

MOUNT ACTIVITIES

Ties, Loses To C. U.
 Mount St. Mary's College divided a pair of contests Saturday with Catholic U. at Washington. The Mountaineer soccer team battled C.U. to a 1-1 tie after four extra five-minute periods. Kimmel's goal in the fourth regulation period knotted the score after Catholic had scored in the opening stanza on a goal by Albertini.

Mounts Win; Tie
 The Mount St. Mary's College cross-country team won its third victory in four tries by defeating Roanoke 15-50 Monday on the Mount course here.

The Mountaineer soccer team played its second straight 1-1 tie against Roanoke in a Mason-Dixon Conference contest.

The Mount cross-country team suffered its first setback after two victories 55-16. Jerry Price, Catholic Freshman, won the 3.8 mile run in 19:22.4.

Apple Harvest At Hickory Bridge

As an additional attraction to its annual Apple Harvest Festival Day, Sunday, October 16, a free concert by the Gettysburg Community Chorus has been added to the program at Hickory Bridge Farm, Orrtanna, Pa.

Festival Day at Hickory Bridge Farm has been an annual event for the purpose of demonstrating the way of life our pioneering forefathers knew—the farm and farming of “yesterday.”

In addition to the pony and hayrides for the children, Adams County ladies will do some old-fashioned quilting; apple butter will be made; old-fashioned shingles cut; grain threshed as it was years and years ago, and fresh apple cider will be pressed.

Tours of the farm will be conducted by members of the staff

permitting visitors to inspect farm equipment of another generation. Harvest Festival day begins at 11:00 a.m.

Senior Citizens To Meet Tuesday

Senior Citizens of Emmitsburg will meet on Tuesday evening, October 18 at 7:30 p.m. in the Lutheran Parish Hall on the first floor of the building. This is going to be a very special planning meeting, so all members and all interested people are invited.

There are many plans brewing for the benefit of all Senior Citizens which the committee wants to share and shape with everyone.

Thumb Amputated
 Grant Abrahams Jr., 14, Emmitsburg R1, received treatment last Wednesday for amputation of the left thumb after wounding himself with a shotgun while hunting.

The true believer in the merit, or honor system, will accept nothing that he hasn't earned.

State Road Fatalities Up Six Per Cent

Fourteen persons were killed on Maryland highways last week according to the weekly survey published by the Maryland State Police. Six of those killed were drivers; two were passengers; and six were pedestrians. Alcohol was a contributing factor in six of the deaths; speed in five; and “driver error” was present in seven of the fatalities. The death toll on Maryland highways is now 528—up 6% over the same period last year.

Colonel Carey Jarman, Superintendent of the Maryland State Police, in commenting on last week's highway toll said: “Vehicle #1 southbound. Vehicle #2 northbound on wrong side of road at an apparent high rate of speed struck Vehicle #1 head on. Speed, alcohol, and driver error were contributing factors. Three killed and two seriously injured.”

“That's how the teletype message to Headquarters described the fatal accident which occurred last Saturday at 2:40 a.m. on Route 222.

“This is a classic example,” continued the Superintendent, “of the involvement of speed, alcohol, and driver error (wrong side of road) in today's highway toll. It's a rather high price to pay for the luxury of the automobile.”

TANEYTOWN LIONS CLUB MEETS

The Taneytown Lions Club held its regular meeting at the Taney Inn on Oct. 11 at 6:30 p.m. Lion President, Delmont Koons, welcomed the Lions and guests to the “Father, Son, and Daughter Night”. Lion Koons also welcomed the visitation group from the Westminster Lions Club.

Program Chairman, Lion Stanley King, introduced the “Patterns” from Taneytown High School, for

the musical entertainment. The girls, Beverly Fair, Ann King, Linda Shaffer, Donna Simpson, gave several enjoyable selections. On hand to entertain the 36 sons and daughters, and, of course, the adults, was H. David Hagan from Frederick. Mr. Hagan, a magician by trade, gave us a very entertaining program of magic, which kept the youngsters and several Lions who participated in the act, guessing.

The next meeting on October 25, will be the “Blood Bank” program with Lion Tommy Smith in charge.

NOTICE

Application For Permit To Construct Waterway Obstruction

In compliance with the provisions of Chapter 73, Acts of 1964, Department of Public Improvements for Department of Forests and Parks has made application for a permit to construct, reconstruct, altar or enlarge a Dam in or across Hunting Creek at a location in Cunningham Falls State Park, Frederick County, 4 miles west of Thurmont, Maryland on Route 77 thence 1/2 mile south on Catoctin Hollow Road at the intersection of Hunting Creek, for the purpose of impounding Hunting Creek creating a lake of approximately 43 acres to be used for public recreational facilities.

A public hearing on this application will be held at the Department of Water Resources, Room 207, State Office Building, Annapolis, Maryland, at 2:00 p.m. on Tuesday, October 25, 1966.

Objections to the granting of this permit may be presented orally or in writing at this hearing.

POLYDUO

The Magic of Masland Carpets

A MASLAND MATCHMATES BROADLOOM 100% Herculon® Polypropylene Olefin fiber pile

POLYDUO has been especially styled by Masland to add to family pride in the home by creating the exceptional in carpet beauty, color and texture. Here are POLYDUO'S decorating features:

THE SURFACE: POLYDUO is tightly made in an all-loop, over-all tweed effect. Created for the young-at-heart who plan to decorate in Early American or Danish Modern. The surface effect is exciting, new, interesting in hue and color.

THE CONSTRUCTION: The carpet pile is fashioned of three-ply, three-color moresque yarns in Herculon polypropylene olefin fibers—fiber that is fade resistant, highly non-absorbent and free from static build-up. Fiber that is low in specific gravity—so there is more actual yarn per pound and more carpet pile per square yard. This marvelous pile is backed again by polypropylene and then double backed with lamination to assure dimensional stability underfoot.

THE COLORS: Distinctive—tweed colorings that meet the taste of the modern-minded. Colors that won't fade and hide soiling and footprints. Colors that blend easily with your choice of decor.

THE VALUE: Hard to beat—an outstanding value for those badgered by tight budgets.

From the Masland Matchmates Collection—the only carpet collection designed by a woman for women who love decorating their own homes. See POLYDUO today!

only \$6.50 per sq. yd.

WOMEN'S HEALTH

By Elizabeth Stewart
Women's Medical News Service
Longevity, Twinning, Heart Disease Risks
Gleanings from the recent Third International Congress of Human Genetics:

Longevity: If your parents lived to be very old, it will, alas, have very little effect on how long you can expect to live.
This depressing news was reported by a team of three Johns Hopkins University School of Medicine researchers, who studied some 14,000 people, over a five-year period. The latter were related to persons who lived to be at least 90 years old. Tracing the offspring of the old folks through relatives, friends, postmasters, newspapers, funeral directors, libraries, churches and local and national registries of vital statistics, the researchers found the following, "The records suggest that there is only a small familial, and therefore only a small genetic, component in the determination of life span." The life span of women is affected not at all by the longevity of their parents; that of men only minimally.
Twinning: A woman's chances of having twins increases sharply after her fifth pregnancy and after she is 38 years old, according to Drs. V. V. Subbarao and M. L. Gupta of the Medical College of Jaipur, India. "If this age factor can be impressed upon women they may agree not to have any more pregnancies for fear of twins which add an extra burden on the husband's purse," the scientists observed.
Heart: The news here is both good and bad: How much risk do you run of dying from heart disease if one of your parents died from it?
Well, if your father died of heart disease after age 55 or your mother after age 65, there is no significant increase in your risk of dying of heart disease. If, however, they died of heart disease before they reached these ages, your risk is two to seven times more than the average person whose parents died of other causes.
These are the findings of Drs. Joan Slack and Kathleen Evans of the Medical Research Council in London, England.

French Women Favor Family Planning
Of 1,013 women admitted to the maternity ward of the Grange-Blanche Hospital in Lyons, France, 45 per cent of the mothers told researchers that they would have preferred not having the child.
Of women questioned during and after pregnancy, 85 to 90 per cent favored taking the pill.
The attitude toward contraception varies somewhat depending on the number of children a woman has had: ninety per cent of women having their first child want to have additional children. Only 33 per cent of women who have had two children want more offspring. The figure falls to 11.2 per cent when she has had three children.
In largely Catholic France, only 2.5 per cent of the women oppose the oral contraceptive on religious grounds. Almost 65 per cent of the women said that "they had already used contraceptives" at one time or another.
Over 3.5 million American boys and girls will Trick or Treat for UNICEF on Halloween.

Area Colleges Receive Federal Grant

Hood College in Frederick, Md., has received a \$8,110 grant from the National Science Foundation to conduct an experimental program in computer science in cooperation with the National Bureau of Standards in Gaithersburg, Md.
St. Joseph College in Emmitsburg, and Mount Saint Agnes College in Baltimore, are also participating in this pilot project, the first of its kind in the Baltimore-Washington area. It is an unique first in that several colleges cooperating with each other, are working with a government agency. Hood will administer the grant.
Dr. Phyllida M. Willis, professor of chemistry at Hood, and chairman of the department of physical sciences, is directing the program, which consists of the academic year course "Introduction to Computer Science," followed by a 10-week summer apprenticeship session.
The course, being taught by National Bureau of Standards personnel at NBS in Gaithersburg, began Sept. 23, and is designed to give students "an understanding, in some depth, of the principles on which the computer is based," according to Dr. Willis.

American children will Trick or Treat for UNICEF in over 13,000 communities.

FBI Warns Nation
FBI Director J. Edgar Hoover has called the nation's attention to the fact that for the first time in its history the Communist Party USA has elevated a Negro to its national chairmanship.

Winston had been imprisoned here under the Smith Act after conviction of advocating the overthrow of the U.S.A. by violence. Our Government had released him under pressure generated by U. S. Reds who claimed he was blind and dying. He went immediately to Moscow where he lived and plotted with Kremlin leaders. He returned to America neither blind nor dying. Resurgent Subversive Force

Mr. Hoover said in a report to Congress: "This convention reflected the optimism of a resurgent Communist Party, completely loyal to the Soviet Union, buoyed by the feeling that it has broken out of its political isolation and now is ready for an increasingly active, concentrated program of mass agitation in American society."

At the moment, the great successes of World Communism are not in Viet Nam, where nearly 400,000 American service men are fighting a one-handed war against a Red puppet force; or in Cuba, where massive guerrilla warfare training of Red Cadres from throughout Latin America is carried on unrelentingly.

BABSON

Writes . . .

BY ROGER W. BABSON
Babson's Point Of View On:
The Bond Market

BABSON PARK, Mass., Oct. 13—The other day we were talking with the partner of a large financial house. He said they had been looking for an experienced trader of bonds for better than a couple of months. A number of prospects were interviewed; but, long on ambition, they were very short on the chief qualification: experience. Back In Fashion Again

Actually, it is no wonder that experienced bond men are scarcer than hen's teeth. Common stocks have been all the rage with the average individual investor ever since the end of World War II . . . and for a spell even before that. Banks, insurance companies, and some trustees were the only ones who had much interest in bonds. As a matter of fact, even they bought more from necessity than from their love of bonds.

During the last big war, the Government and the Treasury, on the one side, and the Federal Reserve Board, on the other side, co-operated to keep interest rates low to hold down the huge expense of a soaring federal debt burden. This "accord" was highly inflationary . . . because every time the Fed bought bonds to support the bond market, it filled the banks fuller and fuller of loanable funds. At the end of the fifth decade, this accord was scrapped; interest rates started a long climb, and bonds went into a secular slump from which they have not yet emerged. Today, yields of 6% on bonds are not hard to find, and these handsome returns have attracted buyers who never before bought bonds. In a word, bonds are back in fashion again!

But What About Inflation?
With the exception of a short period toward the end of the 1950's, those who bought bonds during and after World War II have had a very bitter experience. First, most of the bonds purchased had low cou-

pon rates . . . ranging from around 2½% to something over 4%. Naturally, as interest rates moved higher, the older, lower-coupon-rate issues fell in price. Second, during most of this period, stock prices rose handsomely . . . making bonds look like a very poor second choice indeed. Third—and most damaging to the bond owner—prices for consumer goods climbed ever higher, so that the yearly interest received bought less and less and the purchasing power of the bond when paid off at maturity was far below the purchasing power of the original investment.

The recent swift rise in the coupon rates on best-quality bonds—to 6% and even higher—is giving the buyer a good current income and lessens the danger of any future fall in the prices of such issues. Many will tell you that the treat of inflation, of further advances in the cost of living, makes bonds still unattractive; but this fear may be unwarranted today. At present low quotations for many sound bonds, all their owner has to do is purchase them at a discount and hold them to maturity, thereby increasing his capital. This method of protecting against inflation was not available when 3% bonds were selling close to 100. And the competition from stocks—even after their recent slump—is not very great, since many of the popular issues now yield only 3%-4%.

Tax Exemption Too
There seems little doubt that Congress will raise all income taxes for 1957. Such action will make tax-exempt bonds more appealing than they are now. Once it was thought that only the very wealthy should be interested in tax-exempt securities. However, those who pay only 20% to 30% of their taxable income to Uncle Sam can make really worthwhile savings in present depressed tax-exempt bond markets. Many of the tax-exempt obligations issued ten and fifteen years ago, with maturities in the next five years, can be had today at deep discounts. You pay no federal taxes on the yearly interest while you hold them, and you enjoy the favorable long-term capital gains tax on the increase at maturity.

The Long View
A review of the price movements of stocks and bonds over a long sweep of history indicates that popularity may ride with stocks for many years and then swing to bonds. Since 1949, bonds have been in the discard and stocks in the as-

pendency. It is just possible that recent interaction between stocks and bonds may be making the foundation for the building of a new cyclical climb in bond prices.

Social Security Information

Every month, 120,000 Americans reach the age of 65. Many soon-to-be 65's ask, "When is the best time for me to sign up for medicare?"

The answer is 2 or 3 months before they reach 65. If they sign up in any of these advance months they get help with doctor bills beginning with the month they reach 65.

If they wait until they reach

65, their doctor bill coverage under the voluntary medical insurance cannot start until 1 to 3 months after they sign up for it.

The medicare law provides that each person reaching 65 has 2 periods during which he may sign up for the voluntary doctor bill insurance part of the program. The first of these periods begins with the third month before the month the person is 65, includes the month in which he reaches 65, and ends with the third month after that. A person who does not enroll during this first period has one other opportunity—in the last 3 months of the next odd-numbered year. But it is important for everyone to know not only the advantages of signing up in the first enrollment period, but also the advantages of signing up in the first 2 months of the first enrollment period.

Failure to enroll in the 7 month initial enrollment period means not only a wait until the next general enrollment period, but also a continued waiting period until the following July for the protection to start, and a 10 per cent increase in premium payments.

The voluntary medical insurance part of medicare covers doctors' services wherever they are provided—at home, doctor's office, or in the hospital; surgeon's fees; and a wide variety of other medical expenses in and out of the hospital.

Hospital insurance coverage —

the other part of medicare — begins with the month a person reaches 65, if he applies no later than 12 months following that month. There is no such provision for retroactive benefits under doctor bill insurance; it can only start after you apply for it.

For further information, ask at your local social security office. The Hagerstown District Office is located at 59 North Cannon Avenue and is open Monday through Friday from 8:45 a.m. to 5:00 p.m. The office remains open until 8:00 p.m. on Monday evenings to assist persons who are unable to visit the office during regular hours.

Deadline Near For Coast Guard Applications

Eligible young men are reminded that Dec. 15, 1966 is the deadline for submitting applications to compete for appointment as Cadet, U. S. Coast Guard.

The 91st annual competition for admission to the U. S. Coast Guard Academy at New London, Conn., will begin with the Dec. 3, 1966 administration of the College Entrance Examination Board Tests. Appointments are made solely on a competitive basis, with no Congressional appointments or geographical quotas. Application deadline for the tests is

SCREEN OUT LEAVES

SIMPLE ENOUGH FOR ANYONE to install, new aluminum gutter screen keeps leaves, twigs and dirt out of rain gutters. And the screening won't rust, never needs painting, and can be easily installed with household scissors. Installation now, before the leaves fall, means clean gutters when the snows come.

NOW YOU SEE HIM! NOW YOU DON'T!

You could see him more often, you know... with the aid of our professional portrait camera. If it will help, drop in anytime to see the portraits we've made of other important men. Our appointment book can accommodate the busiest man.

NOW! THE QUICK-SIZE '67 CHEVELLES

Chevelle SS 396 Sport Coupe

NOW, as many kinds as there are kinds of drivers to enjoy them—from the SS 396 (the Chevelle for the DRIVING MAN) to the brand new Concours Custom Wagon!

Long live Chevelle! And its trim dimensions, sharp performance and great maneuverability. For '67, there're a new grille, new wraparound taillights and distinctive sheet-metal changes. The effect is a newer, more contemporary look. As for specific models, one is completely new: the sumptuous Concours Custom Wagon shown below, featuring the rich look of wood outside. Then there's the SS 396 with a 396-cubic-inch Turbo-Jet V8, special suspension and an even

more remarkable capacity for delighting the stout of heart. Other models, too: Malibu, 300 Deluxe and 300, all with Body by Fisher.

In addition, every '67 Chevelle carries a multitude of new safety features such as a GM-developed energy-absorbing steering column, four-way hazard warning flasher, dual master cylinder brake system with warning light.

Try a Quick-Size Chevelle at your Chevrolet dealer's.

For '67, everything new that could happen . . . happened! Now, at your Chevrolet dealer's

MARYLAND

Happy birthday to Joann Denise Smith, daughter of Mr. and Mrs. Karl Smith, Rocky Ridge, was sung by all her eight brothers recently. Joann, 2, is the only daughter of the Smiths who have nine children. She is pictured at center, front row.

page. I dutifully nodded at everything Frank Robinson was whispering to the hoard around him and pretended to be taking notes, trying in vain to duplicate the air of cynicism that the really big newspaper people can convey in even their style of jotting notes.

Then little Jay Mazzone, the handless visiting team batboy caught my eye and I thought I had it. I asked him if he had developed any allegiance to the Dodgers, among whom he had certainly made friends. Was he sorry it only went four games? Jay started to say that when the Orioles don't need it, he is glad if the visitors win; but, his periferal vision caught the mockingly furious leer of Powell and he backtracked saying, "Well actually I'm always for us to win." Foiled.

The real story of the celebration in the Baltimore clubhouse finally showed itself to me and after I had realized it I was sorry I saw. Two of the ballplayers, four or five cubicles apart, dressed with forced smiles—not a tall the type usually displayed by athletes suddenly 12 thousand dollars richer. Neither had seen action during the series, but both had contributed significantly this year. Sam Bowns, quietly ignored by the press, dressed and left. Bob Johnson, usually a joker, labeled a "bake" by his teammates (a cut-up in baseball jargon) did likewise. These men as much as any, more than some, epitomize the spirit of '66. I don't believe the championship would have been won without them.

Lutheran Women To Assemble

The Maryland Lutheran Church Women of the Frederick and Westminster Districts will unite for their Fall Assembly. The Lutheran Church Women of the Frederick Evangelical Lutheran Church will be host for the assembly. It

will be held on Wednesday, October 19, 1966, with registration beginning at 4:45 p.m. Dinner will be served at 6:30 p.m. and the evening session of the assembly will begin at 7:05 p.m. The theme is "Love's Working Arm"—Lutheran World Action, and the Rev. Rollin Shaffer, Assistant Director of Lutheran World Action, will speak on the many aspects of this subject. Rev. Shaffer has traveled all over the world in connection with protestant relief and mission activities. Some of his articles on this subject have appeared in Lutheran Women and just recently in the May "Guidelines."

The Rev. Francis E. Reinberger, pastor of the host church, will bring the devotional message to the assembly.

Mrs. Claude Barrick, chairman of the Frederick District will preside over the meeting. Mrs. Floyd Devilbiss, chairman of the Westminster District, will bring a few words to the group. Mrs. Eugene Young, formerly of the Frederick District, is now serving as secretary of the Westminster District.

The ladies of the host church are planning to display floral and fruit arrangements expressing the beauty and joy we find in God's gifts. Some of the World Relief Service Projects will also be on display and the Canada Mission study theme for the benefit of the group.

The Rev. Roland C. Hobbs will have the closing of the assembly.

A Viewpoint

By Thomas C. Callahan

BALTIMORE, Oct. 9 — It was absurd. A 30x42 foot flag dwarfed the scoreboard, the Baltimore Symphony Orchestra was serenely playing Sousa's great marches, and two planes towing forgettable messages nearly collided with a curious helicopter.

Lou Johnson lifted a towering fly ball which came to rest on a soft chocolate-colored piece of leather that reeked of neatfoot oil and a champion was crowned. The leather was the glove of centerfielder Paul Blair and the champion, the 1966 Baltimore Orioles. Brooks Robinson leaped into the air and by the time he came down onto the pitching mound to hug hurler Dave McNally, the dugout was empty, the

press typewriters had stopped clicking, and Vice President Hubert Humphrey had only the Secret Service fussing over him. Recalling the unbelievably rowdy aftermath of the pennant-clincher in Kansas City, I was surprised and disappointed at how placid was the Oriole clubhouse immediately after the game. It wasn't to remain so. Sportscaster for one of the big three networks, Joe Garagiola, stepped to the platform vacated by local announcer Chuck Thompson but his interview never got started. Curt Blefary whispered below the pitch of the microphone, "I've been waiting two years for this, Joey", and splat! Shaving cream engulfed the head of the good natured ex-ballplayer and he quipped: "Sign me for another shaving commercial." Manager of the year, Hank Bauer, got into the act and Blefary at least had the respect to call him "boss" as he flung the foam at his tutor.

Everyone went on a beer diet

and the sandwiches went untouched for the first hour. The same can't be said for the cake, which was promptly lowered onto the unsuspecting head of Boog Powell. The big first-baseman never caught the culprit, but got his revenge at the expense of Woody Held and Vic Rosnovsky, who thought themselves safe atop of Held's locker. They pleaded to no avail as Boog counted out 1-2-3 and let fly with a bucket of water.

There were no fresh angles to prey upon from a small-town newspaperman's point of view, for the "pros" were getting all the edgewise words in and the questions all sounded like yesterday's sports

Are We More Efficient Germ Spreaders?

In the past, people caught a relatively small number of illnesses. But many were more apt to last longer, or even be fatal. Today, due to the automobile and larger urban areas, we expose ourselves to strangers' germs more often. Fortunately, new drugs and medications make us better equipped to fight these ailments than those in the past. For prompt, dependable service, bring your prescriptions to us.
