## Most Anything At A Glance

- By Abigail -

Local basketball fans can get a preview of the 1968-69 Mt. St. Mary's basketball team if they attend the game Saturday night at Memorial Gym. Coach Jim Phelan's squad will encounter a hardy Alumni team composed of a number of former Mount court luminaries who played on championship teams over the past decade. So, if you want to see these "old" grads tussle with this year's younger squad, drop in at the Gym Saturday night . . . it'll revive old memories.

The Lions Club is collecting eyeglasses again folks and if you have any old ones laying around the house, why not put them to good use? The Lions ship these glasses all over the world to help indigent individuals in almost every country. It takes very little effort to help these needy people, so why not drop off those old glasses to any member of the Lions Club?

Halloween is just around the corner folks. In fact it's Thursday night. Those of you who have young children should see that the kiddies have the opportunity to participate in the parade that evening and have a lot of good clean fun. This parade has done much over the past decade to minimize vandalism and it is a comfortable thought and feeling to know that your kiddies are enjoying the occasion . . . without getting into trouble. Vandalism has almost vanished over Halloween these past few years and it is hoped it soon will be a thing of the past. As a matter of fact no vandalism has been reported to date and this is unusual as compared to other years. We know for a fact that there'll be special deputies on duty over Halloween and this should be ample warning that vandalism will not be tolerated. Have a safe and sane Halloween folks!

The C & P Telephone Co. of Maryland has appealed to the Public Service Commission of Maryland for a rate increase, the first in a number of years. Like everyone else and every other business, it costs more to operate these years. If the company is to expand and offer more service it must have more money coming in. Everyone knows what expansion, building and service cost these days, and it doesn't come cheap. Wages, taxes, building and material cost a lot more these days and it is only fair that the company should receive a justifiable increase. Should this rate increase be granted we have it from good authority that Emmitsburg would have a much better chance of getting toll-free calling to Frederick . . . and this is something to think about folks!

## Band To Perform At Parades

The regular Council meeting of the Emmitsburg Municipal Band was held on Wednesday, October 16. Among the subjects discussed was the forthcoming parade schedule. Parades listed are as follows: Oct. 29, Halloween Parade in Gettysburg starting at 7:30; Oct. 31, Halloween Parade in Emmitsburg, starting at 7 p.m.; Sunday, Nov. 10, Veterans Day Parade in Gettysburg, starting at 2:30 p.m.

Also discussed at the meeting was the need for alterations in a number of uniforms. A general inspection of uniforms will be held on Nov. 10, and all uniforms needing alterations will be returned to Howard Uniform Co. in Baltimore.

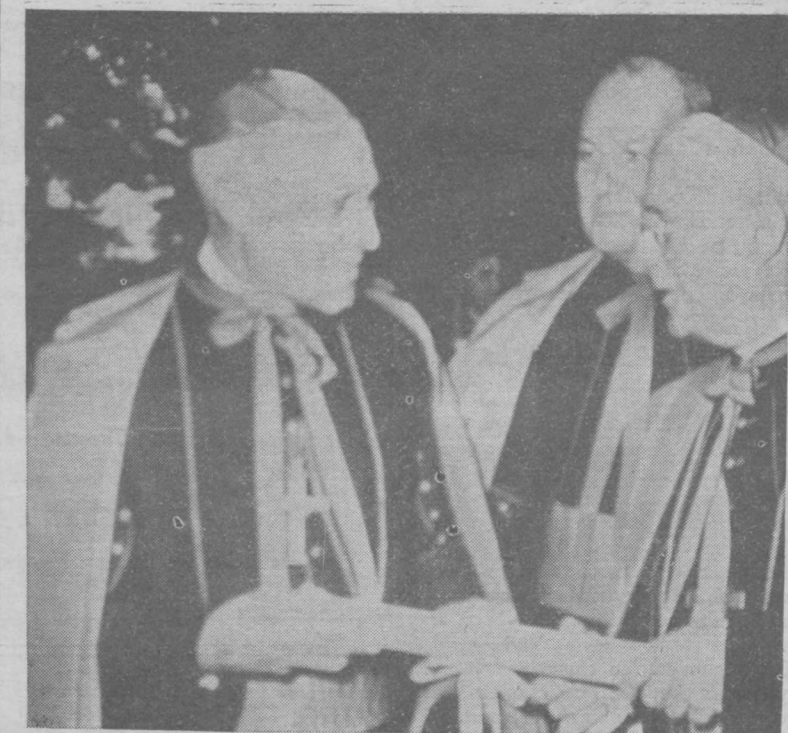

Meetings and practice are now being held in the Band's new quarters located in St. Euphemia's Hall on DePaul St. Practice every Wednesday evening, starting at 7:30 o'clock.

## Car Smashing Saturday

The Emmitsburg Teen Club will sponsor a car smashing (demolition) on Saturday, Oct. 27 from 10 a.m. to 4 p.m.

## Receives Honorary Degree

Left-right: Archbishop Raimondi, Msgr. Hugh Phillips and Cardinal Shehan. Mt. St. Mary's College awarded an honorary Doctor of Laws degree to Pope Paul's official representative to the United States, Archbishop Luigi Raimondi, an outdoor setting of academic pageantry and nature's own show of autumn colors, Thursday, Oct. 17.

The Apostolic Delegate chose the occasion of accepting the honor "with deep gratitude" to discuss the topical subject of papal authority.

The citation read to Archbishop Raimondi as 1,000 students, faculty and guests assembled on the

campus for the college's first annual Fall Honors Convocation at 4 p.m., said that while he is "a representative from the Old World, he brings to the New World the freshness and vigor of the Church renewed."

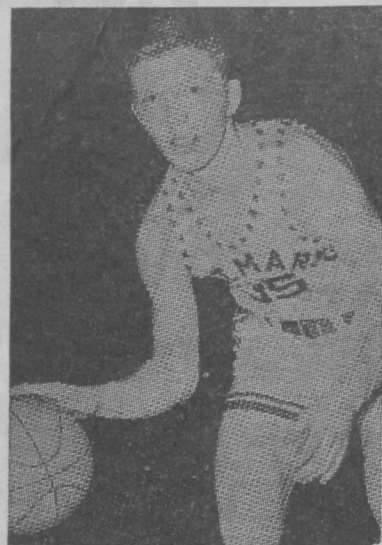

Lawrence Cardinal Shehan, the Archbishop of Baltimore, and Rt. Rev. Hugh J. Phillips, college president, jointly conferred the degree on the distinguished guest. Rev. Dr. David W. Shaum, dean of academic affairs, read the citation and earlier announced promotions for 10 faculty members and presented awards to five students.

## Father Taggart Named Mother Seton V. Postulator

Father Sylvester A. Taggart, C.M., has been named vice postulator of the cause for canonization of Blessed Elizabeth Seton, it was announced by the Very Rev. James D. Collins, C.M., provincial superior of the Eastern Province of the Congregation of the Mission. The appointment places Father Taggart in charge of all efforts in the United States to promote the cause of canonization of Blessed Elizabeth Seton.

Elizabeth Ann Seton, founder of the American Sisters of Charity, is the first native-born United States citizen to be officially declared Blessed by the Church. The rite of beatification was held on March 17, 1963 and marked the final step prior to her canonization.

Elizabeth A. Seton, widowed mother of five, was born in New York City in 1774. She became a Catholic in 1805 and founded the

Sisters of Charity four years later. She is credited with establishing the first Catholic parochial school in the United States in Emmitsburg, Md.

Mother Seton died in 1821 at the age of 47. The community which she founded to teach the poor now numbers over 10,000 Sisters in six congregations in the United States and foreign missions.

Father Taggart's new position makes him director of the Mother Seton Guild of Emmitsburg, which was established in 1939 for the purpose of introducing the cause of her canonization in Rome in 1940.

At the Guild, Father Taggart is assisted by three local women: Mrs. Dorothy Stoner, Mrs. Carmen Topper and Mrs. Barbara Vaughn, and by Sister Mary Frances McDonnell at St. Joseph's Provincial House.

Father Taggart will work in the United States directly under the Very Rev. Luigi G. Lapalorcia, C.M., postulator general of the cause in Rome.

Father Taggart is a native of Brooklyn, N. Y. He pronounced Religious vows at St. Vincent Seminary in Philadelphia in 1935 and was ordained there in 1938. His work in the priesthood has included teaching theology and scripture as well as administrative and pastoral duties. He was rector of Mary Immaculate Seminary, Northampton, from 1951 to 1955 when he became provincial superior of the Eastern Province, a post he held until 1967. Father Taggart will continue in his present assignment as an instructor at St. Joseph's Provincial House in Emmitsburg.

## CYO Organizes; Elects Officers

Cheered by an IBM card throwing a swarm of some 1000 teenagers, 17-year-old Frank Ventura became the new Catholic Youth Organization president for the 1968-69 season.

Late Sunday afternoon at Calvert Hall, Ventura fans came on strong to overwhelm last-minute entry Bob Getz of Our Lady of Fatima, in the youth convention's closing hours.

The winner took 272 of 317 delegates' votes. He is from the Cathedral of Mary Our Queen parish, Baltimore. Larry Tignall of Our Lady of Victory, defeated Maureen Gahagan, Immaculate Heart of Mary, for the vice presidency by a 273 to 46 vote.

Julia Dugan, St. Agnes, defeated Cynthia Johnson, St. Ann's, by a slim margin for recording secretary, 170-153.

Donna Crocetti, St. Jane Francis, overtook two opponents with a vote of 231 out of 327 for corresponding secretary.

When voting ended shortly before 6 p. m., almost two hours behind schedule, the new officers met to select new chairmen for

the Archdiocesan CYO chapters. Appointed were: Social chairman, Boz Getz; civil action, Cynthia Johnson; cultural, Maureen Gahagan; Christian involvement, Denies Rubin, and publicity, Virginia Donaldson.

Civic action and Christian involvement replace athletic and religious committees, by convention vote.

Delegates voted in favor of all but one of nine proposals. Rejected was a new voting system which would give each club an equal number of votes. Notable among resolutions are two designed to better youth relations. One proposes a program to "help explain and teach black culture to all CYO members and also make opportunities for black teenagers to participate more fully . . . in club work."

Under the second, the council will set up a program of discussions on race.

St. Joseph's CYO set two voting delegates for the entire weekend. They were Tom Eckenrode and John Hollinger. Also attending were Steve Hobbs, Gary Baker and Leo Orndorff.

A Hagerstown man lost his life in this crash with a car Saturday night about a mile west of town. Both truck and car were demolished, police said.

A Hagerstown man was instantly killed and a local youth admitted to the Warner Hospital, Gettysburg, following a car-truck collision Saturday evening near the Blue Duck Inn about a mile west of Emmitsburg on State Rt. 97. The accident occurred at approximately 7 o'clock Saturday evening.

After the impact the truck came to rest on its side off the south shoulder of the road, while Sanders' car continued 250 ft. up the highway before coming to rest on the north side of the roadway. Both vehicles were described as a total loss.

The Wilson Funeral Home of Emmitsburg took Morgan's body to the Frederick County morgue. Sanders was discharged from the hospital Wednesday.

Library Advocates  
Complete Reading

A complete reading program is advised by the Emmitsburg Public Library. A program for oneself should include at least four factors: at least one good book each week, a newspaper or news magazine, magazines of comment and interpretation, and book reviews. If you keep feeding your intelligence with these four foods, you can be sure your brain cells will not be undernourished. To this you must add the digestive process that comes from your own thinking and from discussion with other people, consider this a time to renew your reading habits, some of the new books added to the collection this week are listed below.

"The Raw Pearl," by Pearl Bailey. This book is a fresh and vivid human document. Witty, informal, honest, and magnetic. This is also a story of struggle and conflict, disappointment and fulfillment. It contains the account of an unusually beautiful love and marriage. There is a chapter on the meaning of racial conflict that speaks like a trumpet. A rare book by a rare person.

"Australia," by National Geographic Society. Continents shape

men as surely as men shape continents, and rugged, restive Australia has bred a people to match its perverse grandeur. The country's short history dates only from the end of the American Revolution.

"The Electric Kool - Aid Acid Test," by Tom Wolfe. A graphic and detailed illumination of the very process of primary religious experience and development — it takes place not in ancient Asia Minor, but in America in the 1960's.

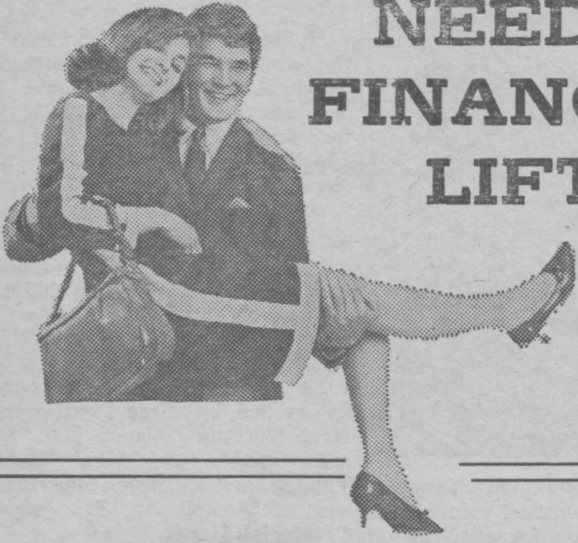

"The Wine and the Music," by William E. Barrett. By the author of Lillie of the Field. A novel about a priest who falls in love. This novel probes with a rare

sensitivity and depth into the crisis of a young priest who faces a soul-shattering decision—whether to remain a representative of God in the church he loves so deeply, or to leave the priesthood and marry an attractive divorcee who has opened his heart in a way he never dreamed possible.

## Commissioner Explains Code Home Rule

The citizens of Frederick County will have the privilege of voting in November whether they want to bring Code County Home Rule to Frederick County or let it remain where it is—in the Maryland General Assembly. This applies only to legislation that would affect Frederick County only.

The present legislative procedure is done in the Maryland General Assembly by the introduction of a bill applying only to Frederick County by a Delegate or a Senator representing Frederick County. The bill, after being

introduced, is referred to a committee not exceeding three people. The majority report of this committee is always upheld in the General Assembly. There is no requirement for a public hearing. There is no requirement for publication. There is no minimum time for the report of the committee action except that the bill cannot be reported back on the day as received by the committee by House rule. This rule can be suspended, and this is often done especially in the last days of the legislative session. I personally have seen this done about a thou-

sand times. There is no requirement for publication of this bill after passage by the General Assembly. The approval by both houses and signature by the Governor can and is often done without any publication or conspicuous publication of the legislation.

It is impossible to petition a local bill to referendum because 33,000 signatures are needed and there are only 30,000 registered voters in the County. If there was a larger county than Frederick who could obtain the signatures and the bill was petitioned to referendum, the bill would be placed on the ballot in the entire State on referendum and voted on Statewide and not just in the interested County. Legislation which people must live by and affects them directly is knowledgeable to only a few people and they have full control. The wishes of other people and of other elected officials with responsibility is disregarded and legislation is imposed.

Under Code County Home Rule a bill would be introduced by a Commissioner. The bill would be referred to the Board of three men, and the President of the Board must designate a day for a public hearing on the bill not less than 7 days from the date of introduction. Notice of the public hearing and contents of the bill must be advertised to the public. The public hearing must be held. All legislative days must be advertised, and all action by the Board must be public. If the bill passes, the entire bill or, if very lengthy, a complete synopsis must be published at least three times at one week intervals during the next 40 days.

Only approximately 3,000 signatures or 10% of the registered voters are required for petitioning the bill to referendum. Any citizen or group of citizens would have 40 days to get half of these signatures or 1500. If these were obtained, the effective date of the bill is extended, and they have an additional 40 days to get the additional 1500 signatures. If the petition is successful in getting the 3,000 signatures in the 80-day period, the bill goes to referendum and cannot be effective until it is voted on at the next Congressional election.

Therefore, legislation which people must live by and affects directly is brought home to the people, and the people themselves are the perfect checks and balances against the passage of bad legislation.

Under the present system the legislative session is tied down to 70 days of continued session and legislation has to be introduced and passed on during this time. Often local legislation which does not get acted on in the early days of the session gets bogged down in the rush of needed Statewide legislation toward the closing days, and local legislation often does not get passed.

Under Code County Home Rule the County would hold 45 days of session. Fifteen days are held at the beginning of the year and the balance of 30 days can be held a day at a time during the whole year as needed but would have to be advertised a week in advance before a legislative session could be held, and it must be public. In this way the needed legislation could be passed when it is needed.

There would be a definite advantage regarding bond issues. At the present time authority is granted by the legislature, and this is done way in advance of the need and for amounts larger than the needs so that there will be enough there when it is needed. For instance, the County has not used \$2,500,000 of the granted authority back in 1965. A bill granting bonding authority cannot be petitioned to referendum. The amounts of the authority granted cannot be regulated in any way by another legislative body. There is no limit to the amount that can be granted. Un-

der Code County Home Rule there would not be any necessity for granting an authority before it is needed because this could be done at any time of the year. Also, it would not be necessary to grant an amount larger than that which is needed for this same reason.

A bill granting bonding authority under Code County Home Rule can be petitioned to referendum. If the citizens felt that it was too large and should not be granted they can petition the bill to referendum and stop the granting of the authority. In addition, under Code County Home Rule there is a special clause in the law which allows the legislative body in Annapolis under advice from the elected delegates and/or Senators from that County to pass a law effecting only that County placing a limit to the bonded indebtedness of that county. This gives a second legislative body the right of regulation. The law states that they do not encourage this to be done unless the bonded indebtedness of a county is apparently getting too high, but it is in the law and can be used if the bonded indebtedness of a county was becoming excessively high.

Under Code County, therefore, both the people and the legislators have a direct control over the total bonded indebtedness. At the present time, a second law making body does not have any control in any way nor do the people have a chance of control.

Now regarding real estate tax, at present there is no limit, and the present Board of County Commissioners have the right to impose whatever real estate tax they feel it needed. This cannot be regulated by another legislative body. Again, we have written into the Code County statutory law that the legislature can pass a local bill effecting only the question county if the representatives from that county feel that the real estate tax is going too high. Again, they are recommended not to pass this law until they feel the tax rate is going too high, in which case they can pass legislation placing a ceiling on the real estate tax.

We spent many days writing the Code County amendment which passed in Frederick County two to one, and we spent likewise many days writing the statutory requirements. I served on the sub-committee of the Legislative Council which wrote the statutory

requirements, and we tried to write a good law. We did write a good law. We put many safeties in this law which do not exist today.

We wrote it so it is the best form of home rule. We wrote it so it is better than the present authority that County Commissioners have, and we wrote it so it is better than the present authority that the legislators have. It truly brings county government back to the county level and back to the people. The adoption of Code County does not change a single law of the County. It adopts the Frederick County Code exactly as it is written at the present time and the present laws you are living under.

It does not adopt a new charter or constitution that changes everything, such as the proposed

new constitution for the State of Maryland would have changed so many of the laws that we are living under today. The adoption of

Code County simply changes the method in which local legislation affecting only Frederick County (Continued On Page 4)

**The Bear That Smiles And Kills**  
When the Hungarians whipped their Soviet masters in a 10-day rebellion, October 1956, Premier Khrushchev made a dramatic gesture accepting the defeat. As the deceitful Moscow communique stirred hope through the world, the Soviets were secretly moving a massive military force towards Bu-

dapest. The New York Times headline of November 4 flashed the news: Soviet Attacks Hungary—U. S. Legation in Budapest under fire. . . . Overpowering Soviet tanks and infantry forces stormed the parliament building. . . . The Budapest radio and other Hungarian freedom stations went off the air one after another. Before going silent they directed desperate pleas to the West, especially to the United States and to the United Nations for help to save the Hungarian people from 'annihilation.'

The same Khrushchev who had four days earlier 'admitted the error of the Soviet's harsh attitude,' had used the four days to mass his military might for the second murdering of Hungary (the first having occurred in a coup—as in Czechoslovakia). The New York Times dispatch, November 5, from Vienna said: 'Hungary's brave hopes for independence lay crushed by the mailed fist of Soviet power. . . . A new Communist dictatorship presumably loyal to Moscow has been installed under the protection of the Soviet army.'

'We Accuse,' Said Times  
Because they so clearly measured the depth of America's abhorrence, shock and momentary awakening to the true nature of Communism (again), two paragraphs of the New York Times editorial of November 5 need repeating here (Title of the Editorial: We Accuse!): 'We accuse the Soviet Union of murder. We accuse it of the foulest treachery and the basest deceit known to man. We accuse it of having committed so monstrous a crime against the Hungarian people yesterday that its infamy can never be forgiven or forgotten. (Note: It was forgiven and forgotten within two years! —GSB)

'Gone now,' the Times editorial continued, 'are the last illusions. Moscow now stands self-exposed. . . . Can we have any doubts now of what awaits us if we ever relax our vigilance

and permit ourselves to become prey to Soviet might as was Hungary yesterday?'

Within two years, Senator Hubert H. Humphrey was to spend eight hours with Khrushchev in the Kremlin in a 'friendly interview.' Eric Johnston, former U. S. Chamber of Commerce President, was to report on a pleasant visit with the Russian bosses; nine U. S. Governors were to tour Communist Russia and then ask President Eisenhower to invite the deceitful conqueror of Hungary to a formal dinner at the White House—virtually without protest within America.

**U. S. Entrapped In Illusions**  
And then, on August 4, 1959, the New York Times reported: 'WASHINGTON, August 4 — President Eisenhower announced today that Premier Nikita S. Khrushchev would come to the U. S. next month and that he would return the visit with a trip to Moscow this fall. . . . Approval of the forthcoming visits came from the capitals of western Europe.' A Times editorial (forgiving and forgetting the second slaying of Hungary) said: 'Premier Khrushchev's visit may yet prove beneficial to world peace. He claims to have abandoned the Marxist-Leninist dictum that Communism can conquer the world only by war and is all for peaceful 'co-existence' and 'competition.' (Note: U. S. Policy since 1959 has been based on this illusion —GSB).

The cunning Soviet boss flew into Washington, and the Times reported in big black headlines: 'Khrushchev Gets Big Quiet Welcome from 200,000 in Nation's Capital.' The dispatch said: 'Ike took him to the White House for a two hour talk. . . . Later, at a White House dinner the President and Mr. Khrushchev exchanged toasts in champagne.' Many Hungarians did not read this item—They had been interred in mass graves or sent to die in Siberian prison camps. The Brute Roars

Others besides our President had forgiven and forgotten the massacre of Hungary. The Times reported: 'Film Stars Pete Russian—Movie Industry Goes All Out For Khrushchev. From vodka to a Can-Can dance, the leaders of the movie world tried to amuse the Soviet Premier.' The man who had ordered the tanks to gun down thousands and overrun freedom in Hungary just a short time ago, drew laughing, friendly crowds wherever he went in America. The Times reported the finale: '(Sept. 27, 1959) Premier Khrushchev brought his historic thirteen-day visit to a conclusion today by reaching a series of understandings (the 'Spirit of Camp David') with President Eisenhower designed to ease 'Cold War' tensions.' Ike presented the big deceiver

with a gift Helicopter as a token of friendship.

Eight months later, in Paris, Khrushchev, in one of the most animal-like tirades ever witnessed, publicly insulted the American President, disrupted and killed a hoped-for historic Summit Meeting, and showed clearly again the nature of Communism.

**CHAPTER 245**  
**AN ACT TO PROPOSE AN AMENDMENT TO ARTICLE III OF THE CONSTITUTION OF MARYLAND, TITLE "LEGISLATIVE DEPARTMENT," BY ADDING NEW SECTION 40D THEREOF, TO FOLLOW IMMEDIATELY AFTER SECTION 40C THEREOF, PROVIDING FOR AN OPTIONAL PROCEDURE FOR THE ACQUISITION OF LAND AND INTEREST IN LAND BY THE BOARD OF COUNTY COMMISSIONERS FOR PRINCE GEORGE'S COUNTY FOR THE CONSTRUCTION OR EXTENSION OF COUNTY ROADS AND STREETS, PROVIDING FOR A CONTINGENCY BY WHICH THIS AMENDMENT MAY BE VOID AND OF NO FURTHER EFFECT AND PROVIDING FOR THE SUBMISSION OF THIS AMENDMENT TO THE QUALIFIED VOTERS OF THE STATE OF MARYLAND FOR THEIR ADOPTION OR REJECTION.**

**SECTION 1.** Be it enacted by the General Assembly of Maryland, (Three-fifths of all the Members elected to each of the two Houses concurring), That the following new Section 40D be and it is hereby proposed as an amendment to Article III of the Constitution of Maryland, title "Legislative Department," to follow immediately after Section 40C thereof; if adopted by the legal and qualified voters of the State as herein provided, to become a part of the Constitution of Maryland.

**40D.** The General Assembly shall enact no law authorizing private property to be taken for public use without just compensation, to be agreed upon between the parties or awarded by a jury, being first paid or tendered to the party entitled to such compensation, except that where such property, located in Prince George's County, is in the judgment of the Board of County Commissioners of Prince George's County needed for the construction or extension of county roads and streets. The General Assembly may provide that such property, except a building occupied as a dwelling, may be taken immediately upon payment therefor by the condemning authority to the owner or owners thereof or into the Court to the use of the person or persons entitled thereto, such amount as the condemning authority shall estimate to be the fair value of said property. Provided such legislation requires that the condemning authority's estimate be not less than the appraised value of the property being taken as evaluated by at least one qualified appraiser, whose qualifications have been accepted by a Court of Record of this State, and also requires the payment of any further sum that may subsequently be awarded by a jury. This section, if adopted by the voters in the year 1968, at the time it becomes effective, is void and of no further effect if the voters of the State prior thereto have adopted a revision of the Constitution of Maryland, proposed by a Constitutional Convention.

**SECTION 1.** Be it enacted by the General Assembly of Maryland, (Three-fifths of all the members of each of the two Houses concurring), That the following amendment be and the same is hereby proposed to Section 40A of Article III of the Constitution of Maryland, title "Legislative Department," the same if adopted by the legal and qualified voters of the State, as herewith provided, to become a part of the Constitution of Maryland, and read as follows:

cil of said County that there is immediate need therefor for right of way for County roads or streets, the County Council may provide that such property may be taken immediately upon payment therefor to the owner or owners thereof or into court, such amount as a licensed real estate broker, appointed by the County Council shall estimate to be the fair market value of such property, provided that the Council shall secure the payment of any further sum that may subsequently be awarded by a jury. ### Septuagenarian Licenses Popular

Free hunting and fishing licenses for Maryland residents who have attained the age of 70 years is proving a popular move by the Maryland Commission of Game and Inland Fish. The Commission received authorization to issue the free licenses to the septuagenarians at the last session of the General Assembly and they were instituted in time for this hunting season.

While the Department of Game and Inland Fish had expected the

free licenses would be in demand, members of the Department were mildly surprised at the number of applications they received as soon as the licenses were made available.

Through the first week of October the Department had issued a little more than 5,000 of the licenses. They were almost equally divided between hunting and fishing licenses, with slightly more than 2,500 hunting licenses and about 2,500 fishing licenses being issued. Of course, there is quite

an overlap, with many applicants receiving both.

Applicants for these licenses can save time if they obtain an application blank from the clerk of the court of the county, one of the Department's four regional offices or one of the many license agents in sporting goods stores throughout the State, according to Charles M. Maize, auditor of the Department of Games and Inland Fish.

Maize points out that when the applicant writes to the Department for his application blank, one must be mailed to him and he then has to return it to the Department. This causes unnecessary delay in issuing the license.

### Turkey Kills Must Be Reported

Maryland's turkey season opened October 16 and regulations for taking this great American game bird differ in two important respects from the 1967 season. For the first time in about a decade hunters will be required to report their kills; and, a hunter

must have a big game stamp affixed to his regular hunting license in order to take a turkey legally.

Turkeys must be brought to checking stations in the county where they are killed, and the hunter has 24 hours in which to report his kill. The list of regular checking stations may be found in the back of the "Guide to Maryland Hunting," which is issued with every hunting license.

The big game stamp is new this year and allows the hunter to take both deer and turkey. The stamp costs \$5.50. Only Garrett, Allegany and Washington Counties are open to turkey hunting, and the bag limit is one per year. The season closes October 31.

It appears that we are on schedule in the turkey restoration program on the Eastern Shore and Central Maryland. Barring any unforeseen difficulties, the Commission hopefully looks forward to opening the season in these areas.

Checking of turkeys taken will aid the Department of Game and Inland Fish in collecting data val-

uable in formulating its turkey management program. Personnel of the Department will be present at selected checking stations throughout the season for sampling of wild turkeys as to sex and age.

Banded birds from the farm release program will be recorded as in past years. Stocking of game farm turkeys will start very shortly and will continue periodically throughout the season. The releases will be made on State owned lands.

There is evidence that Maryland may begin to reap some unexpected benefits from the release of game farm turkeys. Verified '68 reproduction by game farm turkeys released on several ranges has been most gratifying.

Several inquiries have been received as to whether an unbanded turkey has to be reported, and the answer is YES. Some hunters are under the impression that only banded turkeys have to be reported. If a successful hunter bags an unbanded bird, he can greatly assist the Department by reporting it to the checking station in order that the biologists

may obtain valuable data for future management.

## Patriotism as a WAY TO PEACE

Patriotism is often thought of as a virtue primarily connected with war.

And certainly they are patriots who offer their lives in defense of their country.

But even those willing to bear arms must view the alternatives of war or peace with a deep sense of morality. It was this sense of morality that prompted Pope Paul to plead prayerfully for the end of all wars...and the Conference of American Catholic Bishops to issue their Statement on Peace in 1966.

"Citizens," the Bishops' statement said, "should develop a generous and loyal devotion to their country, but without any narrowing of mind. In other words, they must look simultaneously to the welfare of the whole human family, which is tied together by the manifold bonds linking races, peoples and nations."

These "limits on patriotism," the Bishops added, do not rule out a country's right to legitimate self-defense. "And what a nation can do to defend itself," the Bishops added, "it may do to help another in its

struggle against aggression."

"We must," the Bishops said, "use every resource available, as a nation, to help alleviate the basic causes of war. If the God-given human dignity of the people of poorer nations is not to become an illusion, these nations must be able to provide for the spiritual and material needs of their citizens. We must help them do this."

Pope Paul, Vatican Council II and the U.S. Bishops all point out that true peace can exist only if the right order established by God...and based on the requirements of human dignity...can be evolved from the conscience of all peoples, everywhere. The real "balance of power" is in your hands and mine.

To help you put war and peace in a proper perspective, we have just published an easy-to-read, interesting pocket-size pamphlet entitled "PEACE THROUGH PATRIOTISM." We will be glad to send you a copy free upon request. There's no obligation—and nobody will call on you.

## BABSON'S POINT OF VIEW

## Tax Relief Elusive

WELLESLEY HILLS, Mass., October 24—We are in the final stretch of the quadrennial review of the policies of our federal government. Crime on the streets, Vietnam, the plight of our cities, and foreign aid are among the top campaign issues. Strangely enough, high taxes—though deplored—just aren't getting very much pre-election attention.

## High Incomes Can Be Deceiving

To be sure, there is still considerable grumbling over the 10% federal income tax surcharge which now seems likely to be extended beyond the June 30, 1969 deadline. But on the

whole, high federal taxes are not really ranking. Many people lump taxes in with other living costs and blame inflation for the higher trend of these costs. Some just don't realize how high taxes actually are because larger total personal incomes have sold them on the idea that they "never had it so good."

Over-all income statistics indicate that we are better off than ever. However, gross figures on income do not necessarily give a true picture of how well off individuals are. In the first place, such statistics should be reduced to disposable (i.e., after-tax) income. Then they should be adjusted to a constant purchasing dollar. Finally, they should be expressed on a per-capita basis.

## Middle Class Squeezed

When this is done, it will be found that the middle-income taxpayer is being unconscionably

squeezed. Locked in between the high and the low levels, he has too much income to obtain advantage from the low family exemption and from such government-sponsored programs as Medicaid. On the other hand, he does not make enough to permit him to take advantage of the numerous loopholes available to high-income people.

At the state and local levels the problems of the middle-income taxpayer are compounded. Counties, school districts, as well as states and an increasing number of cities, are taking a bigger income tax bite. All along the line, sales taxes, property taxes, fees, and licenses are being boosted. In quite a number of instances, increases in a single year have run to 20% or higher.

## Tax Overhaul

Desperately Needed  
Taxpayer revolts in the United States have been rare and

pretty much restricted to local areas... although heavy taxation was one of the key factors which cost Great Britain much popular support in the American colonies and finally led to the Revolutionary War. But during the past year or two, citizens have been more eager to vote down, or pare, school budgets, bond issues, and outlays for municipal betterments.

Perhaps one reason why taxpayers are not yet more numerous and more vocal in their demands for federal tax reform is lack of real understanding of the primary role government spending plays in the inflationary spiral. In any event, a federal tax overhaul is desperately needed and broad restructuring of federal, state, and local tax policies and programs would make for more efficient government and a stronger economy.

## Public Must Curb Appetites

Whatever the political persuasion of the next Administration in Washington, probability is that the new Congress will be more conservative than for some years past. Chances are good that meaningful studies looking toward broad and constructive tax changes will be instituted. But the overhaul that is needed will take at least two years—possibly more—to hammer out. In that interval, the temptation to water down initial reform proposals and come up with a piecemeal, hodgepodge omnibus tax bill will be very great.

Unfortunately, the worst enemies of tax reform are not the proponents of big government at high cost, but the public which demands more services, all of them expensive and many by their very nature not capable of being administered efficiently by government. Hence tax reform must have broad and strong public support to prevail.

The reason some people talk while others sing is that without the conversation they could hear the singing.

COMPLAINANT

vs.

CLAUDE T. HAWKINS  
c/o Dixie Hawkins  
Independence, Virginia  
DEFENDANT

NO. 22,188 EQUITY IN THE  
CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND

## ORDER OF PUBLICATION

The object of this proceeding is to procure a divorce A VINCULO MATRIMONII from the Defendant, Claude T. Hawkins, and for such other and further relief as the nature of the case may require.

The Bill states in substance, that the Complainant is a resident of Frederick County, State of Maryland, and has been so for more than one year last past; while the Defendant is believed to be a non-resident of the State of Maryland, and is believed to be living with his mother, Dixie Hawkins, in Independence, Virginia; that your Complainant was married to the Defendant at Independence, Virginia on October 20, 1945, by a regularly ordained Minister of the Gospel; that as a result of the said marriage one child was born; the Bill further alleges that ever since the said marriage the Complainant has always conducted herself as a kind, chaste, dutiful and affectionate wife towards the said Defendant; and that the Defendant, Claude T. Hawkins, between the time of the said marriage and the filing of this Bill of Complaint, without just cause or reason, abandoned and deserted the Complainant and that such abandonment and desertion has continued uninterruptedly for at least eighteen (18) months prior to the filing of the Bill of Complaint and is deliberate and final and the separation of the parties to this cause is beyond any reasonable expectation of reconciliation, to all of which the Affidavit is made.

It is thereupon this 10th day of October, 1968, by the Circuit Court for Frederick County, in Equity, ORDERED that the Complainant, by causing a copy of this Order of Publication to be published for at least four (4) successive weeks prior to the 16th day of November, 1968, in the "Emmitsburg Chronicle", Emmitsburg, Frederick County, Maryland, giving notice to the Defendant, Claude T. Hawkins, of the object and substance of this Bill of Complaint and warning him to be and appear in this Court either in person or by Solicitor on or before the 17th day of December, 1968, to show cause, if any he has, why the relief sought should not be granted.

## Personality Is Factor In Contraceptive Selection

SAN FRANCISCO, Calif.—The personality of the husband and wife should determine the contraceptive method they use to limit their family, according to a psychiatrist's report made to the American Medical Association.

If the wife is conscientious and responsible, if she is not subordinate to her husband socially or intellectually, if she finds their sexual relationship pleasurable and desirable then the female methods of family planning—the pills, the intrauterine device, the diaphragm—are likely to be "highly satisfactory."

The masculine form of sterilization will be found more satisfactory in completed families where the husband is more socially and intellectually effective than the wife. Vasectomy (cutting and tying of the duct that carries sperm from the testicles) may also be the method of choice where the wife is more subordinate, more unwilling to take responsibility for contraception, and is less interested in sexual matters generally.

This appraisal emerges from an eight-year study of 84 couples made by Dr. Frederick J. Ziegler, now of the Cleveland Clinic, and associates. The wives in half the couples used the pills. The husbands in half the couples chose surgical contraception via vasectomy.

"The estimated incidence of voluntary vasectomy in the United States is about two percent of husbands of fertile wives," Dr.

Ziegler told Women's Medical News Service. "In the western part of the country far more men—about seven percent—elect to have vasectomies."

## Not For All Men

Although vasectomy is highly effective as a birth control method it is not suitable for all men, the report pointed out. While severe adverse psychological changes are few, the operation is seen by many couples as having a

"demasculinizing potential." "Our data suggests that the behavior of a man after vasectomy is more likely to be scrutinized by himself and others for un-masculine features," Dr. Ziegler noted.

In some men, however, vasectomy results in a decrease in immature and indecisive behavior, the psychiatrist reported, with improvement in occupational, parental, and husband roles.

The 6-cent Waterfowl Conservation stamp, the first in the annual series that will point to the need for protecting wildlife, was first placed on sale at Cleveland, Ohio, on October 24, 1968.

This stamp depicting wood ducks recognizes the accomplishments of Ducks Unlimited, an organization that has spent nearly \$15 million for waterfowl conservation. Scattered across the prairies are some 900 Ducks Unlimited projects involving roughly a million and a half acres. These are heavily populated with waterfowl.

This stamp will be placed on sale today at our office.

Booths and tables are planned for a great variety of interesting things and many things will be offered during the hours to appeal to all ages: Auction, Mr. J. William Strickhouser; bake shop, Mrs. Maurice Fuss; Bingo, Mr. and Mrs. Bernard Wivell; candy, Mrs. George Bassler; cakewalk, Mrs. James Sanders; dance, Mr. and Mrs. Ted Wolfe; dart throw, Mr. and Mrs. Eric Glass; delicatessen, Mrs. Linda Myers; fish pond, Mrs. Richard Gore; flowers, Mrs. Isabel Smith and Mrs. Vernon Keilholtz; grab bag, Miss Alice Hoffman and Miss Joyce Henning; greased pig, Mr. William Baker; homemade items, Mrs. Romaine Grubbs; ice cream, Mr. and Mrs. Charles Long; pets, Jerry Smith; popcorn, Mrs. Albert Wivell; rummage, Mrs. James Wormley; pick a pocket clown, Mrs. Isabel Mathias; doll show, Mrs. Rita Remavege; ponies, Mr. Francis Topper. There will be rides on the fire engine and plenty of balloons. Merchants will be solicited by Mrs. Jason Green. The theme of the 1968 Village Fair is "The First Thanksgiving."

Mrs. Bassler introduced Mr. Howard Goodrich, Principal of Catocin High School, who spoke briefly of the new concept of building schools today. To be most useful, and meet today's needs, the school is built with the focus on the individual; built with direction and ideas and not just a house for school children. Mr. Goodrich said Catocin High School will enroll approximately 698 students on the tentative, but realistic date, February 3, 1969.

The attendance banner was won by Miss Helen Poffenbarger's 12th grade.

# Senior Citizens Remain Active

Tuesday evening, at 7:30, members of the Emmitsburg Senior Citizens Club gathered for the monthly meeting at the Center. Thirty-six members and friends were present with a new member, Mrs. Harmon, added.

Mrs. Charlotte Eyster was in charge, due to the temporary absence of Mrs. McNair, Coordinator. Mrs. Eyster gave a report on the recent Board meeting, then introduced Sister Juliana from St. Joseph's, who is substituting for Sister Madeleine in her absence. Sister Juliana made a brief, but delightful talk expressing her pleasure at working with the club and offered to help in every way possible to keep the association on an even keel. Other new members of the local board, Rev. Fear-Young, were expected but only Father Young was able to be present and when introduced made a delightful talk also signifying his willingness and desire to be a service to the club.

Mrs. Hazel K. Caldwell then gave a brief sketch of her visit to the Council Bluffs, Iowa, Senior Citizens Club.

Mrs. Eyster reminded the club that after November, 1969, the Emmitsburg Senior Citizens Club would be on their own financially, as that is the date the Government subsidy ends. Ways and means for continuing the life of the club will be in the hands of the members and some thought must be given to plans for carrying on the work.

Reports from the various committees as to what has been and will be done to make the coming annual Bazaar on November 3, 1968, the best ever.

Mrs. Genevieve Clements reported plans worked out for a food table, pies, cakes, rolls, bread, potato salad, soup, etc., to be sold and also a rummage table to be set up.

Mrs. Frances Keller reported one quilt has been tied and another ready to be worked on Thursday afternoon from one o'clock on, inviting all those willing and able to come in to help. Mr. Nester reported plans for a country store similar to the one held last year. Mrs. Martha Slemmer, while not present, has consented to preside over the book table again. Mr. Louis Stoner reported a good sale of chances on the beautiful Afghan for raffle.

The publicity committee will meet Wednesday afternoon to map out various methods of advertising the bazaar, so the event seems well on the way to a huge success of the enterprise.

A social time was declared during which Mrs. Louis Stoner and Mrs. Lue Bushman served delicious refreshments.

The knitting and sewing classes will meet Wednesday afternoon. Quilting will be done Thursday afternoon, as scheduled.

The art class meets each Monday at 7 p.m. with Mr. Francis Smith in charge. Five pseudo-artists met last Monday. Anyone over twenty-five is welcome to attend if he feels the urge to release his artistic bent.

# Suggests We Blow Own Horn Here

Editor, Emmitsburg Chronicle:  
Only a moment ago I flicked off a TV program dedicated to the state of Vermont. Several moments of the program were devoted to a log dwelling house that was identified to listeners as built in 1787 and "the oldest log structure still standing on the North American continent." It was reported to be quite an attraction, to which thousands of tourists flock each year.

Near Emmitsburg, at the foot of Payne's Hill, on a farm called the Terpenning Place, is Father Arnold Livers' original log dwelling, built in 1727.

Why do we Marylanders take so little notice?

# Mount Homecoming Draws Many Alumni

A Maryland jurist and a Connecticut business executive were honored with traditional service awards presented during the annual Mount Saint Mary's homecoming banquet attended by over 300 alumni Saturday evening.

Judge John P. Moore, associate judge of the Sixth Judicial Circuit Court of Maryland, was presented with the Alumni Association's coveted DuBois Medal and a citation for "distinguished citizenship and exceptional social consciousness." The presentation was made by Rt. Rev. Msgr. Hugh J. Phillips, college president, and Harold F. X. Schwartz, Alumni Association president. Moore has been a trial judge of the Montgomery County Circuit Court for the past two years. Prior to assuming his position as judge he represented Montgomery County in the Maryland House of Delegates, from 1962 to 1966. In addition, he has served in a number of gubernatorial appointments, on Montgomery County boards and in key civic positions.

Donald P. Quinn, Sr., Norwalk, Conn., a 1933 graduate of the Mount and immediate past president of the national Alumni Association, was the recipient of the alumni's Brute Medal, presented "for distinguished service by an alumnus." The award was presented by Rt. Rev. Msgr. Robert Kline, former college president, and alumni President Schwartz.

As an immediate past president of the Alumni Association, he is a member of the present executive committee, a veteran of all working committees and founder of the Connecticut chapter. He is the personnel director of the Acme Shear Co. in Bridgeport, Conn.

Alumni honored during the banquet were members of the classes of 1963, 1958 and 1943.

# Speedy Return For United Appeal

First to complete their participation in the 1968 United Appeal Campaign are six prominent industries in Frederick County with total contributions amounting to \$20,270.00.

The six pace-setters are: Alpha Portland Cement Co., J. M. Bucheimer Co., Claire Frock Co., Potomac Edison Co., Price Electric Co., and State Farm Insurance Companies. Together, these firms and their employees, accounted for 11% of the overall goal of \$190,000. Heading the list is State Farm Insurance whose corporate gift and employee pledges totaled \$8,279.00. This is an increase of 78% over their 1967 contributions.

Among the smaller industries, both Western Maryland Wholesale Co., and the Clorox Co., report that 100% of their employees are contributing to this year's United Appeal Campaign.

So far, three campaign workers have become "quota busters." These are Edwin F. Nikirk for the lawyers, Rev. Ralph Sharpe for the clergymen and Mrs. H. Albert Dean, for the social service agencies.

Dr. Chandler is no stranger to this area having received his S.T.B. at Westminster Seminary and a D.D. from Western Maryland College, and having been a pastor in Maryland. He also holds an A.B. degree from Asbury College and an M.A. degree from Yale University. His service to theological education has helped make Westminster and now Wesley outstanding schools of the Methodist Church.

Dr. Chandler, as a historian, can bring the Reformation of the past close to those of us experiencing the Reformation of today. The Council hopes that many will want to join their fellow churchmen in the celebration of the Reformation, to worship together and to hear Dr. Chandler.

Everything about this Smug raincoat is expensive, except the price

Smug liked the expensive raincoats so much, they made one just like them for \$37.50. For this classic Balmacaan coat they used expensive two ply, high count 65% DACRON® polyester and 35% combed pima cotton poplin. Just like the expensive coats. And ZEPEL® to help keep out rain and spots. And a zip-out lining of ORLON® acrylic pile. They even used KORATRON® permanent press. The expensive coats don't have this.

And they made this classic in a wide range of colors.

Then they called themselves Smug.

Do you blame them?

smug  
a great way to feel in the rain
