SINGLE COPY, 7c

## Most Anything At A Glance

BY ABIGAIL

Conditions here are finally returning to a stage of normalcy following the recent snows. One doesn't realize how inconvenient it really is when he is practically inundated by such elements of Mother Nature. The Town really went to work this week and in several days had the streets cleared and parking meters put back into operation. You really don't realize how inconvenient and downright aggravating it is to be deprived of parking conveniences for such a length of time. You can't get near a parking meter to go to the store or call on a friend, unless you jeopardize yourself and your car by parking half-way out on the road. Or if you are the daring type, you give your car the gas and ram into the snow . . . and alas, you are really stuck. Well, that's all behind us now and tempers have subsided quite a bit as we really return to normalcy. Now if we could just get the doggone weather to cooperate a bit things would be much nicer. These frigid temperatures are almost unbearable and the only happy people I know are the oil men and Charnita skiing area.

That picture of the old mill the Editor printed last week created a lot of local interest. Unable to identify it, he asked the public's assistance. Mrs. Jackson Humerick called to first identify the location but couldn't remember who owned it away back then. She sort of thought that the mill made paper and brooms but wasn't quite sure. Charlie Wagaman said that he used to live there and that he thought it was owned at one time by the Hartmans or Hartmans, but wasn't quite certain. Mrs. Charles "Gike" Miller dropped us a note to let us know that she now owns and lives in the building near the Hampden Valley Road leading to Rainbow Lake and wanted to know the age of the picture. We honestly don't know as there was no information or notes on the reverse side of the photo and inquiries have lead us nowhere. We presume it is at least 50 years old. The Millers bought the place in 1945. Another interested reader, Barbara O'Kelley, Leesburg, Fla., thought it might be Kump's Old Mill and went on to say that the name of the old mill was at one time Locust Grove Mill and if this was the same mill her mother and family lived in the miller's home which is now the home of Dr. and Mrs. Cadle out the Harney road. We're not dead certain but it looks as though the old mill is located on the Hampden Valley Road.

Old pictures generate interest and this is what this paper is interested in. If more of you kind folks would bring some of your real old pictures into us perhaps this setup could be continued for a number of weeks. . . . Let's hear from you folks, we will see that you get your pictures back again.

## Engaged

Mr. and Mrs. G. Louis Orndorff, Emmitsburg, announce the engagement of their daughter, Gloria Lucille, to John Edwin Maddox, son of Mr. and Mrs. Charles R. Baker, Emmitsburg.

Miss Orndorff is a 1967 graduate of Thurmont High School and is employed at Random House, Westminster. Her fiancé is a 1967 graduate of Emmitsburg High School and is employed at the Wayne Feed and Fertilizer Co., Westminster.

No date has been set for the wedding.

## Miss Mumma Is Wed To Gilbert Eiker

Miss Rebecca Ann Mumma and Gilbert Vernon Eiker, Jr., were united in marriage recently at St. Joseph's Catholic Church, Emmitsburg.

The bride is the daughter of Mr. and Mrs. Charles W. Mumma of Rocky Ridge. The bridegroom is the son of Mr. and Mrs. Gilbert V. Eiker, Sr., of Emmitsburg.

The Rev. Louis B. Storms and Rev. William Markley performed the double-ring ceremony.

Mrs. T. R. Thompson of Rocky Ridge, aunt of the bride, accompanied the soloist, Mr. Eugene Rosensteel of Emmitsburg.

Given in marriage by her father, the bride wore a floor-length gown of white satin. It was fashioned with a scalloped neckline, long tapered sleeves, modified empire bodice and A-line skirt featuring a detachable chapel-length train. The bodice was embellished with re-embroidered Alençon lace, pearls and crystals, and the gown had lace sleeves ending in points over her wrists. Her bouffant veil of silk illusion fell from a satin pillbox enhanced with matching lace, seed pearls and crystals. Her only jewelry was a pair of white cultured pearl earrings, a gift of the groom.

Mrs. Frank Bochniak of Washington, D. C. served as matron of honor. She wore a scarlet velvet floor-length gown and red velvet pillbox with matching veil. She carried a white muf topped with a red poinsettia.

Bridesmaids were Miss Carol Anders, cousin of the bride, Mrs. Thomas Redding of Damascus, and Mrs. Roy Smith, cousin of the bride of Perryman, Md. They wore green velvet gowns styled identically to that of the matron of honor, matching green velvet pillboxes and carried white muffs topped with red poinsettias.

Miss Pamela Mumma and Miss Deborah Mumma, cousins of the bride, served as junior bridesmaids. They wore empire gowns of green velvet, green velvet pillboxes and carried white muffs topped with red poinsettias.

Little Miss Marilena Smith of Perryman, cousin of the bride, was flower girl. She wore a white floor-length satin gown, trimmed in red velvet, a crown of miniature poinsettias, and carried a basket of mixed flowers.

The attendants' gowns and headpieces were styled and made by Mrs. Robert Mumma, aunt of the bride.

Scott Bochniak of Washington, served as ring bearer. Serving as best man was Tpr. Gary L. Beard of Emmitsburg. Ushers were Ron Mumma, brother of the bride, Rocky Ridge, Bernard Thompson, cousin of the bride, Rocky Ridge, and William Eiker, cousin of the groom, Emmitsburg.

For her daughter's wedding, Mrs. Mumma wore a beige dress of waffle weave wool, with moss green accessories and a corsage of green tinted carnations. The grandmother of the bride was at the wedding.

(Continued On Page 8)

## Mounties Grab Two More; Lead M-D

Mt. St. Mary's College eagers continued their winning ways by capturing two more contests during the past week.

Jim Phelan's crew topped its arch rival, Loyola, in a bitterly-fought contest Saturday evening on the Greyhounds' court, 80-77. The Mounties won the contest in the last minute via the foul line.

The Mountaineers, playing without the services of Fred Carter who was injured in the Colgate game at Albright when the Mount lost its only game in 10 starts, zoomed away at the start to a 17-7 lead. Then the Greyhounds, turning in good rebounding and led by the scoring of Bob Conner, picked up steam and pulled to within two points at 40-38 at half time.

Throughout most of the second half the score was close at all times. With 3:25 left and Loyola leading 66-63, Jim Blaney of the Greyhounds and Mike Carney of the Mount engaged in a skirmish which led to the banishment of both. Six straight foul conversions, four by the Mount and two by Loyola, on two technical fouls, followed.

The final 1:39 was all foul-shooting by the Mounties whose last field goal of the half was by John Forte with 2:40 to go. Lou Grillo sank the first free throw in the nine-straight streak. Joe Ryan swished a pair and then Grillo added four more to put the Emmitsburg clan ahead 78-77. The final points came on a pair of conversions by Dick Dohler.

Mt. St. Mary's converted 32 of 41 free throws while Loyola made 15 of 26.

Grillo led the winners with 23 points and Paul Williams added 15. Conner rimmed 22 for the Greyhounds.

Tuesday night the Blue and White, for the second straight time, used the foul line to gain a victory, topping Catholic University 87-83 in an extra period at Washington, D. C.

The Mountaineers connected on nine foul tosses in the overtime and held on to the lead to capture their 10th triumph in 11 starts.

Coach Jim Phelan's outfit came from behind in the last 30 seconds of the regulation game to knot the score at 70-70, creating the need for an extra period.

Fred Carter was the star in the closing seconds as he pumped through two goals to pull the Mount into the tie.

From start to finish the score was close as the teams battled on even terms throughout.

Lou Grillo, Carter and Dick Dohler carried the brunt of the Mount offense with 30, 23 and 22 tallies respectively. Mike LeBuffle took the scoring honors for the evening with 33 for the Cardinals.

Mt. St. Mary's swished 17 of 27 free throws and Catholic 13 of 19.

The Mount, 4-0 in the Mason-Dixon Conference, tangled with Western Maryland at Westminster Thursday evening.

The Mounties will be home next Tuesday when they play Shipensburg in a non-conference affair at Memorial Gym.

## Community Chorus To Sing Sacred Music At Concert

Sunday evening, January 14, at 8 p.m., the Emmitsburg Community Chorus will present a concert of sacred music in Incarnation United Church of Christ. This choir will present Handel's "Messiah", Part I, and the Ron Nelson "Christmas Story".

The choir will present the following choruses for the "Messiah": "And the Glory of the Lord", "And He Shall Purify", "For Unto Us a Child Is Born", "Glory to God in the Highest", and the "Hallelujah Chorus". From the "Christmas Story", the choir will sing: "Praise The Lord", "Glory to God", "Let Us Also Go", "Slumber Now Beloved Child", "Where Is This Newborn King", "The Prophecy", and "Let Us All Thank Thee, God". Guest soloists will include Miss

## Loses Life In Vietnam War

Marine Pfc. Michael T. Hoke, 19, son of CM/Sgt. and Mrs. John M. Hoke of 21-759 Fig St., Elmendorf Air Force Base, Alaska, was killed on December 21 when he sustained fragmentation injuries to the body from a hostile explosive device while on patrol near Quang Nam, South Vietnam, according to the Dept. of Defense.

A Memorial Mass was said for Marine Hoke in Chapel 2 at Elmendorf Air Force Base Wednesday, Dec. 27. Four Air Force chaplains, Maj. Robert J. Shannon,

Capt. Alexander Ludwig, Major Ernest Moreau and Lt.-Col. Robert Gaertner, celebrated the Mass. Archbishop Joseph T. Ryan delivered the homily and the absolution.

The young Marine was buried in Arlington National Cemetery, Wash., D. C., on January 5.

Pfc. Hoke is survived by his father, mother, one brother, David, two sisters, Jane and Michelle, all at home, and his paternal grandmother, Mrs. Joseph R. Hoke of Emmitsburg.

## College Group Will Investigate Culture

Dr. Marie Wanek and participants in the St. Joseph College Institute on Africa will visit two Washington museums this Saturday to investigate the cultures of Africa.

Dr. Gordon D. Gibson, curator of the Old World Division of the Smithsonian Institution will discuss the development of African Cultures, using the Smithsonian's exhibits to illustrate his lecture. Dr. Gibson has done field work in Botswana and Southwest Africa and has published several articles on the tribal customs of the Herero, a Bantu people of that area.

The Institute members also will visit the Museum of African Art. Mr. Warren M. Robbins, founder and director of the museum, will lead the discussion of the sculpture and allied arts of Africa.

Robbins, a consultant for the Department of State who lectures on African culture at the Foreign Service Institute, is the author of African Art in American Collections, a comprehensive photo survey of African art.

## VFW AMBULANCE

Mrs. Reno Wachter, R1, Thurmont, was transported this week via the VFW ambulance, to the Frederick Memorial Hospital. The driver was Leo Michael Boyle.

The new veterans assistant act, Public Law 90-77, designate the beginning of the Vietnam era as Aug. 5, 1964. Veterans who served after that date are eligible for all the benefits previously limited to veterans of wartime service.

New York City's Fire Dept. has 154 ladder trucks.

## Drill Dates Changed

The drill dates for members of Co. B, 729th Maint. Bn., Maryland National Guard at Highfield, for January 1968, have been changed from January 13-14 to January 20-21, 1968. This change is made due to reorganization of Maryland Army National Guard.

## LOCAL BAND TO SELECT UNIFORMS

A special meeting of members of the Emmitsburg Municipal Band has been called for Wednesday, January 17 at 7:30 o'clock, at the Lutheran Parish Hall.

All members are urged to be present as the Band will make its selection of the type of uniform it will wear in future years. Following the selection, another meeting has been called for January 24 at which time members of the group will be measured for uniforms. President Robert Rosensteel announces all members must be present at the measurement meeting or they will not receive a uniform. If for some unseen reason, a member can't be present, he is asked to call President Rosensteel at 447-3172.

## Ecumenical Service Scheduled In Local Churches

For the second straight year, an Ecumenical Prayer Service during the Christian Unity Octave is being planned. The program will be divided into two units. The first service is scheduled for St. Joseph's Church on Wednesday, January 17. All Protestant Churches are invited and urged to attend this service.

The second half of the schedule will be held at Elias Lutheran Church on Friday, January 19, and Rev. W. Ronald Fearer extends a cordial welcome to all Catholics and other churches to attend the service.

Last year's tremendous response to these services has prompted a continuation of the Ecumenical Services in the local churches.

## OPEN HOUSE

Grand Knight Ray R. Lauer announces an Open House on January 17 for the local Knights of Columbus.

A speaker has been engaged, a movie scheduled and refreshments will be served. A cordial invitation to all eligible Catholic men has been extended, to attend the affair. All members of Brute Council 1860 are urged to attend.

## Mount Professor Composes Paper

Dr. William G. Meredith, professor of biological sciences, at Mount Saint Mary's College, delivered a paper entitled, "Niche Differentiation in Crayfishes," at the New York meeting of the American Association for the Advancement of Science which was held recently.

Prof. Meredith, who received his doctorate from the University of Maryland in August, joined the Mount faculty in 1957. He has conducted research on the crayfish since 1960 and has contributed articles to several journals during this time. The paper recently delivered was taken from his doctoral thesis.

In addition to his research and teaching duties at the Mount, Meredith is a member of the college faculty library committee and the planning committee of the Academic Council.

During the summers he has worked under National Science Foundation Grants at the University of Colorado, North Carolina State College, and Arizona State University. In the summer of 1968 he will teach in the National Science Foundation Institute for College Teachers to be conducted at Fairfield University.

Meredith holds a bachelor's degree from Fairmont State College and a master's degree in science from West Virginia University. He is married and resides in Faculty Row with his family.

The giant moose of Alaska and the Yukon may stand as high as seven feet six inches at the withers.—Sports Afield.

## Town Council To Install Water Line

The Emmitsburg Town Council, meeting in regular session Monday evening in the Town Office, highly commended Commissioner Quinn F. Topper for donating his services to complete the new water transmission line out the Waynesboro Road. Topper worked a number of weeks, in a supervisory capacity, to see that the line was completed, in bitter cold weather, free of charge.

Present at the meeting were Daniel Andrews and Carroll Fair who sought the Council's permission to erect a private home on the Crystal Fountain Road. Council postponed any decision or action until such time as an inspection of the area was feasible. Reaves Electric was authorized to make electrical repairs at the town disposal plant's electric panel board.

During the recent snowstorm permission was given to plow out the road leading to Mountainview Cemetery, by the Town crew, in order to permit funerals being held there. The Council ordered the present Christmas street decorations inspected and repaired before storing them for use again next year. As a result of a recent automobile mishap on lower DePaul Street, the Town ordered a number of sturdy posts to be installed at the dead-end there. Also discussed was the possible elimination of parking meters on both sides of the exit to the Bank drive-in window. Cars parked there create a blind spot as customers pull onto East Main St. No action was taken on this subject.

A major water department construction was authorized by the Town Fathers when it was decided to install about 500 feet of six-inch water line down the lane adjacent to St. Joseph's High School. There is building going on in that section and it was felt it was necessary and imperative that water be brought to the area.

A request by Police Chief W. E. Law, for a new radio for the police cruiser, and a telephone extension for his office, were denied by the Council. Mayor Guy A. Baker, Jr., called a special meeting of the Council on January 11, to discuss new water rates for out-of-town patrons, and placing additional streetlights in Town. Present at the meeting were Buchart & Horn, the Town's engineers.

Police Chief W. E. Law's monthly report to the Council showed two criminal arrests; five motor vehicle arrests and eight warnings issued. The Chief assisted with one fire in the corporation limits; handled nine daylight complaints and five night calls. Trips in the police car were made as follows: Frederick (6), Hagerstown (1), Taneytown and Westminster, one each. Two accidents in Town were investigated and three assists were given the State Police. Days worked were 26; days off, 5; average number of hours worked daily, 14.75.

## Organ Recital To Feature Sacred Music

Dr. Conrad Bernier will present an organ recital of sacred music this Sunday at 3:30 p. m. in the chapel of the St. Joseph's Provincial House, Emmitsburg.

The public is invited, without charge, to the recital, third in the current series presented by Saint Joseph College.

Included in Dr. Bernier's organ selections will be Handel's Andante and Allegro from the Concerto in F Minor, Le Begue's "Les Cloches," Couperin's "Benedictus," and Bach's "Passacaglia and Fugue." The program will conclude with the Allegro from Louis Vierne's Third Symphony.

Dr. Bernier, head of the organ department of the Catholic University School of Music, has given recitals in France, Canada and the United States. He is the author of a Handbook of Improvisation and will soon publish Palestina and Fourteenth Century Counterpoint.

The two remaining dates in the concert series will feature an Afternoon of Opera on February 25 and a piano concert by William Masselos, artist-in-residence at Catholic University in March.

## CHAMBER TO MEET

The regular monthly meeting of the Emmitsburg Chamber of Commerce will be held Tuesday, January 16 at the Emmitt House. The meeting will commence promptly at 7:30 p.m.

### Advises Checking Hospital Bills

Maryland Insurance Commissioner Newton I. Steers, Jr. has issued a statement calling on Maryland citizens who are Blue Cross subscribers to protect their own pocketbooks by questioning hospital bills when there seems to be errors or charges for services not performed.

The Commissioner stated "in recent months, while I was considering the request of the Maryland Blue Cross organization for an increase, I had called to my attention repeated instances of Blue Cross subscribers being charged for hospital services they never had received. I would give to all Blue Cross subscribers this advice: Challenge incorrect charges, vigorously! If Blue Cross is not aware of an improper charge, it will generally pay the hospital without question; whereas, if certain items on the bill are challenged Blue Cross should and will resist paying them."

"I realize that many subscribers are concerned because they might have to pay the questioned charge. But if hospital bills are

not challenged by the patient-subscriber or by Blue Cross, there is an obviously greater drain on the reserves of Blue Cross—leading inexorably to higher and higher rates for the provision of the Blue Cross program.

"I am advised by Blue Cross that they do try to follow through and correct erroneous charges, a few of which inevitably occur. The Blue Cross maintains, however, that the amount of such errors is infinitesimal. I urge subscribers to keep their own rates down by helping Blue Cross to bear its burden of auditing hospital bills.

"I recently received a letter from a citizen who noted an error on the bill of a relative, which is symptomatic, in a tragic circumstance, of the kind of error I am talking about. She explained how a bill was received for oxygen administered two days after the patient had passed away."

### Local Lions Club Meeting Held

President Ralph L. Tabler presided at the regular meeting of the Emmitsburg Lions Club held

Monday evening in Mt. Manor Restaurant. The president announced the annual District 22W Social Meeting would be held at Westminster on February 10 and said tickets were available, thru him, for anyone wishing to attend.

A communication from the Frederick Committee on Education was received and asked the local club for a replacement member due to the resignation of Eugene Sappington. The club decided against naming a new representative at this time.

The president reported that for the first time LC (Lions Club) auto tags would be available and that Eugene Sappington would be chairman of that committee. Anyone wishing LC license plates should contact Lion Sappington prior to March 5. The club voted to send a get-well message to former Public Works Superintendent J. Norman Flax, in appreciation for the excellent work he did in behalf of Emmitsburg while in the employment of the Town. All members will sign the message. Lion Milton A. Sewell, chairman of the Kiddies Christmas Party gave a final report on the affair.

During the meeting the group discussed the future of Go Kart racing in Emmitsburg. The sport appears to have died out here and it is highly probable that the club will lease the blacktop track to some private enterprise. A spring Community Auction was discussed but no action taken at this time.

### OBITUARIES

**MICHAEL L. BRADSHAW**  
Michael Le Roy Bradshaw, 22, died Monday at his home in Emmitsburg. He was born in Plainswell, Mich. Surviving are his widow, Mrs. Peninah Gingell Bradshaw, Emmitsburg; his parents, Mr. and Mrs. Herbert Bradshaw, Plainswell, Mich., and six brothers and sisters, Darryl Bradshaw, Lucy Bradshaw, of Plainswell, Mich.; Miss Mary L. Bradshaw and Mrs. Jeanette Smith of Otsego, Mich.; Mrs. Judy Baker of California; and Andrew Bradshaw, Kalamoza, Mich.

A member of St. Joseph's Catholic Church, Emmitsburg, he served in the U. S. Navy for four years.

Funeral services were held on Thursday with a Requiem Mass at 10 a.m. in St. Joseph's Catholic Church, Emmitsburg, with the Rev. Fr. Louis Storms officiating. Interment was in Mountainview Cemetery, Emmitsburg.

Wilson Funeral Home, Emmitsburg, was in charge of arrangements.

### Medicare Cost To Rise

A \$1 increase — from \$3 to \$4 — in the monthly premium to be paid by enrollees in the voluntary medical insurance program of Medicare, was announced Dec. 30 by the Dept. of Health, Education and Welfare.

The increase does not apply to the regular coverage for hospitalization paid for by Medicare. Secretary J. W. Gardner says the increase was based on a review of cost experience and actuarial projections of the voluntary program. The secretary is required, by law, to make such a review and to determine the necessary premium rate. The \$4 figure is the one that the secretary indicated in Sept. to be necessary. Enrollees and the Federal Government pay equal monthly shares for the cost of medical services under the voluntary program.

The new \$4 rate is effective April 1, 1968. The monthly \$4 premium will be matched by Federal funds. The \$3 rate, in effect since Medicare began on July 1, 1966, will continue for 3 months, through March 31, 1968.

Nearly 18 million Americans—92% of the population aged 65 and over—are enrolled in the voluntary program.

**NAMED TO HONOR SOCIETY**  
William T. Merritt, Jr., Cullen, Md., a senior at Mt. St. Mary's College, has been named to the national Catholic scholastic honor society, Delta Epsilon Sigma, Zeta Chapter. To be named to membership, a student must maintain a 93% or better average.

Merritt is a senior biology major and is a member of the American Chemical Society with the rank of secretary-treasurer of the organization. He is a graduate of St. Joseph's High School, Emmitsburg and is the son of Mr. and Mrs. William T. Merritt, Cullen, Md.

**Goodnight Kiss**  
The perfumed moisture Still lingers across the bay And spells out in starry stars Moon-dipped in its silence— Yet cold as wintry Zurich In a guarded impermissible hour. The distance was but a micrometer

Yet infinite in difference Between a willing nod and nay; I will be wiser with time And pay no attention To the cold glassy wine: Behind the glass was a richer Word to say than you And I have yet to hear.

—A. Figer Viloria

The VA is paying death indemnity compensation to more than 463,000 dependents of 363,000 veterans who died from service-connected causes.

### Legion Auxiliary Meeting Held

The regular monthly meeting of the Francis X. Elder American Legion Auxiliary, Unit 121, was held on Tuesday evening at the Post Home. Ten members were present with president, Anna Topper, presiding. The membership chairman announced 77 paid-up members to date.

The next District meeting will be held at the Morris Frock Unit 42, Hagerstown, on January 23 at 1:30 p.m. Several thank-you notes were read. Twenty-five members attended the annual Christmas party. Three Gold Star Mothers who were guests of honor were Mrs. Carrie Fuss Long, Mrs. Viola Hemler and Mrs. Marian Timmerman. Each was presented a poinsettia plant.

Members reported 37 hours babysitting; work with the Brownie Scouts, 9 hours; use of Auxiliary room for Brownie meetings, six hours. The Public Health Clinic

treated 40 children and three maternity cases and used the Auxiliary room 45 hours during the month of December.

Refreshment committee for February is Mary Theresa Miller and Beatrice Umbel.

The draw prize and the door prize were both won by Mrs. Ann Shorb.

Following the business meeting, the ladies joined the men of the Post for refreshments.

### Firemen Plan February Feast

The regular monthly meeting of the Vigilant Hose Co. was held Tuesday evening in the Fire Hall, President J. E. Fitzgerald presiding.

Fire Chief Guy R. McGlaughlin reported the company had handled three alarms since January 1. The president announced that annual dues were now payable and that February 13 was the deadline to remain in good standing.

The Adams County Ambulance Assn. will sponsor a first aid course at the Gettysburg Armory, starting Wednesday, January 31. The course will be of 16 weeks' duration and anyone desiring to enroll should be present at the Armory on the above date. The truck committee reported it was making good progress on the new service truck.

Chief McGlaughlin announced the following appointments for 1968: Chief nozzlemaster, Patrick Boyle; Truck foreman, Thomas White, Charles Hartdagen and Eugene Myers; equipment foreman, Harry Green and James Kittinger; first aid, Michael Boyle and James Kittinger; fire pre-

vention committee, Guy R. McGlaughlin, Charles F. Stouter, Arthur Damuth and Thomas White.

The president appointed Guy R. McGlaughlin and Allen Davis as chairmen of the annual winter feast which will be held on February 25.

**SPECIAL STUDENTS**  
The registrar's office of Mt. St. Mary's College, reports there are three special students from Maryland enrolled for the fall semester. They are Donald C. Miller, Emmitsburg; John W. Brown, of Thurmont and Charles E. Keedy, Hagerstown. Total enrolment is 867.

## Constitutional Convention Report

By Gene P. Ward

The delegates to the Constitutional Convention voted final adoption of a proposed new State charter on Saturday, January 6. In addition to the Constitution of approximately 50 pages, they also adopted twelve pages of Transitional Provisions and a fifteen-page Schedule of Legislation. The Transitional Provisions have the same status as sections of the Constitution but are of a temporary nature (effective dates, delays in implementation of certain provisions, etc.). Since the provisions have the force of the Constitution, they cannot be changed except by amendment, once the Constitution is ratified by the people.

The Schedule of Legislation contains changes to State laws which go into effect if the voters approve the new document. However, the provisions in the Schedule of Legislation have the force of law and can be amended or repealed by the legislature at any time. The proposed Constitution is a

far-reaching reform of government in Maryland.

It contains the controversial single-member House of Delegates districts but does not include the equally controversial "Labor Bill of Rights" (right of all employees to organize and bargain collectively).

Among the most significant changes are:

1. **Judiciary.** Maryland's courts are reorganized into a four-level Statewide system. Trial magistrates and People's Courts will be replaced by a Statewide system of District Courts. Candidates for all judgeships will be nominated by a special commission under the system known variously as the Niles, Missouri, or Merit Plan.

2. **Legislature.** The House of Delegates is reduced from 142 to 120 members and the Senate from 43 to 40, resulting in a total reduction in the General Assembly of 25 members. Each delegate will represent a specific district which in 1970 will contain approx-

imately 33,000 persons. About 8 counties will not have sufficient population to be assured of having their own delegate. Each Senator will represent an area containing three delegate districts. Reapportionment and redistricting is required prior to the election in 1970.

3. **County Government.** Each county is required to have home rule by 1971. Counties will have greatly increased powers, relieving the General Assembly from considering the large number of local laws that it now must do. The legislature in general is restricted to passage of Statewide laws with limited power to enact local laws.

4. **Executive Department.** The Governor's power of appointment is increased. The office of Lieutenant Governor is created. The Comptroller and Attorney General will still be elected, but most of the present functions of the Comptroller will be performed by an official appointed by the Governor. The procedures are established for reorganizing the Executive Department from a multitude of boards and agencies into a few principal departments.

5. **Voting.** The minimum voting age is reduced to 19 years.

Among the decisions made by the convention in the final week are:

**Legislative Districts.** The delegates reaffirmed their previous decision to require that every member of the House of Delegates have his own district of equal population. In 1970 this would mean that each delegate would represent approximately 33,000 persons. An alternate plan to permit delegates to be elected from districts containing as many as three delegates was defeated by a vote of 58 to 80. Under the present districting plan, districts vary in size from one to eight delegates.

**Collective Bargaining.** On Tuesday, January 2, the controversial

"Labor Bill of Rights" was stricken from the new State charter after a series of three votes, two of which were tied. An amendment to delete the section carried by two votes, then on reconsideration lost by a tie vote (69 to 69). On a subsequent vote to approve the inclusion of the provision in the new Constitution, the tally was again tied at 69 to 69, resulting in its failing because of lack of a majority.

**Jury Procedures.** A motion to reconsider a previous decision to change Maryland's almost unique jury procedures failed because it received three votes less than the required 72 (a majority of all delegates). Earlier the convention had decided to have juries make a decision only as to the evidence and leave the decision on the law to the presiding judge. Under the present Constitution, the jury decides both. If the new Constitution is adopted, only the State of Indiana will have juries who decide the law, and its rules in the matter are less strict than have been Maryland's.

**Damages By State.** The delegates rebuffed an attempt to delete the phrase requiring persons to be paid for property damaged although not actually taken by the State in its exercise of eminent domain. The delegates did agree to modify the provision to permit the General Assembly to make regulations on compensation for damaged property. Since the term "damaged" is so broad, the legislature could further define the boundaries of what the term will encompass.

**Economic Opportunity.** A majority of delegates voted to insert the words "economic opportunity" in the Preamble to the Constitution so that it would read, "... the right to life, liberty, economic opportunity, and the pursuit of happiness." A few hours later the matter was reconsidered and the words deleted by a large margin.

**Freedom Of Information.** In a series of votes the delegates reconsidered but rejected two proposals to write a "Right to Know" or "Freedom of Information" plank in the Constitution. The purpose of the provision is to inhibit secrecy in government. On one occasion the provision failed by one vote.

**Secret Ballot.** Late last week a majority of the delegates present voted to require that the General Assembly elect its leaders by secret ballot. After the New Year's holiday, a larger number of delegates were present when the matter was reconsidered, and the clause was voted down.

**Daily Transcripts.** Last week the delegates voted to remove the requirement that the General Assembly make daily transcripts of their proceedings, similar to the Congressional Record. The idea had been approved by the convention approximately a month ago. Opposition to the requirement arose primarily on the issue of whether it was worth the cost.

**Local Laws.** The convention also approved a measure which clarifies which local laws the General Assembly may enact after each county obtains home rule. In general, the new Constitution will permit only the enactment of laws which apply throughout the State. The practice of exempting counties from general laws will be prohibited. The areas on which the General Assembly may enact local laws which apply to one or more counties are: education, natural resources, multi-county governments, regulation of State agencies, changes in counties, or granting powers to counties.

**Transitional Provisions.** Transitional provisions adopted with the proposed Constitution:

1. Require the reapportionment of the General Assembly prior to the election in 1970.

2. Distate that the changes in State officers created by the Constitution will not take effect until the election in 1970. For example, although a lieutenant governor is required under the new Constitution, there will be no lieutenant governor until one is elected in 1970.

3. Delay the creation of the District Courts until 1970. The District Courts are the lowest tier in the four-level court structure and will replace the trial magistrate and People's Courts in the counties, and the Municipal Court in Baltimore City.

4. Delay transferring the cost of operation of the State's courts from the counties to the State until 1970.

5. Set a January 6, 1971, deadline on the requirement that each county obtain home rule. Earlier documents of the convention had set this date at July 1, 1972.

**Schedule Of Legislation.** Items in the Schedule of Legislation approved by the delegates:

1. Raise the salary of the Governor from \$25,000 to \$40,000; the compensation of members of the General Assembly from \$2,400 plus \$25 a day for living expenses to \$3,000 with living expenses prohibited; the salary of judges varying from \$30,000 for Superior (now Circuit) Court judges to \$35,000 for members of the State's highest court. All salary increases would be effective July 1.

2. Delineate the procedures for a county to create a Charter Board to write a home rule charter. The Board of County Commissioners

could appoint a board at any time and must appoint one if five per cent or 10,000 voters petition for the creation of the board.

## DOG OWNERS

BUY YOUR LICENSE BY JANUARY 1, 1968

The law provides a fine of from \$5.00 to \$25.00 on any owner of a dog, six months of age or over, which is not licensed after January 1, 1968.

LICENSES AVAILABLE AT

County Treasurer's Office, Frederick, Maryland

You can fill in this form and mail \$1.00 for Male or Spayed Female; \$2.00 for Female; \$10.00 for Kennel (not more than 25); \$20.00 for Kennel (more than 25) to: TREASURER OF FREDERICK COUNTY, FREDERICK, MARYLAND, and your licenses will be mailed to you.

COUNTY TREASURER  
FREDERICK, MARYLAND 21701

Please send me tag for my dog described as follows:

Owner .....  
Address .....  
Election District .....  
Male..... Female..... Spayed..... Breed.....

If dog is not six months of age by January 1, 1968, license must be bought when dog becomes six months old.

Failure to buy your dog license will mean not only your arrest, but your dog may be picked up and impounded. The license does not give the dog the right to trespass on anyone's property without the permission of the owner.

CRUMELL P. JACOBS

Sheriff of Frederick County

Arthur C. Simons, Dog Warden, will canvass the County to ascertain if dogs have been licensed.

## Start Now To Put Yourself In Shape

Your doctor recognizes the importance of exercise to health.

The American Medical Association points out that exercise, or lack of it, is often a significant factor in the control of obesity, diabetes, heart and circulatory problems, orthopedic disease and emotional disorders.

Fitness developed through vigorous activity and exercise can be preventive, as well as therapeutic, in nature.

In a positive sense, health includes abundant energy and vitality. A healthy person is physically fit when he can perform his daily work and tasks without undue fatigue, maintain adequate reserves of energy to enjoy recreational activities and leisure, and meet the challenge of unexpected demands. These might be running to catch a train, quickly climbing several flights of stairs, shoveling snow, or jacking up the car to change a tire.

Can you go up several flights of stairs without severe discomfort, chest pain, or having to stop before you reach the top? You would expect to be puffing a little at the top, but this should subside soon if you are reasonably fit.

The best exercise is doing something physically active which you enjoy, with the exercise part secondary. If you enjoy swimming or tennis, or handball, these are ex-

cellent sports for exercising most of the body. Golf is good for the tired businessman. Most of us, however, find it difficult to exert the mental discipline to keep at

a program of daily calisthenics purely for the sake of exercise.

If you have had little or no exercise for years, be cautious about plunging immediately into active sports. Work up to strenuous exercise gradually.

There are simple tests by which your doctor can determine the extent of your physical fitness. If you flunk the tests miserably, and many of us will, then ask your doctor to prescribe a simple, daily exercise program to help you get back in shape. 1-68

OFF AND RUNNING by John I. Day

## A "Stock" Deal

If Jack J. Dreyfus Jr. paid as much for the remaining three-quarters of Beau Gar as he paid when he first bought a quarter interest in the horse, L. L. "Laudy" Lawrence would have realized some \$2,880,000 on the deal. This, however, is not why the Thoroughbred Club of America honored Mr. Dreyfus at its annual testimonial dinner last fall. Nor did Dreyfus actually pay any such fantastic price for Beau Gar.

He did, however, give Mr. Lawrence his choice of the \$7,000 asked for one quarter share in the horse or 150 shares of Polaroid stock, then selling for \$46 per share.

Mr. Lawrence took the stock, which proliferated to the point

where, after numerous splits, the original block of stock was worth some \$720,000.

Mr. Dreyfus's interest in Beau Gar dated from days long before he assembled the powerful Hobeau Stable. As a racing fan he became enamored of a filly named Bellesoeur belonging to Mr. Lawrence. Beau Gar was her first foal, and was sired by Count Fleet, another Dreyfus favorite. As a race horse, Beau Gar was handicapped by a chronic back injury, didn't race until four and won but four races. As a sire for Hobeau Farm, however, he has gotten such good ones as Beau Purple, Beupuy, Red Gar, and Handsome Boy, one of last year's top handicap performers.

Babson's Point Of View On:  
Crisis In The Air

BABSON PARK, Mass., Jan. 11—Air transportation — one of the nation's fastest-growing industries—is flying into a crisis in which threats to clip its wings, temporarily at least. Airport facilities just aren't keeping pace with the demand . . . air corridor congestion is serious, especially on the East and West Coasts . . . and rapidly rising costs pose new problems of financing.

**Inadequate Facilities**  
Our emergence into the jet age has broadened the horizons of air transport—both passenger and cargo—but it has also brought us face to face with the need for bigger and costlier terminal facilities. Air traffic

has doubled since 1962. You can expect it to double again in the next 5 years. Most of the nation's airports are overcrowded . . . some dangerously so. A few are valiantly trying to handle far more planes than they have capacity for. In some airports, jet runways just aren't long enough for today's huge airliners; in others, radar installations aren't sufficient to do the job that true safety requires.

**Instrument Landing Systems**  
seem not to be foolproof, at best. If not well maintained, they can contribute to accidents. Without question, pilots need the most accurate information possible to permit them to determine whether planes are coming in at the proper angle and altitude . . . but the development, installation, and operation of such delicate and sophisticated instruments will entail tremendous increases in the operational costs of airports.

**Air Corridor Congestion**  
Airport congestion is getting

worse by the week, with New York's Kennedy an LaGuardia fields, Chicago's O'Hare, and the Los Angeles International approaching saturation points. But there is also overcrowding of the air corridors themselves as passenger, military, and cargo craft take to the clouds in increasing numbers.

In such close quarters, speedy jets are a decided hazard, and the Federal Aviation Administration has set a new speed limit of 288 miles per hour for planes flying below 10,000 feet. Soon to come, perhaps, are regulations calling for wider spacing of aircraft in flight and when circling over airports awaiting opportunity to land.

**Progress Must Be Financed**  
Meanwhile, the airlines are entering a critical period of very rapid growth during which their costs promise to rise sharply while their profit margins decline further. Pan American, which has \$1.5 billion in new jets on order, has obtained long-term credit of \$180 million to finance new planes. Trans World Airlines announced it had gotten \$800 million in new money and refinanced mortgage notes. In today's high-cost, lim-

ited-availability money market, such sums must surely entail heavy burdens which will be a drain on earnings for some time to come.

Obviously, the airlines are also going to be faced with higher landing, storage, and maintenance fees as airports pass along the huge costs of installing and maintaining new and improved facilities to handle the great increase in air traffic and provide for the growth still to come.

**Fare Boosts Due**  
Curiously enough, the Civil Aeronautics Board continued throughout 1967 to favor reduced airline fares . . . thereby whittling away their earnings base and making it more difficult for them to finance the purchase of new aircraft and new safety equipment. However, in December the CAB allowed four of the big airlines to increase somewhat their low "Discover America" discount fares on flights between the East and West Coasts.

As the profits squeeze of the airlines intensifies, you can expect CAB to relent further by permitting selected fare increases so that those who fly will

Press Assoc., Inc.

pay a bigger share of rising costs. And it's just possible the airlines may one day be collecting a federal head tax on each passenger ticket sold . . . to help pay for new airport facilities and safety devices.

The Veterans Administration paid \$4.4 billion in monthly compensation and pension checks to 3.2 million living veterans and the dependents of 1.4 million deceased veterans during fiscal year 1967.

Was It Sudden?

Jerry Marcus

Excessive speed kills more people than any other type of violation.

Top Awards for Excellence Won by State 4-H Youths

A talent for raising sheep and speaking in public earned top state 4-H honors for three Maryland 4-H'ers.

Named winners in their 1967 4-H projects are: Kendra Hall of Germantown, Nancy Stansfield of Ellicott City and Charles Staines of Sparks. All are 18 years old. They were selected by the Cooperative Extension Service.

When Miss Hall started her 4-H Sheep project five years ago she knew nothing about livestock. She became so enthusiastic about her 4-H work

15 boys enrolled in the agricultural course at school, she was the first girl extended membership in the Gaithersburg chapter of Future Farmers of America.

The daughter of Mr. and Mrs. Ernest Hall, she received a wrist watch from Wilson & Co., Inc. as state winner in the 4-H Sheep project.

Pure Oil Division, Union Oil Company of California, awarded Miss Stansfield a chest of silverware and Staines, a wrist watch, as winners in the 4-H Public Speaking program.

Staines

Miss Hall

that she persuaded her family to purchase a farm. Together with her brother she has raised 70 purebred Cheviot sheep and she is now studying for a career in animal husbandry at Ohio State University.

Miss Hall has shown several champion animals at the state fair and in 1966 was third high individual in state livestock judging. The only girl among

Staines, son of Mr. and Mrs. Charles Staines, has won prizes for his vegetables as well as for public speaking. In his winning speech, "Youth's Role in Community Government and Community Affairs," he said that citizen responsibility goes beyond payment of taxes, obedience to the law and service in the armed forces. Citizens have a responsibility to keep themselves informed on the issues of the day, he said.

We Don't Have To Guess!  
God Himself Tells Us  
What To Believe

Reason alone is enough to compel most people to believe in God.

But our limited intelligence does not tell us *what* to believe. It doesn't explain God's relationship to us, or our relationship to God. Although logic alone may lead us to a positive conviction, it takes more than that to give us a positive knowledge and a clear understanding of the purpose of our lives.

Fortunately for us, God does not leave us to guess or theorize. He doesn't ask us to figure out for ourselves whence we have come, why we are here, what is the purpose of our lives. On the contrary, He gives us a clear and certain basis for our faith through His own divine revelation. By words and deeds, He reveals Himself to us — making sure that we can understand.

It is through revelation that we have divine assurance of our own eternal destiny. It is through revelation that we learn why we are here, how we must live, what we must believe. It is through revelation . . . and not our own imagination . . . that we learn of the divine and omnipotent nature of God, the Creator of all things.

It is in the Bible, of course, that we read the history of revelation, which is also appropriately called the history of salvation. In the Book of Genesis of the Old Testament, we are told of the beginnings of revelation

in God's dealings with the people of Israel. In the New Testament we find God again revealing Himself in the person of Jesus Christ.

God has revealed to us that we have an immortal soul — an eternal destiny. As St. Paul wrote: "Eye has not seen nor ear heard, nor has it entered the heart of man, what things God has prepared for those who love him" (1 Cor. 2:9). In revelation we find what God means by "those who love him."

We have just published a new pocket-size pamphlet discussing the history of revealed religion. It takes only a few minutes to read and will give you a new and fresh viewpoint on the God of revelation . . . and new help in formulating your own spiritual life.

We'll be happy to send you a copy of this pamphlet free upon request. There's no obligation and nobody will call on you. Write today . . . ask for Pamphlet No. KC-21 entitled "Lessons of Genesis."

PEOPLE PROTECTORS

Did you ever think of ads as guardians of your individuality? They are, you know.

In a time when the edges are being eaten off our personalities and we're all being reduced to card-index numbers, we need to hang on to some things.

Like our freedom of choice. And that choice is yours only so long as competition and free enterprise and advertising are working for you. Guard them. For they stand between you and a dull and standardized life.

Read I Timothy 2:1-8.  
Pray for one another. (James 5:16).

Some time ago, when I was recovering from a heart attack, several of my friends wrote in cards sent to me that they were praying for me. What an inspiration that message gave me! They did not say, "We're thinking about you." They said, "We're praying for you." In their periods of devotion, they were lifting me up to God, asking His healing power for me.

Through Jesus' teachings and the inspiration of the Holy Spirit, we can daily find divine help. God imparted this as we bring Him our adoration, confess to Him our sins, thank Him for His goodness

to us. God has given us prayer as a means for making intercession in behalf of others—persons, families, churches, nations. We cannot measure the divine power which praying releases in our lives and in the lives of those for whom we are praying.

**Prayer**  
Father, we thank Thee for the strength and power made available to us through prayer. May we bring all things to Thee in prayer. Keep us thoughtful of others, teaching us to uphold them by our prayers and asking Thy divine help in their lives. In Jesus' name. Amen.

**Thought For The Day**  
Am I praying to God in behalf

of my neighbor?

David A. Cowdrick, Jr.  
(New Jersey)  
Copyright—The Upper Room

Major changes in the Social Security Amendments of 1967 are as follows:

A benefit increase of at least 13% for all persons now receiving social security cash benefits. The increase is automatic and will be paid early in March.

The amount of annual earnings subject to the social security tax has been increased from \$6800 to \$7800 effective January 1, 1968. The tax rate for 1968 remains the same, 4.4% for the worker and the employer.

A change in the retirement test whereby a worker can now earn more and still get a benefit check every month. Beginning in 1968 a worker can earn up to \$1680 in a year and receive benefits all year. Earnings over this amount can result in a loss of some benefits unless the worker is age 72 or older.

Dependent children of a woman worker was fully or currently insured at time of retirement, disability or death.

Clergymen will now be covered under social security automatically unless they sign a special statement that they are conscientiously opposed or opposed on religious grounds. This does not apply to members of religious orders who have taken vows of poverty and is effective for taxable years ending after 1967.

Servicemen on active duty will have greater protection starting in 1968. Under the old law only military base pay was counted toward determining benefits. Now, an additional amount of up to \$100 a month will be automatically added to base pay to give credit for the value of meals and lodging.

#### LEGAL

NO. 21,846 EQUITY IN THE CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND  
ERIKA W. KENNY

Braddock Heights, Maryland  
VS.  
ROBERT D. KENNY  
7921 Irving  
Westminster, Colorado

#### ORDER OF PUBLICATION

The object of this Bill is to procure a divorce A VINCULO MATRIMONII from the Complainant, Erika W. Kenny, from the Defendant, Robert D. Kenny.

The Bill states in substance, that the Complainant, Erika W. Kenny, is a resident of Frederick County, State of Maryland, where she has resided for more than one year last past; that the Defendant is a non-resident of the State of Maryland, whose last known address is 7921 Irving, Westminster, Colorado; that the parties to this cause were married on the 8th day of March, 1954, in Berlin, Germany; that as a result of the said marriage seven children were born, namely, Mary Jean Kenny, 16 years of age; Robert Dale Kenny, Jr., 14 years of age; Johanna Loretta Kenny, 12 years of age; Deborah Ann Kenny, 10 years of age; John Edward Kenny, 8 years of age; Heidi Lynn Kenny, 7 years of age; and Dwight Allen Kenny, 5 years of age; and that the parties to this cause have voluntarily lived separate and apart without any cohabitation for more than eighteen months prior to the filing of this bill of Complaint, and that the separation between the parties is beyond any reasonable hope or expectation of reconciliation. The Bill prays that the Complainant may be divorced A VINCULO MATRIMONII from the Defendant and for general relief.

It is thereupon this 3rd day of January, 1968, by the Circuit Court for Frederick County, Maryland, sitting as a Court of Equity, ORDERED that the Complainant give notice to the said non-resident Defendant of the object and substance of this Bill of Complaint by causing a copy of the same to be published in some newspaper published in Frederick County, Maryland, once a week for four successive weeks, prior to the 10th day of February, 1968, commanding him to be and appear in this Court, in person or by Solicitor, on or before the 12th day of March, 1968, to show cause, if any he has, why the relief prayed for in the Bill of Complaint should not be passed as prayed.

Disabled widows and disabled dependent widowers of workers insured at the time of death may now qualify for reduced benefits as early as age 50.

Workers disabled before age 31 may now qualify for benefits on the basis of a more liberal work test, that is, they will need fewer quarters of work to qualify.

Persons enrolled under the supplemental medical insurance may now be reimbursed for medical bills on the basis of an itemized bill.

The time limitation on filing a claim for medical insurance will expire on March 31, 1968 for medical bills incurred in July-September 1966.

For additional information and leaflets on these and other important changes in the social security act, phone or visit your nearest social security office.

The office servicing Frederick County is located in Frederick at 912 East Street, Monocacy Village Shopping Center.

#### To Take Census In This Area

During the week of January 15, the Bureau of the Census will obtain information from working people in this area on the length of time they have been on their current jobs, according to Director John G. Gibson of the Census Bureau's Regional Office in Philadelphia.

This job tenure information is being obtained for the U. S. Department of Labor's Bureau of Labor Statistics. The question will be asked in addition to the regular monthly inquiries on employment and unemployment included every month in the Bureau's Current Population Survey.

The information will be collect-

ed from scientifically selected sample households in the area as well as in 448 other areas throughout the Nation.

Census Bureau interviewers who will visit sample households in this area during January include: Mrs. Marjorie A. Fee, Frederick.

#### On Sports Panel

Dr. John J. Dillon, athletic director at Mount Saint Mary's College, represented the college at the 62nd Annual Convention of the National Collegiate Athletic Association held this week in New York City.

Dr. Dillon served as a member of the District III, College Division Round Table on Tuesday. The panel discussed problems partic-

ularly affecting the smaller colleges including such topics as additional college division championships, the analysis of the regional championship program, the problem of dual membership in the NCAA and the NAIA, the possibility of additional competitive divisions, and the abolition of the freshman rule.

Other members of the Round Table were: Harvey Chrouser, Wheaton College; Jim Higgins, LaMar Tech; Joe Pease, Kansas State Teachers; Bill Wall, MacMurry College; and Howard Gentry, Tennessee A&I State University.

Educational benefits for veterans who served after Jan. 31, 1955, were substantially increased by Public Law 90-77.

## Cure Toothaches Before They Start

In bygone days, some people believed that kissing a donkey would cure a toothache. Others believed that a sprig of parsley hung around the neck would prevent a toothache. While modern dentistry has dispelled odd superstitions, there are still misconceptions about dental health.

During the week of Feb. 4 through 10, the nation will observe the 20th anniversary of National Children's Dental Health Week. Its purpose is to provide sound dental health information to children and parents, and to remove misconceptions about dental health.

Today, people don't go around kissing donkeys, but some still believe that dental caries (decay)—the cause of a toothache—can be cured. It can't. Dental decay can be removed from a tooth and the tooth filled. And, with proper care—by cleaning the teeth after meals and by cutting down on sweets—the decay possibly won't recur.

Decay can be prevented—not by parsley, but by fluoridation. Countless studies of children in fluoridated communities have proved that fluoride in the water prevents decay by about 65 per cent. And, if fluoride is not in the water, the dentist can either paint a child's teeth with a fluoride substance, or he can prescribe dietary fluorides. The American Dental Association says some fluoride toothpastes are recognized as effective in decay-prevention.

Here are some important facts about dental health:

—Baby (primary) teeth are important. They save the proper eruption space for permanent teeth and are necessary for chewing, speech and appearance.

—Milk does not prevent decay. It helps the teeth form properly.

—Sweets are a causative factor in decay and their consumption should be limited, probably to meal times.

—A great proportion of children have some type of gum disease. If untreated, the disorders will become more serious as the child grows. Gum disease is the greatest cause of adult tooth loss.

—Destroyed tooth enamel cannot be repaired. If a tooth stops aching, this means the pulp has been infected—an indication of real trouble.

Very few people are "immune" to dental decay. Approximately 98 per cent of the population suffers from caries. But regular toothbrushing, fluoridation and routine dental care will greatly reduce decay. — 4-68

In its pioneering exploration of space,

the U.S. Army was FIRST:

• To penetrate outer space, with a rocket fired Feb. 24, 1949.

• To successfully fire an intermediate range ballistic missile, JUPITER, May 1957.

• To solve the problem of re-entry heat, August 1957.

• To place a Free World Satellite in orbit around the earth, EXPLORER I, Jan. 31, 1958.

• To place a U.S. satellite in orbit around the sun, March 3, 1959.

• To place primates into outer space and successfully recover them, May 28, 1959.

JUPITER C powers EXPLORER I into orbit  
Jan. 31, 1958

## YOUR INCOME TAX

## Questions and Answers

Q. I took a loss on some shares of stock I sold this year. Can I

deduct this on my income tax return? A. Yes, losses on the sale or exchange of capital assets such as stock can be deducted for income tax purposes when they ex-

ceed capital gains.

The loss, whether short or long-term, must first be used to offset any similar capital gain you had during the year. Then any net capital loss can be used to reduce your taxable income up to \$1,000.

Capital losses in excess of \$1,000 can be carried over to future tax years. Schedule D of Form 1040 is used to compute capital gains and losses.

Q. Where should I send my January estimated tax payment? A. Check the notice you received indicating the amount you owe. It will indicate where the payment is to be sent.

Q. I started my own business last year and have a few people working for me. When do I have to get withholding statements to them?

A. The law requires employers to issue them by January 31. Many employers try to get them to employees as soon as possible after January 1 so they may file tax returns early.

Note that if any employee leaves you during the year, you must furnish him with a W-2 statement within 30 days of his final day of employment.

Q. If I make a charitable contribution by check before the end of the year can I deduct it on my 1967 return even though the check is not cashed until 1968?

A. Yes, you should take the deduction in the year you gave the check provided it's dated for that year.

Q. Tips make up a good part of my income. Will they be included with my wages on the W-2 my boss gives me?

A. If you report tip income to your employer for Social Security purposes it will be recorded on your W-2 statement. Any tip income not included on your W-2 statement because it had not been reported to your employer must still be included in income when you prepare your tax return.

Q. How old do you have to be before you are required to file a federal income tax return?

A. Age is not the consideration. Anyone with income of \$600 or more, \$1,200 for those 65 or over, is required to file a federal income tax return.

## Blueprint For Civil War

When leaders of the swiftly expanding "Black Power" revolutionary force in America write in their "underground" press, speak before strategy meetings of their lieutenants or harangue emotionally attuned mobs of followers, their words and phrases and militancy are an extension of the outpourings

of Robert F. Williams, Negro Marxist now operating out of Peking, China. A fugitive from the FBI, after being involved in Monroe, Louisiana in the shooting of a policeman and the kidnapping of a white couple as hostages, Williams from 1961 to 1967 directed the formation and expansion of the "Black Power" force from his "exile capitol" in Havana, then moved to Peking.

For six years his short-wave radio incitations to American Negroes and his violent "news-letter", The Crusader, came out of Castro's Communist fortress and blanketed most of the United States, while he brought into Cuba many of the present "Black Power" leaders for strategy meetings with himself and Ernesto "Che" Guevara, the guerrilla warfare "master", recently reported killed in Bolivia. Stokely Carmichael, co-founder of the Student Non-Violent Coordinating Committee ("Snick") and now the messiah of "Black Power"; and Max Stanford, present U. S. leader of the Revolutionary Action Movement (RAM), are among those who have spent much time in Cuba and might well be considered Williams' lieutenants.

## Says Revolution Can Succeed

Through clandestine channels, we have through the years been able to receive Williams' newsletter. His latest, with the usual masthead picturing a machine gun held in the hands of a black man, has just arrived from No. 1 Tai Chi Chang, Peking, China, after having been smuggled into the U. S. (it is banned by the Post Office Department) through Canada. Probably 25,000 copies go into the hands of Carmichael and Stanford followers throughout the nation.

The latest issue, as has all recent issues, stresses the proposition that Afro-Americans, under adequate leadership and with proper organization, can conduct a successful revolution and take over the United States. It also presents ominously, 15 pages of instructions on how to prepare for and organize the kind of riots that fuse the revolution, with much specific information on guerrilla tactics and weaponry.

## "Overtune The System"

Here are a few excerpts: "I want to explore America's weakness and to advance the study of the potential of a minority revolution. . . If one is forced to resort to revolutionary violence to counteract tyranny, he should spare no effort to overturn the system and destroy the structure. . . The Afro-American is in range of the American giant's Achilles heel. American production, communications and the normal function of the affluent society are exposed to the Afro-American's natural revolutionary reaction to tyranny and oppression. . . The match and gasoline would be his most effective weapon."

"A precision type urban guerrilla warfare is the prerequisite. . . There must be central planning and a national supreme command. Afro-American revolutionary forces must create a

top-notch security agency. . . It must infiltrate the armed forces, the National Guard, the police, the FBI, the CIA, public utility services and all political groups, right, center, and left. Fire Teams

"The most aggressive and irresponsible arm of the overall organization would be the fire teams. They would work in complete secrecy and (their) mission would be sabotage. Thousands of these groups would be organized throughout racist America. . . They could render America's cities and countryside impotent. . . A few teams could start miles and miles of fires from one city to the other. The psychological impact would be tremendous. By day the billowing smoke would be seen for miles. By night the entire sky would reflect the holocaust and emit a feeling of impending doom. . .

"What type of weapons should be in the arsenals of the Black Revolution? (In addition to modern rifles, heavy machine guns, hand grenades, mortars, bazookas, anti-tank guns). Guerrilla forces should rely heavily on simple and homemade weapons. Militant minded brothers in the service will be able to aid in securing weapons of all descriptions. . . Molotov cocktails are very effective weapons in urban guerrilla warfare; however, a jumbo size is even more effective.

Next week: Williams' instructions on the manufacture and use of Jumbo Molotov Cocktails.

## Cool-Headed Cows Give More Milk

Cool-headed cows give more milk, the United States Department of Agriculture reports. In tests, cows gave 15 to 20 per cent more milk when their heads and necks were held in enclosures cooled to 60 degrees than when they were housed in an 85-degree barn. Reduced cost is the main reason for cooling only cows' heads and necks to reduce milk production losses in hot weather. Most dairymen hesitate to air-condition their barns because of high installation, operating and maintenance costs.

Storing fresh water by "injecting" it through wells into subsurface rocks is being tested by hydrologists of the Geological Survey, Department of the Interior and the city of Norfolk, Va. If successful, the method of underground water storage may have far-reaching applications in many coastal areas where surface storage is difficult or expensive. Hydrologists admit that experiments involving techniques for storing fresh water underground are not new. This test, however, will be the first time that large amounts

of water will have been involved. Researchers hope that hundreds of millions of gallons of fresh water will be stored underground and held "in reserve" for several years.

Chrome pigments are now being manufactured in Huntington, W. Va., adding to the list of colors produced in the Ohio River town. The Holland - Suco Color Company, which has a plant in Huntington, has begun production of primrose chrome yellow and soon will be producing a full range of chrome pigments. The chrome operation has been moved from Brooklyn, N. Y.

On optical observatory costing \$575,000 will be built by the University of Michigan at Peach Mountain, 15 miles northwest of Ann Arbor. Its 48-inch telescope will provide more observation opportunities, and, like the present telescope on the central campus, will be designed for stellar observations, specifically the measurement of the spectra of stars. The telescope will be equipped with a special spectrograph and photoelectric cells to translate light waves of stars into electrical im-

pulses for computer analysis. Equipment for taking conventional photographs will also be built in. General Aviation is on the increase, according to the Federal Aviation Administration. Non-airline pilots last year flew 104,706 airplanes a record 3.3 billion miles in 21 million hours. They consumed 512 million gallons of gasoline and jet fuel.

## OUR SIXTH ANNUAL

## WINTER DISCOUNT PROGRAM

## NOW IN EFFECT

This unique program was begun to benefit both YOU and OUR COMPANY.

Since it is most impractical to place foundations during the inclement winter weather, there was for many years a large demand for memorials to be erected in the spring. Most families would wait until warm weather and place their order for a monument at that time. Certainly, you can realize that this created quite a backlog of orders for spring installation.

Another reason which we feel is most important, is that it provides year around work for our employees. Should you make your selection now, our craftsmen will complete the carving and lettering during the inclement weather, thus avoiding any unnecessary delay next spring. Your memorial will be installed when weather permits in the spring. As an incentive for you, we also offer outstanding discounts throughout this period, which we allow on ALL our monuments, and markers.

Following, is our discount schedule:

Dec. 4, 1967 to Jan. 13, 1968	15%
Jan. 14, 1968 to Feb. 13, 1968	10%
Feb. 14, 1968 to Mar. 10, 1968	5%

The above discount prices assure you of guaranteed substantial savings.

Other features of this unique program are:

- \* Payment in spring, AFTER you have inspected completed installed memorial.
- \* Free transportation to and from our large and complete display.
- \* Monthly terms available, if desired.

## WINTER WOES by Pinson

She could see outward only in peeks,  
Dead wiper blades causing the streaks  
That she had to look through—  
And which hampered her view—  
Now her car won't be fixed up for weeks!

## PREVENT THOSE WINTER DRIVING WOES

The Safe Winter Driving League presents the following tip for safer winter driving from the National Safety Council: "Don't be a 'peep-hole pilot.' Brush snow completely off front, back and side windows. Replace dead wiper blades with live, new ones to prevent streaking. All your lights should be working, with headlights aimed properly. You must see danger to avoid it."

## Teens Are Tops in March of Dimes Fight to Conquer Birth Defects

"Taps Are 'Tops'" is the motto of the Teen Age Program of the March of Dimes—and these teens are "tops" with the thousands of children who are helped by TAP support of the March of Dimes campaign against birth defects.

Young people today want to be involved in what's happening and The National Foundation-March of Dimes offers them involvement in the battle against one of mankind's oldest enemies. Since nearly half the babies in this country go to the altar before they are 21 years old, teenagers have a very real stake in the birth defects campaign.

For TAP volunteers the March of Dimes has special meaning. This is the first generation of children to grow up free from fear of polio, thanks to vaccines developed with March of Dimes funds. After the conquest of polio, the voluntary health organization turned its attention to birth defects.

For the last decade, the March of Dimes has led the fight against defects which occur in a quarter of a million newborn babies annually in the United States. To do this, it supports 100 birth defects centers throughout the country, as well as large-scale research and education programs.

Whether they are sponsoring a fund-raising auction in Alabama or holding a young adults conference on birth defects in Minnesota, TAP members are anything but youthful amateurs in what they do and how they do it. They are frequently honor students, class officers and good athletes as well as hard-working volunteers for the March of Dimes.

National TAP chairman, actress Kathy Garver, is a good example. The pretty 19-year-old who plays "Sissy" on the CBS-TV series, "Family Affair," also is a full-time student at the University of California at Los Angeles. Her career has included featured roles

Young volunteers in the Teen Age Program (TAP) for the March of Dimes visit a birth defects center to see firsthand how their efforts help children born with serious defects.

in television, radio, motion pictures and on the stage. She is enthusiastic about her new role as TAP chairman because of all the March of Dimes is doing for children burdened by severe birth defects. "As teenagers and future parents," Kathy says, "we hope our efforts will help others to be spared."

TAP members work year-round on projects to make society aware of the responsibilities all face when a child is born with a serious handicap. Susan Haines, 18-year-old TAP chairman for South Dakota last year, arranged a series of community lectures on birth defects by members of district medical societies.

Simon Reems, 18, of New Orleans, 1967 TAP chairman for Louisiana, worked more than 700 hours for the March of Dimes while keeping up in varsity sports and acting as sports editor for the school paper.

Jon Cieslak, also 18, helped set up a Young Adults Leadership Conference at the University of Minnesota and held other workshops deal-

ing with birth defects problems while he was TAP chairman of the Greater Minneapolis area. Now at Princeton University on a full scholarship, Jon belonged to the National Honor Society in high school and also covered school sports for a local newspaper.

Increasingly, TAP leaders from public, private and parochial schools, as well as youth organizations and church groups, are holding highly successful forums which treat every aspect of birth defects problems. Of special interest to these future parents is information about preconceptual and prenatal care—ways they can help give their children a healthy start in life.

The conferences, which include prominent medical speakers, educational and community leaders, often are co-sponsored by local colleges and universities.

Films and information kits are also available from The National Foundation-March of Dimes for use in public education projects in schools and community organizations.

## TRY THE UNUSUAL

Sometimes it pays to throw away the "book" when fishing and try the unconventional. Imagination and a willingness to experiment when fish won't bite often produces results when all the proven methods fail.

Breaking the so-called rules when they are unworkable is the mark of a wise and usually successful angler, say the fishing experts at Mercury outboards. And, although such things may seem strange or comical, they may be well worth the small effort it takes to give them a try.

A tree is a good example. Usually its overhanging branches are a problem, and frequently you'll find a limb that's been decorated with glittering ornaments by erring casters. Yet, this same limb can be a blessing in disguise.

Using strong line, try casting a fly or bug over the branch and permit it to dangle lightly on the surface directly below. It sometimes proves just the thing to excite a reluctant batter. Boating a fish hooked in this manner is more a matter of power than finesse, and you may lose more than you land, but it will work on occasion.

Another device calls for the use of two lures instead of one. Tandem fly-fishing for trout is common and extremely effective, yet frequently overlooked. Link two flies together with leader material, one behind the other about four inches. This same idea works with plugs or flies and plugs or bait in combinations. There's no end of interesting fish teasers that can be concocted, and often they're just the answer.

These are just two deviations that can be tried, observe the Mercury lads, but the list is limited only by imagination. Who knows, maybe you'll find a "sure thing" that leads to a full stringer.

### VFW Auxiliary To Cater Reception

The regular meeting of the Ladies Auxiliary to Emmitsburg Memorial Post 6658, Veterans of Foreign Wars, was held last Thursday evening in the Post Home with 18 members present. President Catherine Hodge presided. There was a petition for membership and Dolores Ray was admitted and installed as a new member.

Carmen Topper was asked to contact Cub Scout Packs, Brownie Troops and schools to see if anyone is in need of a flag—the group's contribution to Loyalty Day.

A communication from the Department asked that all auxiliaries appoint a Safety Director. Helen Sanders was appointed to this post.

It was announced that the ladies would serve a wedding reception on Saturday for the Baker-Felix wedding. The following volunteered to help: Rita Byard, Catherine Hodge, Jane Orndorff, Carmen Topper, Mary Topper, Dolores Henke, Ann Stoner, and Evelyn Ott.

The Auxiliary has ordered a hospital bed for the use by people of the community. Anyone wishing to borrow it should contact Mary Topper (Mrs. Donald Topper), on Federal Avenue. The bed will be stored in the Auxiliary meeting room.

The draw prize was won by Anna Stoner. Refreshment committee for next month is Carmen Topper and Rita Byard.

### Mount Driver Education Plan Lauded By Police

Mount Saint Mary's College was the recipient of a certificate of appreciation from the Maryland State Police, Col. Robert J. Lally, superintendent, and the Baltimore Safety Council, Gordon H. Dalsemer, vice president of the Traffic Division, for the program of defensive driving offered at the college by the Cogan Union Board.

The program was presented under the chairmanship of John C. Martz, junior from Rockville, Md., and Mark J. Regan, senior from Plainfield, N. J.

The certificate was presented to the Office of the Dean of Student Affairs by the Maryland State Police, Frederick Barracks.

### Represents Mount

Robert J. Callanan, LL.B., Baltimore attorney and alumnus of class of 1950, Mount St. Mary's College, has been appointed as the Mount's lay representative to the Board of the Association of Independent Colleges in Maryland, Inc., according to Rt. Rev. Hugh J. Phillips, college president.

Mr. Callanan is a former vice president of the college's National Alumni Association and resides at 4601 Roland Avenue, Baltimore.

NOTICE TO BIDDERS  
The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids on Test Borings at the Frederick Community College site, Frederick, Maryland 21701.

### Scenes Of Charnita To Be Televised

Coco the poodle is learning to ski at Charnita and the results of this unusual canine adventure may be seen next week on the Claire and Coco show on Washington's WMAL-TV, channel 7.

Coco and his sidekick, Claire, will not only sample the delights of skiing but will also try tobogganing and, if Coco runs true to form, there will also undoubtedly be a goodly share of horse (or dog) play.

The ski lessons will be aired on Monday, January 15, and the toboggan ride on Wednesday of that week. The final segment of Coco's adventure at Charnita, which will include a demonstration of snow making, will be shown on Friday, January 19.

### Collegians Named To Honor Society

Seven collegians at Mount Saint Mary's College have been named to the national Catholic scholastic honor society, Delta Epsilon Sigma, Zeta Chapter. To achieve membership a collegian must maintain a 93% or better scholastic average.

Three Marylanders were named: William T. Merritt, Cullen; James M. Murray, Hagerstown; and George M. Schleupner, Jr., Baltimore; two Pennsylvanians—William R. James, Gettysburg, and Anthony M. Nespoli, Berwick.

Others were: Frederick M. Blaszk, Sayreville, N. J., and Edward W. P. Smith, Medina, O. Prof. Bernard S. Kaliss is moderator of the college chapter and Dr. John J. Dillon, chairman of the English Department, is a charter member.

### Taneytown Garbage Problem Aired

The operator of the Triple A Garbage Service appeared before the Taneytown mayor and town council Monday night to report that he has complied with the town's ordinance.

Lorraine Stonesifer, Deep Run Rd., near Union Mills, who had been picking up garbage in the northern Carroll area for three years, claimed that he did not know of the town's exclusive contract with Walter Benchoff, Sabillasville.

Stonesifer also explained that he was selected by several Taneytown residents because his firm picks up items that Benchoff will not.

Asked where he dumped the garbage, he replied, "in the county landfills."

Stonesifer also revealed that he picks up garbage in all sections of Carroll County including incorporated towns which furnish residents with collections.

The mayor and town council told Stonesifer that Benchoff's contract with the town ends in May and that it is possible that the service contract may be placed on bid.

Both parties agreed that the contract must be honored.

Stonesifer was asked to refrain from collecting garbage in town but was granted permission to haul junk subject to periodical checks by town officials to see that no violations are occurring.

Mayor Neay Powell said that one irate citizen and one of Stonesifer's former customers in the town before service was discontinued December 31, asked by telephone, "Are you going to select my milk man too?"

### Fire Damages Smith's Sawmill

Thurmont and Emmitsburg firemen saved the Charles Smith sawmill, 4 1/2 miles south of Emmitsburg near Payne's Hill from destruction Tuesday evening shortly before 7 o'clock.

The Thurmont firemen were summoned first and then called Emmitsburg's Vigilant Hose Co. to assist through the new Frederick County central alarm system.

Emmitsburg Fire Chief Guy R. McLaughlin said two pumpers and the service truck responded from Emmitsburg. The Emmitsburg firemen pumped water for 400 feet after breaking a hole through ice to secure water from a stream.

The fire had started in a shed atop the large industrial pallet making factory owned by Mr. Smith. The shed covered a motor used to provide power to draw sawdust from the plant to an outside area. The motor and shed were badly burned as was a portion of the roof about the shed, but the firemen were able to prevent the remainder of the frame and tin structure from being destroyed.

### Linettes Swamp Fairfield Team

After losing their first game to St. Joseph's High School, the Emmitsburg High School Linettes retaliated with a 75-12 win over Fairfield.

Connie Seiss led the scoring with 20 points. She was ably assisted by Franny and Peggy Wagman, hitting for 15 and 14 points, respectively. Also in double figures were Bonnie Fuss, with 13 points, and Judy Smith with

10. Emmitsburg also won the JV game, 42-3. Peggy Wagman took scoring honors with 16 points while Nancy Carr pumped in 14 for the Jr. Linettes.

The Linettes will meet Taneytown January 12.

### H & R Block Modernizes Frederick Office

H&R Block Co., America's largest income tax service, has modernized the front of its office at 223 N. Market St., Frederick.

The shoddy run-down windows have been converted to a modern gleaming black front with raised white lettering.

The Block firm operates over 2,000 offices in 45 states, the District of Columbia, Puerto Rico and Canada.

Manager of the Frederick office is Joseph Dunn, a native Marylander, from Baltimore. He is the nephew of the late Bernie Winkel who was known as the Auto King of Frederick. Dunn has 15 years of income tax experience as a consultant.

In 1967 H & R Block offices prepared over 3,000,000 returns of the 70,000,000 filed by the April 17 deadline. The average American pays Block \$10 for this service.

Dunn says "the chances are considerably better than even that you will overpay your Federal income tax this year" . . . and "even stronger possibility that you will overpay your state tax. You won't even know it—neither will the Government."

According to Dunn, by far the largest reason for overpayment is ignorance of tax laws. The taxpayer fails to take a deduction simply because he is not aware of it.

Many people overpay through fear—fear of an audit or of being caught in a mistake. They intentionally tip the scales in favor of the Government.

In 1955 80% of all taxpayers filed their own returns. Since that time H & R Block has grown from one office to a nationwide network of over 2,000 offices from New York to Hawaii by providing a low cost service which assures the taxpayer that he is receiving all deductions available to him without exceeding the legal limit.

### New Road Signs For Gettysburg

All direction signs at the five intersections leading into Gettysburg from new Route 15 will bear the wording "Gettysburg" in addition to the present designations of "Steinwehr Ave.," etc.

## The ZIP Column

Since the effective date of the new postage rates, we have experienced an avalanche of requests for 1c stamps. This past Monday broke all records for stamp sales, other than Christmas Season, when we sold approximately 7,500 1c and more than 4,000 new 6c stamps.

Congratulations are in order for our patrons, for the fine cooperation and compliance with the new postage rate. Very few letters had to be returned for postage, and this is a great help to us.

Special handling service is now available for small parcels, in the third class category, which is equivalent to first class mail service, under parcel post rates.

A reminder must again be given

to please refrain from placing loose coins in envelopes. As the letter is carried mechanically through the canceling machine, it is apt to catch, and then tear the envelope. Therefore, if change does drop for a pack of letters, we have no way of knowing which it came from, unless each and every one of the letters are examined for a tear.

George E. Rosensteel, PM

## Miss Mumma Wed

(Continued From Page 1)

tired in a royal blue jacket dress with black accessories and wore a corsage of white carnations. The bridegroom's mother chose a two-piece suit of royal blue with black accessories and a white carnation corsage.

Following the ceremony a reception was held in the Rocky Ridge Fire Hall. Mrs. Robert Mumma and Mrs. Kenneth Mumma, aunts of the bride, cut and served the five-tier wedding cake. Members of the Rocky Ridge Fire Co. Auxiliary helped to serve refreshments.

Attending the guest book was Miss Charity Duncan of Thurmont.

For her wedding trip to the Poconos, the bride wore a cherry-

red wool suit with black accessories and a corsage of white orchids from her cascade bouquet of white carnations, with streamers of white ribbon and baby mums.

Following the rehearsal, a party was held at the home of the bride's aunt and uncle, Mr. and Mrs. Robert Mumma of Rocky Ridge.

The bride is a graduate of Thurmont High School and Maryland Medical Secretarial School, Hagerstown, and is employed in the Medical Unit at Fort Detrick. The groom is a graduate of the Maryland State Police Academy and is stationed at Westminster.

Prior to the wedding the bride was entertained at a miscellaneous shower given by the bride's aunts, Mrs. Kenneth Mumma and Mrs. Robert Mumma.

A surprise dinner was given the bride by about thirty fellow employees of Fort Detrick, at Betty's Restaurant in the Colonial Room, at which time she was the recipient of many lovely gifts.

## Chronicle Will Publish Baby Photos Shortly

For many years the Chronicle has been running a pictorial feature of the youngsters in this area as "Citizens of Tomorrow". In the near future we will again be publishing free a picture of all the children who are brought by their parents or other guardian to the VFW Annex, Emmitsburg, between 3 and 7 p.m. on Monday, Jan. 22.

## Living Color

An expert children's photographer will take the pictures to assure uniform quality and size for best reproduction . . . and this year will be taken in natural living color. Please dress your children colorfully to take full advantage of the beauty of color

photography. The pictures will run in black and white in the newspaper.

No Cost To Parents There are absolutely no strings to this invitation nor are there any charges to the parents . . . they do not have to be subscribers or even readers of this newspaper to participate. Neither are the parents obligated to purchase any of the color pictures taken.

Those who might desire color photographs may obtain them by making arrangements with the Studio Representative when they select the pose they wish to see printed in the Chronicle. There is no age limit and older children and family groups are especially welcome.

Appointments are not necessary to have your children photographed. Check this date on your calendar now—Monday, Jan. 22—and help us make this a memorable community feature.

Photography will be handled by the Dansville, N. Y. office of Woltz Studios, Inc.

## Local Citizen Discusses Operation

Editor, Emmitsburg Chronicle: It would seem, that preliminary to transplanting a heart from a dead man into the bosom of a live man, doctors might just test the procedure by transplanting a heart from a dead dog into the chest of a live dog.

Instead, 337 times, they checked their procedures by transferring the heart from one living dog into the chest of another living dog.

Why did they not, at least once, try it with one living dog and one dead dog? I'm reminded of a story: It seems that this old lady, a confirmed do-gooder, was in the practice of visiting a nearby lunatic asylum every Saturday

## Safety Circus To Show At EHS

While Jing performs a handstand with Police Officer E. E. Pressly of the "Safety Circus," Lady, leading performer of the 10-dog performing team, awaits her cue.

The dogs perform tricks which illustrate good traffic safety practices. The circus, currently touring the nation, will appear at Emmitsburg High School on January 24.

The show is co-sponsored nationally by the American Trucking Associations and the International Assn. of Chiefs of Police, and locally by the Emmitsburg Lions Club.
