Most Anything At A Glance

BY ABIGAIL

With the Town Election just a few short days away things are relatively quiet here. We admit there are no major issues at stake but you would think there would be lively discussions going on. No sir, in my opinion the public appears apathetic about the whole matter. Tuesday will see one Town Commissioner elected. There are three candidates in the race. As yet, no write-in vote has shown up and really none is expected. A light turnout is anticipated since there doesn't seem to be any major issues to settle. As usual, I am taking a neutral corner in this Town Election. With over 600 registered voters on the list I feel there are enough to make a capable decision as to whom they want to represent them on the Town Board. It does make the candidates feel better and gives them a moral boost to see a large turnout so I do hope a sizeable number take the time out Tuesday to settle the issue for another year. See you at the polls!

As a young college boy remarked the other day, there's more excitement and more tragic events around this little burg than you can shake a stick at. I sort of feel too, that for the size of the community we have more than our share of tragic events. In eight days alone there have been two traffic fatalities in our community and with the new bypass near us, as a matter of fact, running through our newest part of town, there will be many more and I'm afraid they will be with us for many years to come. Our deepest condolences to the members of the Parks family who lost their mother and wife in last Saturday's latest traffic mishap here. It's hard to understand tragedy of this sort but then we must not question God's actions. Far off the crowded highways where cars are operating at all speeds, legal and illegal, one would expect perfect safety. Not so in this instance. This tragic event happened on a lonely country or secondary road where only a few cars a day travel. Tragedy would be the last thing on a person's mind in a place like this, but two cars did collide and as the result, a mother of six young girls lost her life, almost at her very doorstep.

We're going to have a parade here this summer, the first since perhaps the Bicentennial Parade a decade ago. Enthusiasm seems to be running high and organizations are making plans to enter floats, or at least discussing them. The event will be held in June and it is expected to be a big one so if any of you are interested in participating, better start making plans right now as the Big Parade is just a little over six weeks away. If this one proves successful perhaps it could be made an annual event. Let's get to work on it folks!

Engaged

Mr. and Mrs. Robert W. Meier of Oxon Hill, Maryland, announce the engagement of their daughter, Julie Ann, to Allan Austin Beale, son of Mr. and Mrs. Paul L. Beale of Emmitsburg, Maryland. Miss Meier and her fiancé are attending the University of Maryland and will graduate in June. Mr. Beale is employed at Fairchild Hiller Space Center, near Gaithersburg. The wedding is planned for June 17.

Paul Stroup New Principal At Middletown

The Board of Education has announced that Paul B. Stroup, presently principal of Emmitsburg High School, has been appointed principal of Middletown High School effective July 1.

Mr. Stroup will assume duties presently held by Harry V. Frushour, who recently requested to return to classroom teaching.

A graduate of Middletown High School, class of 1950, Mr. Stroup attended George Washington University, receiving his bachelor's degree from the university in 1954. He was awarded his Master of Education degree from Western Maryland College in 1965.

Mr. Stroup started his teaching career at Elm Street Junior High School in 1957, after completing a 3-year tour of duty with the United States Air Force.

He came to Middletown High School to teach in 1958 and remained there until June 1963, with a half year leave of absence in 1962 to continue studies leading to his Master's Degree.

In September, 1963, Mr. Stroup was assigned as vice principal of Frederick High School. He held this position until September, 1965, when he accepted the principalship at Emmitsburg High School.

Mr. Stroup resides with his family at 465 Carrollton Drive, in Frederick.

Colts Play MSM Here Tonight

The Metropolitan Club of Mt. St. Mary's College will present a basketball game between the Baltimore Colts and the Mt. St. Mary's All-Stars tonight (Friday) at the College Memorial Gym, at 8 p.m.

Johnny Unitas, Ordell Brasse, Bobby Boyd, Jack Burkett, Tom Matte, Bob Vogel, John Mackey, Willie Richardson, Jim Welch and Billy Ray Smith will play for Baltimore.

Admission will be \$1.00

Chorale Group To Present Concert Sunday

The St. Joseph College Chorale will present its annual Spring Concert on Sunday, April 23, at 3 p.m., in conjunction with the Men's Glee Club of the University of Pittsburgh. The concert, open to the public without charge, will be held in DePaul Auditorium on campus.

Under the direction of Philip Cavanaugh, the Pitt Glee Club will present "Alma Mater," Schubert's "Nachtliches Ständchen," a medley of selections from "Porgy and Bess" and "Hail to Pitt," in addition to several numbers by Kreutz, Kodaly, Thompson, Baildon, and Foster.

The SJC Chorale, directed by Sister Jane Marie Perrot, will sing St. Joseph's "Alma Mater," Thompson's "The Gate of Heaven," three songs from Emily Dickinson by Smith and Woollen, "Invocation to St. Cecilia," by Victor Harris, folk songs and other selections.

The highlight of the program will be Gabriel Fauré's "Requiem" sung by the combined clubs under the direction of Mr. Cavanaugh, featuring soloists Eric Fuchs, baritone, and Barbara Wilt, soprano. Accompaniment will be supplied by the Brynwood String Quartet of the Catholic University of America School of Music. Now in their second year of performance, the Quartet is composed of Helmut Braunlich, 1st violin; Sylvia Marlowe, 2nd violin; Sheldon Lampert, viola; and Robert Newkirk, cello.

College President Guest Speaker

Rt. Rev. Robert R. Kline, president of Mt. St. Mary's College, will be the guest speaker at the annual honors convocation to be held on Tuesday, April 25, at 10 a.m. in the auditorium of Cardinal Gibbons High School, Baltimore.

Brother William A. Abel, S.M., principal, will award first and second honors to students for the third quarter of the academic year.

Monsignor Kline will speak on "Opportunities for a College Education."

44-Year-Old Mother Dies in Car Crash Near Here

Shown above is the scene where Mrs. Gordon Parks lost her life in a tragic accident on the St. Anthony's-Motters Station Road last Saturday afternoon. Mrs. Parks' station wagon, shown on the left was struck in the rear by a car operated by John Gelwicks, shown to the right. Mrs. Parks was the mother of six daughters.

A 44-year-old mother of six daughters was fatally injured when her car was struck in the rear by another vehicle last Saturday afternoon on the Motters Station Road between the St. Anthony's intersection on Rt. 15 south, and the intersection of Motters Station and Old Frederick Road intersections.

Mrs. Patricia Parks, Route 2, was dead on arrival at the Warner Hospital, Gettysburg, where she was taken in the VFW ambulance. The accident happened about 3:30 o'clock Saturday afternoon when Mrs. Parks was about to enter her driveway to her farm home, three miles south of here.

Dr. C. G. Crist, Adams County coroner, listed the cause of death as a fractured skull and a broken neck.

Mrs. Parks' body was pinned under the right front of her car after she was thrown from the vehicle. The car spun around and landed on the top of her. She was the wife of Col. Gordon Parks.

Occupants of the other car involved in the mishap were: John

Gelwicks, the driver, 22; Frederick Kugler, 24, and Beverly Kemp, 21, all of Emmitsburg, who were also removed to the Warner Hospital in the Thurmont American Legion ambulance.

Maryland State Police said the accident occurred when Gelwicks, traveling east on Route 76, and 2 companions, apparently ran off the right shoulder of the road and lost control of his car. He then skidded across the roadway striking the left rear section of the Parks vehicle which was entering a private drive. The impact spun the Parks car around in the private lane throwing Mrs. Parks from the door of the car. The Gelwicks car flipped over on its top coming to rest near the front entrance of the Parks driveway and pinning the operator's legs under the vehicle.

Gelwicks was admitted to the Warner Hospital with lacerations of the face and bruised legs, along with Beverly Kemp who was admitted with a fractured pelvis. Both were listed in satisfactory

condition. Kugler was treated and released from the hospital with bruises of the body.

Maryland State Police estimated the damage to the Parks 1966 Plymouth station wagon at \$650 and \$1,800 to the Gelwicks car which was demolished.

Mrs. Parks was a member of St. Anthony's Catholic Church and of the Sodality of the Blessed Virgin Mary. She was active in church work and was a former 4-H club president.

Surviving in addition to her husband are her mother, Mrs. Rhea C. Pape, who resided with her daughter; and six daughters, all at home: Susan R., Kimberly M., Deborah M., Valerie M., Claudia M. and Beverly M.

A requiem Mass was celebrated at St. Anthony's Shrine Wednesday morning at 10 o'clock with the Rev. Fr. Vincent Tomalski as celebrant. Burial was made in the Arlington National Cemetery, Arlington, Va. Funeral arrangements were made by the Creager Funeral Home at Thurmont.

Miss Brauer Is Bride Of Nelson Smith

town, N. J., was maid of honor. She was attired in a floor length gown of pastel blue taffeta brocade. She wore a distinctive pill-box hat and carried a white fire-side basket of pastel flowers.

The bridesmaids, Mrs. Nancy Baker, Thurmont; Miss Susan McClain, Washington, D. C.; Miss Nancy Harries, Vienna, N. J.; and Miss Carolyn Seiss, Taneytown, wore floor length gowns of pastel pink, green, yellow and aqua taffeta brocade respectively. Each wore matching pill-box hats and carried white fire-side baskets of pastel colored flowers.

All of the gowns were designed and made by the bride and her mother.

Irvin Tokar, Washington, D. C., served as best man for his brother-in-law. The ushers were Frank Keating, Bainbridge, Md., Samuel Valentine, Taneytown, Alan Brauer, brother of the bride, and Paul Hahn, Thurmont, brother-in-law of the groom.

For her daughter's wedding, Mrs. Brauer wore an aqua brocade dress with white accessories. Mrs. Gorley chose a blue brocade dress and white accessories. Both mothers wore gardenia corsages.

Following the ceremony, a reception was held in the Rocky Ridge Fire Hall. Miss Ethel Alexander of Thurmont, was in charge of the guest book and the gift table.

The bride is a graduate of Emmitsburg High School and has been employed by Moore Business Forms Inc., of Thurmont.

Mr. Smith, a 1960 graduate of Thurmont High School, is serving with the United States Navy, stationed at Bainbridge, Md.

After a trip through the southern states, Mr. and Mrs. Smith are at home at 47 South Third Street, Oxford, Pa.

Elderly Woman Struck By Car

Valeri Overman, 77, was removed to the Warner Hospital at 11:30 o'clock Friday evening after she was struck by a car in front of her residence on W. Main St., Emmitsburg.

She was admitted to the hospital for observation.

Emmitsburg Police Chief Wilmer E. Law said the accident occurred when Mrs. Overman walked into the path of a vehicle operated by Roy Allen Lingenfelter, 17 Groft Lane, Baltimore, while returning from visiting a neighbor. Chief Law said that Lingenfelter was traveling at a slow speed at the time of the mishap.

Mrs. Overman was released from the hospital this week and is now recuperating at the home of her son-in-law and daughter, Mr. and Mrs. Landon Edwards, Richmond, Virginia.

Every 12 minutes a home in this nation is destroyed or damaged by a fire starting in rubbish, National Fire Protection records show.

Lions Club Lists Some Sale Articles

Members of the Lions Club are continuing their collection on Saturday of goods for the big community sale to be held at the old Gem Theater on May 5.

Ralph McDonnell, general chairman, reports quite a few nice antique pieces already collected for the sale. Among them are a drop leaf table, claw foot stand, other stands, saw cutter, buggy jack, railroad lantern, oil lamps, wooden planes, log barn auger machines, reed bottom chairs, other chairs, straight and rocker; wash stands, dressers, victorian sofa, refrigerators, stoves, guns, picture frames, drop front desk, glass front cupboard, victrola and records hot water heaters, breakfast sets, washing machines, kitchen sink, meat grinder, scales, charcoal grill with rotisserie, crocks, broad axe, old edge, garden tools, 3-phase motors, step ladder, rugs, books, dishes, pots, pans, lots of other articles not mentioned.

School "Super" Addresses Senior Citizens Group Here

The Emmitsburg Senior Citizens Club held its regular monthly meeting Tuesday, April 18, at 7:30 in the Center with 33 members present.

The three hams for which chances have been sold by the members were won by: Father Grace of Mt. St. Mary's and was to be picked up at Boyle's Store; Pauline Leatherman, Fairfield, Pa., whose prize was to be secured at the Welly Emporium; Marianna Dick, Emmitsburg, was to be obtained at Bollinger's Market.

The program for the evening was presented by Dr. and Mrs. Ecker of Westminster. Dr. Ecker is assistant County Superintendent of Carroll County Schools. The program consisted of slides to illustrate the tour which the Eckers took of three weeks visiting, observing, and comparing the various school systems in five different countries, namely: England, France, Russia and East Berlin, Germany. The educational systems of each country varied distinctively and indicated that more pupils in the U. S. attend school longer and studied in colleges or universities than any of the five countries visited. The discussion was quite revealing as to the types of subjects taught and the methods used. It proved a very interesting and enlightening discussion with beautiful pictures from each country.

The club was presented with a large coffee maker from the VFW Auxiliary of Emmitsburg, a much needed and greatly appreciated addition to the club kitchen.

Chemical Students To Convene

The annual regional meeting of Student Affiliate Chapters of the Md. and Wash. sections of the American Chemical Society will be held on Saturday, April 22, at St. Joseph College. Delegates from more than 15 colleges are expected to attend the morning and afternoon sessions in the Dodd Science Center on campus. St. Joseph's and Mt. St. Mary's Student Chapters will serve as co-hosts of the meeting.

Sister Denise Eby, chairman of the Dept. of Science and Mathematics at St. Joseph College, will welcome the delegates following registration at 10 a.m. The sessions will be devoted to the students' presentations of their undergraduate research papers. Juniors Margaret Bertoni and Mary Ann Fletcher will represent St. Joseph College.

The featured event of the day's program will be an address by Professor Louis F. Fieser at luncheon in Brute Hall. Dr. Fieser is Sheldon and Emory Professor of Organic Chemistry at Harvard University. Tours of the Dodd Science Center and other campus buildings will follow the luncheon.

Nancy Lynch of St. Joseph College and George Emmett, Mt. St. Mary's, are co-chairmen of the event.

Dance April 28

The Student Council of St. Joseph's High School is sponsoring a Spring Dance, entitled "April Showers," on Friday, April 28. The dance will be held in the school gym. Price is 75c drag and 50c stag. The dance will last from 8 p.m. to 11 p.m. The public is cordially invited.

Haley, McDonnell, Rosensteel Seek Town Office

A three-way race for Town Commissioner has developed with the filing of two candidates for the office, in addition to the incumbent Commissioner, Joseph M. Haley.

Robert A. Rosensteel added his name to the list of candidates last week and last Friday another candidate, J. Ralph McDonnell, local electrician, filed with Town Clerk Yonnie Baker, making the number in the race three.

The annual Town Election will be held Tuesday, April 25 and balloting will close at 7 p.m. Judges of election are Josephine Steinberger, Mrs. Theresa Hollinger and Mrs. Betty Goulden.

The Town Clerk stated that as of April 17, 647 eligible voters were registered on the town books. The ballot will be printed with the candidates' names listed in alphabetical order as follows: Joseph M. Haley, J. Ralph McDonnell and Robert A. Rosensteel. Next year the terms of Mayor Guy A. Baker, Jr., Commissioners Samuel C. Hays and Quinn F. Topper, expire and there will be three to be elected as compared to this year's one Commissioner. The Mayor serves a two-year term while the Commissioners have a three-year tenure. Write-in votes are legal but the candidates' full names, spelled correctly, must be written on the ballot with the proper X mark in the allocated box.

Commissioner Haley has served one three-year term which makes him a veteran in local politics. McDonnell, an electrical contractor, and Rosensteel, an employee of Sperry Ford Sales, are both newcomers to local politics and will make their first bid for public office. Following the election Tuesday, the registration books will be reopened and remain open until 10 days before the election next year.

EHS Senior Play Rehearsals Begun

Recently it has been reported that the seniors from Emmitsburg High School have formed gangs. Switch blades and car theft have become the trend rather than the unusual.

Don't be excited, though! Actually, acting is the present thought on the minds of these "hoods". Since "Rebel Without A Cause" has been selected as the senior class play, the evil deeds are being performed on the stage, not in real life. Presentation of the play will be on May 19 and 20, beginning at 8 p.m.

Jim Stark, the rebel, will be played by Forrest Knipple. Other important roles include Mike Smith as Plato, Betty Tokar as Judy Brown, Stanley Andrew as Buzz Gunderson, and Robert Stonieser as Ray. The remainder of the cast consists of senior class members.

Dr. Robert Lindner, the writer of the book, "Rebel Without A Cause," and also a psychoanalyst, made the book a classic in the study of emotional problems. Put a little excitement in your life by attending the fast-moving, dramatic play. You might also learn something about a delinquent and his problems.

Little League Donors Listed

President Thomas C. Harbaugh of the Little League, announced this week the following list of donors to the League:

American Legion
Veterans of Foreign Wars
Dr. W. R. Cadle
Walter and Edna Crouse
Charles F. Stouter
John "Buzz" Walter
Guy and Neal Sinclair
H. O. Toor Shoe Corp.
Mt. St. Mary's College
Ralph F. Irelan
Frank Gebhart
Emmitsburg Pharmacy
Sperry Ford Sales
Bernard S. Kaliss
Frank S. Topper
Mt. Manor Restaurant
Irwin Watkins
St. Joseph's Church
7-Up Bottling Co.

Card Party

Saint Anthony's Shrine will sponsor a Card Party in the parish hall on Tuesday, April 25, starting at 8 p.m. Lovely prizes will be offered and refreshments will be on sale. The public is cordially invited.

K. Of C. Lists

Recent Activities

The regular meeting of Brute Council 1860, Knights of Columbus was held Monday night in the council home, Grand Knight C. Arthur Elder presiding.

George L. Danner, Firemen's Parade chairman, discussed plans for the parade this summer and Michael Boyle was named chairman of a committee to study the possibility of the Knights entering a float in the parade. A thank-you note from the Dominican Sisters of Baltimore was received expressing appreciation for a recent donation from the organization.

Carl A. Wetzel, Manresa Retreat chairman, reported the event would be held the second week in June and asked all interested members to contact him immediately. Two new members were elected into the Council and the transfer of Ralph F. Irelan, Jr., from Mt. St. Mary's Council to Brute Council, was approved.

Grand Knight Elder presented Robert Myers with a certificate for receiving the third degree.

Rev. Robert S. Grace, chaplain, expressed thanks to Clyde Eyer for donating an altar to be used in celebrating Mass in the Council Home.

The possibility of holding a Communion Breakfast in the near future was discussed and Deputy Grand Knight Eugene Rosensteel and Robert A. Seidel, were named as a committee to make the arrangements. A \$50 donation to the Emmitsburg Little League was voted. District Deputy Paul A. Keepers reported on the State Council meeting held Saturday in the Council Home, the exemplification of the third degree by Brute Council, the host, held in the home Sunday afternoon. He also invited all the members to attend the Traveling Rosary at Mt. St. Mary's College Grotto on Sunday afternoon, April 30.

Lutheran Women Hold Meeting

"When Christians Grieve," was the topic of the recent meeting of the Lutheran Church Women of Elias Church. Mrs. Weldon Shank and Mrs. Charles Bushman

presented the program which was designed to help the Christian woman help herself and others who face grief. Granger E. Westberg, author of Good Grief, states in his recent publication that "At the time of a great loss people who have a mature faith give evidence of their ability to have communion with God. And they possess an uncommon inner tranquility, because they know that such a relationship to God can never be taken away from them. They can face any earthly loss with the knowledge that they still have God on whom to rely . . ." During the presentation many excerpts from Westberg were used to clarify the points and stage of grief with the basis of the discussion dealing with Mr. Westberg's statements on grief.

The business meeting was conducted by Mrs. Hazel Caldwell who announced that the Maryland Lutheran Church Women's Convention will be held July 9, 10 and 11 at Gettysburg College. Auxiliary memberships to the Lutheran Home for the Aged are being subscribed for at this time and should be made available to any LCW members who have membership cards ready to distribute. Mrs. Caldwell named the following persons to make the final arrangements for the Father - Son dinner to be held in June: Mrs. James Small, chairman; Mrs. Lewis Smith and Mrs. Donald Eyer. A note of appreciation from Mrs. Charles Harner, a member of the LCW who has been recuperating at her home, was read to the group.

A social hour concluded the evening meeting with Mrs. Elizabeth McClellan and Miss Lou Bushman serving refreshments from a table that was centered with arrangements of jonquils and forsythia.

WHAT IS A FIRE FIGHTER?

Somewhere between the smoky scene of a spectacular fire, the soggy sight of a flooded basement, the misery-filled moments of a rescue call or the tricky trip to the tree top for a pussy cat rescue, you were sure to have met a most unusual guy called a fire fighter. Armed with ladders, hose, masks, rope, power tools, or some awesome gear, the fire fighter was usually the fea-

LEGAL

SUSANNE CHRISTINE GRADY
504 Grant Place
Frederick, Maryland
vs.
CHARLES JOSEPH GRADY
197 Bourdon Blvd.
Woonsocket, Rhode Island
NO. 21,610 EQUITY
In the Circuit Court For Frederick County, Maryland
The object of this Bill is to procure a divorce A VINCULO MATRIMONII by the Complainant, Susanne Christine Grady, from the Defendant, Charles Joseph Grady.

The Bill states in substance that the parties were married on September 20, 1965, in Frederick, Maryland, by the Clerk of the Circuit Court for Frederick County; that the Complainant is a resident of the State of Maryland, having resided in Frederick County for more than one year last past; that the Defendant is a non-resident of the State of Maryland, believed to be residing at 197 Bourdon Blvd., Woonsocket, Rhode Island; that one child was born as a result of the marriage, being Jonathan David Grady, age 1, who is in the care and custody of your Complainant, and whose care and custody she seeks; that the parties voluntarily separated and said voluntary separation has continued uninterruptedly for more than eighteen (18) months and is deliberate and final and beyond any reasonable hope or expectation of a reconciliation. The Bill prays that the Complainant be divorced A VINCULO MATRIMONII from the Defendant, that the legal care and custody of the said infant child be awarded to the Complainant, and that the Complainant may be awarded a reasonable sum for the support and maintenance of said infant child, and for general relief.

It is thereupon this 17th day of April, 1967, by the Circuit Court for Frederick County, sitting as a Court of Equity, ORDERED that the Complainant give notice to the said non-resident Defendant of this Bill by causing a copy of the same to be published in some newspaper in Frederick County, once a week for four successive weeks prior to the 20th day of May, 1967, commanding him to be and appear in this Court in person or by Solicitor, on or before the 20th day of June, 1967, and show cause, if any he has, why a Decree should not be passed as prayed.

ELLIS C. WACHTER,
Clerk of the Circuit Court
for Frederick County, Maryland.

tured performer. He's as close to you as the flick of the telephone dial. Your calls for assistance are always answered. Junior's caught in the wringer . . . Uncle Bill fell asleep with a cigarette in his hand and Debbie's been playing with matches. They're all a most hasty introduction to this fellow called a fire fighter. Around the clock, his vigil takes him in all kinds of weather. Holidays, Sundays, he never closes shop. His business is helping you.

A fire fighter's duties are varied and many. He drills with the newest devices, studies the latest techniques. A fire fighter knows he must be ready at all times for the unexpected. A combination acrobat, athlete, steeplejack, medic, locksmith and man-about-time . . . he's a rare combination of talent. He is expected to do most anything and he usually does.

Safely in bed, you seldom get a chance to see him at three in the morning climbing walls, hanging ladders, and lending a hand to the needy. Risk his life? You bet he does, every time the alarm is sounded. In the cold of winter or in excessive summer heat, a fire fighter is making sure life is safe for you.

A fire fighter is a funny guy. He complains of his long hours of duty, but when the alarm sounds, you can bet he will be there and don't try to stop him.

A fire fighter is a lot of things to different people. To someone he's rescued from the top of a smoky building, he's a guardian angel. To the wide-eyed kids, he's a Batman in a bunker coat. To his family he's a man every day; to his critics, he's a moonlighter that chops down everything in sight.

Despite his rugged armor and rough and tough exterior, a fire fighter is a soft sentimentalist at heart. He's always there to aid you in any emergency. The next time you see him in action, don't criticize him, think of what he does for you.

Kite Contest Winners Listed

Prizes were given to all the 18 contestants, including 2 girls, that were entered in the annual Kite Contest which was held April 9 under the sponsorship of the Cub Scout Committee. Money for prizes was donated by the local VFW and the chairman of the contest, Mr. Verne Ray, was quite pleased that the amount of prizes equaled the number of contestants so that everyone received a prize. Some of the prizes were model car kits, baseballs, bats, and camping knives.

Types of kites entered were box, diamond, eddy, conyne and a star. Patrick Dillon, David Culbreath, and Dale Shields received top honors for best and highest flying kite. Best design went to Donald and Kathy Stoner, Kim Baker and Dwayne Culbreath. Gary Stouter entered the most unique kite. Other winners were Dennis Ryder, Bill McGucken, Michael Stoner, Greg Adelesberger, Stephen Stoner, Eric Rosensteel, Monty Ray, Danny and David Joy and Mike Wastler.

Sgt. Maj. Dan Culbreath, who has flown kites since early childhood, and who is quite expert at it, helped his children enter four kites—2 box, 1 conyne and an eddy kite, which won a top prize. Mr. Culbreath had given a very informative lesson at the March Cub Scout Pack Meeting and this was a decided assist to those Cubs who entered the contest.

One of the most attractive kites entered was that of Kim Baker—a five foot conyne kite of fire engine red with bird-like wings.

Judges for the contest were Jim Adelesberger, Gerald Ryder, and Verne Ray. The Cub Scout Committee wishes to thank all those who entered or came out to spend the afternoon.

YOUR PERSONAL HEALTH

Tetanus
With the advent of the spring season of 1967 most of us are beginning to get out of doors again. There are gardens and lawns that need work and outdoor chores of all sorts that have accumulated during the winter. With the return of outdoor activities comes once again the hazard of minor accidents, cuts and scratches. Most often these aren't serious and will heal quickly if properly cleaned and protected. But sometimes these little scratches can be more serious. Sometimes they are the channel through which you could get tetanus (lockjaw).

Tetanus - producing spores lie dormant in the soil of your garden, the dirt of your garage, and the dust inside your house. These spores can infect you through the tiniest wound—a pin scratch, a bee sting or a small cut, says a pamphlet of the American Medical Association.

Tetanus spores may remain in your body for long periods without producing the disease. Or, they may produce poison effects in five to fourteen days, even

On suitably light tackle, the rock bass puts up a terrific, fast fight for his small size.—Sports Afield.

though the wound has healed.

First signs of tetanus are irritability and restlessness. Muscles rapidly become rigid, eventually causing a clenched-jaw leer that gives tetanus its nickname—lockjaw.

When symptoms appear, the outlook is grim, even with the best treatment. To avoid the deadly consequences, be sure you are immunized with tetanus toxoid. When you are immunized, your body manufactures antibodies that will fight tetanus toxin. A booster is needed every ten years and whenever you are injured.

If you aren't protected, in an emergency there is no time for immunization. If you have no built-in immunity, your physician may inject tetanus antitoxin. An emergency shot, however, is not always effective.

Your only long-range guarantee against tetanus is immunization with tetanus toxoid. Only one of every four Americans has this protection. Have you?

Mount Team Nips Shepherd

Mt. St. Mary's College evened its baseball record at 3-3 by nipping Shepherd 7-6 last Thursday afternoon at Shepherdstown, W. Va.

Pacing the 13-hit attack of the Mountaineers were Bob Calabrese and Pete Waters with three hits apiece. Bill Allen hit a solo homer in the top of the fifth for what was to prove to be the deciding run.

George Synnott was the winning pitcher for the Mount. Dana Kimmel pitched to one man in the bottom of the ninth, fanning the batter to end the game with the tying run on base.

The left-eyed California halibut reportedly gets as big as 80 pounds. It is the largest of the flatfishes.—Sports Afield.

Mother Thanks Citizens For Noble Support

A former Emmitsburg mother, Mrs. Anna (Eiker) Ray, expresses her deep appreciation to the many people in this area who saved empty cigarette packages.

Mrs. Ray has an afflicted nine-year-old son and needed a wheelchair badly for his use. It is understood that people gather 10,000 of the empty packages and a firm will provide the chair.

Dean J. Sprague, Mt. St. Mary's College Director of Public Relations, and Mrs. Valli Ryan, St. Joseph College Director of Development, attended an area meeting of the American College Public Relations Association, held at Wilson College, Chambersburg, Pa., on Wednesday, April 19.

BABSON

Writes . . .

Babson's Point Of View On:
Inflation

BABSON PARK, Mass., Apr. 20—A year ago everybody was talking about inflation. Food prices—especially meats—were soaring. Business was booming. But the stock market was going down. Those who had bought stocks as a hedge against inflation were puzzled, and disturbed. This year stocks have climbed smartly in the face of falling production and rather flat prices. What has happened to inflation?

Facts On Inflation

When we listen to stock brokers, we feel that all one has to do in order to make money is to buy common stocks and let inflation take its course. But

when the government economists discuss the matter, we get the impression that to have no inflation is bad, a little is good, and a lot would wipe us all out. Then we talk with some pretty smart bankers, and they just about convince us that the best recipe for a real stretch of prosperity is to have all prices tilt gently downward.

Thoroughly confused, we ask ourselves: Just what is inflation? After talking with more economists and bankers, we settle for the fact that most people think inflation is simply an advance in prices and a hike in the cost of living. But when we get deeper into the subject we realize that the price climb just has to have a cause. And, indeed, it has some most important and powerful causes.

Money The Clue

Today it has become fashionable to talk of rising prices as being caused by "cost-push" inflation. Simply, this means that prices can be boosted by the unions demanding and getting increases in wages that are greater than the advances in

productivity. It also means that higher taxes can cause inflation. How? By corporations adding the amount of the hike in taxes to the prices of their goods and services.

It would seem, then, that the culprit behind inflation has been found; that all we would have to do to control inflation is to hold costs down. Yet a little examination will show that if there is not a sufficient supply of money around to create enough demand for products at the higher prices, sales will soon decline and profits tumble. This, in turn, will lead straight to a business recession. So it may be concluded that, with sufficient supplies of money, all the "cost pushing" in the world would lead not to inflation, but to recession!

Recent History An Example

No better example of what may happen when the money spigots are turned off—then on—can be found than a study of events in 1966 and so far in 1967. With living costs threatening to run away and with the stock market bumping the 1,000 Dow Industrial level, the money managers became alarmed. They cut the money flow from an annual rate of advance of about 8% to the zero level. Short-term interest rates spurted. Bonds sagged week after week. Stocks tumbled wildly. Money was dragged from savings banks and placed in higher-yielding bonds and certificates of deposit. Mortgage money disappeared, and home building sank to the lowest figure of the past two decades.

When the money managers saw what they "had wrought", they became scared. In late 1966 they opened the money valves . . . first a little, then wider and wider. And they are

still at it, fearful that the recent "inventory indigestion" may lead to massive "business cramps"! Then the Administration and the Congress got into the "revive business" act. They restored the 7% investment credit and faster depreciation on certain buildings. Delayed public works outlays were also reinstated to the tune of \$1 billion. And, as a final psychological "needle", the Federal Reserve cut the rediscount rate from 4½% to 4%.

Never Fear—It Will Return!

Those who have been wondering "where inflation went" may not have to wonder long. The outpouring of funds by the banking system and by government action will soon be matched by perhaps the biggest budget deficit since World War II. As much as \$15 billion, and maybe even \$20 billion, will be the annual rate of federal-spending deficit by a year from today. If this proves accurate—and we think it is not far from the mark—inflation will be on everyone's lips again by spring 1968.

State Police Seeking
Trooper Applicants

Applications for appointment as Trooper in the Maryland State Police are now being accepted.

Colonel Carey Jarman, Superintendent, in making this announcement, pointed out that the next recruit class will get underway at the Police Academy in Pikesville on July 10, 1967. Accepted applicants will undergo 21 weeks of intensive basic training in all phases of police work before they are assigned to field duty.

The starting salary is \$6700 with automatic increases over a period of six years to \$8716.

"Law enforcement," he said, "is an expanding field which offers real opportunities of a challenging nature to serious young men who are willing to work toward advancement."

Applicants must be citizens of the United States, residents of Maryland on the date of appointment; between the ages of 21 and 31; minimum height requirement of 5 ft. 10 in.; approximate minimum weight of 160 pounds; high school diploma or equivalency certificate is required; and they must be physically qualified and of excellent moral character.

Household Cleaning Safety Tips

Fewer mishaps occur in a clean, tidy home. The really vigorous, tip-to-stern, seasonal shipshapings of good housekeepers, however, invite their own dangers.

Sentry Insurance recommends the slogan: Clean Up, Paint Up, Light Up . . . and Safe Up!

- Powerful cleaning agents show no more mercy to your skin than they show to dirt. Use rubber or plastic gloves.
- Plan your work. Don't try more than a normal day's work concentrated, room by room. You'll keep better control of the kids and dangerous materials.
- Test ladders, tools and materials hauled out of storage before using. Check power tools for frayed cords, dust and debris accumulations. Make sure electric power tools have a "ground".
- Sanding or scraping launches tiny missiles over a wide area. Glasses or goggles can avert serious eye injuries.
- Youngsters eager to help? Keep them out of the way; out of the house if possible.
- Before washing windows, carefully inspect putty retainers. Watch out for broken or frayed sashes.
- Read all labels carefully and avoid transferring to unmarked containers. Store all paints and strong cleaners out of children's reach. If you smoke, take a smoking break away from the highly flammable cleaning agents.
- Do not ever use carbon tetrachloride or gasoline for cleaning purposes. Carbon tet. is toxic—gas highly flammable.

3/4
might be
saved

Colon-rectum cancer strikes 73,000 Americans each year. Three-quarters might be saved by early diagnosis and proper treatment.

Have a "procto" as part of your annual checkup.

will hold written examinations for qualified applicants in Baltimore on May 13, 1967, and in Hagerstown and Cambridge on Saturday, May 27, 1967. Closing date for submitting applications is April 28, 1967.

Applications may be obtained at Maryland State Police Headquarters or any State Police Installation.

OUTDOOR
SPORTING TIPS

Tails You Win

Deer hunters can often tell when they hit by deer's tail as it bounds away. Tail up, you lose. You probably missed him. Tail down, you win. It's probably a hit.

Earth Storage

The Indians did it, why can't you. They stored vegetables in wooden boxes dug into cool moist earth. Food keeps there for months. Use an apple crate from grocery store as a container.

No Snag

If you're fishing bait on bottom in an area where snags are plentiful, try this trick to keep from losing rigs. Cut the top out of a tin can. Puncture two small holes in top and thread line through them. Tie sinker and hook under top. Now when you retrieve, reel quickly. Top lifts sinker and hook, keeps it away from the bottom.

Needle

The key on sardines or coffee can may be straightened and used as a camp needle. Sews tent, cut dog, canoe canvas, etc.

Cartop Cushion

If you have to transport something but your cartop racks are left behind, inflate an inner tube and rest the object on it. Then

Baby Talk

NEW YORK—Crybabies may be smarter than quiet babies! A hospital in New York taped the cries of new-born babies, then studied the same group three years later. The loud crybabies had higher I.Q.'s.

Learn the Language

Babies have different cries that indicate their problems. Studies show that a cry of pain is usually a shrill, high-pitched shriek that comes in intervals, while a cry of hunger or discomfort is a steady and persistent signal for attention. Since wet diapers are a major cause of fussing, Destin baby care experts say change diapers before bedtime and apply an antibacterial oil or lotion to the diaper area.

Medical Aid

One miserable cause of pain is diaper rash. To help clear up this unpleasant, itchy condition, the baby care consultants suggest using medicated oil, lotion or powder on the affected area. Now antibacterial, Desitin baby aids fight germ-causing bacteria while they help heal and soothe irritated skin.

To learn more about modern baby care, write for a free Baby Care booklet from Destin, 235 E. 42nd Street, N.Y.C. 10017.

lash down and drive away.

Holed Decoy

Permatex material used to seal gaskets can fill up holes in hollow duck decoys. Every garage has an open can of Permatex around. Fill up the car and patch up the decoys at the same time.

Toothbrush

Sharpen the bristle end of your discarded toothbrush. Now splice a small cord through hole in the other end. Tie a ring on the end. How good a fish stringer do you need?

Family Favorite

Yes, this is a family drug store. Every member of your household will appreciate our friendly, interested service and fair prices.

Why not form the habit of turning to us for your needs in drugs and health supplies? And always bring us your Doctor's prescriptions!

SPORTS
AFIELD
By Ted Kesting

The Federal Boating Act of 1958 required each state to adopt boating laws meeting certain minimal standards or have its waters regulated by standards set by the U. S. Coast Guard. This spur has produced a welter of legislation that shows no sign of diminishing, and every small-boat owner must learn and obey the laws of the particular state where he uses his boat. However, the following general principles apply:

Reciprocity. The federal act required each state to maintain a 90-day reciprocity period. That means if you live in California and want to take your boat to Utah, you can do it for at least 90 days and not get fined, provided your boat displays legal California numbers. However, this pertains to numbering only; it doesn't excuse the out-of-state boat from complying with Utah's equipment and operational requirements.

Area of principal use. If you live and vote and pay taxes in one state but keep your boat in another, the area of principal use decides in which state you should number your boat. For example, you live in Chicago, but keep a runabout on a Wisconsin lake where you spend the summer. The boat is principally used in Wisconsin and should be registered there.

Numbering. Generally the numbers go on either side of the bow, in block letters three inches high and in a contrasting color to the hull color. Letter groups must be separated from numeral groups: NJ 1899 A, not NJ1899A.

Sale, abandonment and accident. If you sell or wreck or lose your boat or change your address, the appropriate agency must be notified. If you have an accident that does more than \$100 damage in most states (\$50 in a few), it must be reported.

Ventilation. The newest Coast Guard regulation says every boat must carry venting ducts that sweep gasoline fumes from any enclosed compartments where they might collect. A Coast Guard pamphlet, "Ventilation Systems for Small Craft" (CG-395), explains it all in detail; it's free from Commandant, U. S. Coast Guard, Washington, D. C. 20226.

Universal. According to Zack Taylor, Boats Editor of Sports Afield Magazine, the following is required by almost all states and always by good sense; a muffler on your engine; a back-fire arrestor on inboard carburetor; running lights at night (a combination of red-and-green light forward, white all-around light aft on powerboats under 26 feet, inland rules. Rowboats must show a white light to other boats). In addition, good sense requires anchors and oars—the latter in boats small enough to be moved by them—even if state law does not.

NOTICE

This is to advise that as of March 1, 1967, the Partnership known as, John I. Troxell and Robert I. Troxell, is herewith dissolved.

We wish to thank everyone for their patronage in the past.

I wish to further advise that I, John I. Troxell, am continuing the trucking business, as an individual, and hope that I may continue our business relationship with past patrons, and I hope to continue serving all interested patrons to the best of my ability, hauling hay, straw, grain, coal, etc., and anything the patron may wish.

JOHN I. TROXELL

Did you pay a household worker a total of \$50 or more during January, February, and March? If so, a social security tax report is due by April 30 according to W. S. King, district manager of social security in Hagerstown.

All housekeepers, cooks, maids, babysitters, and other household

THE 1967 CATHOLIC CHARITIES Fund Appeal will begin officially in the Archdiocese of Baltimore on May 7. Gifts of \$1.3 million are sought to support programs that last year provided — among other services — 68,533 days of care were given to children in foster homes, 37,136 days of care were given to homeless children at Villa Maria, 39,644 days of care at St. Vincent's Infant Home, 6,973 days of care to troubled young women at Villa St. Louise, 27,984 days of care to children in adoption homes, 5,385 days of supervision for children returned home and 2,645 days of care purchased from special institutions for children with special needs. Catholic Charities is a community service operating independently of the Community Chest-Red Cross United Appeal.

employees are covered under the social security program. Anyone paying such a person \$50 or more in cash in a calendar quarter must file a tax report with Internal Revenue Service. An envelope Form 942 is available for reporting the earnings.

Each employer is responsible for paying both the 4.4 per cent deducted from all earnings of the employee up to \$6,600 and the matching 4.4 per cent paid by the employer. All tax reports for the quarter ending March 31 must be submitted by April 30.

It is of great importance to the employee that these returns be filed. The quarterly reports give the worker credit under social security which he needs to receive retirement benefits or disability payments. Since medicare is now in effect, these reports are even more important because beginning next year workers must have some coverage under social security to be eligible for hospital and medical insurance protection.

In addition to domestic employers, Mr. King also reminded other employers that their regular quarterly reports are due by April 30 and that there is a penalty for late filing.

Taneytown Lions
Club Holds Meeting

The Taneytown Lions Club held its regular meeting at the Taney Inn on April 11, 1967. The Pledge to the Flag and the Star Spangled Banner was led by Lion President, Delmont Koons, with Lion Harry Reindollar as piano accompanist. The invocation was asked by Lion Rev. Welker.

The program was in charge of the Lions Information Committee, Lion Frank Wagny, chairman. Speaker for the evening was the District Governor for 1966-1967. This was a rare treat for International Councilor, Lion Harry Dougherty, Sr., to address his own club.

Lion Dougherty's message was titled, "How the Lions Were Formed and What They Mean Today." It is interesting to note that the first Lions Convention was held in 1917 in Texas. Since then the Lions have grown internationally to 20,598 Clubs with a total of 790,520 members. This gives a total of 446 District Governors.

The Taneytown Club was pre-

sented their Charter on September 9, 1947, with 28 members. Lion Dougherty gave us the complete background of the growth and progress of our Lions Clubs, local and international, reminding us what Lionism is and what it means to all. Lion Dougherty foresees the Lions goals growing

larger and larger, with the goal just out of our reach so we will have to run harder and longer to achieve this.

At the next regular meeting on April 25, election of officers will be held. A Board of Directors meeting was held following the regular meeting.

WOMEN'S HEALTH

By Louise Chase
Women's Medical News Service
AMA Experts Deem Pill
And IUD Safe

CHICAGO, Ill.—After meticulous evaluation of the effectiveness and safety of the oral contraceptive (the pill) and the intrauterine contraceptive device (IUD), the American Medical Association's Council on Drugs and its Committee on Human Reproduction gave high marks to each respectively.

Noting that each method has its advantages and drawbacks, and that each requires further study and refinement, nonetheless the Council and Committee could see no reason that the vast majority of women wanting to plan their families should not do so with these highly effective tools.

While the pill and IUD both

give a high degree of protection to women using them, the pills which combine the two hormones, estrogen and progesterone, are, according to the Council "the most effective medical means for preventing conception yet devised." Noting that it is virtually 100 per cent effective, the Council reports that "the available data indicate that pregnancy will occur in less than one per cent of women who use this method properly." The oral contraceptives in which the two hormones are taken in sequence rather than in combination have a higher pregnancy rate.

The experts observe that the IUD's are "second only to the oral contraceptives in reducing conception rates." In studies of 22,403 women using this method of contraception, a total of 842 pregnancies were reported, 484 of them with the IUD in place. In the remaining 358 pregnancies,

"the IUD could not be located during or following the pregnancy and it is assumed that pregnancy began after unnoticed expulsion of the IUD," according to the Committee.

Highlighting Safety

Are babies born after their mothers stop taking the pill harmed in any way? Is a woman's fertility reduced because of the pill? The Council gives this reply: "The available evidence indicates that the use of these oral contraceptives does not impair subsequent fertility, and the children of mothers who had previously used these preparations for long periods have been apparently normal."

Problems With IUD

The report makes clear that neither method can be used by every fertile woman.

For instance, about one in eight of the 22,000 women studied expelled the IUD after the first insertion. Because of pain associated with insertion, and other problems, the method was thought to be inappropriate for women who have never had a baby.

Mild complications occurred upon insertion. These included bleeding, pain, cramps, backache, pelvic discomfort. These complications rarely required removal of the IUD.

More serious complications included pelvic inflammatory disease in some women and, more rarely, perforated uteruses.

Women with acute or repeated history of pelvic infections, as well as women known to have a certain kind of tumor, and women who experience abnormal bleeding should be observed care-

fully and treated before insertion of an IUD, the Committee recommends.

Pill Concerns

The Council notes that with the pills, too, there are certain adverse reactions, "fortunately, most not of a serious nature." Among these, are weight gain, nausea, and breast enlargement. These are less apt to occur with the lower-dosage pills now available, the Council observes.

As for serious questions such as the pill and cancer, the Council reports, "Extensive studies have revealed no evidence of carcinogenesis (causing cancer)." Sometimes some kinds of pre-existing tumors grow rapidly when oral contraceptives are taken. In such cases, says the Council, "patients should be examined regularly" while on the pills. It also points out that some authorities believe that the lower dosage pills are less apt to cause this increased growth.

Available information indicates that an oral contraceptive "does not impair thyroid or adrenal glandular function." Similarly, "existing experimental and statistical evidence provides no proof of a causal relationship between the pill and circulatory changes leading to the development of thromboembolic disorders (clots)."

This is true also of the pills and central nervous system and ocular complications. In each instance no cause and effect relationship has been established, the

Council points out.

Although "abnormalities in liver function tests have been observed," the Council notes that "the changes in liver function usually are not clinically significant."

Women with diabetes, with a history of thromboembolic disease, with serious liver and kidney problems, with epilepsy, heart or kidney disease, "should be evaluated and observed carefully throughout the period of treatment."

The report concludes, "No serious adverse effects attributable solely to the prolonged use of these preparations have thus far been reported."

6,138 Farmers Join Sign-Up Programs

Altogether, a total of 6,138 farm operators in Maryland have signed up to take part in the 1967 feed grain and wheat programs, according to James M. Voss, Chairman, Maryland Agricultural Stabilization and Conservation State Committee. The Chairman reported the following state sign-up totals through close of programs:

Operators have signed up a total of 3,827 farms (17.2 per cent of the feed grain farms) with 111,510 acres of corn-sorghum base acreage. Estimated total diversion intended on signed farms as 43,763 acres, or 39 per cent of their total corn-sorghum base

acreage.

Operators have signed up 2,311 farms, (18.0 per cent of the wheat farms) with wheat allotments of 77,376 acres. Special bases (for barley or oats/rye) totaling 1,192 acres have been requested for 66 farms on which to grow wheat under the wheat substitution provision.

Nationally, commodity program sign-up totals through close of programs are:

1,380,797 farms (with 40 million acres of corn-sorghum base acreage) signed up under the 1967 feed grain program of total intended diversion of 21,311,000

acres or 28 per cent of their total corn-sorghum base acreage; 822,104 farms (with total wheat allotments of 57.4 million acres) signed up.

The Road to Color Movies on American Airlines

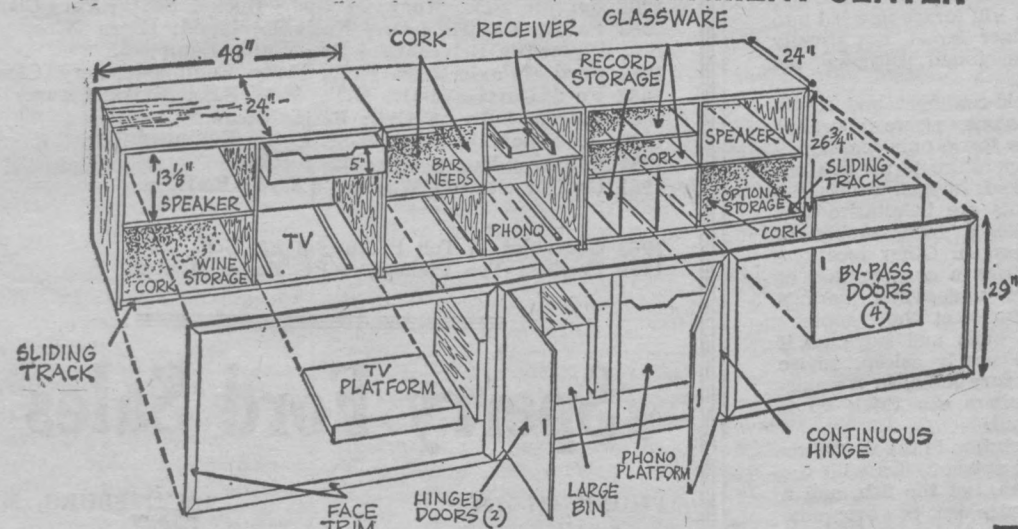

ASTRO-COLOR—The Newest in Movies

A new generation of color movies began with Astro-Color on American Airlines planes, the latest in entertainment in the air. The airline's first entertainment on its planes was in 1933—a radio, being tuned here by a stewardess in the uniform of the time. It didn't work too well because engine noise tended to drown it out. The new movie system has no such problem. The 14 screens in an American 707 jet cabin give each passenger a feeling of privacy while watching brilliant color movies with high fidelity sound. The showing does not disrupt normal cabin activities and there is no need to darken the cabin.

ENTERTAINMENT—1933

noise tended to drown it out. The new movie system has no such problem. The 14 screens in an American 707 jet cabin give each passenger a feeling of privacy while watching brilliant color movies with high fidelity sound. The showing does not disrupt normal cabin activities and there is no need to darken the cabin.

BUILD YOUR OWN HOME ENTERTAINMENT CENTER

Whether you're smitten by stereo or stymied by space—or both—there's no better answer than this 12-foot, 3-section stereo console of Canadian Yellow Birch Plywood. Its interior can house stereo receiver, 2 loudspeakers, phono turntable, TV set, bar needs, record storage, wine rack—to name a few. Simple construction and low cost make this plan easy to follow. Here's all you need.

- 6 panels 24" x 48" of 3/4" Canadian yellow birch plywood
- 6 panels 24" x 26 3/4" of 3/4" yellow birch plywood for sides and center uprights
- 6 panels of 24" x 23 1/2" of 1/2" yellow birch plywood for interior shelves
- 3 panels of 48" x 26 3/4" of 1/4" yellow birch plywood for backs
- 2 panels of 13 3/4" x 24" of 1/4" yellow birch plywood

for record separators

Hardwood plywood is also used for face trims (see drawing above), the 6 doors (4 by-pass and 2 hinged), bin and drawer faces, and TV and phono platforms. Bin drawer sides and back take 1/2" ply, and 1/4" ply makes up bottoms.

18 Bassick ball casters (surface mounting, plate types), 6 to a cabinet.

White glue, assorted screws, nails and clamps.

Assemble basic framework (top, sides, bottom, shelves and center upright), one cabinet at a time; glue, nail and clamp. Allow for mitered corners with splines.

Having previously routed grooves for double track and guide channels in bottom and top-undersides, installation of

the 4 by-pass doors, shelves and guide rollers should be no problem.

Move on to face-trim for the 3 cabinets, cutting 1 1/2" wide strips from birch or pine, and mitering corners. Assemble and glue framework, saving center post of center cabinet for later.

Then cut snap-open doors, allowing hinge and center-post clearance. Hang doors on framework, and glue and nail center post.

Now, cut stock for platforms, drawer and bin, based on actual openings plus clearances (3/16" all-around, with additional allowances for sliding track).

You need not finish the handsome Canadian yellow birch cabinet since the wood comes pre-finished. Once in a blue moon, wipe with a damp rag.

How come the Trimline phone comes to you?

So you can dial, talk and listen on one superbly designed instrument. So you can move around as you talk. So you can complete one call and dial another without hanging up. The Trimline dial-in-handset phone also lights up when in use. And it costs only pennies a day.

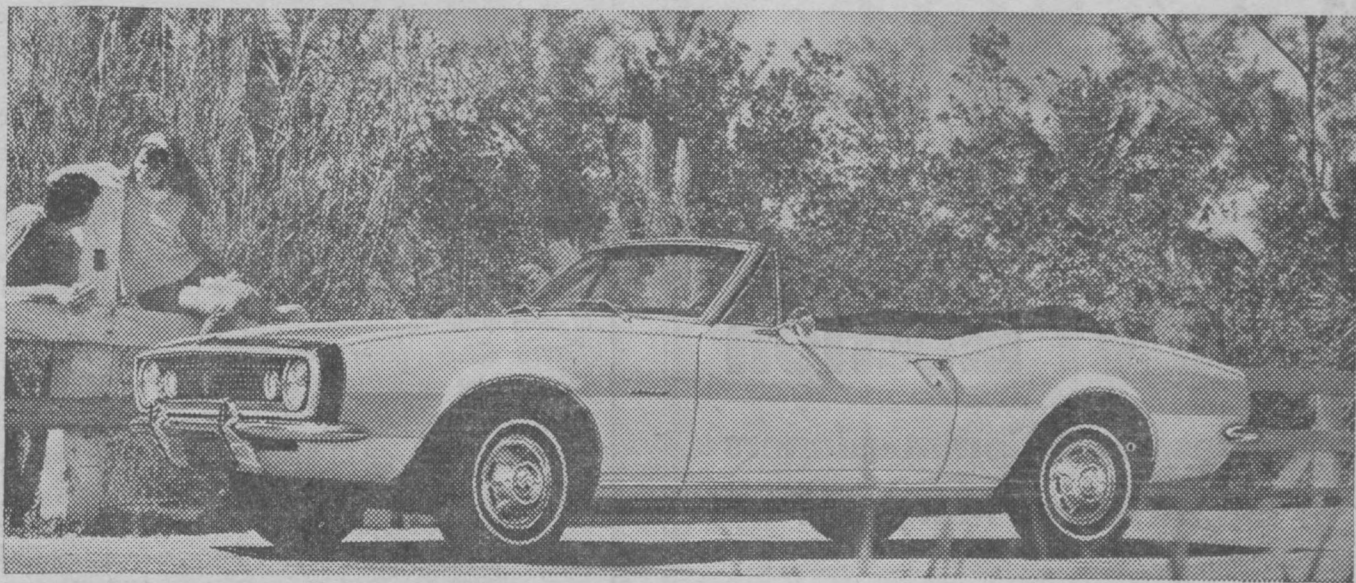

Make it come to you. Call your Service Representative at your Telephone Business Office, or ask your Telephone man.

PRESIDENT-NATIONAL
EDUCATION PROGRAM
Searcy, Arkansas

Rhodesia And World War III

Douglas Reed, British journalist with unimpeachable journalistic credentials, has just published a book, *The Battle for Rhodesia* (Devin-Adair Co., New York), casting the United States in the role of a "sucker" in in-

ternational political maneuverings which, he feels, presage the eruption of World War III. As German and Austrian correspondent for the London Times, Mr. Reed in 1938 wrote the book, *Insanity Fair*, which correctly forecast the coming of World War II, to be brought on by the appeasement policy toward Hitler.

"Lenin, in 1920," writes Mr. Reed, "decreed that the expulsion of the colonial powers from their territories was vital to the achievement of world communism. In the years 1960-1966 Western 'liberalism' openly sup-

ported this Leninist aim. This partnership, indeed, between the governments of the 'free world' and Communism, their professed enemy, is the basic fact of the years 1960-1966 in Africa."

Reds At Work

His book documents some of the "alleged brutality" against Africans which some reports have charged against the governments of Rhodesia and South Africa; his reports refute the basic charges. He says that "burnings and killing of black folk by black folk" and the guerrilla-like acts of violence are contrived or carried out by Africans trained in Moscow to create turmoil and cast the blame for it on the embattled governments.

"These men are picked up somewhere in Rhodesia," he reports, "and smuggled over the

border to Lusaka in Zambia, where are the terrorist headquarters. They seem to be 'briefed' there and after a few weeks are forwarded by road to Dar es Salaam in Tanzania, which today seems to be a Communist outpost, or colony, on the coast of Africa. From there they go by air to Moscow, Nanking or North Korea, are trained in the use of weapons, explosives and petrol for some months and then return by the same route. . .

Our "Friends" In Moscow

"I have seen the statements made by many of these men, who were captured, and they all tell the same story, save for the few who refuse to say anything. . . They are all provided with a 'cover story' for use if captured, and it is always the same story: that they were in-

duced to go to Moscow (or Peking, or North Korea) by offers of a 'scholarship' which would qualify them for a better post on their return to Rhodesia; they say they would not have gone if they had known the real purpose; but they all agree that, when they discovered it, they submitted without ado to the training in weapons, explosives and the rest. Some of them had been caught with caches of Russian- and Chinese-marked weapons and bombs. The Communists budget for this Operation Africa must be enormous."

One of the most startling chapters in Mr. Reed's book is the one dealing with the "Battle Plan" for overthrowing the present dominantly white governments of South Africa and Rhodesia which, he reports, was mapped and is being promulgated by The Carnegie Foundation (a Foundation for "peace"). It is a 170-page book entitled "Apartheid and United Nations Collective Measures" distributed to U. N. members. Mr. Reed reports it contains a "blueprint, worked out to the last detail, for an attack on and invasion of South Africa." The central military force would be that of the U. N.

Sanctions, Then War

"The detailed estimate of the forces necessary," Mr. Reed writes, "includes 30,000 assault and 63,000 other troops; 145 warships, transports and supply vessels, and 300 aircraft; and 200 transport aircraft requiring '3,000 total flying hours for direct assault.' The cost of a 30-day attack by 93,000 ground troops with air and naval support is estimated at \$95,000,000." The Foundation explains that its reason for issuing such a battle plan was the "explosive situation" in South Africa.

Our nation has been ordered by the U. N. to implement the economic sanctions against Rhodesia which were voted, with U. S. help, in the U. N. Security Council. Acting on this U. N. order, President Johnson, by Executive Decree, has embargoed shipments to Rhodesia and halted imports. Will we now join in a military assault against

this little nation fighting for her independence and her very life? This question discussed next week.

SELECTION OF YOUR TOWN GOVERNMENT!

What's So Different About a Priest?

It's not the things you can see that distinguish a Catholic priest from any other man.

It is not the fact that he doesn't marry. That he forgoes worldly pleasures for a life of poverty, chastity and obedience. That he wears a clerical garb rather than a business suit. That his everyday vocational practices are so different from those of other men.

What makes a priest so different...and his calling so much to be respected...doesn't show on the surface at all. The big difference is that the ministerial priesthood to which he belongs has been divinely invested to serve in a special way in the priesthood of Christ Himself.

Holy Scripture clearly tells us that Christ established a priesthood to represent Him. Those ordained to it and consecrated in it were to "teach all nations." As ministers of Our Lord, they were to forgive sins and to offer sacrifice. Thus, while all the faithful belong to a holy and royal priesthood, "...He himself gave some men as apostles, and some as prophets, others again as evangelists, and others as pastors and teachers, in order to perfect the

saints for a work of ministry..." (Eph. 4:11).

In the beginning, the Sacrament of Holy Orders was conferred by the Apostles on the young disciples they sent forth to teach, to forgive sins, to offer sacrifice. Today the same unique authority and power are vested in the candidates for the Catholic priesthood by the Bishops of the Church, the direct successors of the Apostles.

Today's Catholic priest...like his first-century counterpart...is quite like other men in many respects. But in his authority to forgive sins...and his power to consecrate the body and blood of Christ in the Holy Sacrifice of the Mass...he is the possessor of a divine commission not given to other men, however holy they may be.

If you would like to know what motivates a man to be a priest—what preparation for the priesthood involves—what qualities of personal sanctity and commitment are required...write today for a copy of our pocket-size pamphlet entitled "The Catholic Priesthood." We'll send it free upon your request. Nobody will call on you. Write today...ask for pamphlet No. KC-31.

THE ANNUAL
DISAPPEARING ACT

Despite the way it may seem, fish really don't disappear during winter.

They're still in the same water they inhabited last fall, but are less concerned about food. If they don't turn up too often, the blame is not entirely on the fish; anglers don't turn up too often these days either.

However, game fish are present, feeding on a limited scale, and they can be caught, say the fishing authorities at Mercury Outboards. Particularly, they add, by fishermen with the necessary fortitude and knowledge of cold weather aquatic conditions to get the job done.

In deep bodies of water which have a heavy coating of ice, the warmest temperatures will be found near the bottom. This is because water is most heavy (dense) at 39.2 degrees. For some fish, notably lake trout, this is only a shade below what they prefer. Other species will forage upward into the colder levels, but usually can be found hugging the bottom.

In mid-continent and southern regions where shoreline skim ice forms only occasionally, temperature levels are not so marked. In such waters, the key spots are tributaries that introduce a high supply of fresh oxygen. Other locations that attract a congregation of fish are underwater springs that form local "hot" spots.

Work baits and lures as if fish are nearly asleep, advise the Mercury folks, so the sluggish lunkers can catch up if they want.

The solution to the winter re-lapse, it appears, lies with the fisherman, not the fish, and a good, warm coat can overcome that.

Navy Fireman Teaches Tactics

Fireman Apprentice Edward F. Brewer, USN, son of Mr. and Mrs. Francis E. Brewer, Emmitsburg, helped direct an amphibious training assault on the island of Molokai, Hawaii on April 5 and 6, as a staff member of Commander, Amphibious Squadron Three.

From his ship, the dock landing ship USS Belle Grove, he shared in controlling the amphibious landing of 1,200 U. S. Marines of the First Battalion, 27th Marines on Molokai.

In making their "over-the-beach" landing, the Marines fought simulated "aggressor" forces already ashore, gaining valuable experience in counter-insurgency and anti-guerilla tactics.

Mount Tracksters Outstanding

Bill Walsh, Mt. St. Mary's College trackman, turned in an outstanding performance in leading the Mountaineers to victory over Georgetown and American University in a triangular meet here Saturday afternoon. The Mountaineers collected 96 points, Georgetown 52 and American 29.

Walsh took three first places, winning the shot put, triple jump and pole vault, and also took three seconds in the broad jump, discus and javelin.

Four events were swept by the unbeaten Mountaineers, the discus, pole vault, broad jump and shot put.

VFW AMBULANCE
Mrs. Valerie Overman, Mrs. Gordon Parks, Mrs. Elsie Crum, all of Emmitsburg, were transported this week to the Warner Hospital, Gettysburg, via the VFW ambulance. Mrs. Overman was later transferred to Richmond, Va. and Mrs. Marvin Smith, Thurmont, was taken to Johns Hopkins Hospital, Baltimore, and Mrs. Annie Valentine, R2, was transferred from Gettysburg to Western Md. State Hospital in Hagerstown, in the ambulance. Drivers were Donald Byard, Michael Boyle and Paul E. Humerick.

It is a part of UNICEF's philosophy that the handicapped child is entitled to special treatment, education and care.

RALPH L. DUBEL
Ralph L. Dubel, 72, died March 26 at his home in Port Angeles, Washington, following a lengthy illness.

He was a son of the late David and Elizabeth Lowe Dubel.

Surviving are his wife, Mildred, and two step-daughters; also a half-sister, Mrs. Charity Kaas, of Emmitsburg, and two half-brothers, John Dubel, Rocky Ridge, and Ernest Dubel, Emmitsburg.

He was well-known by many friends around Emmitsburg and Fairfield. He moved to the state of Washington in 1920.

Mounties Take Doubleheader

The Mt. St. Mary's College baseball team swept both ends of a doubleheader with Loyola, here Saturday afternoon in Mason-Dixon Conference games.

In the opening game the Mountaineers pounded out a 9-1 triumph and followed with another easy 13-2 verdict in the second game.

The Mount are now 5-3 overall.

Seminarians To Complete Studies Here

Four Seminarians from the Lutheran Theological Seminary in Gettysburg will complete their Junior Field Studies at Elias Lutheran Church on Sunday, April 30. Supervised by Dr. Lloyd Shenneman of the Lutheran Theological Seminary faculty in Gettysburg, and Pastor W. Ronald Fearer of Elias Church, thus far the students have observed "The Church in the Community," "The Church Gathered," "The Church in Teaching" and will study "The Church in Ministry" and "The Church's Structure," on the remaining Sundays in April.

The Seminarians currently studying at Elias Church are: Timothy Lowell Hoffman, a graduate of Thiel College, and a resident of Karthaus, Pa.; J. Thompson George, a graduate of Clarion College and a resident of Avenmore, Pa.; Richard Clarence Little, a graduate of Davidson College and a resident of Lincoln, North Carolina; Ronald Boyer Reed, a graduate of Susquehanna University and a resident of Sunbury, Pa.

Members of the congregation at Elias Church have hosted the students in their homes so that they may get a better understanding of the Parish Ministry and the program involved at the local Church.

Deegan's Track Team Outclasses Towson

In a clash between two previously unbeaten track teams, Mt. St. Mary's kept its record clean by outclassing Towson State 88-48 here Tuesday afternoon. The Mountaineers are now 4-0 while Towson is 4-1.

Once again it was Bill Walsh who was the outstanding performer for Coach Jim Deegan's Mountaineers. Walsh tallied 24 points on first places in the pole vault, broad jump and triple jump, and second places in the shot put, discus and high jump.

Tom Newberger followed with victories in the 120 high hurdles and the 440 hurdles, a second place in the 100-yard dash and a third in the broad jump. He was also a member of the winning 440 and mile relay teams.

Mt. St. Mary's will be host to the annual Mason-Dixon Conference relays Saturday afternoon.

Appreciates Local Ambulance Service

Veterans of Foreign Wars Emmitsburg, Maryland
Att.: Mr. Mike Boyle
Dear Mr. Boyle:

Emmitsburg is certainly commendable for having so many dedicated individuals! Until last weekend my experience was more confined to the admirable dedication of the religious who serve the schools in the Emmitsburg locale.

Sunday and again on Monday I had the occasion to observe the outstanding kindness, skill, patience, and willingness to serve on the part of your ambulance volunteers.

My mother could not have received more efficient service than was rendered her by you, Mr. Humerick, and Mr. Hoke.

A small additional check is enclosed as an extra "thank-you". Assistance like yours could never

be repaid adequately.
Most sincerely,
Catherine Overman Edwards

Sen. Brewster Alarmed Over Obscene Mail

Senator Daniel B. Brewster (D-Md.), expressing his alarm at an apparent increase of obscene material in the mails, this week asked the Post Office Department for a full report on what it can do and has done to combat the problem.

Brewster pledged to introduce whatever legislation may be necessary, within constitutional guidelines, to help postal authorities stem the flow of obscene mail.

In a letter to Postmaster General Lawrence O'Brien, Brewster said: "I have recently received a number of complaints from my constituents concerning obscene material which they have received in the mail. All of this material is unsolicited; much of it is received by impressionable children."

"I realize that the Post Office operates under the restraints of the First Amendment in this area, and I know that recent Supreme Court decisions have narrowly limited the meaning of 'obscene.'"

"But is there nothing that can be done at the present time to protect children against this filth? I would like to know what statutory authority the Department has to act in this respect and how you are using that authority."

"If the Department cannot or will not act to exclude this filth from the mails, I will introduce legislation to achieve this goal, to the extent that it can be constitutionally done."

My Neighbors

BIBLE FACTS by THOMPSON

IN DESCRIBING GOD'S CREATION OF THE WORLD, THE APOSTLE JOHN WROTE: "IN HIM WAS LIFE AND LIFE WAS THE LIGHT OF MEN." (JOHN 1:3)

"LIFE-NEW LIFE" IS THE THEME OF THE 450th REFORMATION ANNIVERSARY NOW BEING CELEBRATED IN THE U.S.A.

IN INTERPRETATION OF THE BASIC MESSAGE OF THE GOSPEL, THE THEME IS, ACCORDING TO THE LUTHERAN COUNCIL, A WAY OF ASSESSING THE MEANING OF THE 16th CENTURY REFORMATION THROUGH THE REFORMING WORK INITIATED BY MARTIN LUTHER, GOD WAS AT WORK OFFERING HIS CHURCH AND THE WORLD "LIFE-NEW LIFE" WHAT GOD DID THROUGH THE REFORMATION HE DOES IN EVERY AGE. HE IS LIFE AND BRINGS ABOUT NEW LIFE FOR MEN. HE IS AT WORK IN THE WORLD TODAY MAKING LIFE A NEW."

A Viewpoint

By Thomas C. Callahan

In The National League . . .

I mentioned a short while ago that I had the opportunity of visiting the training camp of the San Francisco Giants. Well, I could say that I'm pickin' 'em because on that sunny March day the second place finishers of last year glowed of greatness. I could say that they hustled like little leaguers all, eager to play ball. I could say that their clubhouse bubbled with that air so thick it could be sliced—the air carried by a pennant winner. But you know that that kind of hogwash is only fitting in John R. Tunis novels or beer commercials, so I'll give the real reason. I figure them to be the best.

On the mound, a better duo can't be found in baseball than Juan Marichal and Gaylord Perry. Former Oriole, Mike McCormick, looked very impressive last month in Phoenix, going seven innings of 5 hit, 1 run ball on the afternoon that Marichal tottered into camp—late. The Giant bullpen is strong, headed by Lindy McDaniel and Bill Henry.

Defensively, San Francisco's gonna have to bank on that "the best defense is a good offense" jazz, for tight they're not. Jim Hart is a stick man who plays third kind of as an afterthought. (Much in the tradition of the American League's Harmon Killebrew). Willie McCovey is another bat, assigned to stand by first base in case any infielders have to throw that way. Second baseman Hal Lanier teams with shortstop Tito Fuentes up the middle—both mediocre glove men. (A stubby 'ss' by the tag of "something" Gutierrez was at short when I saw them. He charged well, and got a couple of hits to boot.)

Wonderful Willie Mays is again the center man on the Giant outfield, and when he is totally free

of injury again, he will resume rewriting the record books at his leisure. Mays is flanked by Ollie Brown and Jesus of the Alou brothers. The outfield is strong. Tall number "5", Tom Haller, is the catcher. Manager Herman Franks figures the long ball of Haller's is worth a few passed balls and late pegs Tom will oblige.

You have to go with the arms, primarily. The Giants have them. And they can hit.

Cincinnati must by now be over the shock of Milt Pappas dressing at Frank Robinson's locker. They're my second pick. Maloney, Pappas, and Ellis are the chief reasons.

Pirate pitching is an unknown commodity, the only department in which that state can't be tolerated. They had a dream year at the plate last season and finished third. I doubt Wills will single-handedly boost them up. (Maury, incidentally, still insists that Baltimore hasn't showed him anything—a feeling voiced after each of the first three series games last October. Maybe someone should have showed the fleet infielder "the block". He certainly couldn't have been talking about baseball.)

St. Louis loves Roger, and Mister Maris of asterisk fame is purportedly set to reply with bingles all over the place. The Cards have excellent hurling—Gibson, Jackson and mates. They hit and field well enough to have a serious shot.

The story of the Phillies is: When will Bill White be back? And does anybody remember Jim Gentile's number?

Let's tag Atlanta and their awesome clubbers to head up the second division of the senior circuit, followed by Houston, Los Angeles, Chicago, and yes, the Mets.

The Dodgers will miss you know who, and you know what and Lord knows what else as a result. The Cubs don't deserve last any more than New York deserves second to last. Maybe they'll swap.

In any event, you can only be-

ride the Dodgers as poor representatives for so long. Now the Nationals must start grooming a champion that can reassert their boast of being the far superior league. The Giants or Cincy, or the Mets, if they win it, must eventually face the "other" league as equals, in hopes of beating them and not having to worry about that "equals" stuff for a while longer.

Orioles To Open Home Stand Friday Night

The excitement and success of opening day 1967 are behind the Orioles, and the most important business at hand is the first long home stand of the season. It features some of the American League's big attractions and one of the top Oriole promotions of the year.

It opens with Kansas City Friday night, and closes next weekend with the pennant challenging Detroit Tigers. In between the new-look California Angels are in town.

Alvin Dark's Kansas City A's feature one of the strongest and best young pitching staffs in baseball. Young Jim Nash, one of baseball's finest off his rookie record a year ago, heads the staff.

The A's meet the Orioles in a single game Friday night at 8 p.m., a 2 p.m. game Saturday afternoon, and a Sunday afternoon doubleheader.

Sunday will be Cap Day 1967. All youngsters, 13 and under accompanied by an adult on a one-for-one basis, will receive an Oriole baseball cap.

The California Angels follow Kansas City into Memorial Stadium. They meet the Orioles in night games beginning at 8 p.m. next Tuesday and Wednesday evenings.

The Detroit Tigers close out the April home stand next weekend with four games on Friday night, April 28, Saturday afternoon, April 29, and a Sunday doubleheader on April 30.

Mr. J. Laurence Orendorff remains a medical patient in critical condition at St. Joseph's Hospital, Towson, Md.

Columnist Aids Cancer Drive

Doctor LeRoy T. Davis, Frederick County Unit President, was among the more than 300 American Cancer Society volunteers attending the Maryland Division 1967 educational fund-raising crusade kickoff in Baltimore recently.

At the kickoff, Doctor Davis was called on by Division Crusade Chairman, Francis B. Burch, to announce Frederick County's goal of \$19,500. Burch then announced the Maryland Division goal of \$935,000. This figure represents a 7.5 per cent increase over the \$870,409 raised in 1966.

Burch pointed out that increased funds are needed by the Society to support programs of research, education and service which account for more than 63 per cent of the Division's current budget.

Doctor Davis said that approximately 600 Frederick County volunteers will be helping to bring life saving information about can-

cer throughout the county.

Keynote speaker for the kickoff was columnist Bob Considine, Associate National Crusade Chairman, who told the volunteers that the purpose of the American Cancer Society is to communicate to other people that cancer exists and is tolerated. "To think we will loose 100,000 human beings to cancer through negligence is an appalling challenge to all of us," he said.

"As an American Cancer volunteer you should not feel that you go begging," he continued, "but rather go with the attitude of people knowing the seven warning signals, and bent on saving lives."

In concluding his remarks Considine said that the American public must face up to the fact that cancer is a dreadful, damned disease that has to be fought—and the only way to fight it is to keep after it. Considine's younger brother died of cancer in 1952.

EDWARD P. SHORB

Edward Peter Shorb, 69, 623 Broadway, Hanover, died at the Hanover General Hospital at 10 p.m. Tuesday.

He was a son of the late Harvey and Martha Perry Shorb and was a native of Carroll County but had been living in Hanover for several years. He was a member of the Moose lodge and Home Association of Hanover. He belonged to Trinity Lutheran Church in Taneytown.

He is survived by a son, Ralph, Taneytown, and a daughter, Mrs. Maurice Fuss, Emmitsburg. There are five grandchildren, two sisters, Mrs. Clarence Derr, Keymar, and Mrs. Edgar Hockensmith, of Taneytown; a brother, Perry Shorb, Frederick.

Funeral services will be held this afternoon (Friday) at 2 o'clock at the C. O. Fuss Funeral Home in Taneytown, with the Rev. Howard W. Miller officiating.

Mrs. Romanus B. Florence, East Main St., is confined to her home due to illness.

HOME APPLIANCES

RULES: You may already be a winner!

Here's how you find out if you're a winner of one of the 1241 wonderful awards offered in the WHIRLPOOL Home Appliance Holiday Sale.

No purchase is necessary! Simply take the entire front cover of this "Holiday Sale" supplement to the WHIRLPOOL Dealer's store whose name appears on the front cover. Use the entire front cover. Cutting out, mutilating or writing upon any portion of the cover will disqualify you for contest award eligibility.

A special master poster, on display in your WHIRLPOOL Dealer's store, gives complete instructions on how the Mis-Match game works and how to determine which award you may already have won. The diagonal stripes in the words "Holiday Sale", printed on the front cover, are your key to award winnings in the Mis-Match game.

In checking your front cover with the display poster in your Dealer's store, if the words "Holiday Sale" show a criss-cross pattern... you win a glorious four-day holiday for two at the Holiday Inn in the Grand Bahamas!

If a criss-cross pattern appears on the word "Holiday"... you win a Thomas Organ.

If the word "Sale" appears criss-crossed... you win a Columbia bicycle built for two!

IF YOU DISCOVER YOU'RE A WINNER:

Show your winning cover to your WHIRLPOOL Dealer immediately for verification.

Write your name, address, city, state, zip code and the name of the award you have won in the upper left hand corner of the cover. Do not write on any other portion of the cover. If you wish, you may also attach a note giving the same information. Place your winning cover in an envelope and mail it via certified mail to Whirlpool Holiday Sale Awards, 450 North Syndicate Street, St. Paul, Minnesota 55104.

All winning entries must be postmarked before midnight, June 1, 1967.

Confirmation of all winning entries will be made by mail after June 1, 1967, along with information about delivery of prize awards.

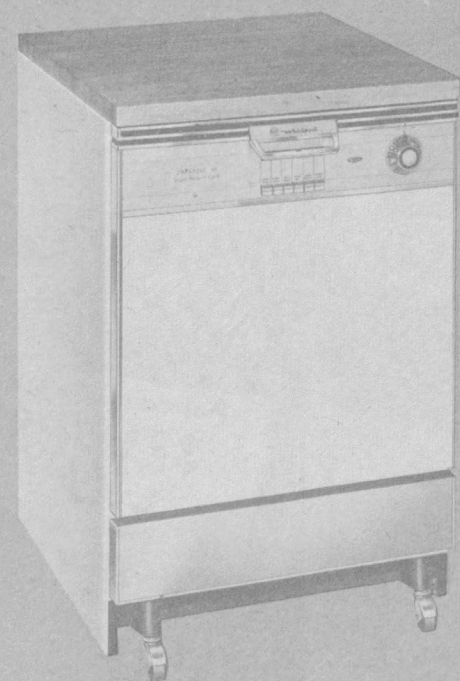

Prizes will be shipped directly from manufacturers.

This contest is open to residents of the U.S.A. except employees of Whirlpool Corporation and their advertising or sales promotion agencies.

This contest is subject to federal, state and local regulations.

Grand Bahamas Holiday-for-Two awards include all meals and lodging at the Holiday Inn in the Grand Bahamas for four days and three nights plus selected entertainment. Round trip air transportation is provided from the nearest city in which a WHIRLPOOL Wholesale Distributor is located.
