be held always by us, our faculty, and our students as a priceless treasure."

GRADUATES

CHERRY POINT, N. C.—Marine Private First Class Richard C. Oster, Jr., son of Mr. and Mrs. Richard C. Oster, Emmitt Gardens, Emmitsburg, Md., has been graduated from the Marine Training School at Parris Island, S. C. He is undergoing further training there.

Cardinal's Drive Nets \$7,500 In Effort Here

Saint Joseph's Church has received \$7,800.00 in the Cardinal's Campaign of the Archdiocese of Baltimore in pledges toward its goal of \$25,000. Rev. Louis B. Storms, C.M., pastor, announced this week.

Father Storms said the pledges included funds raised during four weeks of Memorial Gifts solicitations by 20 volunteer campaign workers as well as Benefactor Gifts made at the opening of the general phase of the campaign, which was launched last Sunday. During the next five weeks Campaign activity will intensify as volunteers contact every Catholic family in Saint Joseph's Parish to give them the opportunity to subscribe to one of three Benefactor Gift plans.

The Cardinal's Campaign is a major fund raising effort of the Archdiocese to raise a minimum of \$11,000,000 for a new House of the Good Shepherd for troubled girls, a new Little Sisters of the Poor Home for the Aged, a new St. Elizabeth School for Retarded Children, to continue the long range high school construction program of the Archdiocese, and, for 1966 only, to provide an operating budget for the Associated Catholic Charities.

To date, a total of \$6,000,000 has been raised by the Archdiocese-wide campaign.

Ground for the new school for retarded children was broken early in January and completion is scheduled for September, 1966. The new school will have a capacity of 150 students, an increase of more than 50 per cent.

Architect's plans have been approved for the new Little Sisters of the Poor Home and working drawings are well under way. Construction is expected to begin before the end of this year.

Design of the new House of the Good Shepherd is nearing completion by the architects.

Two new archdiocesan high schools are scheduled to open in September of this year with provisions for 2,000 students as part of the long range high school program. Additional schools will be built when and where needed as funds become available.

BENEFIT DANCE

A teen-age dance will be sponsored by the Graceham Volunteer Fire Co., on Saturday night, May 21 from 8:30 until 11:30, in the Graceham Fire Hall. Another dance will be held on June 4. Music for the dance will be provided by Harry and the Shiveries. Admission to the affair will be 75c per persons. The dances are being held for the benefit of the new truck fund.

Yearbook On The Press

Citizens who have been keeping tabs on the Emmitsburg High School '66 Liner, are probably wondering of its progress. At present, it is on the presses at the American Yearbook Company in Cambridge, Md. The record for the school year 1965-66 is to be delivered on May 28. As soon as possible after that date the yearbooks will be distributed to residents who ordered copies.

The U. S. leads the world in paper consumption.

Lutheran Preacher To Get Degree

The faculty and staff of the Lutheran Theological Seminary, Gettysburg, recently announced that the Rev. William A. Markley, pastor of Union Bridge Lutheran parish will receive the advanced seminary degree of Master of Sacred Theology on May 22.

The Rev. Mr. Markley has been a pastor in Carroll and Frederick Counties for six years, having served on the North Carroll Lutheran Parish and now on the Union Bridge parish. He is presently pastor of St. James Lutheran Church, Union Bridge; Keysville Lutheran Church, Keysville, and Mt. Tabor Lutheran Church, in Rocky Ridge, Md.

In 1960 Pastor Markley was married to the former Shelby Jean Bixler of Westminster. They are the parents of one child, Marinda Kay Markley and reside in Union Bridge. He is a member of Acacia Lodge, Thurmont, and chaplain of Plymouth Lodge, Union Bridge.

Church Women Make Trip

The women of Tom's Creek Methodist Church made their annual trip May 7 to Baltimore City where they viewed the Shot Tower, the Constellation, Fort McHenry, the submarine U.S.S. Guavina, the Walters Art Gallery, Lexington Market and Sherwood Gardens. The group then moved on to Towson where they enjoyed an hour of shopping at the Towson Plaza and dinner at the Howard Johnson Restaurant.

Those making the trip were: Mrs. Elizabeth Amos, Maude Baumgardner, Ethel Baumgardner, Lois Baumgardner, Betty Case, Elizabeth Fuss, Ruth Copenhaver, Anna Grimes, Della Glass, Nancy Baker, Velma Stambaugh, Patty McGaughlin, Mary Glass, Melva Hardman, Mattie Glass, Edna Glass, Grace Bentz, Hilla Haines, Mae Grushon, Frances Rosensteel, Carrie Long, Carrie Keilholtz, Cora Moser, Emily Moser, Linda Myers, Edith Ohler, Iva Ohler, Julia Roop, Pauline Seabrooks, Janice Valentine, Lucille Valentine, Annie Valentine, Dorothy Valentine, Nancy Toms, Carolyn Ussilton, Polly Watkins, Sandra Watkins, Nancy Grimes, Gladys Keilholtz, Anna Martin and Ruth Stonesifer.

North Vietnam has an area of about 62,000 square miles.

Town Retains Maxwell As Engineer

Elmer St. Clair Maxwell was retained as town engineer after action taken at a special meeting of the Burgess and Commissioners held Monday night in the Town Office. Chairman of the Board Joseph M. Haley conducted the meeting with a full board in attendance. The vote to retain Maxwell was four to one with Commissioner Flax voting no.

Maxwell recommended several improvements to the present water system, namely, the installation of two pressure valves to be located on the Fraily property on Fraily Road and a blow-off valve near Toms Creek, farther west in that section. Council decided to have the engineer design and build the new pumping installation at Toms Creek. This was the site of an emergency pumping action last summer during the water shortage emergency.

In other action taken, Frederick J. Bower was appointed the new Town Attorney. He was present at the meeting. New regulations for the Police Dept. were discussed but action was deferred until a future meeting. Council authorized a pole light at the Little League diamond.

PTA Meeting Scheduled

The May meeting of the Emmitsburg Public School PTA will be held on Wednesday, May 25, 1966, at 7 o'clock in the school cafeteria. This will be the annual covered dish supper, so plan to bring the family.

The business of the meeting will include the installation of officers elected at the last meeting.

Action Committee To State Purposes

The Community Action Committee of Frederick County will meet at Frederick City Hall at 7:30 p. m. May 24.

George Dredgen, acting president of the committee, announced the purpose of the meeting will be to present for the committee's consideration the following proposals:

1—Summer Head Start. This year's program will be further enhanced by the use of Neighborhood Youth Corps workers as aides and by an expanded medical and health program.

2—Day Care Centers. The purpose of this project will be to provide care for children of working mothers who cannot otherwise afford the service of a private nursery school or baby-sitter. Such centers also will provide enriching experiences for the children similar to those provided by Head Start.

3—Homemaker Aide Program. The aim of this project will be to aid and teach low-income homemakers to improve their home-making skills particularly in the areas of sanitation, budgeting, child care, etc.

4—Community Betterment Project. From Community Action Committee Staff investigation, a small community in Frederick County has been selected as a target for an intensive over-all project designed to improve the physical environment, institute job training and provide a recreation area. This project also will involve educating residents in sanitation, property improvement and home-making skills.

Those proposals which meet with Committee approval also will be presented to the County Commissioners for their advice and consideration after which they will be submitted to the Office of Economic Opportunity in Washington, D. C. for funding.

Engaged

Mr. and Mrs. James Wilkinson, Emmitsburg, announce the engagement of their daughter, Constance Lee Sanchez, to Ronald Randy Dively, son of Mr. and Mrs. Victor Dively, Biglerville.

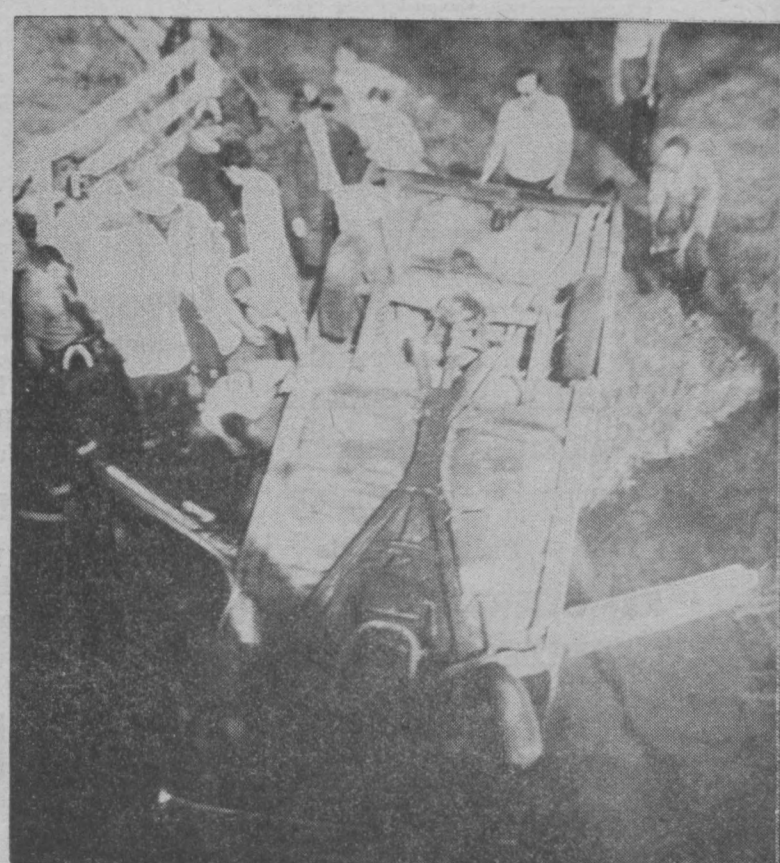

Miss Sanchez is a graduate of Emmitsburg High School and the Waynesboro Business College. She is presently attending Frederick Community College and is employed by Eddie's Dry Cleaners, Gettysburg.

Her fiancé attended Biglerville High School and is employed by A and B Roofers, Arendtsville.

No date has been set for the wedding.

Cotton fiber is static-free.

Mount Student Council President Killed In Car Wreck

Emmitsburg Chronicle Photos

Car driven by Daniel Mannion, Mount senior, is shown as it landed in the stream upside down. The vehicle landed partly in the stream on the Dr. W. R. Cadle property about a mile and a half northeast of Emmitsburg on the Harney Road.

Picture shows members of Vigilant Hose Co. assisting in removing vehicle from Middle Creek at Kump's Dam Park bridge last Sunday after the vehicle, driven by Mt. St. Mary's College senior Daniel Mannion, plummeted over the embankment and landed upside down in the stream. Mannion was instantly killed.

OUTDOOR SPORTING TIPS

Wait For Deer
When you spot a deer don't move a muscle. Stand absolutely steady until he flicks his tail. Then shoot. Reason: When you spot him he is probably poised to spring. If he flicks his tail he has relaxed . . . enough to give you a quick shot.

Shine Chrome
Rubbing tarnished chrome with aluminum foil will put a shine back on it.

Slap Eel
Reports say a couple of whacks of an eel on a rock or boat seat will quiet it enough to allow it to be grabbed and taken off the hook.

Radio Antenna
A radio antenna off a wrecked car makes a good rod to start a boy fishing. Fill end with dowel, wrap on eyes and mount a tip on the end. Reel can be held on with hose clips.

Frog Bag
Bags carrots, come in are good for storing frogs. Small perforations allow frog to breath. Trans-

parent too, so you see which frog you want.

Spool Storage
Use empty adhesive rolls for line storage. Reel holds the line, cover keeps line dry, out of sunlight and clean. Rolls come in all sizes.

Mud Travel
Got to cross wet, muddy stretches. Make it easy on yourself. Wear your snowshoes. They won't sink in the mud. A hose down at the day's end cleans them up quick.

No Snag
Snags can steal lures. Guard against it by putting a fishing bubble about a yard above the lure. Then it hits snags, lifts over and keeps lure clear. Well, usually.

System in business is a great asset if you can find somebody to operate the system while you take it easy.

State Fatals Still Rising

Thirty-three persons were killed on Maryland highways last week according to the weekly survey published by the Maryland State Police. Eleven of those killed were

drivers; sixteen were passengers; and six were pedestrians. Alcohol was a contributing factor in nine of the deaths; speed in seventeen; and "driver error" was present in twenty-eight of the fatalities. The highway death toll so far this year is forty-eight more than for the same period in 1965.

Last week's twenty-two fatal highway accidents, in which thirty-three persons lost their lives, included ten single car accidents, which accounted for twelve deaths, and five multiple car crashes which resulted in seven deaths. Also, there was the tragic crash involving a car and a mainline train near Bowie which accounted for eight deaths.

In all of the single car crashes, except the one involving the train, too much speed was a factor and in six of them there was evidence, also, of alcohol influence.

"The driver in everyone of these crashes," said Colonel Carey Jar-

man, Superintendent of the Maryland State Police, "failed to do his job—he failed to adjust his driving to meet the existing accident-producing conditions."

"Last week's pathetic picture again points to the need for more driver education for all operators—education that will emphasize driver responsibility, and, hopefully, impress all of them with the wisdom and need of driving, defensively at all times in order to prevent involvement in accident-producing situations."

Columbus found cotton growing in the Bahamas.

Boating Tips...

LOADING

Never step on the gunwale of a small boat (it's pronounced "gun-nel" and refers to the top edge of the boat's side). Step as nearly in the center of the craft as possible. Step aboard, don't jump, and use your hands to steady yourself. Never let your fingers come between the gunwale and dock. Don't carry your Mercury outboard or other gear aboard. Place it on the edge of the dock, get aboard, then lift the equipment in after you. If the dock is high and you are alone, consider lowering the motor into the boat with a line while standing on the dock. If the boat is pulled to shore for loading, one person should steady the boat while others climb in over the bow. Those who go aboard first should sit near the stern to raise the bow so it can be easily shoved off by the last person to climb in.

MULTIPLE SCLEROSIS GREAT CRIPPLER

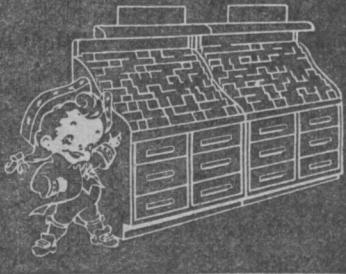

Strikes at Young Adults

Multiple sclerosis is "the great crippler of young adults." An estimated 500,000 Americans, young adults, mothers and fathers, in the active years of community and family service between 20 and 40, have been stricken by MS and related diseases. Cause, prevention and cure remain unknown. The National Multiple Sclerosis Society fights MS through programs of national and international research, community patient services, and public and professional education.

Visit Art Center

Rev. David W. Shaum, Ph.D., director of music at Mount Saint Mary's College, and chairman of the college's Fine Arts Study committee, headed a delegation visiting the Carl Murphy Fine Arts Center at Morgan State College,

Baltimore, last Thursday. Other members of the committee were Frank X. Ligorano, director of student activities; Daniel R. Mannion, student representative; John T. Cecil, LL.B., alumni representative from Baltimore, and Dean J. Sprague, director of public rela-

tions.

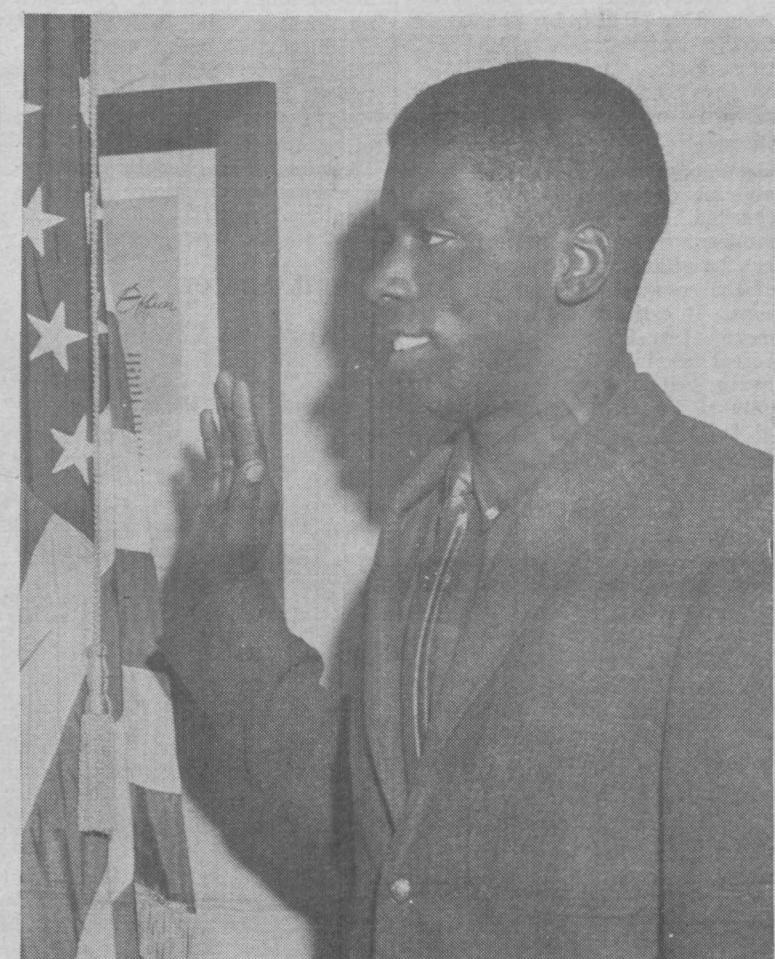

MOUNTIES LOSE TO B U

The Mt. St. Mary's College baseball team suffered its seventh loss

of the season last Thursday when it bowed to Baltimore University 7-1 here in a Mason-Dixon conference game.

Route One; Charles R. Harner, Route Two; and Guy E. Brown, Route Three.

To Undergo Flight Training

John W. Williams, Jr., son of Mr. and Mrs. John W. Williams, Taneytown, left last week for Pensacola, Fla., where he will undergo pre-flight training. He was accompanied to the airport by his parents and brother, Darryl.

Williams is the grandson of Emily Butler and his great-grandparents were Mr. and Mrs. John

A. Butler, former Emmitsburg residents.

Well-known locally, Williams was graduated from the Mother Seton School, St. Joseph's High School and was the first Negro to be graduated from Mt. St. Mary's College. John recently enlisted in the Naval Reserve as a Naval flight officer candidate.

Mount Guild Holds Meeting

Dr. A. H. Clemens, director of the Marriage Counseling Center at the Catholic University in Washington, D. C., and internationally renowned sociologist, spoke to the Mount Saint Mary's College Parents Guild on "Woman—The Mother of Civilization." The talk was in conjunction with the Annual All Guild Day held at the college campus on Tuesday.

Beginning with the first society as described in the Bible, the speaker explained that woman, not only physically, but in her many psychological attributes was to complement Adam, the man. These attributes of "more compassion," "greater spiritual depth," "a greater sense of the esthetic and of creativity" were lost with sin and not only did all the woes of the flesh befall mankind but womanhood and motherhood were degraded through the entire period of pagan history. With the emergence of Christianity as a world influencing force, the influence of the woman, the mother regained its complementing position and thus the modern saying, "Behind every successful man there is a woman."

The present rise of neo-paganism however has again reversed the influence role of the woman, the mother and with this has come the rise of crime, the loss of modesty, the lack of beauty and esthetic value in the art forms, the decline of spiritual and ethical values, according to Dr. Clemens. His challenge to the audience was to seek to return woman to her proper influencing role in the family, the business and professional world, and the world politic.

The day's program began with a Mass of Thanksgiving in the College Chapel with Rt. Rev. Msgr. Robert R. Kline, Ph.D., college president as celebrant. Following the Mass, a luncheon was

served in the Cogan Union at which time the college presented the retiring chapter officers with awards and the chapters made their annual presentation to the college.

The program concluded with a benediction at the National Shrine Grotto at which Rt. Rev. Msgr. George D. Mulcahy seminary rector, was celebrant, and Rt. Rev. Msgr. Hugh J. Phillips, Grotto director, spoke.

To Make

Livestock Survey

The Post Office announced today that the Rural Mail Carriers will begin distributing June Livestock cards to farmer patrons on their routes about May 21.

The June Livestock Survey provides the Maryland-Delaware Crop Reporting Service at College Park, Maryland with basic information for estimating the pig crop, calf crop, and lamb crop, as well as information on wool, milk and egg production.

This is a sample survey so not all farms will receive a survey card.

To assure that your community is represented in this survey, we urge each farmer-patron receiving a card to fill it out and place it in his mail box.

Carriers distributing the survey cards from the Emmitsburg Post Office are: Albert W. McClellan,

NOTICE TO BIDDERS

COUNTY COMMISSIONERS FOR FREDERICK CO.
Frederick, Maryland

IN THE CIRCUIT COURT
FOR FREDERICK COUNTY
PETITION NO. 4575 LAW

The object of this suit is to acquire by condemnation certain tracts or parcels of land situate in the 23rd Election District of Frederick County, Maryland, belonging to Bertram W. Haines and Mary J. Haines, his wife; Frederick County National Bank; and the County Commissioners for Frederick County.

The Petition states that the State Roads Commission of Maryland is charged with the construction and maintenance of the highways and bridges in the State of Maryland.

That it has determined it necessary and proper to acquire for the purposes referred to in said Petition and in connection with the construction and maintenance of the highway system of the State, certain tracts or parcels of land situate in the 23rd Election District of Frederick County, consisting of all that property consisting of 0.353 acres, more or less, lying between the lines marked "Right of Way Line" as shown on the Plat Number 33505, which is being taken in fee simple.

TOGETHER with the perpetual right to erect and maintain between October 1st and April 1st of each and every year, on the adjacent land of the defendants, within one hundred feet of the land hereby condemned in fee simple, snow fences, provided that said snow fences shall not interfere with the construction and use of buildings now erected or hereafter erected, with growing crops or roadways.

TOGETHER with the right to enter upon the remaining property of the defendants for the purpose of removing that portion of the two and one-half story frame dwelling that is located beyond the limits of the right of way.

TOGETHER with any right, title, and interest of the defendants in and to the existing bed of Butterfield Lane, lying between the lines marked "Right of Way Line," as shown on Plat Number 33505.

TOGETHER with all the right whatsoever of ingress or egress between the through highway and the remaining property of the defendants across the lines which are designated "Right of Way Line of Through Highway", to the end that there never will be any vehicular, pedestrian, and/or animal access to or from the through highway and the remaining property of the defendants across those lines which are so marked on the aforementioned Plat Number 33505, except by means of such public road connections as the Plaintiff may construct or permit to be constructed.

That the said property is now held by the Defendants herein named as Bertram W. Haines and Mary J. Haines his wife; Frederick County National Bank; and County Commissioners for Frederick County, under the provisions of a Deed, dated June 11, 1962; re-

corded June 11, 1962; in Liber No. 668, Folio 495, among the Land Records of Frederick County.

That the said property is subject to the lien of two Mortgages, (1) from Bertram W. Haines and Mary Jane Haines, his wife; to Frederick County National Bank; dated June 11, 1962; recorded June 11, 1962; among the Mortgage Records of Frederick County, in Liber No. 669, Folio 606, securing the payment of the total sum of \$10,000.00, as expressed in said Mortgage, and (2) from Bertram W. Haines and Mary J. Haines, his wife; to Frederick County National Bank; dated March 13, 1964; recorded March 16, 1964; among the Mortgage Records of Frederick County, in Liber No. 700, Folio 321, securing the payment of the total sum of \$4,000, as expressed in said Mortgage.

That the property hereby sought to be condemned is subject to the lien of real estate taxes levied by, and due, the County Commissioners for Frederick County.

That the purpose for which the said land and property above described is sought to be condemned is for the construction of the Interstate Route 70: U. S. Route 340, to U. S. Route 40A, an Expressway, Frederick County, Maryland.

That your Plaintiff is unable to make an agreement with the defendants and that your Plaintiff has deposited a check in the amount of Twenty-Six Thousand, Three Hundred Twenty-Five and 00/100 (\$26,325.00) Dollars payable to the Clerk of the Circuit Court for Frederick County, to the use of the aforesaid defendants, in the hands of the said Clerk on the 28th day of April, 1966, in conformity with the provisions of Article 89B, Section 9, Public General Laws of Maryland, and Rule U, of the Maryland Rules of Procedure, said Plaintiff deeming the said sum to be the fair value of the land taken and damages done to the property, and that it is in the public interest and necessary for them to take possession for the aforesaid purposes.

That the following defendants are non-residents of the State of Maryland, whose last known address is: Bertram W. Haines and Mary J. Haines, his wife, Heutte Drive, Norfolk, Virginia.

IT IS THEREUPON ORDERED by the Circuit Court for Frederick County, this 28th day of April, 1966, that the Plaintiff, by causing a copy of this Order to be inserted in a newspaper published in Frederick County, State of Maryland, once a week in each of four successive weeks before the 4th day of June, 1966, shall give notice to the defendants, Bertram W. Haines and Mary J. Haines, his wife; Frederick County National Bank; and County Commissioners for Frederick County, of the substance and object of the petition and to appear in the Circuit Court for Frederick County on or before the 5th day of July, 1966, in person or by attorney, and file their answer or other initial pleading in the Clerk's office of said Court at Frederick, Maryland, and to show cause, if any they may have, why the said property or said defendants' interest therein should not be condemned as prayed in said petition.

We're Feeding Rats In India

People have written to me from time to time reporting what their Congressman said when petitioned by the home folks to reduce the size of the Federal budget and cut taxes. A standard reply from the Congressmen whose records show an uninterrupted series of votes for spending programs to "aid" everything under the sun, goes like this: "It isn't as simple as it seems. You tell me where you would cut the budget." Since the budget is voluminous and is not seen by one citizen out of a million, the Congressman's strategy is usually effective. Only a few citizens are well enough informed to accept such a challenge.

Since there are so few in-

stances where results of "foreign aid" have been worth the cost and so many glaring instances where they haven't, this is a good idea to focus the taxpayers' spotlight. For instance, in the foreign aid program proposed by the Administration for the fiscal year beginning July 1, there were these items: \$917 million in military assistance, \$2,469 million in economic aid, \$1,617 million in "Food for Peace" funds, and \$490 million for "other purposes." The total is not a mere \$3.4 billion as mentioned in most news dispatches; the total is \$5.5 billion. Billions For Leftist Dictators

There have been incidents of effective foreign aid, but in the massive amounts that have been poured out over the globe in the last 20 years much of the spending has worked against United States interests, astounding amounts of money have been grossly wasted, and billions have gone directly into the hands of dictators who subsequently have been shown to be working with the Communists. Nkrumah in Ghana and Sukarno in Indonesia

are prime examples.

Ignoring the fact that Nkrumah identified himself as a "Marxist," the U. S. helped establish him as President of Ghana in 1947 and poured \$159 million of our money into his coffers. Now banished from his country, reports say he has many millions in personal funds hidden in foreign banks. Sukarno received nearly \$2 billion of our "foreign aid" after we'd used our prestige to install him in a nation he and his leftwing rabble had virtually seized from the Netherlands. It took a popular revolt of the Army to force him and his Red colleagues out of control. He is said to have a personal fortune in Swiss banks. These are hard facts; but they are facts.

Rat Famine Needed
When Prime Minister Indira Gandhi of India visited Presi-

dent Johnson recently he reassured her that India would receive several million additional tons of American wheat out of the "Food for Peace" funds in our "foreign aid" outlay. We have been sending millions of tons of wheat to India in recent years to "help combat famine." An Associated Press dispatch from New Delhi, by the AP's foreign correspondent, Joe McGowan, Jr., reports as follows on the "famine":

"The millions of tons of wheat the United States sends to India this year will not equate the amount devoured by India's unchecked hordes of rats. A health ministry report estimates India has 2.4 billion rats—five for each of the country's 480 million persons. It estimates the rats eat more than 26 million tons of cereal grain each year. The grain lost to rats would not only relieve the present threat of famine, but would transform India into a nation probably able to feed itself."

Money Down Rat Hole

"During 1964, when India had a record crop of 88 million tons of grain, she still had to import 6.7 million tons of surplus wheat from the United States. The influential Times of India, in praising the United States for its offer of emergency shipments of wheat, criticized authorities at home for taking steps to halt what it called 'colossal national waste' . . . One stumbling block is the reluctance of many Indians to kill any living thing . . . Some people catch rats in their home by using a cage-like device, then turn the rats loose in the fields."

India has received \$4.7 billion of U. S. "foreign aid" in addition to emergency shipments of our wheat. Isn't it about time we quit sending billions, and send rat poison, along with an ultimatum declaring that until India rids itself of rats, at least to the extent of halting the astounding waste of foodstuff, no further "aid" will be sent? Production figures indicate India could feed herself. Our wheat, in a sense, has been for rats, the survival of 2.4 billion of them while people starve. Here is an answer to the Congressman's question: "Where would you cut?"

Mount Golfer

Conference Champ

Freshman Joe Geiger, Mt. St. Mary's number two and three man throughout the 1966 season, became the new Mason-Dixon Conference individual golf champion Monday during the conference's annual tournament at Norfolk, Va., with Old Dominion the host school.

Eighty-two golfers took part in the 36-hole tourney played in 36-degree temperature and hindered by 25 mph winds. The first-year Mountaineer fired a blistering two-under-par 70 over the 6,900-yard Stumpy Lake golf course. His closing 18-hole 79 gave him an overall 149. Geiger, as well as Dick Crist, Mount captain, who was in the last foursome to finish for the day, had to play out the last five holes with the help of auto headlights which lined the fairways.

As a team, the Mountaineers, northern division champions, finished fifth out of 14 competing colleges in the 20th annual affair, recording a team total of 652. Host school Old Dominion copped the team title with a 618 total.

Crist, playing the final match of his college career, took a fifth place for individual honors, five strokes off Geiger's pace. Crist's breakdown went 78-76-154. Despite the dark and rain, Crist fired two pars and three birdies in his final five holes. His biggest asset of the day was the fact that he was able to hit five of the six par five holes in two shots.

The tournament marked the final outing of the season for the Mount golf team which recorded a six-win and two-loss season.

BABSON

Writes . . .

BY ROGER W. BABSON

Babson's Point Of View On: Confusion And Common Stocks

BABSON PARK, Mass., May 19—When 1966 opened, optimism on the stock market was rampant. This column agreed with the bulls, freely predicting that the Dow Industrials would climb above 1,000 before the end of 1966. But not many investors are thinking about that magic figure now. Since the spring slump, most of them are asking: "What's gone wrong with the stock market?"

Confusion Compounded To move ahead strongly, the stock market likes to feel confident and certain. Recently, all has been confusion, particularly among our leaders in Washington . . . political, military, and economics. After working hard to convince the public that it has the correct formula for prosperity without end, we find the Administration split from end to end on what to do next.

One official holds that the economy is not overheating; that inflation is a long way off. Another states flatly that the business bulge in the first quarter was "faster than we ought to

try to sustain". The Chairman of the Federal Reserve calls for higher taxes to dampen inflation. The Secretary of the Treasury right afterwards warns that a bigger tax bite now might tip over the economic applecart. Confusion also reigns with regard to what we should do in Vietnam.

Patients Die

Our parents had an old saying: Doctors differ and patients die. Another way of putting it was: Too many cooks spoil the broth. That about describes what is going on today—not only in Washington—but also throughout this country and abroad. In South Vietnam, with Communists attacking from within and without, the army is split into factions and the Buddhists are fighting the Catholics.

Amid this terrible confusion in that unhappy country, Vietnam elections are scheduled for late summer. Already anxiety is spreading that, no matter how the actual voting goes, civil war in South Vietnam may break out. Feeling is that the loser will not abide by the decision of the voters; this seems most likely if a strong military clique comes out the underdog.

Fears Of U. S. Dunkirk

If the South Vietnamese front against Communism should crumble, it is very hard to see how the American military could continue to press the battle against the Viet Cong and against infiltration from the North. We have already had a foretaste of what is likely to happen . . . when riots recently swept South Vietnam. If the situation were a thousand times worse, it seems we would have no choice but to withdraw our men and materials. The results of such a removal

would not be simply a battle lost. Americans have lost battles before. We refused to win in Korea; but we were not defeated. But to try and protect a nation against Communist takeover—and then to have to abandon such a country—would certainly be the same as losing a war. Even the "doves" might be stilled; for it is one thing to withdraw as a matter of considered decision, but quite another to lose a war. The "hawks" surely would scream.

Unity Needed

It is not hard to find stacks and stacks of favorable economic facts. Business generally was never bigger or better. Profits, although not racing ahead as fast as last year, are still climbing. Order backlogs are up, and tilting higher. Autos may be tapering a bit; but steel and other metals are booming, and pointing up. Money is more expensive; but we don't see any business starving for lack of funds.

Why, then, is the stock market out of gear with the business statistics? Because it is always afraid of confusion and uncertainty. It is not today that worries it . . . but tomorrow. Investors are wondering how long business statistics will stay favorable if our leaders cannot make up their minds about the danger of inflation, about taxes, about Vietnam. It is our belief that the Dow would get back on the track toward 1,000 if our leadership would unite. It is time to set the course and call the crew to man their stations.

Firemen Complete First Aid Course

The Graceham Volunteer Fire Company has just completed a 36 hour course in the American Red Cross Standard and Advanced First Aid in addition to the Medical Self Help Training. The course was given by Mr. Donald G. Schley of the Industrial Health and Safety Department of Fort Detrick. The course is one of several the fire company has attended over the past months to enable them to better serve their community in the operation of their ambulance and fire-fighting equipment.

Some of the important subjects covered in practice work, discussions and with an array of the very latest movies and film strips were Radioactive Fallout and Shelter; healthful living in emergencies including purifying of water and contamination precautions; artificial respiration including mouth to mouth resuscitation; bleeding and bandaging including tourniquet warning; fractures and splinting; transportation of the injured; burns, shock; nursing, care of the sick and injured. This included asthma attack, chills, sore throat, choking convulsions, diabetes, diarrhea. Emotional problems, headache, heart emergency, insect bites poisoning, radiation sickness and unconsciousness.

Also infant and child care, care of the baby, feeding the baby, premature baby, etc. Emergency childbirth, preparation, stages of labor, moment of birth, cutting the cord, miscarriage, etc. These are a few of the highlights learned and practiced in the course. Fifteen enrolled in the course.

Eleven successfully completed this course given in the Graceham Fire Hall. Those completing it were: Leslie R. Socovool, Leslie R. Socovool Jr., Ernest R. Clevenger, Carl E. Angleberger, Allen K. Angleberger, Chester L. Fogle, Jr., Larry T. Eyer, Jesse Franklin Fox, Mr. and Mrs. Chester L. Fogle and Mrs. Carrie Koontz.

The company may be contacted by calling 271-2000 for fire or ambulance.

Each graduated was given a Standard and Advanced "First Aid to the Injured Card", as well as the Medical self help training course card and Diploma signed by Dr. Forbes H. Burgess of the Health Department and George J. Stup of the County Civil Defense.

Medicare, the new program of health insurance for the aged, begins on July 1, 1966, for all people over 65 who have signed up for it.

Many people are asking what they should do about their private health insurance plans. While this decision is a private one, W. S. King, Social Security District Manager in Hagerstown cautions: do not cancel any other health insurance you have until your medicare coverage actually begins.

This warning also holds true for people who become 65 in the future. If they apply for medicare in the three-month period before their 65th birthday, their coverage will not begin until the month they are 65.

King said that it is important that people approaching 65 do three things:

1. Obtain good evidence of your age well before your 65th birthday, so you will know when your benefits under medicare can begin.

2. Visit your local social security office as early as possible in the three-month period before your 65th birthday.

3. After you have established your age with social security, get in touch with the agent or company that provides your health insurance.

Local social security offices have

THOMAS M. EICHELBERGER Register of Wills for Frederick County, Md. 5/13/66

No. 4574 Law ORDER OF PUBLICATION STATE ROADS COMMISSION OF MARYLAND

Acting for and on behalf of the STATE OF MARYLAND vs. DAVID W. K. PEACOCK, JR. and JUDITH V. O. PEACOCK, his wife

201 33rd Place, N. W. Washington 8, D. C. COUNTY COMMISSIONERS FOR FREDERICK COUNTY

IN THE CIRCUIT COURT FOR FREDERICK COUNTY PETITION NO. 4574 LAW

The object of this suit is to acquire by condemnation certain tracts or parcels of land situate in the Third Election District of Frederick County, Maryland, belonging to David W. K. Peacock, Jr. and Judith V. O. Peacock, his wife and County Commissioners for Frederick County, Maryland.

The Petition states that the State Roads Commission of Maryland is charged with the construction and maintenance of the highways and bridges in the State of Maryland. That it has determined it necessary and proper to acquire for the purposes referred to in said Petition, and in connection with the construction and maintenance of the highway system of the State, certain tracts or parcels of land situate in the Third Election District of Frederick County, consisting of 17.80 acres, more or less, lying between the lines marked "Right of Way Line" as shown on Plat No. 33509, which is being taken in fee simple, and also all that property outside said lines, outlined by shading as shown and/or indicated on Plat No. 33510 consisting of 6.96 acres, more or less, which is being taken in fee simple.

TOGETHER with the buildings and improvements thereon and the rights, alleys, ways, waters, roads, privileges, appurtenances and advantages to the same belonging or in anywise appertaining; together with the perpetual right to erect and maintain between October 1st and April 1st of each and every year, on the adjacent land of the defendants, within one hundred feet of the land hereby condemned in fee simple, snow fences, provided that said snow fences shall not interfere with the construction and use of buildings now erected or hereafter erected with growing crops or roadways; together with the perpetual right to discharge the flow of water from such stream changes, side ditches, inlet ditches, outlet ditches, pipes, culverts and all other drainage facilities as are necessary in the opinion of the State Roads Commission to adequately drain the highway or adjacent property and/or control the flow of water through those drainage structures to be built to protect said highway (either within the areas shown cross-hatched thus

or within the limits of the areas herebefore conveyed in fee simple) into existing waterways or natural drainage courses as indicated by the symbol , and/or the existing ground, as indicated by the symbol , at the outlet end of the drainage facilities so created by the Commission, all of which are shown graphically and indicated by appropriate symbols and explanatory notations on the aforesaid plats, together with all the right whatsoever of ingress or egress between the through

highway and the remaining property of the defendants across the lines which are designated "Right of Way Line of Through Highway" to the end that there never will be any vehicular, pedestrian and/or animal access to or from the through highway and the remaining property of the defendants across those lines which are so marked on the beforementioned Plats Nos. 33509 and 33510, except by means of such public road connections as the Plaintiff may construct or permit to be constructed.

The Petition further states that the property is now held under the provisions of a deed from Richard A. Keller and Pauline S. Keller, his wife to David W. K. Peacock, Jr. dated December 2, 1961 and recorded on December 4, 1961 in Liber No. 662, folio 96 & c.

(a) The property hereby sought to be condemned is subject to the lien of real estate taxes levied by and due the County Commissioners for Frederick County, Maryland.

That the land and property sought to be condemned is in connection with the State System of Roads and Bridges, and especially for the construction of Interstate Route 70 — From Hollow Road to Alternate U. S. Route 40, an Expressway in Frederick County, Maryland.

That your Plaintiff is unable to make an agreement with the defendants and that your Plaintiff has deposited a check in the amount of Fourteen Thousand Nine Hundred Fifteen & 00/100 (\$14,915.00) Dollars payable to the Clerk of the Circuit Court for Frederick County, to the use of the aforesaid defendants, in the hands of the said Clerk on the 28th day of April, 1966, in conformity with the provisions of Article 89B, Section 9, Public General Laws of Maryland, and Rule U of the Maryland Rules of Procedure, said Plaintiff deeming the said sum to be the fair value of the land taken and damages done to the property, and that it is in the public interest and necessary for them to take possession for the aforesaid purposes.

That the following defendants are non-residents of the State of Maryland, whose last known address is: David W. K. Peacock, Jr. and Judith V. O. Peacock, his wife, 3201 33rd Place, N. W., Washington 8, D. C.

IT IS THEREUPON ORDERED by the Circuit Court for Frederick County, this 28th day of April, 1966, that the Plaintiff, by causing a copy of this Order to be inserted in a newspaper published in Frederick County, State of Maryland, once a week in each of four successive weeks before the 4th day of June, 1966, shall give notice to the defendants, David W. K. Peacock, Jr. and Judith V. O. Peacock, his wife, who are non-residents of the State of Maryland, of the substance and object of the petition and to appear in the Circuit Court for Frederick County on or before the 5th day of July, 1966, and file their answer or other initial pleading in the Clerk's Office of said Court, at Frederick, Maryland, and to show cause, if any they may have, why the said property or said Defendants' interest therein should not be condemned as prayed in said Petition.

Musical Play In Frederick Saturday

After two successful performances of "The Sound of Music" at Emmitsburg High School, a third performance will be given in the West Frederick Junior High School auditorium on Saturday, May 21, at 7:30 p.m.

The cast and orchestra have been given the full cooperation of the administrations of Emmitsburg High, Frederick High, and West Frederick Junior High. The school will provide bus transportation to the performance if enough people show a desire. Persons interested are asked to contact Emmitsburg High School.

LAWN CARE

With Larry Lawrence A lady writes me from Nebraska and I can't resist quoting her letter. She says, "In 1959 we had only sand and weeds. I knew nothing about lawns, but I wanted one and was willing to work for it. The local store sold me Scotts seed, fertilizer and spreader and I bought burlap bags to cover the seed after planting and spiked them down with rusty nails, letting the grass grow up through the sacks which eventually rotted away. I always got perfect stands, no matter what season I planted. Today our home is a showplace and friends bring visiting relatives from distant states to see the lawn."

She's right. You can achieve seeding success any time of the year if moisture is available to the new grass once it has germinated. Her letter also reminds me of another thing I always tell those who plant seed, particularly in the spring. Don't be discouraged because you get a crop of weeds along with the new grass.

Remember this. The ground is full of weed seeds just waiting for a chance to germinate. When you cultivate the ground and plant grass seed you give them their opportunity and up they come. But most of them won't survive the first grass cutting. Those that do can easily be taken care of later with wide-spectrum weed controls.

The Children's Corner...

Strawflowers Make A Bonnet Gay

Julie uses leftover strawflowers and an inexpensive straw hat to create a new bonnet for herself. See how pretty it is?

Julie thinks she's pretty smart. She had a straw hat, one of those that can be rolled up and poked into a pocket or packed in a suitcase. Her mother had part of a bunch of strawflowers left from making a bouquet. And Julie has combined them.

She thought the yellow strawflowers would make a fine hatband, but there was the problem of how to get them to stay where she wanted them to. So she found a piece of ribbon about an inch wide and fastened the flowers to that.

Her mother had already thrust a wire through the center of each flower, for strawflower stems do not keep well and the blooms are best removed after they are dry. So Julie simply stuck the other end of the wire through the ribbon, cut it short so that only a quarter of an inch was left and bent that tip back towards the flower head.

One after the other she fastened the blossoms to the ribbon

until she had enough to go around the front of the hat. Here she is trying the effect of the hatband and trying to decide if she wants to add flowers around the back of the hat too.

You, too, can "pretty up" a plain hat with strawflowers. They're easy to grow from seeds, can be dried by picking when in full color; hanging upside down in small bunches for several weeks. In addition to flowers and hat you need only ribbon, florist's wire to poke through the strawflower heads and a tin-snips to cut the wire. Have fun!

VFW AMBULANCE

Thomas M. Davis, Emmitsburg, and Leona Naugle, South Mountain, Pa., were transported to the Warner Hospital this week in the VFW ambulance. Martin T. Goli-bart was transported from the Frederick Memorial Hospital to his home here by the ambulance. Drivers were Leo M. Boyle and Guy A. Baker, Jr.

compared to second place Mt. St. Mary's 42. The remaining team scores included: Old Dominion 23, Catholic U. 20, Bridgewater 17, Roanoke 15, Towson State 12, Johns Hopkins 10, Western Md. and Gallaudet 9, Randolph-Macon 5, Lynchburg 4, and Loyola 2.

Mt. St. Mary's points included first places recorded by Tom Newberger and Bill Walsh. Newberger copped the broad jump with a new conference record leap of 23' 8 1/2". That eclipses the old mark of 23' 1 1/2" set by Charles Nuttysonde, Randolph - Macon.

Walsh walked away with the triple jump with a leap of 45' 3 3/4" while Newberger came in third.

Mt. St. Mary's will be host to the NCAA Atlantic Coast regional meet today and Saturday.

OUR LIBRARY

"Guinness Book of World Records," by Norris and Ross McWhirter. Which is highest, lowest, biggest, smallest, fastest, slowest, oldest, newest, loudest, greatest, hottest, coldest, strongest? This book, written nearly ten years ago, was written so in the hope of providing a means for the peaceful settling of arguments about record performances in this record-breaking world. This is the fourth edition in the United States.

"Home Life In Colonial Days," by Alice Morse Earle, is one of those rare books, combining fine scholarship with charming affection for the subject, which has lost none of its appeal down thru the years. With its 142 unusual photographs of genuine antiques, appurtenances, and architecture of "olden times."

"The Early American House," by Mary Earle Gould. For those who live in old houses with their original fireplaces, pot-hooks and endirons; for those who delight in visiting old houses in which the original wooden and iron were a living part; for those who enjoy viewing the drama in the life of our early forefathers, this book will be a friend and benefactor. Because the kitchen was the soul of the home and its imposing fireplace the gathering place of the family, the author has laid emphasis on that important room, its utensils and activities in writing this story of colonial household life.

"The Bird Watcher's America," by Olin Sewall Pettingill, Jr. Forty-four of our leading naturalists introduce you to some of the best places for birds in the United States and Canada.

Completes Combat Training CAMP LEJEUNE, N.C. — Marine Private Edward E. Lingg, son of Mr. Edward G. Lingg of 224 E. Main St., Emmitsburg, Md., has completed individual combat training here.

The four-week course included over 200 hours of instruction under simulated combat conditions, covering squad tactics, guerrilla warfare, day and night combat, patrolling and the use of infantry weapons.

His next stop is four weeks of basic specialist training in his military occupational field. Marines to be assigned to infantry units will be taught infantry specialties, such as the machine gun, grenade launcher, rifle or mortar. Marines to be assigned to highly technical specialties will be sent to military technical schools for their specialist training.

New York state has 34 public two-year colleges.

Garden Club Does Landscaping

In accordance with the civic beautification program, the Silver Fancy Garden Club has landscaped the entrance of the Taneytown Swimming Pool building.

Last summer annuals were planted to give temporary brightness and color. Now these have been replaced by a permanent planting of shrubs and evergreens, adding greatly to the attractiveness of the area.

Personals

Visitors over the weekend at the home of Mrs. Jackson Humerick were: Mr. and Mrs. Fred Seiss and family, Thurmont; Mr. and Mrs. Robert Mahoney and family, Beltsville; Mr. and Mrs. Taylor Humerick, Dover, N. J.; and Mr. and Mrs. Gregory Washabaugh, Annandale, Va. They attended the wedding of Miss Alice Ann Sherwin to Richard L. Megles Saturday morning in St. Joseph's Church.

P. Allen Stoner and Anthony Nusbaum, Thurmont, represented Moore Business Forms, Inc., in New York City last week on a business trip.

Mrs. Landon Edwards and fam-

ily, Richmond, Va., visited over the weekend with her mother, Mrs. Valerie Overman.

Mrs. Elmer Sweeney and family, Thurmont, visited with her parents, Mr. and Mrs. Bernard Kelly, on Sunday.

Mr. and Mrs. Edward Houck and family, Washington, visited with friends and relatives in town on Saturday.

Miss Mary Kessler, Baltimore, spent the weekend with her parents, Mr. and Mrs. James Kessler.

Jerry Rightnour, Pittsburgh, visited with his parents, Mr. and Mrs. Wales Rightnour, over the weekend.

Mr. and Mrs. Paul A. Harner, Rockville, Md., were weekend visitors of Mr. Harner's parents, Mr. and Mrs. C. A. Harner.

Mrs. Loretta Little and son, Johnstown, Pa., visited with Mrs. Charles E. Shorb on Sunday.

Mr. and Mrs. Rodgers Topper and granddaughter, Cindy, Mt. Airy, visited Sunday with Mr. Topper's parents, Mr. and Mrs. Robert Topper.

A diet may be good for the health but a good menu can do wonders also.

FIGURE TALK

By BARBARA THOMPSON
Fashion Consultant

The look of a fashion begins with its foundations. Girdles and brassieres are important to the way a dress or suit fits, so they should be selected with even more care than one devotes to purchasing outer apparel.

Here are some of the foundations you'll find to wear under this season's new fashions:

Brassieres lightly contoured with fiberfill, or with their cups molded for smoother curves under soft wools and knits.

Brassieres with straps adjustable to a number of different necklines.

Low-sided brassieres wonderful to wear under sleeveless dresses, and lessening the possibility of an underarm bulge.

Front closing brassieres, both bandeaux and long lines, that some women find

easier to put on than the conventional back-fastening bra.

Pantie briefs in both waistline and hip-riding versions for smoothing of youthful figures under sports clothes.

Pantie girdles with dress maker hemlines for smoother fit, and with lace legbands so as to look ladylike if revealed under a short skirt.

High-rising girdles with the definite control for the midriff that so many fashions (and so many figures!) really need.

Sculptured corselets and pantie corselets to refine the figure, with lace and elastic, from bosom to thighs.

Many of the new underpinnings come in pretty pastels, and many are skin-toned as a change from white and black. And the fabrics are generally so sheer and so light it's hard to believe they can really control. Fortunately, they do!
