EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, JANUARY 19, 1968

SINGLE COPY, 7c

Weekend

Weather Forecast

Somewhat colder Friday and remaining cool over the weekend. Some rain expected during the period.

Most Anything At A Glance

BY ABIGAIL

Something drastic and sad was bound to result by the actions of thousands of our youth, both in and out of colleges. The startling revelation this week that at least half a dozen young Pennsylvania collegians had become permanently blinded by taking LSD and staring into the sun brought all of us to our feet and there must be some united drive to stamp out this crazy fad by youngsters all over the nation. Glue sniffers, banana peel smokers, etc. had better take warning before they are permanently impaired for life, or perhaps an early death. Who knows? Anxious parents all over the country are actually becoming afraid to send their children away to some of these schools where anything seems to go.

Militant and vociferous Adam Clayton Powell visited this country again this week and announced he had a long string of speaking engagements under contract, but after making several in California he quickly scooted right back to his Bimini. Apparently he wasn't received as warmly as he had anticipated and we are really glad of it. It doesn't take a loud mouth of this type and magnitude long to get a riot started and this is something we could do without. It appears that he will play a large part indirectly, this summer, when the civil rights movement and black power advocates get into full swing. For being kicked out of Congress this windbag has more gall than anyone I have ever listened to. Even the people, his constituents in Harlem, are cooling their attitude toward their former hero and according to late polls he'd have a hard fight to be elected again, if he ever could be. After all, the people of Harlem, several hundred thousand, are helping to pay expenses of the Congress but actually have no representation, so why shouldn't they replace Powell with a "live" representative?

This year apparently will be a tumultuous one what with the presidential election coming up, a fight over higher taxes in the making, and an escalation in the Vietnam War anticipated. This is not to mention the boiling civil rights pot and other sundry problems confronting the country at this time. It appears apparent at this time that our country is getting ready to chase the Viet Cong across neighboring borders and it undoubtedly will cause an increase in the fighting, but then if the enemy can take sanctuary in cities just across the line, why should we sleep beside an enemy fortress? We must therefore pursue them and subdue them. Regardless of what the polls show about President Johnson's popularity, we predict that he'll be swept on to victory easily. The tax hike proposed and fought for by the President still is in for plenty of trouble and may never come about until a bonafide effort is made by the Government to curtail non-essential spending at this time. Civil rights issues will continue as hot as ever this year and in many instances more than likely will get out of hand. Yes, it does appear certain that we are in for a tumultuous year.

Boyle President

Michael L. Boyle, chairman of the Emmitsburg VFW ambulance corps, was elected president of the Adams County Ambulance Corps for 1968 during the annual meeting held at the Midway Fire Hall Tuesday evening. Boyle succeeds Robert L. Heyser of the Gettysburg Ambulance Corps in the presidential post.

Other officers elected were Eugene Long, Bonneauville, vice president, and William Laughman, Biglerville, secretary-treasurer.

Thurmont Grant

An additional grant of \$106,850 to Thurmont from the Federal Water Pollution Control Fund has been announced by Rep. Charles McC. Mathias, (R-Md. 6th).

The money is for expansion and rehabilitation of the sewage treatment plant, Mathias said. The federal government has contributed, previously, \$19,750 toward the total cost of \$422,000.

Baby Pictures Will Be Taken Monday

Monday, January 22, is the big day set to take Living Color pictures of your little ones. The Chronicle is having pictures taken of all children accompanied by their parents or other guardian to the VFW Annex between 3 p.m. and 7 p.m. absolutely free of any charge or obligation. There is no age limit.

The Chronicle wants to publish a picture of your child in a photographic feature series of local children entitled "Citizens of Tomorrow."

A professional children's photographer will take the pictures in Direct Living Color. We emphasize, therefore, that you dress the children colorfully so as to take full advantage of the beauty of Color photography.

No Charge To Parents

There is no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the Chronicle nor even a reader. You do not have to purchase pictures either. Proofs will be shown in Color and you may obtain Color portraits by arranging direct with the studio representative if you want them. That is entirely up to you! The pictures appearing in the newspaper will be in black and white.

Good Pictorial Feature

In keeping with the quality feature policy of this newspaper, we want to make this a memorable feature. This means we want all the pictures of local youngsters we can get to run in the paper. Kiddies and parents alike will reap no end of fun and pride as the pictures appear in the paper. Mothers and fathers of children in the area which this newspaper circulates, please help us and remember the date, Monday, January 22 at the VFW, and bring your children to be photographed. Photography will be handled by the Dansville, N. Y. office of Woltz Studios, Inc.

Engaged

Mr. and Mrs. Robert Hess of Thurmont, announce the engagement of their daughter, Barbara Diane, to Harold Stephen Barbe, son of Mr. and Mrs. Vernon Barbe of Rocky Ridge.

Miss Hess, a 1967 graduate of Thurmont High School, is employed in the library at Mount Saint Mary's College, Emmitsburg.

Mr. Barbe, a 1961 graduate of St. Joseph's High School, Emmitsburg, is employed by Di Maio Brothers, Inc., Rockville, Md.

No date has been set for the wedding.

Represents College At Convocation

Francis X. Ligorano, Dean of Student Affairs at Mount Saint Mary's College, represented the Mount at the special convocation celebrating the fiftieth anniversary of the National Association of Student Personnel Administrators which was held at St. Peter's College, Jersey City, N. J., beginning on January 15.

The Very Rev. Victor R. Yanitelli, S.J., St. Jeter's President, conferred the honorary degree of Doctor of Laws on Earl W. Clifford, Jr., Dean of Student Affairs, Rutgers University, as part of the celebration.

Mark W. Smith, Dean of Men, Denison University, was the guest speaker at the annual banquet and Carl W. Knox, Dean of Student Affairs, who is president of N.A.S.P.A., also addressed the group.

Nearly 150 college administrators were on hand for the affair.

During fiscal year 1967 some 469,000 post-Korean conflict veterans and servicemen on active duty received educational training under the GI Bill.

School Presented Flags By Local Organizations

Sister Mary Xavier, Principal, and Sister Mary Elizabeth of Mother Seton School, gratefully accept flags donated by the American Legion, Veterans of Foreign Wars, and Knights of Columbus. The Emmitsburg branch of each organization participated in this joint project.

The faculty, personnel, and students of Mother Seton School wish to publicly acknowledge their gratitude to the American Legion, Veterans of Foreign Wars, and the

Knights of Columbus of Emmitsburg for the three flags which were recently presented to the school. Thanks to the generosity of the members and the outstanding co-operation among the organizations, we now have matching American, State and Papal flags.

Liners Tounce Middletown

The Emmitsburg High Liners, pulling out all the stops, pounded the Middletown High School Knights Tuesday night, 87-77 on the local court.

In a fast paced game, the Liners jumped off to a quick 28-11 lead at the end of the first quarter, and managed to hold off the visitors the rest of the way.

Gary Manning got the Liners off to a fast start when he sank a bucket from 10 feet out. Emmitsburg's Lee Koontz, a 6'2" center who led both teams in scoring with 27 points, then connected from beneath the bucket for the Liners, and Dick Masser followed with a fade-away jumper.

Mike Holter brought the Knights within two with his jumper from the foul line, but Koontz came back with back-to-back buckets, to up the score to 10-4. The Liners kept pouring it on in the period as Koontz hit for five more points to send the locals into a 28-11 lead at the end of the first period.

The Knights never gave up and battled back in the fourth period to close the gap to 69-66 at one point, but Emmitsburg's Dennis Valentine hit on back-to-back buckets and the Liners were off and running.

Besides Koontz's 27 points on 10 field goals and seven foul shots, Gary Manning chipped in with 21 points; George Baker added 12 and Valentine had 10.

In the preliminary contest the junior Liners ran over the baby Knights, 60-24.

Honor Society Gains Members

The Theta Psi Chapter, Phi Alpha Theta, international history honor society, at Mount St. Mary's College, has inducted seven new members: Michael P. Collins, Martinsville, N. J.; Stuart D. Flynn, Upper Marlboro, Md.; Edgar J. Ganz, Jr., Lafayette Hill, Pa.; Robert M. Holland, Marlboro, N. J.; Dennis J. Swythe, Woodbury, N. J.; Robert C. Vogel, Wyomissing, Pa.; and Samuel C. Whitt, Mt. Rainier, Md.

Prof. Robert C. Neal, assistant professor of history and moderator of the chapter, spoke to the group and Prof. Charles Ritter, formerly of the Mount faculty and currently from Notre Dame College, Baltimore, also spoke.

The meeting was conducted by chapter officers: Charles M. Stoehr, Roslyn Heights, N. Y.; Thomas P. DeVita, Paterson, N. J. and James G. Burke, Arlington, Va.; president, vice president, and secretary-treasurer, respectively.

Will Improve Cunningham Falls

The Cunningham Falls State Park will receive \$140,000 out of \$5,711,500 earmarked for the State Department of Forest and Parks, it was announced Sunday by Gov. Spiro T. Agnew.

The money is part of \$51 million authorized in the 1968-69 capital improvements program.

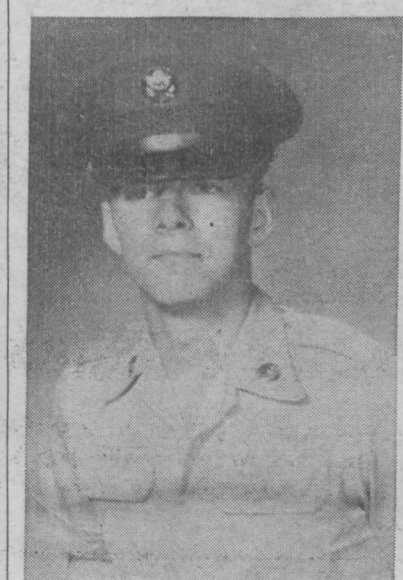

The Cunningham Falls money will be used for beach development and planning and initial development of sewer, water and electric lines.

Migrating rainbow trout that have returned to their native rivers from the Great Lakes have the same silvery coloration as sea-run steelhead. —Sports Afeld.

Brothers Serve In Military

Pfc. James Brown

Pvt. Ronald Brown

Pfc. James L. Brown, Jr., and Pvt. Ronald F. Brown, sons of Mr. and Mrs. James L. Brown, Sr., R5, Hanover, Pa., formerly of Emmitsburg, are serving with the U. S. Army. James, 20, is stationed in Germany. Ronald, 19, is serving at Long Gia, Vietnam. Ronald has been wounded and has received the Purple Heart and Silver Star. James' wife and daughter, reside at 618 Ridge Ave., McSherrystown, Pa.

Mount Exams Scheduled

Semester examinations will begin at Mount Saint Mary's College on Monday, January 22 and will end on Saturday, January 27. The college will recess from Sunday, January 28, until the beginning of the spring semester on Monday, February 5.

The new semester will begin with a re-scheduling of class hours necessitated by the cancelling of all Saturday classes at the college.

On Wednesday, February 7, at 5 p.m., in the College Chapel of the Immaculate Conception, a celebrated Mass will be offered for the students and faculty. An academic procession will precede the Mass with seniors and faculty members participating.

Chair Caning Demonstration The demonstration on chair caning by the Emmitsburg Homemakers Club will be held next month, it has been announced.

This month's demonstration will be on party foods, by Mrs. John Chatlos, at the home of Mrs. Luther Cregger. Dues are payable at the January meeting on January 29.

K Of C Takes New Members; Plan Shrimp Feast

Grand Knight Ray R. Lauer presided over the regular meeting of Brute Council 1860, Knights of Columbus, held Monday evening in the Council home.

Father King, assistant pastor of St. Joseph's Church, spoke briefly to the group asking its cooperation in observing the 160th anniversary of the parish.

New members voted into the organization at the meeting were: Clarence I. Shorb, Francis C. Brewer, Donald F. Rohrbaugh and C. Henry Gerkin. The first degree was exemplified for Donald Rohrbaugh and Francis Brewer.

District Deputy Paul A. Keepers announced the third degree will be exemplified on February 25 at Mt. St. Mary's College.

Grand Knight Lauer appointed the following committee to act on resolutions to be presented at the State Convention in Ocean City this May: Guy A. Baker, Sr., Carl A. Wetzel, and Arthur Elder.

Carl A. Wetzel, chairman of the coming shrimp feast, announced the date for the affair had been set for February 18.

Hospital Report

Admitted

Miss Linda Finnefrock, Emmitsburg.

Douglas Hoffman, Emmitsburg. James L. Nester, Emmitsburg.

Discharged

Mrs. Edgar Troxell, Rocky Ridge.

Norman Wiley, Rocky Ridge.

Mrs. Sylvester Hann, Rocky Ridge.

Mrs. Earl Andrew, Emmitsburg R1.

Births

Mr. and Mrs. John Umbel, Taneytown R2, daughter, Saturday.

Mr. and Mrs. Thomas Sims, Emmitsburg, son, Sunday.

GI On Furlough

George E. Hess, U. S. Army, stationed in Germany, has recently been promoted to SP/5. He has been spending a thirty day leave with his parents, Mr. and Mrs. Robert Hess, Thurmont. Upon the completion of his leave he will return to Germany to complete his tour of duty of thirteen months with the Military Police.

Ski Thefts

Reported At Charnita

State police are investigating the theft of two pairs of skis and poles valued at \$360 which were stolen from the patron racks at the Charnita Ski Area Resort last Friday evening.

Police listed the owners of the skis as Paula B. Jaworski, Lutherville, Md., and Paul Griffith, Potomac, Md. The theft included a pair of head skis, black with a yellow bottom, valued at \$200, and a pair of head standard skis, black in color valued at \$130. The poles stolen were valued at \$15 a pair.

The theft allegedly took place, police said, while the owners were dining in the snack bar at the clubhouse between 7:45 and 8:15 p.m. Friday. The rack from which they were stolen is at the rear of the clubhouse facing the ski slope.

Richard Brown, ski area manager, said precautionary measures have been taken to insure skiers that their property will be protected. Several employees are keeping a constant surveillance of the ski racks. This was the first reported ski theft at Charnita this year.

The Veterans Administration is guardian to approximately 650,000 incompetent veterans, incompetent dependents and minor children. Their estates amount to almost \$700 million.

The Netherlands cover an area of 12,968 sq. miles.

Mount Cops Two More; Idle 'Til Feb. 3

Two wins out of three games played during the past week was the pace set by Coach Jim Phelan's Mt. St. Mary's College basketball team.

The Phelanmen breezed to an easy 95-67 win over Western Maryland last Thursday in Westminster to chalk up their 11th win of the season.

Western Maryland gave the Mounties good opposition for the first 12 minutes of play but then faded as Coach Phelan's classy outfit piled up a 50-34 lead at intermission. Fred Carter and Luis Grillo bombed the cords for 16 and 13 points in the first half to give the Mount its lead.

Dominating play the entire second half, the Mount pulled far in front and after about five minutes of the half Phelan poured his reserves into action.

Four Mountaineers scored in double figures, Grillo with 20, Carter 19, Dick Dohler 18 and Mike Kelly 12.

Saturday night the Blue and White was felled by a superior St. Joseph's squad in a contest played in Philadelphia, 80-66. It was the second loss for the Mounties this season.

Fred Carter was the big star of the game, pouring 34 points thru the hoop before fouling out with 2:37 left and received a big ovation when he left the game. He formerly starred at Benjamin Franklin High in Philadelphia.

The Mounties gave the Hawks all kinds of trouble throughout the first half when Carter sank eight of 19 tries from the floor on all kinds of shots and added four fouls for 20 points.

It was nip and tuck in the first half with many turnovers. Lou Grillo drew his fourth personal foul for the Mount with 1:05 left in the half and the score tied at 33-33. Then Danny Kelly sank two fouls, Mike Hemsick a pair and Kelly another to make the score 38-33 at intermission.

After five minutes of the second half the Mount trailed only by four but then the Hawks, led by Kelly, Mike Hauer and Billy DeAngelis sent St. Joe's into an 11-point lead. With the score 58-42 Carter scored a trio of goals for the Mount in 43 seconds but the Hawks recovered to win going away.

Playing on their home court in Emmitsburg Tuesday night, Phelan and his crew slipped by Shippenburg State College 91-84.

The Mounties, playing sluggish ball throughout the first half, trailed by as much as nine points but pulled to within 37-36 at intermission.

Leading the second half comeback were Dick Dohler and Luis Grillo, both of whom wound up with 31 points. Dohler's points came on 14 goals and a trio of fouls while Grillo netted 10 shots from the field and sank 11 of 15 fouls.

John Smith collected 26 tallies to be high man for the Red Raiders.

The victory for the Mount gives them a lofty 12-2 record. Due to the mid-semester break, the Mountaineers will be idle until Saturday, Feb. 3, when they play at Old Dominion.

Golibart Named National Secretary Of Mount Alumni

Martin T. Golibart, a native of Washington, D. C. and Frederick, Md., has been named as acting executive secretary for the National Alumni Association at Mount St. Mary's College, according to Rt. Rev. Hugh J. Phillips, college president.

Golibart, who is an alumnus of the college's class of 1957, returned to his alma mater in 1963 as director of development and lay alumni secretary. His current appointment was entailed by the resignation of Rev. Carl J. Fives.

The acting executive secretary has been recently selected for inclusion in the 1968 edition of "Outstanding Young Men in America." He is a member of the American College Public Relations Association, the Tri-State Press Club, the Med-Del. Press Assn., the Knights of Columbus, and the American Legion.

He resides with his wife and three children in the Beagle Apartments, Emmitsburg.

A useful device for polling a boat is a pole vaulter's pole with a "duck foot" added to the bottom for greater purchase. — Sports Afeld.

Senator Brewster Lauds Special Mail Service

Senator Daniel B. Brewster (D-Md.) said this week that Baltimore, Hagerstown, and Salisbury are the three Maryland cities tied into a new nationwide postal airlift network announced this week. Brewster said more than 614,000 pounds of first class mail a month already is being airlifted from Baltimore.

The airlifting of first class mail from Baltimore has increased by 105 per cent within the past year. About a year ago, only 298,971 pounds of first class mail was getting airlift service out of the city, Brewster said.

The increase in mail airlifted from Baltimore is part of a nationwide program announced by Postmaster General Lawrence F. O'Brien. Mr. O'Brien said at a press conference in Washington that all first class mail that can be expedited by air transportation is now being airlifted.

The Postmaster General also said that the Department will be in a position in the next Congress to request elimination of the air-mail postage rate and a merger of airmail and first class mail into a single class priority mail service.

"Within the past year we have interconnected more than 500 cities in a nationwide airlift network," Mr. O'Brien said at the press conference. "As a result, 75 per cent of all first class mail deposited before 5 p.m. is now being delivered the day after mailing, and 90 per cent is being delivered within two days."

Senator Brewster said the airlift of first class mail is a "significant advance" in postal service. "This development fulfills a pledge Postmaster General O'Brien made the day he took office in 1965," Senator Brewster said. "I congratulate him on attaining this goal so rapidly."

Three cities in Maryland are tied into the nationwide airlift network, Senator Brewster said, to handle present and future mail volumes.

They are Baltimore, Hagerstown and Salisbury.

"These are all certified air stop points," Senator Brewster said. "Whenever these points have direct dispatches of first class mail, it is moved out of the city by scheduled airline or air taxi. In some cases, where schedules do not meet postal needs, the mail is taken to the nearest airport with a flight schedule that does meet the post office's needs. But the present airlift network is geared to handle today's mail volumes and anticipated future volumes."

"Every community in the nation benefits from the airlift program," Senator Brewster said. "If a town does not have air service that meets postal requirements, its mail is transported by surface to its neighboring sectional center, from which airlift is provided."

Brewster said the increased airlift burden already experienced at Friendship Airport underlines the need for improved airport mail handling facilities there. He said he will continue to seek such facilities in discussions with Postal officials.

Linettes Downed By Middletown

Middletown handed the Emmitsburg High School Linettes their second defeat of the season last Tuesday at Middletown. Emmitsburg was outscored in the first half 16-3, but came back in the second half to outscore Middletown 13-7. However, the Linettes were a bit late in their scoring attempts and lost the contest 23-16. Connie Seiss led Emmitsburg with 10 points.

Connie Seiss and Judy Smith led the Linettes to their second victory by beating Taneytown 29-24 here Friday. Although Taneytown led at half time, the Linettes were able to pull this one out of the bag with the successful rebounding of Sharon Bell and Cheryl Rohrbaugh.

Announce Birth

Mr. and Mrs. Harvey Dewees of Emmitsburg, announce the birth of a daughter, Angela Marie, at the Annie Warner Hospital on Jan. 11.

Mrs. Dewees is the former Joyce Little, daughter of Mr. and Mrs. Roy Little of Emmitsburg.

A serviceman pays \$2 a month for a \$10,000 Servicemen's Group Life Insurance policy or \$1 a month for a \$5,000 policy. The U. S. Government pays the extra hazard cost of the insurance which is issued by private insurance companies, the VA reports.

Unless a serviceman states in writing that he wants no life insurance or that he wants only a \$5,000 policy, he is automatically insured for \$10,000 while on active duty and for 120 days after he is discharged, according to the Veterans Administration.

STOREWIDE JANUARY CLEARANCE

BABSON'S

POINT
OF
VIEWBabson's Point Of View On:
How To Prosper In 1968

BABSON PARK, Mass., Jan. 18—Most observers of the political, economic, and sociological scene are convinced that 1968 will be a year of recurring crisis for our nation. What are the difficulties most likely to be encountered and how best can you preserve—or extend—your prosperity this year?

How Much More Inflation?

The Federal Reserve still has not really tightened up on money yet. With cash supplies still large by most past criteria, with continued heavy government spending for both defense and non-defense items and programs, and with the prospect of expanding activity in the automobile industry over coming

months, business should be on the rise through much if not all the first half. But, on the whole, it will be a very high-cost boom. In other words, profits will not be commensurate with the increase in volume turnover.

Chances are the economy will start to "overheat" . . . after which you may expect the Federal Reserve, the President, and Congress to take bolder measures to cool it off. When the flood of money is at length dammed . . . when the President imposes selected domestic economic controls . . . when the Congress cuts budget deficits and perhaps enacts higher taxes . . . how will you and your business fare? Will you be in a position to take what comes

. . . to ride through the ups and downs that lie ahead? Manpower And Labor

Whether you are an employer or an employee, developments in manpower and labor will have some effect on your economic situation this year. At least in the forefront of the year, skilled labor will continue to be in good demand . . . while the need will intensify for scientists and specialists. However, there is no shortage of unskilled labor.

Look for a further spiraling of wages during the first six months of 1968 . . . spurred by the recent handsome settlements in the auto industry, expanding living costs, and next month's boost in the minimum wage. All in all, the pressure of wages on over-all costs in manufacturing and service businesses will be keenly felt.

Mend Your Fences

Cost-control will be more important than ever to you as an employer this year. You may have only limited success in bucking the higher price tags on borrowing capital funds. You can't buck the mandatory boost in the minimum wage. But you can exercise a tighter control over your operations with a view to cutting unit costs and to increasing the productivity of your employees . . . for your benefit and theirs.

And if you are working for someone else (and this goes double if you are an unskilled worker!), you ought to remember that your employer has a considerable investment in you and that he pays out a good deal more for you than the wages you receive in your pay envelope. Look about for ways to improve your performance so as to make your work more meaningful and more profitable to you and your employer. Mend your fences, or you may be among those laid off when labor cutbacks become necessary.

Hold On To That Nest Egg
No matter whether you own your business, work for someone else, are a student, or are retired, hold something in reserve for a rainy day. As other costs rise, so too will the cost of credit. Borrowing from tomorrow to pay for what you feel you must have today has become fashionable under the "new economics." But it can

be very risky business if you don't exercise a measure of self-control. In any event, it's costly . . . and you ought not to be paying heavy interest charges if you can possibly avoid them.

If—aside from your reserve for a rainy day—you do have funds to invest, be selective, be cautious, and be patient. Don't jump at any opportunity without investigating its prospects. And remember that if the economy does turn down later this year, cash may well be your best friend.

TODAY'S
Meditation

from
The World's Most Widely Used
Devotional Guide

The Upper Room
© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Psalm 121.

I lift up my eyes to the hills. From whence does my help come? My help comes from the Lord, who made heaven and earth. (Psalm 121:1-2, RSV).

A terrible fire had swept the slopes below Mount Wilson in California. We stood in the canyon below, watching the flames come within three hundred feet

of our homes. Many prayers were silently offered to God, who notices even the sparrow's fall. There was a chorus of audible thanks to God as the wind twirled the flames away from the homes and from the trees.

In the following months the winter rains came and washed away the debris, but left some deeply rooted yucca clumps.

Spring came and the clumps began to show green. The leaves grew out of the dead-looking clumps. From the center, tall stems sprang up and soon burst into bloom—"God's candles" some call them.

They symbolized for us the hope that springs eternal in the soul of man and God's renewing creativity despite forces that cause destruction.

Prayer

Dear Father, we bow in awe as we behold the world Thou hast made. In humility we ask with the psalmist, "What is man, that thou art mindful of him?" We thank Thee for Thy love and care made manifest through Jesus Christ our Lord. Amen.

Thought For The Day

By meditating on God's word of nature, we find illustrations of His love and power.

DOG OWNERS

BUY YOUR LICENSE BY JANUARY 1, 1968

The law provides a fine of from \$5.00 to \$25.00 on any owner of a dog, six months of age or over, which is not licensed after January 1, 1968.

LICENSES AVAILABLE AT

County Treasurer's Office, Frederick, Maryland

You can fill in this form and mail \$1.00 for Male or Spayed Female; \$2.00 for Female; \$10.00 for Kennel (not more than 25); \$20.00 for Kennel (more than 25) to: TREASURER OF FREDERICK COUNTY, FREDERICK, MARYLAND, and your licenses will be mailed to you.

COUNTY TREASURER
FREDERICK, MARYLAND 21701

Please send me tag for my dog described as follows:

Owner
Address
Election District
Male..... Female..... Spayed..... Breed.....

If dog is not six months of age by January 1, 1968, license must be bought when dog becomes six months old.

Failure to buy your dog license will mean not only your arrest, but your dog may be picked up and impounded. The license does not give the dog the right to trespass on anyone's property without the permission of the owner.

CRUMELL P. JACOBS

Sheriff of Frederick County

Arthur C. Simons, Dog Warden, will canvass the County to ascertain if dogs have been licensed.

LEGAL

NO. 21,846 EQUITY IN THE
CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND
ERIKA W. KENNY

Braddock Heights, Maryland
VS.
ROBERT D. KENNY
7921 Irving
Westminster, Colorado

ORDER OF PUBLICATION
The object of this Bill is to procure a divorce A VINCULO MATRIMONII from the Complainant, Erika W. Kenny, from the Defendant, Robert D. Kenny.

The Bill states in substance, that the Complainant, Erika W. Kenny, is a resident of Frederick County, State of Maryland, where she has resided for more than one year last past; that the Defendant is a non-resident of the State of Maryland, whose last known address is 7921 Irving, Westminster, Colorado; that the parties to this cause were married on the 8th day of March, 1954, in Berlin, Germany; that as a result of the said marriage seven children were born, namely, Mary Jean Kenny, 16 years of age; Robert Dale Kenny, Jr., 14 years of age; Johanna Loretta Kenny, 12 years of age; Deborah Ann Kenny, 10 years of age; John Edward Kenny, 8 years of age; Heidi Lynn Kenny, 7 years of age; and Dwight Allen Kenny, 5 years of age; and that the parties to this cause have voluntarily lived separate and apart without any cohabitation for more than eighteen months prior to the filing of this bill of Complaint, and that the separation between the parties is beyond any reasonable hope or expectation of reconciliation. The Bill prays that the Complainant may be divorced A VINCULO MATRIMONII from the Defendant and for general relief.

It is thereupon this 3rd day of January, 1968, by the Circuit Court for Frederick County, Maryland, sitting as a Court of Equity, ORDERED that the Complainant give notice to the said non-resident Defendant of the object and substance of this Bill of Complaint by causing a copy of the same to be published in some newspaper published in Frederick County, Maryland, once a week for four successive weeks, prior to the 10th day of February, 1968, commanding him to be and appear in this Court, in person or by Solicitor, on or before the 12th day of March, 1968, to show cause, if any he has, why the relief prayed for in the Bill of Complaint should not be passed as prayed.

The fifth of the 13 standards of National Highway Safety Program concerns driver licensing: * Periodic driver re-examination every four years.

* A license classification system permitting drivers to operate only those vehicles which they are qualified to operate.

Periodic re-examination of all drivers would provide current evaluation of each driver's physical and mental capabilities. By linking this data with driver performance (the driver's record of accidents and moving violations) the licensing agency could upgrade its licensing procedures with proper safeguards against licensing potentially dangerous drivers while at the same time needlessly removing the opportunity of a competent citizen to drive.

A license classification system has been submitted for consideration to Governor Agnew by the Department of Motor Vehicles and if enacted would establish 5 classes of operators license, and bring Maryland into conformance with the Federal Standards. Other requirements of Federal Standards:

1. Each driver submits acceptable proof of date and place of birth in applying for his original license.

2. A record on each driver be maintained, to include positive identification, current address and driving history.

3. Each license is issued for a specific term, and must be re-

newed to remain valid. At time of issuance or renewal, each driver's record must be checked.

4. There is a driver improvement program to identify problem drivers for record review and other appropriate actions designed to reduce the frequency of their involvement in traffic accidents or violations.

5. There is a system providing for medical evaluation of persons whom the licensing agency has reason to believe have mental or physical conditions which might impair their driving ability.

6. A procedure which will inform the licensing agency of all licensed drivers who are currently applying for or receiving any type of tax, welfare or other benefits or exemptions for the blind or nearly blind.

7. A medical advisory board or equivalent allied professional health unit composed of qualified personnel to advise the driver license agency on medical criteria and vision standards.

8. The Highway Safety Bureau shall be provided with a periodic summary by the State; said evaluation shall attempt to ascertain the extent to which driving without a license occurs.

DMV MAIL CALL

From JHS—Thurmont: The used car dealer who sold me my car has refused to give me another copy of the sales ticket. Can you force him to do this for me?

The law does not require the

dealer to give a Bill of Sale to the customer, but in submitting the application for title to the DMV, the dealer is obligated to send the Department a notarized statement in the form of a Dealer's reassignment, stating the actual purchase price of the car.

The customer can get a certified copy of this statement if he desires, for \$1.00

From EKS—Frostburg: I want to help my brother (James W. Smith) get his driving license reinstated. How do I go about this?

There are hundreds of "James Smiths" in our files. DMV must have the full name, including the middle name (not initial) and the day, month and year of birth.

This information will enable the Data Processing Center to retrieve your brother's driving record from the data storage banks. The Department's Review and Reinstatement Section will then advise your brother regarding what procedures he must take for reinstatement.

From BT—Fort Meade: I was recently transferred to Maryland from Tennessee. While in Tenn., I bought a new car and paid a sales tax on it. Now Maryland wants me to pay another sales tax to register the car in this State. I plan to return to my home in Ohio after getting my discharge in 6 months. Why must I pay a sales tax in Maryland?

An excise tax is collected by the Department of Motor Vehicles when a car is first registered in this State regardless of where any previous tax has been paid. This tax is not a sales tax. It is a road usage or titling tax.

If, after same has been paid, it is determined that the owner is a Serviceman with legal residence in another state, a refund is given. The State of Maryland does not

collect any tax on vehicles purchased in this State unless they are also registered here.

The Business Society of Mount

Saint Mary's College has elected the following students for office for the 1967-68 college year — president, Salvador A. Gaudiano, Hazelton, Pa.; vice president, Harry D. Slaughter, III, Easton, Md.; secretary, Thomas R. Holmes, Sandy Hook, Conn.; and treasurer, Kenneth F. Adams, Danbury, Connecticut.

Of the 447,600 veterans who trained under the GI Bill in fiscal year 1967, 72% enrolled in colleges, four out of five as undergraduate students and one-fifth as graduate students working on advanced degrees, according to the Veterans Administration.

Caucus in Washington

Young Paul Carter Hawkins radiates delight as the senators from his home state of Montana — Majority Leader Mike Mansfield and Lee Metcalfe — assure him of their support for the March Against Muscular Dystrophy, now under way in communities throughout the nation. The engaging five-year-old, who has never been able to walk, has a profound personal stake in the success of the drive which raises funds for the research and patient service programs sponsored by Muscular Dystrophy Associations of America. Paul is serving his third term as national poster child.

Do THIS Before You Read The Bible

Reading Holy Scripture, of course, can be an inspiring and comforting practice.

But to get the most out of your Bible reading, you need a solid groundwork of knowledge that the Scriptures do not reveal. For as the New Testament says: "In these epistles there are certain things difficult to understand" (2 Peter 3:16).

The truth of this is manifested by the fact that equally intelligent people often draw conflicting conclusions from the same passages of Holy Scripture. And by the further fact that scholars of all faiths are continually searching the sacred texts to reveal and refine their meanings.

If you would like a better understanding and deeper appreciation of the Scriptures, write for a free copy of our new pocket-size pamphlet entitled: "Introduction to Bible Reading." Its purpose is not to interpret what the Bible says, but to explain how what it says is to be understood. Whether you are a devoted Bible student... or just a casual reader... this pamphlet will give you the basic principles for understanding not only what the Scriptures say, but what they mean.

It might be argued that the

Bible... being God's Word... has to be a simple book so that people of all levels of intelligence can understand it. But if this were true, all Bible readers would understand the Scriptures in exactly the same way... which they don't.

The fact is, of course, God did not intend that all our knowledge of Him should come from our own reading and interpretation of the Scriptures. In His covenant with the people of Israel, God commissioned the prophets to instruct the faithful in His word. Christ vested the same responsibility in His disciples and His church with the coming of the New Testament.

"Introduction to Bible Reading" gives you a solid groundwork for understanding why the Bible is God's book... how it came into being... what books it contains... and the general principles which should be applied in interpreting it. It also offers samples of some good, modern English translations to help you in your selection of a personal Bible.

For your free copy of this interesting pamphlet, write today. Ask for Pamphlet KC-22. No obligation... nobody will call on you.

WOMEN'S HEALTH

By Elizabeth Stewart
Women's Medical News Service

Warming Treatment
Relieves Frostbite

CHICAGO, Ill.—Frostbite is an important health hazard in many parts of the U. S., the American Medical Association warned recently, noting that prompt treatment is essential to avoid serious

damage.

In true frostbite, crystals of ice form between the cells, freezing the tissue. A part of the body can become frostbitten even when the temperature isn't startlingly low. "Wind is important," observes the AMA, "and the chilling effect of air at 20 degrees moving at 45 miles an hour is the same 40-below-zero air on a still day."

One of the dangers of frostbite is that the victim often doesn't feel it. Someone else usually notices that an ear or nose is turning white and that it seems to have no feeling in it.

To treat the condition, warm the affected part as rapidly as possible. A hot bath is a good idea, as are hot compresses applied gently. If no fire or hot water are available place the person in a sleeping bag or cover with coats and blankets. Feed plenty of hot liquids. Don't rub or massage. Forget rubbing with snow—it doesn't help. Rapid thawing is the best treatment.

See a doctor as soon as possible so he can ascertain the depth of the injury and treat it.

children before thinking about taking the pill. "I have never treated a couple wanting to postpone their first child," said Dr. Jesus Garcia Orcoven, a gynecologist and Spain's Director General of Health. He added, "The prestige of the family is still of prime importance here."

One physician estimated that six out of 10 women who take oral contraceptives are married and have at least one child. The other four are single girls from well-to-do families or from the growing ranks of Spanish career women.

As in other countries, the Roman Catholic clergy respond in a variety of ways to the use of the pill. Many young priests counsel that using methods other than rhythm is a matter of individual conscience. Older priests oppose methods other than rhythm.

Gum With Aspirin
Can Cause Trouble

DENVER, Colo.—A middle-aged man harassed by a series of painful illnesses numbed his pain somewhat by chewing eight to 10 tablets a day of gum containing aspirin. He numbed his pain all right, but developed mouth ulcers as a consequence. This report in a recent issue of the Journal of the American Medical Association alerts us once again to the dangers of self-medication.

Radio Station

Offers Ski Report

As a service to the many skiing enthusiasts who travel thru this area on their way to nearby skiing facilities, Jim Gibbons Radio—WFMD AM & FM in Frederick, Md.—broadcasts ski reports

each Wednesday, Thursday and Friday evenings at 6:20 p.m. They also broadcast two reports on Saturday morning, one at 8:45 and one at 10:00. These are comprehensive reports on conditions at popular ski slopes and trails in Pennsylvania and Maryland, within 100 miles. WFMD AM is at 930 on the dial and WFMD FM is at 99.9. Conditions at New England slopes and others in Pennsylvania are also available.

Ski Carnival

Set For Charnita

The Schaefer Cup races between the Ski Club of Maryland and the Baltimore Ski Club will highlight the Winter Carnival at Charnita on Saturday, January 27. The slalom and downhill events for men and women will begin at 9 a.m.

The club team scoring the most points will be awarded the F&M Schaefer Cup trophy for one year, as three victories are required for permanent retention. Last year's winner, the Ski Club of Maryland, has one leg on the cup.

Skiers from other clubs in the Mid-Atlantic area are expected to participate in the Charnita Winter Carnival's many events including the amateur races, championship downhill open, costume parade, Queen of Charnita contest, torchlight ski parade and a dance. Race entries should be sent to Maryland Ski Club's carnival chairman, John Wotell, 1828 Dunwoody Rd., Baltimore, Md. 21234.

CIVIC LEADERS TARGETS
FOR SAFETY CAMPAIGN

Local civic leaders are being called upon to help increase the safety of all community residents.

A campaign sponsored by the National Safety Council urges all communities in the nation to adopt a new building code that tells how thick and strong safety glass should be in sliding glass doors, floor-to-ceiling windows, and other large-area applications.

Charnita, which as described near Emmitsburg, Md. The ski area has a double chairlift, four son, is on Pennsylvania Route 116 rope tows and five trails.

Secretary of the Army Wilber M. Brucker (left) congratulates Dr. William H. Pickering after they learned that EXPLORER I had been successfully launched. At right, Dr. Werner von Braun shares in the good news on Jan. 31, 1958. Secretary Brucker initiated administrative shortcuts that aided the Army missile development program.

Spaniards Say 'Si' To Birth Pill

MADRID, Spain—Spanish obstetrician - gynecologists, to say nothing of their patients, give a resounding 'si' to the oral contraceptive. At least that's what a recent poll found, emphasizing that "Spanish gynecologists are almost 100 per cent behind use of the pill. They feel it is medically safe."

According to a special report to Women's Medical News Service, "in 1966 an estimated 1.26 million packages of oral contraceptive tablets were sold in Spain—a 78.6 per cent annual hike for an item almost unknown here a few years ago." Spanish physicians agree that the use of the oral contraceptive is virtually limited to women living in cities. Peasant women are said to be almost totally uninformed about birth control. Family planning clinics are illegal in Spain.

Married couples, it was pointed out, nearly always have a few

4-H Boys Honored

Richard Sutton Jr., 18, is back at his studies at the University of Maryland after an exciting week at the National 4-H Club Congress in Chicago.

The educational and recreational program included visits to important sights in Chicago, a pop concert by the Chicago Symphony Orchestra and speeches by such prominent personalities as Secretary of Agriculture Orville L. Freeman, syndicated columnist Ann Landers, Navy Capt. James Lovell and Johnny Morris of the Chicago Bears.

Sutton was awarded the trip as one of 36 sectional winners from across the nation in the 4-H Dairy program. As state winner in the program he previously had won a wrist watch. The awards were donated by the Oliver Corporation.

In his nine years of 4-H, Sutton has won many honors in cattle shows. He was nominated for Junior All-American with his junior yearling heifer and holds the state record for butterfat production for junior two-year-olds.

Sutton is president of his club and a junior leader. He plans a

Sutton Jr. Vanderford

career in agriculture. His parents are Mr. and Mrs. Richard Sutton of Cecilton.

Another Maryland award winner is Paul Vanderford, 18, of Huntingdon. He placed first in the state in the poultry program, sponsored by Heisdorf & Nelson Farms, Inc. and was awarded a wrist watch.

In his eight years in the project he has raised well over 2,000 broilers and won numerous honors with his exhibits. He has been president of his club twice and was chairman of the Cecil County committee for the 1966 district broiler show. His parents are Mr. and Mrs. W. B. Vanderford.

These enterprising young men were selected by the Cooperative Extension Service, which directs 4-H Club work.

HELPING HAND—Scoutmaster-soldier Pfc Michael A. Rush assists a camper on the obstacle course at the 10-Mile River Boy Scout Camp in Monticello, N.Y. Private Rush, who is assigned to the 1st Region, U.S. Army Air Defense Command, recently took time off to help the Boy Scouts at their summer camp. Private Rush is a former Scout from Cleveland, Ohio.

1968 Fishing Licenses

The 1968 fishing licenses and trout stamps are on sale now so don't forget, else you might start the new year by being apprehended for fishing without a license.

New Edition Of Fishing In Maryland

The 1968 edition of Fishing in Maryland, published by Burt Dillon, is now available at news stands and sporting goods stores, or may be purchased from "Fishing in Maryland", 2410 St. Paul St., Baltimore, Md. 21218. The price per copy is \$1.95.

The 1968 edition contains a completely new photographic approach to the use of all live baits, a map covering fishing areas in state parks and forests and an all new 1968 Chesapeake Fishing Calendar keyed to a fold out map. It covers fishing in the area 12 months of the year.

Around And About The Regions

We really have a strange happening to pass on to you from District Wildlife Officer L. F. "Pete" Fiorita that happened in Western Washington County.

On Saturday, December 2, the last day of the regular firearms deer season, Pete was working the Sidling Hill Mountain area. The temperature was a chilly 17° and several inches of snow covered the ground. Noticing three hunters walking out of Riser Road, which is a mountain road in the area, Officer Fiorita also noted only one man was carrying a firearm and it was a .22 cal. rifle.

On questioning the three hunt-

ers, it was admitted they were hunting deer. To clarify their possession of the .22 rifle though, they offered this explanation:

Earlier in the morning they were returning to their car and saw a copperhead snake. They continued back to the car, stored their high power rifles and took the .22 back to shoot the snake.

Considering the weather conditions, Pete did find the story a little hard to believe so he suggested the three men accompany him back to where they shot the snake so that he might see it.

Well, sure enough, the boys showed Pete a 24 inch snake still wriggling in the snow. Incidentally, it was not a copperhead but a non-poisonous species.

Court Opinions Do Differ

There is a county in Maryland which shall remain nameless, where the trial magistrate's opinions of the value of our deer are at opposite ends of the spectrum.

One magistrate has increased the penalty for jacklighting deer at night to a minimum of \$200 and confiscation of firearms and lights used to commit the violation.

The second magistrate heard a case involving a subject apprehended jacklighting deer with a firearm in possession, found the defendant guilty, then proceeded to suspend the fine and costs, returned the firearm and commented that he would like to see all the deer dead and that the state should put a bounty on them. One thing certain, two courts could not get

much further apart on opinion than these two.

"Wildlife of America" Calendar

The official 1968 "Wildlife of America" calendar, published for many years by the Minnesota Conservation Federation, is off-press. A handy reference for every adult and child who has ever wanted to know more about our nation's heritage, the calendar reproduces 12 full-color North American wildlife paintings by Roger Preuss. Other calendar features include the artist's descriptions of each species portrayed, tips for sportsmen, and a fishing guide.

An ideal gift for everyone who enjoys the outdoors, the calendar may be obtained for \$1.00 each, postpaid, from the Minnesota Conservation Federation, 4313 Shady Oak Road, Hopkins, Minnesota 55343. Contributions received through the calendar - print distribution program assist the Federation in carrying out its extensive conservation education programs.

Oldest Beaver

A 21-year-old beaver trapped last year in Western Maryland, may be the oldest ever reported in the United States, according to the National Wildlife Federation. Dr. Joseph S. Larson, of the University of Maryland's Natural Resources Institute, inspected the carcass and made the age determination from a dental examination technique developed in 1964. The 50-pound animal, measuring almost four feet from nose to tip of tail, was trapped in Muddy Creek, Garrett County, by Virgil Sisler, of Terra Alta, W. Va.

Looking Ahead

NATIONAL EDUCATION PROGRAM
Searcy, Arkansas

The "Black Power Bomb" When sections of Detroit were hit last July by rioting mobs of Negroes, America teetered on the brink of disaster. Throughout the summer, 4,289 fires were ignited, hundreds of law officers were shot (nine died), and damage running into the billions was wracked upon our cities. The roaring, crackling, sky-reddening fires caused the greatest apprehension among the people of America, stirred the deepest emotions, created fears for the safety of the entire nation. Most of the fires apparently were set with hand-made firebombs or Molotov cocktails. Communists in Cuba and their allies in America had trained hundreds of potential revolutionaries in the manufacture of the gasoline bomb.

One of the masters of such guerrilla weaponry is Robert F. Williams, Negro Revolutionary whose radio broadcasts from

Cuba and poisonous "Newsletters", The Crusader, now published in Peking, have played such an important role in the expanding "Black Power" movement in America. Here are the most recent instructions from Williams to Afro-American followers, in Vol. 9, No. 2 of The Crusader: "The jumbo size of the Black Power Bomb can be most effectively used against tanks and armoured troop carriers where streets are narrow and buildings are 3 to 4 stories high.

Like Napalm

"The jumbo size of the gasoline bomb can be made by using an empty syrup bottle of one gallon capacity. These gallon size glass jugs are usually available around confectionaries, drug stores, restaurants and warehouses. Each is equipped with a screw-on cap and is fitted with a finger grip or a built-in ring by which to handle the bottle or jug with a single finger. This type of jug can be filled with almost three-fourths gasoline, about one-fourth extra heavy motor oil with lubrication grease added.

"The screw-on cap should be tightened after which a tamper, well soaked in gasoline, should be securely taped or wired to the jug. The soaked tamper is lit when the individual is ready to heave the Black Power Bomb. The glass jug breaks on impact thus igniting the gasoline, oil and grease resulting in a napalm-like effect.

Sabotage Fire Departments

"This is highly effective when heaved from a roof top into personnel (troop) carriers. It can also be thrown as a satchel charge against tanks and other armoured vehicles. . . All fire hydrants in safe, isolated or deserted places should have their caps removed and valves completely opened. This will hamper and sometimes completely negate the power structure's fire fighting capacity. Fire is the black man in racist America's most effective weapon. It can be just as devastating as a hydrogen bomb.

"America," says this comrade of Stokely Carmichael, "is the black man's battleground and he cannot afford to hesitate to use whatever means necessary to remove the bitter and tragic consequences of almost 400 years of unmitigated white supremacy tyranny. . . The urban guerrilla fighter must rely on the elements of mobility, speed, surprise, terror, a friendly environment, knowledge of the community, concealment and cover when possible. He must consciously concentrate on the enemy's weakness, attack him at his weakest point and avoid becoming a target for his massive power.

The Poisonous Dart

"Possibly, if the brothers should want to devise an effective defense against the thugs' chemical warfare, club attacks and vicious close range shooting, it may be necessary to send special representatives to Africa for specialized training in the manufacture and use of the poisonous dart. This simple, silent but deadly technique was highly successful when used by the Congolese revolutionaries (Communists) against Tshombe's butchers. This could become a highly effective secret weapon in the arsenal of

the Black Revolution in racist America."

Urging the "Afro-Americans" in America not to harken to "defeatism", Williams, who now has become the open transition belt between world Communism and revolutionary Americans, says: "Seven million Cubans can take a stand (Castro's stand) against the powerful USA and the whole world cheers and inspires them to resist. Fourteen million people in South Vietnam stand up to U. S. aggression. . . The American black man holds the fate of America in his hands!"

State Investigating Insurance Coverage

Maryland Insurance Commissioner Newton I. Steers, Jr. announced this week that his Department is investigating insurance coverage which Montgomery Ward is making available to all of its account holders. Commissioner Steers stated, "A large number of Maryland citizens have received in recent days an announcement from Montgomery Ward advising that, effective immediately, they are covered by a credit life insurance policy which will pay off their unpaid balance at Ward's in the event the account holder dies.

"The announcement states that a charge of 10¢ for every \$100 (or fraction thereof) of the Charge-All account balance will be billed monthly on the customer's regular statement.

"Some citizens have complained to me that they feel the action of Montgomery Ward is improper in that it appears to commit these customers to an insurance protection they may not want, unless they act to cancel the protection.

"I find this technique objectionable—although I am not certain at this point whether it is actionable. This Department is presently considering the matter and will take every appropriate step to see that the public interest of Maryland citizens is protected.

"Meanwhile, I believe that citizens who are offended by this sales technique should communicate their feelings to the company directly. I am always glad to receive copies of such letters

and I welcome any other correspondence on this matter."

Serving In Vietnam

Staff Sergeant Edward E. Campbell, son of Mr. and Mrs. Raymond E. Campbell, who resides on Rugles Road, Rt. 1, Taneytown, is on duty at Da Nang AB, Vietnam. Sergeant Campbell, a medical records technician, is a member of the Pacific Air Forces. Before

his arrival in Southeast Asia, he was assigned at Andrews AFB, Maryland.

The sergeant, a graduate of Anderson (S.C.) Boys High School, is married to the former Ruth E. Fyllgraf from Denmark.

Most western states where chukar partridges have been established, permit chukar hunting well into the winter months

OUR SIXTH ANNUAL WINTER DISCOUNT PROGRAM NOW IN EFFECT

This unique program was begun to benefit both YOU and OUR COMPANY.

Since it is most impractical to place foundations during the inclement winter weather, there was for many years a large demand for memorials to be erected in the spring. Most families would wait until warm weather and place their order for a monument at that time. Certainly, you can realize that this created quite a backlog of orders for spring installation.

Another reason which we feel is most important, is that it provides year around work for our employees. Should you make your selection now, our craftsmen will complete the carving and lettering during the inclement weather, thus avoiding any unnecessary delay next spring. Your memorial will be installed when weather permits in the spring. As an incentive for you, we also offer outstanding discounts throughout this period, which we allow on ALL our monuments, and markers.

Following, is our discount schedule:

Dec. 4, 1967 to Jan. 13, 1968	15%
Jan. 14, 1968 to Feb. 13, 1968	10%
Feb. 14, 1968 to Mar. 10, 1968	5%

The above discount prices assure you of guaranteed substantial savings.

Other features of this unique program are:

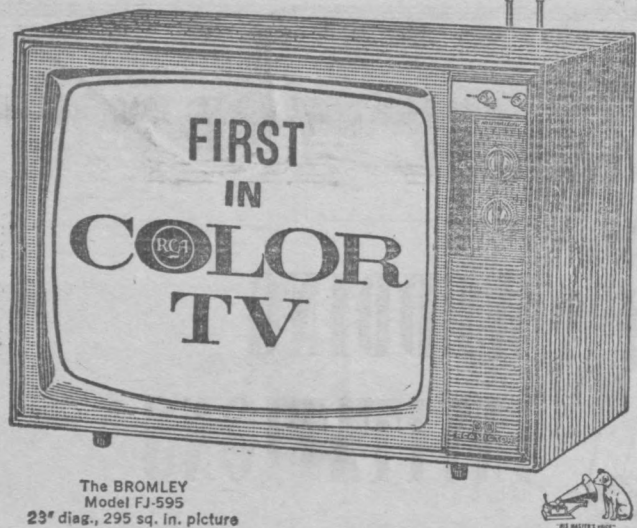

- * Payment in spring, AFTER you have inspected completed installed memorial.
- * Free transportation to and from our large and complete display.
- * Monthly terms available, if desired.

4-H Member Wins Sectional Honors

Pamela Roderuck

Pamela Roderuck, 16, of Walkersville, is one of 18 4-Hers from across the nation to be named sectional winners in the 4-H Dairy Foods program. She is the daughter of Mr. and Mrs. Harold E. Roderuck.

As her award Miss Roderuck received an expense-paid trip to the recent National 4-H Club Congress in Chicago. There she joined 1,650 other 4-Hers from the 50 states and Puerto Rico in a week of discussions, concerts and tours exploring the theme, "The Pursuit of Excellence."

Earlier as state dairy foods winner, Miss Roderuck received a wrist watch from the program sponsor, Carnation Company. The Cooperative Extension Service selected the winners.

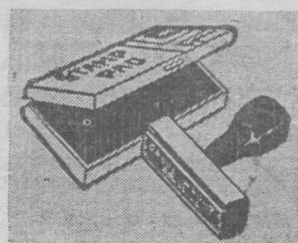

Through her dairy foods demonstrations Miss Roderuck says she learned "self-confidence, self-reliance and poise." These qualities came in handy when she was asked to present her award-winning cheesecake demonstration at the National Association of Artificial Breeders 1965 convention in Washington, D.C. When Miss Roderuck arrived to present her demonstration she found only a roomful of men—the ladies had decided to go shopping. On the spot she redesigned her demonstration so the men could tell their wives how to make cheesecake.

4-H Club Holds Meeting

The January meeting of the Rocky Ridge Progressive 4-H Club was held January 15, at 7:30 p.m. at the Rocky Ridge Fire Hall. After the Pledge of Allegiance and the 4-H Pledge were recited, the roll call was answered by 59 members. New members established into the club were Gregory Willard and Donald Dougherty. Afterwards, Phyllis Wivell, secretary of the club, read the minutes of the previous meeting. Also Debbie Parks gave a financial summary of the club treasury.

Following this, project reports were given. Vivian Dinterman gave a report on the flower arranging group, while Mr. Lawrence Bassler spoke upon the activities of the dairy club.

Under old business, a committee was selected to arrange the details in selling paring knives to help build up the club treasury. The annual public speaking event was mentioned and it was observed that over 20 members were interested in participating in this event. In concluding the business meeting, Mr. Ralph Keilholtz reported on the 4-H Basketball program to be given this year. James Wivell gave a demonstration entitled, "The Importance of Dusting Beans and How."

At the close of the meeting, Miss Alice Heyner, a participant of the International Foreign Youth Exchange program, gave an extremely interesting talk, accompanied by slides, of her recent trip to Brazil. It was noted that for six months she stayed with different host families and lived with the native people during the whole of her trip. All enjoyed

Masons Elect Officers For Year

At the regular communication of Tyrian Lodge 205, the following officers were installed:

Reginald W. Zepp, Worshipful Master; Charles L. Long, Senior Warden; Edward W. Heiser, Jr., Junior Warden; Harry S. Hahn, Secretary; Ralph D. Grushon, P.M., Treasurer; Roscoe A. Shindelacker, Tyler; Claude W. DeBerry, Senior Deacon; Norman L. Plank, Junior Deacon; Robert C. Orner, Senior Steward; Raymond E. Keilholtz, Junior Steward; John R. Reeves, P.M., Chaplain; and Herbert W. Rohrbaugh, P.M., Marshal.

Edward W. Heiser, Sr., was elected to receive the degrees of Masonry.

It was announced that a Past-masters' Night is scheduled for January 25, 1968.

Safety Circus Will Visit Local School

A nationally famous "Safety Circus" will combine knowledge with fun in a performance to be given at the Emmitsburg Elementary School at 10 a.m. on Wednesday, January 24.

The show is part of a two-week tour that will take the "Safety Circus" to schools in 19 Maryland communities.

Police Officer Ernest Pressley's "Safety Circus" show, featuring ten highly trained dogs performing tricks illustrating traffic safety practices, is a mixture of child psychology and show biz. The format is purposely simple with the monologue liberally sprinkled with safety rules and correct safety practices. The central theme is "Walk Safe—Ride Safe—Play Safe."

In 1946 Pressley was a motorcycle officer with the Charlotte, N. C., Police Department. Charlotte Police Chief Frank Littlejohn took Pressley off motorcycle duty and sent him back to school. He has been in hundreds of schools since and has loved every minute of it.

The current tour is sponsored by the Maryland Motor Truck Association and co-sponsored by the Maryland State Police. Nationwide sponsor is American Trucking Associations, Inc., Washington, D. C., national federation of the motor carrier industry.

Catholic Seminaries Hold Conference

The Eastern Regional Conference of Spiritual Directors from Roman Catholic Seminaries was held the first week of January at St. Joseph's Seminary, Dunwoodie, Yonkers, N. Y. Rev. Thomas G. Smith, executive secretary of the group and spiritual director at Mount Saint Mary's Seminary, presided.

Most Rev. Frederick W. Freking, Bishop of LaCrosse, Wis., and a representative of the U. S. Bishops Committee on Seminaries, was in attendance at the meeting and conveyed the thought of that Committee to the group.

Following the agenda, prepared by Very Rev. Msgr. John P. Sullivan, spiritual director and host from St. Joseph's Seminary, the question of consulting faculty and student body in the development of the seminary's spiritual program and the evaluation of its effectiveness was discussed by the group.

Dr. Philip Cristantiello, consultant psychologist at St. Joseph's, conducted an experiment in group dynamics and plans were laid for a three-day workshop to be held at Cathedral College, N. Y., in August of this year. Rev. George T. Deas will be the host for the workshop which will have as its topic, "Priestly spirituality and its growth through liturgical prayer, private prayer, and conferences designed to communicate an ascetical spirit."

Dance Tonight

The Senior Class of St. Joseph's High School is sponsoring a dance tonight from 8 - 11 p.m. There will be a band featuring "The Colors-R-Nice." Admission is \$1.25. A coat or dress sweater and tie are required.

SHERMAN'S

20 YORK STREET

GETTYSBURG, PA.

Open Friday and Saturday Evenings Till 9

The ZIP Column

A new regular postage stamp, will be placed on sale, next Thursday, January 25, 1968.

The 6 cent American Flag Postage Stamp will eventually replace the present Franklin D. Roosevelt stamp, as soon as stock is exhausted. In the meantime, we will receive an initial limited supply, as we do the commemorative series. Collectors are urged to obtain these stamps as soon as possible, due to the limited supply.

A supply of Internal Revenue Tax forms has been obtained for our patrons who may need extras. The Maryland forms were requested, but as yet, have not been received.

With the new postal rate law in effect, it is now possible to get airmail service on first class parcels weighing in excess of 13 ounces. In the past, it was necessary to pay the five cent per ounce rate, for first class mail, regardless of the weight. The new rate, for over 13 ounces, is determined from a chart, and in most instances is cheaper than the old rate.

George E. Rosensteel, PM

Discusses Heart Transplants

Editor, Emmitsburg Chronicle: I commend Senator Mondale for his proposal to study various aspects of the heart transplant operations.

It is interesting that in the four adult operations thus far performed, the donor, in each case, suffered brain damage. It is not at all clear to the lay public that the donors were dead... unless we are to accept the newly conceived definition of death as being advanced by some heart doctors, i. e., that when the brain dies, the person dies; reserving to the individual doctor the right to determine "brain death."

What these particular doctors

are really contending is this: that when a person is "dying" his parts ought to be up for grabs, the same as if he were dead. After all, what good are functionally dead organs from a genuinely dead body? In the very process of dying, functional organs frequently degenerate to a point that they become unusable; as in the case of the first South African prospective donor. According to last Sunday's TV documentary, this young male auto accident victim, although still living, had sustained heart damage to a point that his heart was not attractive for transplant purposes. This was due to the fact that during the dying process, his blood pressure (as is commonly the case), sank sufficiently low that the heart was damaged. So, we come naturally to believe that this man's heart was not used simply because it was damaged and unattractive, and not because it was still beating inside a live body.

As a member of the general public, I find myself further aroused, and made suspicious, when I consider the nature of the preliminary operations on dogs. In each of such 300 simulated operations at Stamford both donor and donee dogs were entirely healthy and alive!

I submit that such experimentation could only have served as precedent for subsequent operations between two living persons. In not one single publicized case was an attempt made to transplant a heart from a dead dog into a living dog! I suspect that doctors generally would laugh at the thought.

If the doctors are permitted, by favorable public opinion, to continue, they will next try to make a case justifying the taking of hearts from persons not dying... on the grounds that hearts are always damaged, to some extent, as death gradually overtakes a person.

Also, who is to say when "dying" commences? We know that "a-bornin'" takes nine months and it is to our discredit that the moral and ethical standards of our society have slipped so that we pay little regard to one's right to live during those first nine months. But who now is to say what the gestation period is for death? One man may take nine months "a-dyin" and another nine years. Are each to be equally vulnerable? So long as his estranged wife... or next door neighbor authorizes a heart extraction?

I say that a powerful and subtle conspiracy exists within the news media, especially TV, to deny, for the present, that these donors were all still living. Finally, perhaps soon, after we shall have all been sufficiently conditioned and brainwashed we will be told "yes, it is indispensable that undamaged living hearts from living bodies be used."

If, after this and other very "sensible" candid explanations we turn out to be a society not yet so depraved as to wish to live by laws that permit the arbitrary taking of human life, specialized hospitals will be set up in areas, (perhaps Sweden), where people are not so "narrow-minded."

Time magazine, Sept. 17, 1967, in its long article on abortion, states that in Sweden, where abortions are legal at any period of pregnancy, the victims of this practice, frequently 6-7 months old, lay unattended and "cry for hours" before they expire. Isn't it likely that doctors willing to practice in Sweden in such a climate, anticipated Dr. Barnard by many years?

Governor Agnew announced recently he would support an abortion bill (modeled after the Swedish code) in the General Assembly this year.

What society really has to worry about is this: All over the world there are thousands of men of power, affluence and wealth who have been told by their doctors: "Your general health is good but the 'ticker' is bad. Without a transplant you have 6 months; and further, what you really need is the ultimate. By the ultimate I mean, not the damaged heart of some dying person, but the perfectly sound heart of a perfectly healthy human body."

Suppose, at the same time, in some other area, perhaps hanging from a girder of the Golden Gate Bridge, is located the 27-year-old unemployed father of five who has just received word that his liver is diseased; he has no insurance and is determined on suicide as the only way out. Although he is taken down from the bridge he swears he'll be back again.

Suppose further that these two men get together and strike a bargain. Will our country honor that bargain? Will Sweden honor it? Perhaps Russia? Or perhaps societies supposedly not numbered by moral considerations to the extent that we are? I don't know. But somewhere such men will find a kingdom that will honor their bargain, even if the donee should have to finance a revolution and seize one, for he will not be consoling to be the richest man in the graveyard.

Patrick F. X. McGucken

Science Lab

To Visit

St. Joseph College

The old legend of Mohammed and the mountain has an atomic age counterpart in a special program of Oak Ridge Associated Universities. To meet the needs of Colleges that do not have the facilities to present courses in the handling of radio-active ma-

terials, the Association operates three mobile radioisotope labs that bring Oak Ridge right onto their campuses.

Today (Friday), members of the St. Joseph College community will complete the two week course offered by Oak Ridge through one of these mobile labs which has "brought the mountain to Mohammed."

St. Joseph students, Mary Anne Fletcher, Jeannette Brett, Mary Jo Ryan, Rosa Diaz, Sister Nazarena, and Sister Marina have completed the program.

Faculty and staff members of the College in attendance were Sister Juliana Kowal, Joseph B. Myers, Sister Marcella Scully, and Francis Webb.

Mrs. Mary Nakhleh of the Mt. St. Mary's faculty and David Martin of the Thurmont High School faculty also completed the training course.

The three-man team of instructors who offer the course for Oak Ridge include Dr. John Southern of Furman University, Dr. John L. Prather of Pennsylvania Military College, and Troy L. Brannon, chemistry lab instructor from Eastern New Mexico University.

Funds Sought

For Community College Building

A formal resolution petitioning the state for \$2,100,000 in funds toward the building of the proposed new Community College was adopted Tuesday by the County Commissioners.

Dr. John L. Carnochan, superintendent of schools, and Dr. Lewis W. Stephens, president of Frederick Community College, asked the commissioners to adopt the resolution and sign it at Tuesday's meeting.

The resolution asks the state to set aside the money for the building of the college. The estimated cost of the building is \$4,184,000, with the county providing the remaining amount.

The commissioners had to adopt the resolution, which will now be sent to the state, because they are the fiscal authorities for the county. The recommendation of the state goes to the State Board of Education, then to the Department of Public Works.

Dr. Carnochan said there is no time limit on when the county may use the state funds, and added that projection date for the permanent college building is Sep-

tember, 1970.

The commissioners late last year approved allocation of \$97,000 for the proposed building, including part payment of the architect's fee for design of the first phase of the college, plus \$15,000 for long-range planning beyond the first phase.

Current estimated costs in the initial phase by category are: site design, \$10,000; site improvement, \$350,000; architect's fees, \$222,000; new building, \$3,000,000; building alterations, \$10,000; equipment and furniture, \$360,000; and miscellaneous, \$232,000.

Father Redmond

Installs Guild Officers

Rev. Paul V. Redmond, vice president of Mount Saint Mary's College, presided at the installation of new officers for the college's N.Y.-N.J. Metropolitan Parents Guild on Sunday.

New officers are: Mrs. Eugene McCauley, president, Elizabeth, N. J.; Mrs. Francis Hayes, executive vice president, Milburn, N. J.; Mrs. Walter Cook, vice president, Elizabeth, N. J.; Mrs. John Ondrovic, recording secretary, Little Neck, L. I., N. Y.; Mrs. William Nicoll, corresponding secretary, Port Washington, N. Y.; Mrs. Michael Gunn, treasurer, Baldwin, N. J.; Mrs. Bernard Dolan, L. I. Chairman, Douglaston, N. Y.; and Mrs. Albert Benninger, membership, Mountain Side, N. J.

Retiring president Mrs. Arthur Brunner, Huntington, N. Y., was presented with the traditional past president's pin of the chapter.

The Guild presented the college with an unrestricted donation of \$1,500.

Sen. Smelser Asked

To Draft Tax Bill

Senator Charles Smelser, (Carroll-Frederick), has been contacted by a number of farm owners concerning assessments of their farm land. One farm owner has had his land assessment increased ninety per cent in one year, while another over one hundred per cent during the same period.

Senator Smelser stated, "It is not my intention to question the assessment per acre, but I do wish to call attention to the unfairness to farmers by having their land assessments increased by such a large percentage over a period of only one year and during a time in which there was little or no increase in acre value. Certainly, it is not the fault of the land owner if his assessments are not reviewed annually. If large assessment adjustments are indeed at all necessary, they should be made over a period of years."

Senator Smelser further stated, "I feel strongly that the State Department of Assessment and Taxation should not be allowed to increase assessments on lands to the extent that some have been increased during a one-year period. Therefore, legislation will be introduced during the coming Session of the General Assembly to restrict increases in assessment of farm land to no more than twenty per cent yearly."

Colleges Receive Federal Money

Congressman Charles McC. Mathias, Jr., (R-Md. 6th), this week announced that four Sixth District colleges have received federal funds totalling \$39,475 for the continuation of the work-study programs for the next six months.

Under the College Work-Study Program, authorized under Title 1, Part C, of the Economic Opportunity Act of 1964, as amended, federal funds provide 85 per cent of student payrolls, and a matching college, university, or off-campus agency contribution will provide the remaining 15 per cent.

Under this program, Allegany Community College received \$8,106; Catonsville Community College, \$2,400; Frostburg State College, \$17,496 and St. Joseph College, \$5,464.

Bradshaw Services Held
Funeral services for Michael L. Bradshaw, 22, who died at his home, West Main St., Monday, Jan. 8, were held from the Wilson Funeral Home, followed by a Requiem Mass at St. Joseph's Catholic Church on Thursday morning with the Rev. Fr. Louis Storms officiating. Interment was in Mountainview Cemetery, Emmitsburg. The pallbearers were: Hubert R. Brown, Jr., John T. Garner, Herbert T. Gingell, Thomas T. Bollinger, Sterling R. Adams, William Smith and Richard Keyser.
