EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, SEPT. 13, 1968

SINGLE COPY 10c

Most Anything At A Glance

- By Abigail -

Well our primary election is past history and we are headed for the general election in November. As was anticipated, the voting was extremely light, in fact the lightest in many a year. Only 27 per cent of the eligible vote turned out in Frederick County and this also held true in Emmitsburg. General apathy and a torrential down-pour apparently contributed in a major way, to the light vote. As was expected Senator Daniel Brewster and Cong. Mac Mathias won handily in their run for nomination winning by margins of five and eight to one respectively, for the office of U. S. Senator. Other "sure-fire" nominees for Congress were Democrat Goodloe Byron and Republican J. Glenn Beall, Jr., who swept through handily.

The Mount campus is once again saddened with the mantle of death. Three students died within a matter of hours Tuesday evening and Wednesday morning. A promising young basketball star died suddenly in the gym after a short practice game Tuesday evening. Wednesday morning we were shocked to learn of the sudden death of two more students in an automobile accident during the night. It is a sad beginning of a new academic year at the local college and we pray that the future will be much brighter. Our condolences go out to the bereaved parents of the young men and also to the faculty and students at the Mount.

The solicitors for the swimming pool went out in earnest this past week and the results are readily shown in the number of names listed in this week's paper as donors to the cause. Each week the list has grown and the results are really encouraging. Let's keep up the good work folks and when those volunteer solicitors knock on your door, be ready to give, and help your community.

Public Invited To Flower Show

Thursday, Sept. 19 the garden of Mrs. James Baumgardner at 10 York St. in Taneytown, will be the setting for a combined Flower and Art Show, "Palette and Trowel".

The event, sponsored by the Silver Fancy Garden Club of Taneytown and Emmitsburg, with the Alley Artists, a group of talented painters, should be of interest to both young and old.

The paintings will be shown separately and in conjunction with the various flower arrangements. Two divisions of the Flower Show, artistic and horticultural, will be judged. The third, educational, will have among other exhibits, a replica of Greenbrier State Park, displayed in miniature.

Any member of the community who wishes to participate in the horticultural division, may do so by entering a single flower, displayed in a coke bottle. Chrysanthemums, marigolds, zinnias, petunias, celosia, roses, gladioli or any other flowers may be exhibited. These must be brought in no later than Thursday morning.

The Garden Club and the Alley Artists extend a cordial invitation to the public to visit the Flower and Art Show from 2-8 p. m. No admission will be asked.

In event of rain the show is scheduled to take place Friday, Sept. 20.

NOTICE!

Due to increased cost of operation the Chronicle is compelled to increase its subscription rates. Effective immediately the price of single copies sold in the stores will be 10c per issue. Mail subscriptions will be advanced to \$4 per year effective October 1. Look at the label on your paper and check the expiration date. If you renew your subscription before Oct. 1 you can save \$1.00.

This is the first increase in prices by the Chronicle in the past 15 years. We trust you understand the necessity of this action.

Mr. and Mrs. Leonard Sanders spent several days recently with Mr. and Mrs. John Mick and family, Milford, Del.

YOUNG MOUNT PLAYER DIES SUDDENLY

A promising young basketball star at Mt. St. Mary's College collapsed Tuesday evening in the college gym and was pronounced dead by Dr. George L. Morningstar who was called to the scene.

Following a modified basketball game with other students, Paul Lawrence Williams, 19, of Chester, Pa., a sophomore at the school, lay down to rest but apparently died immediately. James J. Deegan, of the Mount coaching staff, applied mouth-to-mouth resuscitation immediately, but it was in vain.

An autopsy was conducted at the Frederick Memorial Hospital by Dr. Robert Thomas, medical examiner. It revealed the cause of death as heart failure.

Williams, 6'2", starred as a Freshman on the Mount basketball varsity last year.

Prior to entering college Williams was a brilliant performer for Chester High School and was named to the Pennsylvania All-State scholastic team for the 1966-1967 season when Chester recorded a 27-1 record, losing in the state championship playoff.

The youth resided with his family at 109 Franklin St., Chester.

The Wilson Funeral Home, Emmitsburg, was in charge of local arrangements for a Chester funeral home.

Multiple Violations Bring Large Fine

Friday night, Sept. 6, proved to be a costly night to an Emmitsburg motorist after he was charged with seven motor vehicle violations by Town Officer James Trout.

Officer Trout said that at approximately 11:45 p.m., he saw Bernard Anthony Kelly, 20, Emmitsburg, get into his car west of the Square, proceed east through the red traffic light at the Square, turned south on S. Seton Ave. and proceeded past the Emmitt House where he made an illegal U-turn, proceed north on South Seton Ave. to the Square, ran the traffic light again making a left turn onto West Main St. and State Rt. 97 proceeding west when he attained a maximum speed of 101 miles an hour before being apprehended at Blue Mt. Orchard near Zora by Officer Trout who was in pursuit.

Officer Trout charged Kelly with reckless driving, \$18; failing to obey an automatic traffic control device, \$28; failure to keep right of the center of the road, \$13; improper passing, \$28; operating under the influence of intoxicating liquor or drug, \$203; speed greater than reasonable or prudent, \$103, and unnecessary noise with motor vehicle, \$25. Total fines, if convicted, could cost Kelly \$418.00. His trial date has been set for October 7, at 7 p.m. in the Thurmont court.

Tom Combs Saves Drowning Boy

A two-year-old boy, Jeffrey Herman, owes his life to the quick-thinking of young Tom Combs.

The youngster, who could not swim, fell into a pool at the Rollinggreen Swim Club at Winston-Salem, N. C., last week and was quickly rescued by Tommy Combs, 16-year-old son of Mr. and Mrs. Thomas Combs, who applied mouth-to-mouth resuscitation, reviving the lad.

Tom is an Eagle Scout and an athlete with a love for baseball, football and swimming. He is a grandson of Mr. and Mrs. Cooley C. Combs, Emmitsburg.

WEATHER REPORT

Temperatures for the Emmitsburg District for the period ending Sept. 6, as reported by Mrs. Paul Beale, local weather observer, were as follows:

	H	L
Saturday, Aug. 31	80	42
Sunday, Sept. 1	74	48
Monday, Sept. 2	76	56
Tuesday, Sept. 3	83	49
Wednesday, Sept. 4	89	56
Thursday, Sept. 5	86	59
Friday, Sept. 6	82	67
Total rainfall for the period was 1.93 inches.		

Pool Fund Drive Shows New Interest

The drive for funds for Emmitsburg's swimming pool continue and this week added emphasis was placed in effect by adding a large sign to the front of the Bank Building indicating the progress of the drive. G. Eugene Rosensteel, chairman, reported this week.

The sign was constructed by the Sisters and children of the Mother Seton School summer program.

Solicitors have been receiving a number of inquiries about the pool as they busy themselves with the task of canvassing the routes. One most commonly asked is: Will there be enough water in Emmitsburg to maintain a pool? The answer is yes, because the pool is only filled once a year. Additional water is needed in small quantities thereafter to replace splash-out and evaporation. A modern device such as the one Emmitsburg's pool will have, recirculates the same water while purifying it at the same time.

Another question posed is: What does a family subscription mean? The answer is, parents and unmarried children of one household may use the pool at any time during one complete summer session.

Additional solicitors added this week include: Mrs. Ralph Hatter and Mrs. Larry Utz, Annandale Road; Mrs. John Walter and Mrs. Raymond Sanders, Four Points Road.

Donors listed this week are as follows:

Mrs. Sarah Rhodes
Mr. and Mrs. J. C. Le Compte
Mrs. B. P. Ogle
Mr. and Mrs. Everet Chrysler

PRESIDENT TO SPEAK

President Johnson will broadcast his annual appeal for support of the nation's 2,250 United Way campaigns on Friday, (today), at 8:25 p.m., EDT, over the combined television networks of ABC, CBS and NBC. The President's message will also be made available to all local independent television and radio stations as well as the affiliated stations of the national networks.

Locally, the Frederick County United Appeal campaign will begin on Sept. 30 and continue thru the month of October.

VFW AMBULANCE

Harris Lewis, R2, Emmitsburg, was transported to the Warner Hospital, Gettysburg, Pa., this week via the VFW ambulance. Drivers were L. Michael Boyle and Paul E. Humerick.

Sister Margaret Installed As Head Of St. Josephs

Sister Margaret Dougherty, D.C., became the sixth president of St. Joseph College at a service of investiture Sunday morning in DePaul Auditorium on campus.

The brief ceremony took place prior to the Mass of the Holy Spirit offered by the college chaplain, Rev. John E. Hurley, C.M. In accordance with the wishes of the new president, only members of the college community attended the ceremony.

Authority to administer St. Joseph College was conferred on Sister Margaret by Sister Eleanor McNabb, D.C., chairman of the Board of Trustees. Sister Eleanor told the group that "over one hundred and fifty years ago, Mother Seton, sensitive to the needs of her era, responded to these exigencies by establishing this institution."

"Today," she added, "as American life becomes more depersonalized and automated, it is imperative that the administrators and faculty of St. Joseph College insist on the importance of a humanistic, integrated education—that education which develops the full potential of each individual, . . . which cultivates an appreciation for the mystery and profundity of human knowledge . . . which encourages the initiative and responsibility of students who recognize the divine harmony between the sacred and the secular."

"May the same creative mind and religious spirit which guided Elizabeth Seton, direct you in your new responsibilities," she told the new president.

Sister Margaret, an alumna of the institution she now directs, spent the past two years as vice president of St. Joseph College and officially assumed her present duties July 1. A former teacher in both elementary and secondary schools and most recently principal of Cathedral Academy in Syracuse, N. Y., Sister Margaret received her master's degree from Catholic University and her doctorate in administration from St. John's University.

Visiting Day Set At College

High school students and their parents will be welcomed to the campus of St. Joseph College on Saturday, Sept. 14, in the first of a series of eight visiting days scheduled for the academic year.

Sister Marie Therese Eberhart, director of admissions, said that individual scheduling, according to the time of arrival, will permit interested students to meet with a member of the admissions staff for an interview, to discuss courses with faculty members, to have lunch in the college cafeteria and to tour the campus with a member of the student body. She indicated that it is not too late to make reservations for Saturday, but urged that her office be contacted immediately.

Assisting the director in the day's program and in interviewing prospective students will be Miss Elizabeth Klunk of Hanover, newly-appointed admissions counselor at the college, Miss Christine Lieb, a member of the junior class and a student aide in the admissions office, also will assist in arrangements for the day.

The next visiting day will be October 26.

Firemen's Drive Nears \$5,000

The regular monthly meeting of the Vigilant Hose Co. was held Tuesday evening in the Fire Hall, with the President, James E. Fitzgerald, presiding.

Chief Guy R. McGluaghlin reported that the Company answered three alarms and one service call since the last meeting. The Fund Drive Committee reported donations of \$4,916.00 to the drive. Wilbur T. Umbel was voted in as a social member.

It was announced that the Company will hold a Fire Prevention Program on Thursday, Oct. 10, starting at 6:30 p.m. One of the highlights of the program will be taking children rides on the Fire truck. Everyone is welcome to attend.

The Company will enter the annual Hook-Up Contest of the Adams County Firemen's Assn., to be held in Abbotstown on Sunday, Oct. 6. Practice for the contest will be held on Sept. 22 and 29.

Chief McGluaghlin announced that he is having a large sign made with a Fire Prevention theme on it, to be placed in front of the Fire Hall.

Town Plans To Collect Parking Fines

Chairman of the Board of Commissioners Clarence P. Wachter presided at the regular monthly meeting of the Mayor and Commissioners held Monday evening in the Town Office beginning at 8 p.m.

Attorney W. Jerome Offutt, representing Bernard H. Boyle, addressed the Board regarding No Parking signs to be erected in front of Mr. Boyle's Store on East Main St. The Board explained that all it asked for was a traffic light at the intersection in that area to help school children cross the roadway in safety.

Mrs. Arvin P. Jones asked the Board for an interpretation of the No Burning Notice which appeared in the June 14 issue of the Chronicle. The Board explained that according to State law, effective May 28, burning of any kind was prohibited. The Board ordered a clarification of this law printed in the Emmitsburg Chronicle defining its intent. Mrs. Jones also queried whether St. Joseph College was receiving a decreased water rate, to which the Board replied negative unanimously.

Commissioner Wachter asked the Board for permission to have Officer James Trout obtain a Town Ordinance Book from a former Commissioner and the Board agreed. Mayor Robert A. Seidel read the minutes of the previous meeting which were approved as presented. Police reports were given by Officers James and Michael Trout.

A discussion of delinquent parking meter tickets was held and it was suggested to publish a notice in the Emmitsburg Chronicle notifying all delinquent ticket holders that they have until Sept. 24 to pay the \$1 fine. After that date the Town Officer will issue warrants and the fine will be hiked to \$5.

Following acts of vandalism at the Town watershed the Council voted unanimously to prohibit any fishing the remainder of the year at the watershed. The hiring of a school crossing policeman and parking meter officer, combined, was discussed and the Council is interviewing candidates for the job. This action would release the regular officers for more night policing hours when it is felt they are needed more. Two bids on a three-quarter ton truck were received and the contract was awarded Sperry Ford Sales. The August financial report presented by Mayor Seidel was approved unanimously and it was agreed to publish the annual financial report in the local newspaper next week.

In other action taken at the meeting donations were made to the following: Library, \$500; Cub Scouts, \$100 and the Municipal Band, \$100.

A letter from the Freeman-Toor Corp. was received pertinent to their 1967-68 tax bill. The Council will answer in a letter to the corporation and explain the tax laws of Frederick County. Refunds were ordered mailed to four local property owners regarding recent water service installations.

Free Chest X-Rays Here Sept. 16

The Maryland State and Frederick County Health Dept. and Tuberculosis Association are having the 1968 Mass X-ray Survey in Emmitsburg September 16. The truck will be at the H. O. Toor Shoe Corporation from 10:00 to 12:00 noon; Emmitsburg Manufacturing Company from 1:00 to 2:00 p.m. and at the Fire Hall from 2:30 to 5:30 p.m.

Be sure and stop for a free chest x-ray if you are 18 or over.

Mrs. William Slemmer, Jr. a member of the Emmitsburg Homemakers Club is chairman of the recruitment of volunteers for the project and the Homemakers Club is the sponsoring group. It is hoped that all persons will take the few minutes required to have a chest x-ray. A chest x-ray gives peace of mind in knowing that one is free from tuberculosis and secondly it finds TB and other chest abnormalities in the early stages when cure is easiest and before the germs spread to infect others.

BAKE SALE

The Emmitsburg Cub Scouts will hold a bake sale at the Fire Hall on Saturday, September 21, beginning at 10 a.m.

Prof. J. Flaherty Joins W. Va. Dept. Of Education

The West Virginia Department of Education has announced the appointment of Joseph E. Flaherty, Director of Counseling and Placement at Saint Joseph College, Emmitsburg, Md., to the position of Coordinator of Pre-service and Continuing Education for West Virginia.

A former assistant professor of education at Mount St. Mary's College, Emmitsburg, Flaherty will be primarily responsible for organizing and formulating guidelines for a state-wide student teaching program under procedures recently established by regulations of the West Virginia legislature and the State Department of Education. In his new position he will also work with the institutions of higher learning to determine needs in the various sections of the state for a coordinated program of course offerings in continuing education.

Flaherty, a graduate of East Stroudsburg State College and the Pennsylvania State University, has completed course and residence requirements for his doctorate in Education at the University of Maryland. A native of Wilkes-Barre, Pa., he taught in the secondary schools of Havre de Grace, Md., Tremont, Pa., and Parkton, Md., prior to coming to Emmitsburg in 1963.

He is a member of the National Education Association, the American Association of University Professors, the Association for Student Teaching, the National Society for the Study of Education, the American Association for Higher Education, the Veterans of Foreign Wars, the American Legion, the Knights of Columbus, and Elks. He has served as a consultant to the Maryland State Department of Education, and is listed in the current issue of "Who's Who in American Education."

He was formerly Director of Guidance and Placement at Mount St. Mary's College, and edited the alumni quarterly, "The Mount Alumnus." He has also been lecturer in education at Loyola College, Baltimore, and Western Maryland College, Westminster.

Flaherty, who expects to take up his duties with the West Virginia Department of Education in October, resides with his wife and four children on Route 1, Rocky Ridge.

Lions Hear

Former Editor

Code Home Rule for Frederick County was thoroughly discussed at the regular meeting of the Emmitsburg Lions Club held Monday evening at Mt. Manor Restaurant, President Milton A. Sewell presiding.

Guest speaker of the evening was James L. Bryan, former Brunswick newspaper editor and publisher and presently clerk to the County Commissioners. Bryan gave a comprehensive talk on the subject of Code Home Rule which Frederick County must vote on Nov. 5. He explained that the new rule would return some of the power back to the people of the county in which they live while lessening the grip the Legislature has on the entire state. Under the present setup, Frederick County has only two senators and three delegates to represent it among several hundred at Annapolis.

Lion Norman Shriver related his recent trip to Ireland and showed the members some souvenirs he brought back. It was announced that District Governor David L. Brawing would be a guest at the December 9 meeting. An invitation was received to attend the Taneytown Club's Charter night on Sept. 28. Lion Norman Flax reported he had received appraisals on the Civic Grounds and it is highly possible the club will sell the ground at some future date, preferably to light industry.

Two Mount Students Killed In Car Crash

Two young Maryland men, students at Mt. St. Mary's College, met death in an automobile at approximately 12:50 a.m. Wednesday morning when their automobile in which they were traveling, left the highway about three miles south of Frederick and crashed.

The Marylanders were identified by police as James Francis Burroughs, 20, Temple Hills, Md., operator of the vehicle, and John Neil Sanders, 20, of Oakland, Md. A third passenger in the car, also a Mount student, James Ambrose Morris, 20, lived in Washington, D. C. All three were members of the junior class and were en route to the college when the accident happened. Morris lies in the Frederick Memorial Hospital in critical condition suffering from internal injuries.

Frederick County medical examiner, Dr. Robert J. Thomas, said that both students died of crushing injuries to the chest and skull, the type of which are frequently found in airborne crashes.

Maryland State Police determined the cause of the accident, which occurred on Route 70S just south of Frederick, as excessive speed. It was reported that the mishap was discovered through a malfunction of a signal relay at the Baltimore office of the B. and O. railroad. Upon checking the malfunction on the railroad track beneath the highway it was found that the accident had occurred. There were no known witnesses to the mishap.

State Police said the car was apparently northbound when it veered out of control and ran onto the median strip where it struck a culvert, then a metal guard railing and tore off a wooden guard post.

At that time, police said the student's car became partially airborne striking the edge of the concrete bridge wall and then plunging the 50 ft. to the railroad crossing beneath the highway. The car struck Western Union Telegraph wires before dropping to the ground. Damage was estimated at \$2,500 to Burroughs' 1967 Chevrolet Camaro.

The United Fire Company ambulance and rescue squad from Frederick were called to the scene. A large crane owned by a Frederick contractor was used to remove the demolished vehicle.

Memorial services were held on Wednesday in the Mt. St. Mary's College chapel for the deceased students.

Band Council Holds Meeting

The Emmitsburg Municipal Band held its latest Council meeting at 9:15 on Sept. 4. Among the motions carried were these:

Minutes of Council meetings will be read at the following general band meeting.

A poster committee for the membership campaign was delegated which includes the entire color guard.

The first Wednesday of every month was chosen for Council meeting night.

Business letters are being sent to local shops concerning our uniform drive.

Members of the Council also discussed Halloween parades, a band flag or seal, and color guard gowns.

Hospital Report

Admitted

Bernard Cool, Emmitsburg.
William Tyler, Emmitsburg R1.
Miss Adele Wivell, Emmitsburg.
Mrs. Ada H. Keilholtz, Emmitsburg R1.
Mrs. Leroy Baker, Emmitsburg, R2.

Discharged

Duane Gigeous, Emmitsburg.
Mrs. Mary Ridenour, Emmitsburg R1.
Mrs. James Joy and infant son, Fairfield R2.
Mrs. Gary Clabaugh and infant daughter, Emmitsburg R1.

Births

Mr. and Mrs. Terence Byard, Emmitsburg R3, son, Friday.
Mr. and Mrs. Dale Valentine, Emmitsburg, daughter, Monday.
Mr. and Mrs. John Eichelberger, Thurmont R2, daughter, Friday.

It is surprising how well you can get along with others if you keep your mouth shut and let someone else do the talking.

VFW Auxiliary Meeting Held

The regular meeting of the VFW Ladies Auxiliary was held last Thursday in the Auxiliary Room of the Post Home. President Mary Bowne presided with 20 members present. The following will assist with the wedding reception, Sept. 14: Evelyn Ott, Catherine Hodge, Mary T. Miller, Jane Orndorff and Dixie Vivaldi.

The Auxiliary will send packages to the local men serving in Vietnam for Christmas. Following the October 3 meeting, the Auxiliary will sponsor a Sara Coventry Jewelry Party. Anyone interested is invited to attend. Idella Fite donated a hand made afghan which will be chanced off at the December meeting. The group is still collecting Betty Crocker Coupons for a fire engine in Alaska.

Viola Hemler's name was drawn for the door prize but was not present.

The Veterans Administration employs the physically handicapped.

Prof. Leonard Heads History Dept. At College

Thomas M. Leonard, assistant professor of history, has been appointed chairman of the history and government department at St. Joseph College. The appointment, effective this semester, was announced by Sister Margaret Hughes, academic dean.

Prof. Leonard joined the St. Joseph faculty in 1962 as instructor of history. In 1965 he was promoted to assistant professor and served as acting chairman of the department. He also serves as a part-time instructor in the graduate program at Western Maryland College.

A graduate of Thomas Jefferson Senior High School in Elizabeth, N. J., Leonard received an athletic scholarship to Mt. St. Mary's College, from which he received his A.B. in history in 1959. He earned his M.A. in American Foreign Policy from Georgetown University in 1962.

During the spring of 1968, Leonard was on sabbatical leave

from St. Joseph's, completing research on his doctoral dissertation which deals with aspects of United States-Panamanian relations. He is a candidate for the degree at American University in Washington, D. C. He also visited the Caribbean region with his wife, Yvonne.

Leonard rejoined the College faculty for the summer session, conducting a course in Contemporary Latin American Civilization and preparing an Institute on Southeast Asia which is being offered this year. He is the campus director of the Institute, which is sponsored under grants received from several foundations.

In 1966, under a Ford Foundation Fellowship, Leonard participated in a seminar on India with faculty members from five other area Liberal Arts Colleges (Mt. St. Mary's, Hood, Gettysburg, Dickinson, and Western Maryland). He was contributing author to the group's inter-disciplinary "Syllabus on Indian Civilization." Mr. Leonard is also a member of the Executive Committee of the Six College Non-Western Studies program.

He holds membership in the American Historic Association, the Organization of American Historians, and the Conference on Latin American History. A member of Phi Alpha Theta, the international history honor society, he initiated the Kappa Sigma chapter at St. Joseph College in 1965. Active in the American Association of University Professors, he serves as president of the St. Joseph's chapter.

Married to the former Yvonne Clements of La Plata, Md., Mr. and Mrs. Leonard reside near Emmitsburg with their five sons: Thomas, Robert, Randall, and twins, Edward and Davis.

Gives Opinion On Transplants

Editor, Emmitsburg Chronicle:

The other evening Channel Seven News gave an account of our latest heart transplant. As related by the news team, it seemed to be 'Transplant of the Week', if not of the entire year.

The donee was of the usual sort . . . in desperate condition, worthy of our compassion, but likely not as bad off as President Eisenhower. The donor, so-called, was a 17-year-old Richard Row who had been involved in a motorcycle fall, in California, in which he sustained irreparable and irreversible brain damage. According to Channel Seven his "body"—note this, his "body"—was then flown to Houston for transplant purposes.

If people on Channel Seven tell such lies

People on Channel Seven won't go to heaven

Now if the Houston doctors wanted only a "body", surely one could have been rounded up from one of the 37 undertaking establishments right in their own town. They wanted more.

Last week in Chicago, Mayor Daley cracked several hundred heads together, including the heads of a score of newsmen. This is dangerous treatment to an honest newsmen. Newspapers, the greatest safeguards of our freedoms, should not have to pay reporters hazard-pay just to cover and relate genuine news developments; but when newsmen are dishonest, and take to purveying conclusions, poorly drawn, instead of news, they no longer command our respect. They must tell us the truth, i.e., that it was Richard Row who was flown to Houston, and not just his "body."

To tell it like it is, is the order of the day, so let's say it: The greatest reservoir of atheism in the world today is found in the ranks of the medical profession. Too many of their number say, openly, that there is no God, or that God is dead. When they have said this, they have also proclaimed, necessarily, that God's Law is fiction. It strikes me as strange, and ominous, that Episcopal, Methodist, and Presbyterian hospitals, in Houston and in Pittsburgh, have been made available for purposes of these operations, for surely actions still speak louder than words. The affirmative act of making facilities available speaks louder than negative preachments that only "say" Thou Shalt Not Kill! Catholics generally look forward to a joining of all believers . . . but BELIEVERS . . . not Disbelievers.

Patrick F. X. McGucken, J.D.

Legion Auxiliary Meeting Held

The regular monthly meeting of the Francis X. Elder American Legion Auxiliary Unit 121 was held last Tuesday evening. President, Virginia Sanders presided with 21 members present.

Membership Chairman, Theresa Miller, announced 31 paid-up members to date. The next District meeting will be held on Sunday, Sept. 29 at the Clopper-Michael Unit, Boonsboro. Trophies earned during the past year will be awarded at this meeting. Chaplain, Anna Bushman, reported several cards had been sent to members on various occasions.

The next meeting will be held on Tuesday, October 1, at which time a Tupperware Party will be

held. The regular meeting will begin at 7:30 and the party will start at 8 p.m. The public is cordially invited to attend the party. Anyone wishing to order merchandise, may do so by contacting any member of the Unit.

Members reported the following: Babysitting, 28½ hours with Veteran and non-veteran children; \$20 donation of clothing to the poor; Public Health Clinic, 40 hours for the use of the Auxiliary room; 66 children were treated during clinic hours and five maternity cases were also treated during the month of August.

Fourteen members reported they helped for 56 hours with two parties given by members of the Post in July and August. Members who donated their help at both parties were: Ann Shorb, Kathleen W. Shorb, Melya Hardman, Virginia Sanders, Mildred Harner, Margaret Shorb and Gwen Topper.

Officers and committee chairmen for the coming year are as follows: President, Virginia Sanders; 1st vice president, Mary Theresa Miller; 2nd vice president, Ann Shorb; Secretary, Gwen Topper; treasurer, Melya Hardman; historian, Kathleen W. Shorb; Chaplain, Anna Bushman; Sgt.-at-Arms, Lois Hartdagen; Dept. Executive Board Committee woman, Charlotte Sanders; membership chairman, Mary Theresa Miller, co-chairman, Ann Shorb; rehabilitation chairman, Ann Topper; Americanism, Margaret Shorb; child welfare, Carmen Top-

per, Madeline Harner; Poppies, Anna Bushman; legislative and national security, Kathleen White Shorb; Civil Defense, Loretta Hardman; foreign relations, Ethel Sprinkle; constitution and by-laws, Verna Harbaugh; education and scholarship, Lois Hartdagen; publicity, Kathleen T. Shorb; music, Corrine Seiss; radio and TV, Nettie Ashbaugh; past Presidents' parley, Joan Topper; junior activities, Evelyn Hartdagen; parade, Geneva Sprinkle; color bearers, Jesse Knipple, Teresa Rodgers; executive committee, Mrs. Margaret Brown, Anna Shorb and Mrs. Frances Stinson.

Hazel Musselman's name was called for the door prize, but she was not present. The draw prize was won by Mary Theresa Miller. Refreshment committee for October is Anna Bushman and Charlotte Sanders.

Announcement was made that annual dues which are now \$2.50, will be increased to \$3.50 on October 1. Members are urged to pay their dues before the increase.

Following adjournment, the ladies joined the men of the Post for refreshments.

Would Like To Activate Scouts

Anyone interested in forming a local Boy Scout Troop is asked to contact Raymond M. Baker, phone 447-2673, for scheduling a meeting in the near future.

PUBLIC SALE

SATURDAY, SEPTEMBER 14, 1968

Starting Promptly at 10 A. M.

between many of the nation's
leading cities is but a memory
and further: cutbacks are in the
offing.
Challenge To Free Enterprise

Decline of railroad passenger
service is the result of a num-
ber of developments. These in-
clude: Wider acceptance of trav-
el by auto; growth of long-dis-
tance bus service; competition
from the airlines; sharply high-
er wage and other costs which
impelled rail managements to
favor the money-making freight
sector of their business; and
the heavy hand of government
controls.

Each of these drawbacks is
serious. Collectively, they have
almost spelled the end of rail
passenger service in the nation.
Are they insurmountable ob-
stacles, instead of a challenge
to free enterprise? Time is
running out, but perhaps it is
not too late to save the rail-
roads from extinction or from
government ownership.

Need For Economy

Concentration on their lucra-
tive freight runs will not in it-
self assure the rails a profitable
future featured by expanding
business. Their break-even
points are high and still mov-
ing up . . . hamstrung by gov-
ernment controls. Their compe-
tition from highway, water, and
air transport is increasing by
leaps and bounds—and hurting in
a growing number of instanc-
es. Their need for expensive
equipment and maintenance is
continuing and expanding.

The only real hope for the
railroads is a concerted cam-
paign to reduce costs, curb the
excess demands of labor, and
improve productivity. Without
this economy and more efficient

management, it just isn't going
to be possible in the long run
to operate with a profit large
enough to attract sufficient in-
vestor interest. And failure
would probably bring govern-
ment ownership.

Management's Responsibility

In many instances the aban-
donment of passenger service was
the inevitable result of circum-
stances beyond the control of
railroad managements. But
there have been quite a good
many cases, too, where cutoffs
and curtailments could have
been avoided if the roads had
exercised more responsibility
and less eager to divest them-
selves of passenger service.

Railroad managements could
have fought harder to preserve
economically useful and feasible
segments of their passenger ser-
vice. They can still make a
mighty contribution to medium-
haul passenger service, which
needs to be restructured to re-
lieve the burden placed on air-
line facilities in recent years.

Government's Role

While railroad passenger ser-
vice will never again be as per-
vasive and extensive as it was
in the early decades of this
century, it can and should be
a vital link in our over-all
transportation system. Public
convenience demands this and
there are economic benefits that
will flow from a rejuvenation of
such service in sectors of the
country where the need for it
can be shown and where gov-
ernment and public support for
it will be forthcoming.

The federal government must
play a leading role in any such
move. The Department of Trans-
portation already has broad re-
sponsibility in this area, and in

the years immediately ahead
we may expect to see that re-
sponsibility expanded. We are
a nation of 200 million already,
and still growing. There is a
place for every type of trans-
port within our borders. In-
stead of the hodge-podge we
have today with its self-defeat-
ing inadequacies and unhealthy
competitiveness, we can have a
well-integrated system benefi-
cial to all—in which rail pas-

senger service will have its own
secure and profitable niche.

Service Academy Application Deadline Extended By Mathias

Rep. Charles McC. Mathias, Jr.
(R-Md., 6th) this week announ-
ced that he is extending the fil-
ing date for accepting applica-
tions for Service Academy ap-
pointments until September 27. The
Congressman reached this deci-

sion, he said, in order to afford
sufficient time after school began
for all interested young men to
secure the necessary application
forms and data on the academies.
He further stated that all young
men interested in competing this
year to write him (Canon House
Office Building, Room 107, Wash-
ington, D. C. 20515) for applica-
tion forms and detailed informa-

The previous deadline for ac-
cepting applications was Sept. 3.

He who lives at high tension
usually blows a fuse.

D.M.V. REPORT

By D. Murray Franklin
Public Information Officer
Md. Dept. of Motor Vehicles

**The Driving Test:
Prerequisite To Safety**

From the time an applicant enters Room 141 of DMV's Headquarters Building in Glen Burnie to take the eye test for visual acuity, then into the Examination Room for the law test and finally out to the driving range for the road test, an average time of one-half hour has elapsed before he comes into possession of his permanent driver's license.

Applicants for the final examination must present proof of age and identity (birth certificate), and if they are under 18 years of age, must show a certificate of completion of the Driver Education Course consisting of thirty hours classroom instruction and six hours behind-the-wheel experience. Their Instruction and Examination License must be at least 15 days old, but cannot be expired.

After taking the eye test (20/40 minimum vision required for each eye for an unrestricted license) and the law test (twenty questions with passing grade of 85), the applicant receives a driving test score sheet and a numbered card with instructions to park

his vehicle in the test parking area.

As his number is flashed on the "tote-board" by the Control Tower operator, he drives his car into line ready for entry into the starting point of the driving range. Here he meets his Examiner who checks his papers and the front and rear lights on his vehicle, then asks the applicant his age and if this is his first test. In explaining the driving test begins when the stoplight turns green, the Examiner cautions the applicant to obey all traffic lights and signs, to drive carefully, using blinker or hand signals for each turn, to take his time and listen for instructions as he proceeds around the course.

The course's first test of driving skill is a 26 foot square area surrounded by curbing and marked with red flags. This is called the turn-about test, requiring the applicant to turn his car completely around and go out of the area in the opposite direction he entered, in three minutes.

Next comes the acceleration and reaction test. From a full stop, the applicant is told to quickly accelerate to 25 miles per hour and then stop immediately on command of the Examiner. The stop must be smooth and unwavering.

The applicant is then instructed to back his car at a normal back-

up speed to the starting point of the acceleration test. This maneuvering tests the driver's ability to drive backward safely, without bumping in the sides of the curbing or straddling the lanes.

Moving toward the end of the range, the driver approaches the parallel parking area where he is required to park within 12 inches of the curb in a space 25 feet long and 6 feet wide, in three minutes, and without knocking down the flag markers at either end of the area.

Leaving the driving range, the applicant is instructed to follow the directions of the Examiner as he heads for Ritchie Highway and then onto County roads. The purpose of this test is to determine the applicant's observance of changes in the posted speed limits as well as his responses to road signs and traffic lights. The Examiner makes notes of the applicant's maneuvering and signaling as he changes lanes and makes turns.

Two points each are deducted for straddling traffic lanes or changing lanes without signaling. Failure to stop at a stop sign, traffic light or jumping a curb will cost the applicant 15 points for each violation. Sixteen points will fail the test.

At the close of the driving test, the applicant takes oath that the information given on his applica-

tion is correct. He then turns in his Instruction and Examination License together with his driving test score sheet and a Two Dollar fee to the cashier, where he receives a fifteen day temporary driving license. Before its expiration, DMV will mail his permanent driver's license to his home address.

Twenty-four Examination Stations are operated throughout the State by the Department of Motor Vehicles. During July over 1,000 tests were given at Glen Burnie alone. Sixteen thousand Instruction and Examination Licenses were issued in July, representing an increase of 4,000 over June.

During the fiscal period of July 1967 through June 1968, DMV's 68 Examiners conducted:

179,089 Law Tests.
117,018 Driving Tests.
193,331 Eye Tests.
109,403 Instruction Licenses issued to Marylanders.

78,633 Instructions Licenses issued to persons with out of state licenses.

133,828 Operator's Licenses issued.

66,545 Chauffeur's Licenses issued.

The number of Motorcycle licenses issued during this period was 5,210 compared with 496 for the previous year. This tremendous increase is due to the requirement for specific motorcycle licenses, together with increased sales of motorcycles and motor bikes.

In analyzing the causes which fail most applicants on their initial driving test, DMV's Examiners state that overlooking stop

signs and traffic lights, not properly executing right and left turns and not driving in the correct lanes of traffic are the most frequent errors. Unless the applicant is observant, his mistakes can soon add up to a total of sixteen points which disqualifies him and requires another test at a later date.

Completes Basic

Airman Paul M. Smith, son of Mr. and Mrs. Paul M. Smith, 301 W. Main St., Thurmont, has completed basic training at Lackland AFB, Texas. He has been assigned to the Air Force Technical Training Center at Chanute AFB, Ill., for specialized schooling as an aircraft equipment repairman. Airman Smith is a graduate of Thurmont High School.

Giant new machines capable of boring a six-foot diameter hole through 180 feet of rock in less than two weeks are speeding development of International Nickel's mines in Ontario and Manitoba. The raise borers can complete a job in one-quarter of the time it used to take.

**It's Time For...
EYE CARE**

Dr. Newton K. Wesley
WHAT IS SEEING?

Although the phenomenon of seeing is instantaneous, we don't realize the great amount of interpretation required of the brain to "unscramble" what is seen.

The driver of a vehicle involved in an accident views the mishap quite differently than the "eye-witnesses." There are so many variables that occur in an accident that the actual facts are often obscured.

Your eye doctor will tell you how different patients interpret the images and letters on the eye chart in his office. There are many valid reasons for this misinterpreting. You may not be looking directly at the object in question, your gaze was wandering. The angle of view may affect your interpretation. You may have had your mind fixed on something else. You may be tired, or your eyes are not focusing. Perhaps you need visual correction. Seeing is a very complicated process and it is exceedingly important that you are properly trained to see.

The current and very intense interest in reading courses give ample evidence of the value of accurate reading. Many executives are trained to read their material more rapidly and with greater understanding. Schools have intensified this also and we are again being taught that reading is a very vital part of learning.

According to the National Eye Research Foundation, 85% of our knowledge is gained through the eye. Have you had an eye examination lately?

Wesley

**Buy Bonds
where you work.**

They do.

Why do our servicemen buy U.S. Savings Bonds? Their reasons are the same as yours and mine: saving for the future, supporting freedom. And because they're fighting for freedom, too, maybe servicemen see the need more clearly than many of us. Buy Bonds. In more than one way, it makes you feel good.

NOW—Higher Rates!

Savings Bonds now pay 4.25% when held to maturity—and Freedom Shares (sold

in combination with E Bonds) pay a full 5%. The extra interest will be added as a bonus at maturity.

And now you can buy the Bond/Freedom Share combination any time—no monthly commitment necessary. Get the facts where you work or bank.

**U.S. Savings Bonds,
new Freedom Shares**

The U.S. Government does not pay for this advertisement. It is presented as a public service in cooperation with the Treasury Department and The Advertising Council.

**Know the seven
warning signals
that may
mean cancer.**

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. A change in bowel or bladder habits.
5. Hoarseness or difficulty in swallowing.
6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

None of these is a sure sign of cancer. But if one lasts more than 2 weeks, see your doctor at once. It's worth it in peace of mind alone.

Insurance Rate Increase Denied

Insurance Commissioner Newton I. Steers, Jr. announced this week that he has disapproved a requested increase in fire insurance rates which had been submitted by the Maryland Fire Underwriters Rating Bureau.

The Commissioner stated, "The Bureau, earlier this summer, asked for a fire insurance rate increase of 36% on dwellings (or 25% with an optional deductible feature) and of 4% on all other kinds of property (or 4.5% with the deductible). The requested increases were disapproved by me for the following reasons:

"(1) The information filed did not reflect the additional revenue which will accrue to the companies through the application of a 3.5% civil disorder loading surcharge,

which I granted effective July 25, 1968. That surcharge will provide the companies with approximately \$2.7 million additional in the next twelve (12) months. Since the request I have just disapproved was designed to generate between \$1.0 and \$1.6 million in additional revenue it is my determination that (in light of the surcharge) there is an insufficient showing that the present rates (including the surcharge) are not adequate. Further, it is my determination that there is not a sufficient showing that the rates requested would not be excessive (again in the light of the surcharge already granted).

"(2) The Bureau filing covers only fire and extended coverage perils. It does not deal with the multiple peril package policy rates either homeowners or commercial multi-peril types. Although each

set of rates ordinarily stands on its own, a special circumstance exists here: the restricted risks fire and extended coverage policies have been steadily diminishing and that business has been steadily flowing to multiple peril policies. I believe it is necessary to know whether the rates for homeowners and commercial multi-peril policies may have become excessive at the same time that fire and extended coverage rates have, by the Bureau's figures, become inadequate. I have advised the Bureau that I feel it is necessary for them to include the package policies, in the event they decide to refile for an increase, so that a determination can be made as to these closely related rates."

The Bureau's request for increases in fire insurance rates was coupled with a request for decreases in extended coverage insurance rates. The additional revenue figures quoted reflect both the increases and the decreases.

Meat Inspection Law Effective Soon

An estimated 20 million pounds of presently uninspected meats being sold annually to Maryland consumers will soon come under examination of the Maryland State Board of Agriculture's Livestock Sanitary Service.

The State Board of Agriculture has completed an agreement with the USDA for establishing a cooperative meat inspection program under provisions of the Maryland Wholesome Meat Act of 1968 and the Federal Act of 1967. The Acts provide for a uniform

standard of wholesomeness, whether meat is State or Federally inspected.

A day-long meeting on the new Maryland law and the start of their inspection program, and on plant and sanitation requirements was held Tuesday at College Park. The State Board of Agriculture (SBA) has responsibility for the inspection of red meats sold or shipped within the state. The USDA Consumer and Marketing Service will continue to inspect meat processed in plants selling products across state lines or in foreign countries.

Costs of the program are shared equally by Maryland and the Federal government on a "matching funds" basis.

The Livestock Sanitary Service has begun the task of employing and training inspectors, veterinarians, program supervisors, and establishing inspection procedures.

Dr. Charles P. Ellington, director, Services and Control, SBA, says "It will take at least six to eight months" to get a skeleton crew trained and regulations drafted and approved by the attorney general's office.

A joint State-Federal survey of presently uninspected plants in Maryland indicate minor action on sanitation and equipment is needed in about 30 facilities. According to the survey only a "few" plants need major adjustments,

The first thing
to save for your

CHARLES L. DUBEL
301 West Main Street
Emmitsburg, Maryland
vs.
MARGARET REAVEY DUBEL
30 Hazel Street
Hartford, Connecticut
NO. 22138 EQUITY
In The Circuit Court For
Frederick County, Maryland

The object of this Bill is to procure a divorce A VINCULO MATRIMONII by the Complainant, Charles L. Dubel, from the Defendant, Margaret Reavey Dubel.

The Bill states in substance that the parties were married on June 8, 1945, in Worcester, England; that the Complainant is a resident of the State of Maryland, having resided in Frederick County for more than one year last past; that the Defendant is a non-resident of the State of Maryland, believed to be residing at 30 Hazel Street, Hartford, Connecticut; that two children were born as a result of the marriage, these being Patrick Michael Dubel, age 20, and Sheila Ann Dubel, age 19; that the parties to this cause voluntarily separated October, 1966, and that said separation has continued uninterruptedly since that time and said separation is deliberate and final and beyond any reasonable hope or expectation of a reconciliation. The Bill prays that the Complainant be divorced A VINCULO MATRIMONII from the Defendant, and for general relief.

It is thereupon this 26th day of August, 1968, by the Circuit Court for Frederick County, sitting as a Court of Equity, ORDERED that the Complainant give notice to the said non-resident Defendant of the object and substance of this Bill by causing a copy of the same to be published in some newspaper published in Frederick County, once a week for four successive weeks prior to the 28th day of September, 1968, commanding her to be and appear in this Court in person or by Solicitor, on or before the 29th day of October, 1968, and show cause if any she has, why a Decree should not be passed as prayed.

Baltimore Included In Small Business Project OWN

Howard J. Samuels, Administrator of the Small Business Administration, this week announced that Baltimore is included in the first 26 target cities in Project OWN — the Agency's nationwide program to create businesses owned by members of minority groups.

The goal of the program, according to Samuels, is to help create minority owned businesses at the rate of 10,000 a year by the end of the following year.

In activating the first 26 cities, Samuels said, "This is only the beginning. We have a number of other areas already targeted for this program, and we plan to move into them as soon as we can organize our resources and manpower, and combine them with those of the private sector."

"The key to the success of Project OWN is the part played by the private sector—the banks, industry, trade associations and community groups—which contain the creative and financial genius of the Nation. Thus far, the co-operation has been excellent; but we can use more help. I have been personally carrying this appeal all around the country, and will continue to do so."

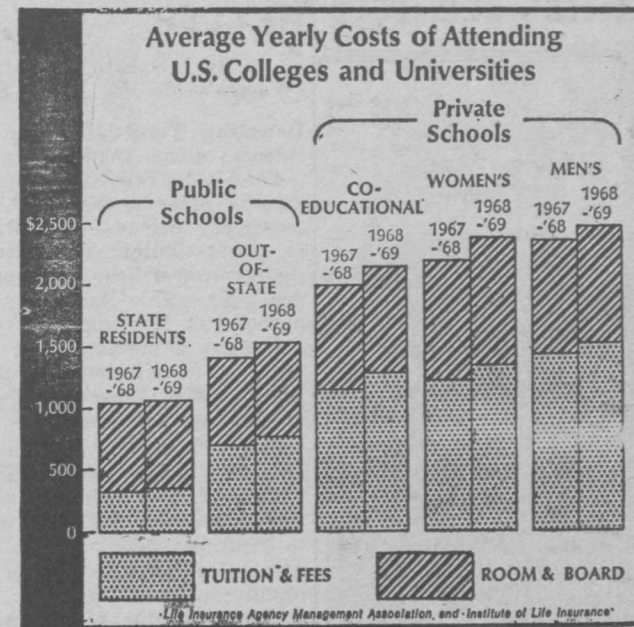

Project OWN is a joint government-private sector program under which a minimum of public money is used. Banks will supply most of the capital for the new businesses and the private sector will help provide guidance and training for the fledgling businessmen. SBA will guaranty the loans and by means of special teams, will seek out the men and women among minority groups who have the capability of becoming small business owners.

Project OWN enlists the support of banks, industry, local leaders, and representatives of minority groups to find the qualified persons to start new businesses or buy out businesses already operating.

The Baltimore Regional Office is located in Room 1113, Federal Building in the Charles Center.

Detecting Tippy Drivers
Reduces Road Deaths

WASHINGTON, D. C. — Four months after a new test to detect tippy drivers was introduced in Great Britain road deaths in that country fell by a whopping 22 per cent. This is what British pathologist Dr. Donald Teare reported at a meeting here of experts on accidents. In addition there was a 15 per cent reduction in highway accidents.

Under the new British law a policeman may require a driver to take the test when he suspects that the driver has had too much to drink; or when he has seen a driver commit a moving traffic offense; or when a driver has an accident. If the test shows that there is more than a certain percentage (0.08 per cent) of alcohol in the blood, the offender loses his license for a year.

In four months the police have given more than 15,000 tests. Of these, 6,661 were positive.

Education Saves Mothers' Lives
ONTARIO, Canada—Good news department: Deaths from childbirth and from abortions have

reached an all-time low in Ontario, and credit for this achievement was given to the widespread use of birth control pills and better sex education. This report comes from W. T. Noonan, M.D., secretary of the maternal welfare committee of the Ontario Medical Association.

Noting that the maternal death rate in 1966 was down to 1.8 per 10,000 births and that abortions took only six lives, Dr. Noonan said that the large decrease in the number of criminal abortions resulted from the spread of family planning information and broader acceptance of contraceptives.

"Those who might have used abortionists in the past," Dr. Noonan said, "are getting smarter. They're preventing pregnancies."

**Penalty Of Being Human:
Lower Abdominal Pain**

SAN FRANCISCO, Calif. — Men and women susceptible to recurrent lower abdominal pain may be suffering the consequences of becoming an erect biped.

This is the conclusion of Dr. William Hunter of the Permanente Medical Group of the Kaiser Foundation Hospital here. He bases his contention on clinical observation of more than 100 patients with this condition as well as on anthropological evidence. The

physician, working with an anthropologist, has been tracing the evolution of the human locomotor system, particularly the muscles of the buttocks.

At the American Medical Association meeting here, Dr. Hunter described 36 patients, 24 women and 12 men, who had suffered from pain in the lower abdomen for at least a year. Ten patients had had a variety of operations—ranging from an appendectomy to removal of the ovaries—in a vain effort to relieve their pain. After performing simple daily exercises for several months to strengthen abdominal and buttock muscles, they have all been free of pain for a year, Dr. Hunter reported.

"Perhaps the most important feature which should suggest that lower abdominal pain is caused by muscle strain is pain or discomfort when changing one's position," Dr. Hunter told Women's Medical News Service. "This will occur as a person rises from a chair or as the heel strikes the ground while walking. Other clues include the feeling of pressure on a tender structure during sexual intercourse or pain during the premenstrual period due to pelvic relaxation."

**Model Airplane Meet
Set For Sunday**

Model airplanes of all types, shapes, sizes, and colors will be on hand this weekend at the Frederick Municipal Airport as model enthusiasts once again vie for the many trophies to be given

away at the 1968 Maryland model airplane meet on Sunday, September 15. Sponsored for the 15th consecutive year by the Frederick model airplane club, this annual Triple A meet is sanctioned by the Academy of Model Aeronautics and is open to all AMA members.

According to Mr. John E. Patton, of Braddock Heights, general contest director, registration will open at 7:00 a.m. and close at 12:00 noon. The contest will begin at 8:00 a.m. and continue throughout the day, ending at 4:30 p.m.

Among the many prominent modelers expected to fly during the meet is Dr. Walter A. Good, many times a national radio control model champion and a pioneer in radio control modeling. The radio control event will be operated by the Radio Control Model Club of Baltimore and will be directed by Mr. Humphrey Jones of Baltimore. Pattern and aerobatic flying will be featured.

Free flight events include gas powered, rubber powered, and glider models, and will be operated by the Baltimore Aerocraftmen model club. The contest director for free flight will be Mr. Bob Siffert, a grand national champion.

Control line flying, including combat, scale racing, and stunt, will be operated by the National Capital Model Airplane Club and directed by Mrs. Diana Johnson. Well known throughout model airplane circles and an enthusiast in this field for 25 years, Mr. Patton has again been selected gen-

eral contest director for this meet. He recently returned from Germany where he attended the Federal Aeronautic Internationale judges training school. He also served as contest director of radio control events at the 1968 national model contest at Olathe, Kansas. Mr. Patton is a member of the Frederick model club.

The Frederick Civil Air Patrol squadron and members of Group IV of the Maryland CAP Wing will operate a food concession for participants and spectators. The CAP will also provide assistance to the modelers in the form of first aid facilities, generator power, and messenger service or search parties for lost models if required. Proceeds from the concession will be used to purchase

search and rescue equipment and training aids for the cadet aerospace education program. There is no admission charge and plenty of free parking is available for spectators. The public is invited to attend this model airplane event of the year.

**After Death, The BODY
SHALL RISE AGAIN!**

This is one of the Christian truths hardest for some people to believe. Though accepting the immortality of the soul, they cannot believe the human body can disintegrate and then be renewed and restored. Forgetting that anything is possible to God, they regard such resurrection as a physical and scientific impossibility.

One of the most definite truths of the Christian religion is that the bodies of all men after death shall rise again. "...the hour is coming," says the Gospel of St. John, "when all who are in the tombs will hear His voice and come forth, those who have done good to the resurrection of life, and those who have done evil to the resurrection of the judgment" (John 5:28-29).

Confronted by the disbelief of the Sadducees, our Lord said to them: "...as for the resurrection of the dead, have you not read what was said to you by God, 'I am the God of Abraham, and the God of Isaac, and the God of Jacob?' He is not God of the dead but of the living (Matt. 22:29-33).

But even though the Scriptures confirm this ancient Christian doctrine, they don't specifically answer some questions concerning it that may trouble you. You may wonder, for example, if your resurrected body will be identical with your human body... if you will recall loved ones and events of your life... if you will eat, drink and move about as you did in your lifetime on earth.

The nature of the resurrected body is explained by St. Paul, using the example of a seed to make his meaning clear. "What you sow is not the body which is to be, but a bare kernel, perhaps of wheat or some other grain. But God gives it a body as He has chosen, and to each kind of seed its own body. So it is with the resurrection of the dead. What is sown is corruptible, what is raised is incorruptible. It is sown in dishonor, it is raised in glory. It is sown in weakness, it is raised in power. It is sown a physical body, it is raised a spiritual body" (1 Cor. 15:37-44).

If you are in doubt about or confused by the mystery of the resurrection of the body, write today for our new pocket-size pamphlet entitled: "You Shall Rise Again." You'll find in it the answers to questions you may have on this all-important doctrine—presented in interesting, easy-to-read fashion.

FREE — WRITE FOR IT TODAY! We'll be happy to send you your copy of "You Shall Rise Again" free of charge and without obligation. Just ask for Pamphlet No. KC-34. Nobody will call on you.

ALL-ALUMINUM Chippendale chair illustrates the many properties of the light metal. The chair was sand cast after original wooden chair was broken down into six parts. A mold of these parts was made. Aluminum was poured into the resulting mold and each of the six aluminum duplicates was reassembled. The aluminum was varnished to give the metal a long-lasting lustre.

Mount To Try
"Pastor" Concept
With Students

Each of the five residence halls at Mt. St. Mary's College will have its own priest "pastor" in what is believed to be a unique structuring of the religious program on a Catholic college campus.

Rev. Daniel C. Nusbaum, recently assigned to the Mount by the bishop of Albany, has been named chaplain to develop the new collegiate "pastors" concept. The college's 945 students will learn about this new approach next week during a three-day religious orientation program to set the spiritual tone for the new academic year. The theme: "Christian Community on Campus."

A Mass of the Holy Spirit, celebrated Wednesday by Rt. Rev. Hugh J. Phillips, college president, and Rt. Rev. George D. Mulcahy, seminary rector, climaxed the religious orientation. Msgr. Mulcahy delivered the homily with the subject being "The Christian's Conscience Today."

Daily Mass, confession and other religious services will be conducted in individual dormitory chapels which have been built for this purpose. Students in each residence hall "parish" will join with their "pastor" in deciding schedules for spiritual activities and personal counseling during the school year. Each priest will live in the residence hall to which he is assigned.

Father Nusbaum will serve as 'pastor' of Brute Hall while at the same time, as college chaplain.

Other 'pastors' will serve as follows:
Sheridan Hall: Rev. James M. Forker, assigned from the Trenton, N. J. diocese.
Pangborn Hall: Rev. Norman C. Loney, from the Archdiocese of Baltimore.

Dubois Hall: Rev. James Ronan, Camden, N. J. diocese.
McCaffrey-Bradley Halls: Rev. Robert S. Flagg, Archdiocese of Baltimore.

Father Nusbaum, the new chaplain, served from 1964 to 1968 as professor of classical languages at Our Lady of Hope Junior College in Newburgh, N. Y. In 1962 and 1963 he was religion professor and counselor at Mary Mount High School and visiting professor of music and choir at Mary Mount College, Arlington, Virginia.

Rev. Nusbaum earned an M.A. degree in theology from Oblate College; an M.A. in classical languages from St. Louis University; a diploma in Music from Institute Catholique in Paris; an S.T.B. and Ph.L. from Gregorian University in Rome. His post-graduate studies include Latin and Greek toward a doctorate at Fordham; Greek at Cornell University; education at Catholic U. and comparative literature at New York State University. He is a member of Alpha Mu Gamma, foreign language honor fraternity, National Catholic Music Educators Assn., and Catholic Classical Assn. of Greater New York.

Board To Meet

Sister Margaret Dougherty, the newly-invested president of Saint Joseph College, will meet with members of the Associate Board, Saturday, Sept. 14 on the Emmitsburg campus.

At this regularly scheduled fall meeting, the group, which serves as advisor to the president, will be concerned with committee appointments. Mr. William Ebaugh, Baltimore, chairman, will preside.

Community Show

Next Friday-Saturday

Now is the time for all good contestants to start gathering up items for the annual Community Show at the Thurmont High School. There are no fees or admission charges for entering. You can't win if you don't enter! Entries will be received on Thursday evening, Sept. 19, from 7 to 9 p.m., and on Friday morning, Sept. 20, from 8 to 11:30 o'clock.

There are twenty different departments: fresh fruit, fresh vegetables, jellies and preserves, pickles, baked products, meats, sewing (crocheting, needlework, embroidery, knitting), flowers, corn, small grains and seeds, hay, nuts, poultry, eggs, antiques, arts and crafts, home products display, and miscellaneous. Only exhibits grown by the exhibitor will be eligible for a prize. Prize money totals \$750.00.

Also a Youth Department for 4-H, FFA, PHA, and youth of the Emmitsburg and Thurmont communities, will be open for exhibits. All winners will receive show ribbons for their prize winning entries.

The Maryland Turkey Producers Association will also hold its annual show in conjunction with

the Community Show. Prize money of \$108 has been allocated for the turkey show which will feature both live and dressed birds. Judging will take place on Friday from 1 to 5 p.m., and the public will be admitted at 6 p.m.

A pet show, bike rodeo and greased pig contest will be held in back of the school on Saturday, starting at 1 p.m.

The Thurmont PTA will sponsor a turkey and ham supper in the school cafeteria on Saturday evening from 4 to 8 p.m.

Girl Scouts Sing

At Program

Fifty thousand people watched the Monaca-Hi-C's perform at Ft. McHenry's 1812 War Celebration Sunday, Sept. 8. The chorus, composed of Cadette and Senior Girl Scouts from Frederick County, gave a program of patriotic songs, then led the audience in singing "God Bless America."

Oddly enough, Francis Scott Key, an important figure in Frederick County history, wrote the famous poem "Star Spangled Banner" while on an enemy ship as he gazed at the flag flying at Ft. McHenry.

The chorus, under the direction of Mrs. Ruth Curry of Thurmont,

has 34 members. Those in the choros from Emmitsburg are Lisa Orndorff, Anna Antolin, Vida Antolin and Beth Little; Thurmont: Joanne Curry, Jean Amery, Phyllis Heims, Cheryl Smith, Sue Gelwicks, Sherri Bragunier and Melaine Blair.

DEDICATE WATER TANK

A new 400,000-gallon-per-day water filtration plant has been completed at Fort Ritchie.

In a brief ceremony recently, Colonel Koch accepted the key to the plant from Colonel William J. Love, Baltimore District engineer.

Jetliners land at almost 200 miles per hour. To help them come to a stop, nickel alloys are used in critical areas of "thrust reversers" attached to each engine, which catch the hot gases normally propelling the plane, and divert them forward to slow it down.

Heads Meat Inspection Department

Dr. Robert J. Lee has been appointed by the Maryland State Board of Agriculture as supervisor of the new Maryland meat inspection program. Dr. Lee's appointment was announced at a meat inspection conference held at the U. of M. Tuesday. The conference was to launch the new state meat inspection program under provisions of the 1968 Maryland Wholesome Meat Act and the Federal Act of 1967.

The program, providing a uniform standard of meat wholesomeness, whether State or Federally inspected, will bring an estimated 20 million pounds of presently uninspected meats under the inspection of the Livestock Sanitary Service, Dr. Lee is a veterinarian with 20 years' experience in the USDA Consumer and Marketing Service which administers the Federal meat inspection program. He has worked closely with state, county and municipal meat inspection programs to assist them in providing acceptable meat inspection service.

The ZIP Column

Rural Routes 1 and 2 were inspected during the past week. Patrons were notified of discrepancies, which were for the most part, the absence of name and proper box numbers, inscribed on the box. This is a postal regulation, and it is requested that all patrons comply.

If a patron is uncertain about his proper box number, he should contact the carrier, before inscribing the box.

Although no other route inspection will be conducted until next May, the carrier on each route reports irregularities as they develop, and patrons will be notified accordingly. This would especially pertain to snow removal during the winter months, from the approach to boxes.

The Savings Bond Drive has again been announced by the Treasury Department, in conjunction with the School Savings Program.

The recent increases in the interest rates of Savings Bonds and Freedom Shares, makes the incentive even greater this year.

Savings stamps are on sale at our office, at all times.

The United States Department of Agriculture has announced the annual Crop Acreage Survey, to be conducted during the period of Sept. 26 to 29.

Farmers who receive these cards, are asked to complete them and return the card as soon as possible, to the rural carrier.

George E. Rosensteel, PM

Shocked By Conduct Of 'Young America'

Editor, Emmitsburg Chronicle:

I was very much shocked and at the same time very much ashamed of the actions of some of my "fellow Americans" recently.

As a follower of the late Robert F. Kennedy, and a firm believer in the capability of Hubert H. Humphrey, I found it hard to comprehend how the names of these great and honorable men could be even associated with the ludicrous happenings during the week.

As a young American, I felt the deepest regret that my fellow young Americans should be associated with the so-called peace marches. These marches were not aimed at peace but were open and unreasoned defiance of law. These Chicago marches were intended only to disrupt the national convention and make a mockery of Humphrey's nomination. I can't help but remember the non-violent methods used by the late Martin Luther King, but I guess it doesn't take long for people to forget his sacrifice.

Yes, these bottle throwing racous demonstrators greatly disturbed my pride in this great America. But what was even more disturbing was the coverage the press gave each happening and their disturbingly slanted coverage of the convention. I must say that it is hard to stifle the bitterness I feel toward the press. Firstly I found newsmen asking prying, malicious and leading questions of the delegates. It really seemed like they were putting their words in the delegates' mouths. A record number of newsmen were punched out for various assorted reasons by secret service men and police. These newsmen were complaining about the strict security at the Convention and police brutality in the streets. These are the same newsmen who were complaining about the lack of security when Robert F. Kennedy was assassinated. These are the same newsmen who chastized the secret service when John F. Kennedy was assassinated. And when there is truly abusive treatment of a minority group by police and others they are strangely less vocal. The television time allotted to the convention was much too extensive but as it turned out half of it was used to show the world a melee of enraged hippies battling a corp of beleaguered Chicago police. In my opinion, these events were reported totally out of proportion—the press has really failed in its important duty to tell it like it is.

The immaturity of the rioters was matched only by that of the delegates in the convention hall. They could have passed for a group of five year olds fighting in a sand box. These people are the leaders of today's party. Is it any wonder our youth is disillusioned? These delegates refused to show identification, stuck credit cards in the ID machine, turned a tribute to R.F.K. into a mockery, and generally showed disrespect toward the convention chairman.

Hubert Humphrey, and he alone, shone like a beacon across this sea of stormy delegates. His beam of sincerity exposed both

the shoals of hypocrisy outside the Hilton and the hidden shallows of his opponent Gene McCarthy. He pled for unity where there was division, peace where there is war, and love where there is hate. I'm sure that every delegate whether he agreed with H.H.H. or not could not help but feel he meant all he said and

would do his utmost to accomplish his aims. Always the chords of sacrasim were rising from the wolf pack of reporters, but Humphrey is a man to be reckoned with. While pleading for party unity, he made it clear that he would not compromise with extremism, and that yesterday's policies were not necessarily his. I, for one, hope his "New Day" will

come.

Seminary Offers New Degree Program

Mount Saint Mary's Seminary has begun another scholastic year with arrival of 41 new students for a total capacity enrollment of 130.

For the first time, the seminary will have students—five of them—who are not candidates for the priesthood. They are studying under a new degree program at the Master's level which was announced last month. The program will grant two degrees, the academic degree of Master of Arts in the field of theology, and the professional degree of Master of Theology.

While the basic seminary course is intended for the education of those preparing for the priesthood, the degree program is open to qualified students working for degrees without intending to enter the priesthood.

A building improvement program, launched during the summer recess, includes renovation of the seminary chapel in line with the Catholic Church's liturgical changes.

Two new seminary faculty members have been appointed.

Rev. John F. Holley, who recently received a doctorate in church history at Catholic University, was assigned by the Cardinal Archbishop of Washington.

Rev. Robert Flagg, who has his Licentiate in sacred theology and is a candidate for a doctorate, was assigned by the Cardinal Archbishop of Baltimore.

Nickel sulphate is used to eradicate a rust fungus disease that attacks crops of grass grown for seed. Before the fungicide, the rust fungus disease had damaged as much as 50 per cent of the crop.

CHRONICLE PRESS
Emmitsburg Md.

Thurmont Library Plans Open House

Open house will be observed at the new Thurmont Public Library on Water St., Thurmont, Sunday, Sept. 15, from 2-5 p. m. with the public invited to inspect the new facility.

Extensive renovations were completed in early summer covering the entire area of the first floor and the second story of the building which was the former Gall & Smith building, can be used for future expansion. Carpeting, air-conditioning and heating has been installed. The cost of the entire renovation was \$14,000 including additional furniture and equipment.

Many area business firms, organizations and individuals have assisted the building committee in making possible the new facility, stated Victor R. Jagow, president of the board of trustees. Other trustees serving on the board are James Fisher, Dora Magaha, Ross Smith, Harry Zentz, Mrs. William Baker, Mrs. Robert Schumann, Ralph Fornwald and Joseph Moser.
