Most Anything At A Glance

- By Abigail -

Let's hope the heat wave is broken and the drought ended. The heat wave kept the temperatures around the 90's during the past seven days and the humidity was something nobody wanted. Along came the rains though and it appears that the prolonged heat spell and the drought have been dissipated, for a while at least. Quite a number of people are talking about the murkiness or haziness of the weather these days. For several days this week the sky has been so hazy that it was impossible to see Carrick's Knob, just a short two miles away. As a matter of fact several days you couldn't even see the mountains the visibility was so poor.

Vandals struck this area Sunday night and Monday morning early and as a result several State Roads warning signs were stolen or completely destroyed. Several stop signs were damaged and bent to the ground as were several speed zone warnings on Rt. 15. In addition the State Roads Commission has been conducting a traffic survey in this area and you all are familiar with that little box-like counting machine that sits along the roadside with a rubber hose stretching across the highway. Each time a car crosses the hose it is registered and tallied in the counting box. Several of the hoses were cut from the machines by the vandals and tossed into fields.

It appeared that for a while perhaps, this area was threatened with a power blackout. So heavy was the demand for electricity during the hot spell that many cities were desperate for current and several breakdowns occurred. This was caused by the thousands of fans, air-conditioners, television sets and myriads of other household appliances put into use during the period. In nearby Gettysburg, and other cities, residents were asked by the power companies to shut off their fans and air-conditioners so that more essential equipment needed in hospitals, refrigeration, etc., could function properly. For a while it had us afraid that perhaps we might experience a massive blackout like New York had several years ago.

Racial violence has flared up in nearby York, Pa. This is about as close to home as we have experienced for this sort of thing. One death has occurred there by sniper fire. The National Guard has been called to the scene and it is hoped that the situation will come under control shortly. Several days this week York police refused to let traffic run through York, making sure that motorists by-passed the city, unless they lived there. So, if you have any plans to go to York, better discard them for the time being. The violence is being created by gangs of young blacks and whites who are on a shooting spree.

Father-Son Picnic Set For Aug. 4

It was announced this week that representatives of the Baltimore Bullets, this year's eastern division champions of the National Basketball Association, will attend the first annual Father-Son Sports Picnic to be held at Kump's Dam on Monday, August 4, starting at 6 p.m. The event is being sponsored by Veterans of Foreign Wars Post 6658, Emmitsburg. C. W. "Pat" Buch, general chairman, made the announcement. Commander Thomas F. Sayler of the local VFW Post emphasized that this affair is for all fathers and sons of the community, up to, and including 16-year-old boys, and all are urged to attend. Special guests at the event will be members of the Emmitsburg Little League and their fathers, and also the managers, coaches, umpires and officials of the local Little League.

Hospitalized
Mr. Robert V. Kerrigan has been admitted to the Hanover General Hospital where he will undergo surgery in the near future. Friends may address mail to Room 402 at the hospital.

COLLINS BACKS SIXES BRIDGE DAM PROJECT

The Sixes Bridge Dam proposal received a full endorsement from Commissioner Charles E. Collins when he presented his views on it before a congressional committee Thursday.

Collins in a prepared speech, sees the reservoir as "the most important of all six of the proposed reservoirs on the tributaries of the Potomac River."

He pointed out that it will "have the greatest flood control" and that "the water usage benefits are almost beyond comprehension."

Recreation is a prime factor of support for the reservoir in Collins' statement. "It will have the greatest recreation value because it will be 100 per cent accessible. I estimate that it will be used four times as much as any of the others for recreation."

Turning his attention to the effect it will have on Frederick County and its residents he stated "the Frederick growth rate is the same as the state—which is the fastest growing state by percentage east of the Mississippi."

"It is vital to the economic growth of the entire area that Frederick maintain this growth. Agriculture, commercial, residential and industrial growth needs more water. We have it if we can hold it and use it before it runs away," he said.

Collins also commented on the positive effect the reservoir will have on the Monocacy River — Frederick City's main water supply.

"Flood control on the Monocacy will alleviate extensive flood damage to the fertile land along the river."

County Building Rapidly Despite Tight Money

Despite the tight money situation this year building and subdivision applications submitted to the Planning and Zoning Commission are on the upswing.

Lawrence Johnson, associate planner with the Commission, said that "689 lots in subdivision form have been received by our office as of July."

"This represents 91 per cent of all the subdivisions we received for 1968."

Johnson commented that 1968 was the best building year the county has had to date. Last year 753 lots were submitted to the Commission.

"Figuring on this basis," Johnson observed, "we are 41 per cent ahead of the same period last year in the number of subdivisions submitted to us."

Out of the 689 subdivision lots submitted to date, 115 have been fully approved for recordation. The remaining 574 lots are pending approval by the Health Department or the States Road Commission.

Johnson also noted there was a 10 per cent increase in the number of zoning certificates or building permits issued by the commission over the same period last year.

"The total acreage these subdivisions lots represent rounds out to about 1,000 acres," Johnson said. He commented that a subdivision was a division of land which had at least two lots or more in it.

"The situation where a person will buy an acre of ground from a farmer and build on it is not included in our figures," he pointed out, "thus you could say that building in the county is even bigger than we think."

The lots submitted are represented by 18 new subdivisions and 19 additions to already existing subdivisions.

Asked why there is a building upswing here in consideration of the very tight money situation, Johnson said he thought it was due to the fact that "people really don't believe that the inflationary trend in the nation will be stopped."

"In essence, they are hedging their bets on a continued price increase syndrome and feel that even as high as costs are now they will probably be higher next year or the year after."

Asked if he thought this building boom pointed out that Frederick County was suffering under a housing shortage, Johnson replied, "It is not a shortage per se but probably a shortage of adequate housing."

"They just want a better house than they find here on the market and are willing to pay to get it," he concluded.

17-YEAR-OLD KILLED NEAR TANEYTOWN

A 17-year-old Taneytown area youth was fatally injured and four others less seriously hurt in a head-on crash on Route 194, about two miles south of Taneytown about 10:40 Sunday evening.

Don Stevens Deeb, son of Anthony J. and Marion (Stevens) Deeb, of Taneytown R2, operator of one of the autos involved, was pronounced dead on arrival at the Carroll County General Hospital at Westminster. Carroll County Medical Examiner Dr. W. G. Speicher told state police that Deeb died instantly of a crushed chest, fractured skull and multiple lacerations of the body. His body was taken to the Fuss Funeral Home in Taneytown.

The driver of the second car, Sterling E. Sprague, 26, of Union Bridge R1, was treated at the Carroll County Hospital for cuts.

Deeb was jailed at Westminster by state police on a charge of operating his motor vehicle while under the influence of alcohol. Sprague was released the next morning after posting \$503 bail on the charge.

Two of the passengers in the Deeb auto, Jeanne M. Putman, 15, Harney, and Patricia E. Minnick, 16, Westminster R1, were admitted to the Carroll County Hospital in a satisfactory condition. Paul Richard Minnick, 19, Taneytown, was transported to the Frederick Hospital. Six ambulances were summoned to the scene, including the Emmitsburg VFW ambulance.

Maryland State Police at the Westminster barracks said Deeb's southbound auto and Sprague's northbound car collided head-on in the center of Route 194 in front of the Ralph Stoniesier Construction Co. Both vehicles, Maryland State Police said, were in the center of the highway at the time of the mishap.

Sprague's 1968 Plymouth and a 1961 Ford operated by Deeb and owned by a passenger, Paul Minnick, were demolished in the accident.

Deeb had been employed by the Kessler Shoe Co., Westminster.

Surviving in addition to his parents are a sister, Miss Annette Deeb, at home, and his maternal grandfather, Wilson Stevens, Baltimore.

Funeral services were held on Tuesday morning at 10 o'clock at St. Joseph's Catholic Church, Taneytown with the Rev. John T. Kerr officiating. Interment was in the church cemetery.

James Grinder Band President

The monthly meeting of the Emmitsburg Municipal Band was presided over by its newly elected officers with 37 members present. Jim Grinder was voted by the members to be president, with Ernie Rosensteel, vice president; Barbara Seidel, secretary; Alice Rodgers, asst. secretary; Jim Kittinger, treasurer; Phyllis Davis, asst. treasurer; Paul Dern, director; and Bev Davis, asst. director.

These officers will serve only a six month term, with elections being held in January instead of July.

The band will hold its meetings on the 3rd Wednesday of each month, with practice following, and regular practice will be on the 1st Wednesday of each month.

It was decided to hold off on bake sales until after the parade season. Also a concert on the Square to be held before Labor Day was discussed and tabled until the next meeting.

The uniforms of the majorettes to be ordered in January were decided to be red in color, but type and material will be the decision of the girls themselves. A band flag, bells for the drums, new acrobat uniforms, and additional drums were all discussed and tabled for later discussion.

The meeting was adjourned at 8:45 p.m.

It was announced that the band will play for the Lawn Festival at Elias Lutheran Church tomorrow evening (Saturday), beginning at 6 p.m. All members are urged to attend. Also the band will participate in the Thurmont Firemen's parade on Thursday evening, July 31, and play a concert for St. Anthony's Church picnic next Saturday, Aug. 2, at 6 p.m.

Although fires in public and industrial buildings frequently are the headline makers, fires in residences cause nearly twice as much damage as fires in any other category of building, reports the Insurance Information Institute.

Miss Humerick Wed To Bernard Fink Jr.

Miss Dorothy E. Humerick, daughter of Mr. and Mrs. John G. Humerick, Emmitsburg, became the bride of Bernard J. Fink, Jr., son of Mr. and Mrs. Bernard J. Fink, Sr., Thurmont, on June 21 at 12:00 noon in St. Joseph's Church, Emmitsburg. The double ring ceremony and Nuptial Mass was performed by Rev. Edward V. Echle, Thurmont, the groom's pastor.

Richard Kelly, cousin of the groom, Morgantown, W. Va., was best man. Ushers were John Humerick, brother of the bride of Wichita, Kansas, and George Henning, Thurmont.

The bride's mother wore an ivory lace dress with pink accessories and pink carnation corsage. The groom's mother wore a light blue dress with white accessories and wore a white carnation corsage.

Traditional wedding music was played by the church organist, Mrs. Louella Rosensteel, who also accompanied the soloist, Mrs. Shirley Wireman, Thurmont.

Following the ceremony, a reception was held at Camp Cozy Restaurant, Thurmont, after which the couple left for a wedding trip to Atlantic City, N. J.

For traveling, the bride wore a yellow textured linen dress with a daisie corsage liftd from her bouquet.

The couple will reside in Manhattan, Kansas, where the groom is in the Army stationed at Fort Riley, Kansas.

The bride is a graduate of St. Joseph's High School, class of 1966, and of the Maryland Medical Secretarial School, Hagerstown, 1967. She was formerly employed at the office of Dr. J. C. L. Brown, Jr., D.D.S., Blue Ridge Summit.

The groom graduated from St. Joseph's High School, class of 1964, and from Mt. St. Mary's College in 1968. He is now serving in the U. S. Army.

On Friday evening, following rehearsal, a supper was given by the groom's parents at the Cozy Restaurant, Thurmont.

Studies Vietnamese

Marine 2nd Lt. William E. Sanders, Jr., son of Mr. and Mrs. William E. Sanders of Route 2, Thurmont, has been assigned to the Defense Language Institute, Presidio of Monterey, Calif.

Lt. Sanders will receive instruction in North Vietnamese for a period in excess of 47 weeks. Prior to convening class on September 4, he is serving as the Assistant Officer in Charge of the Marine Detachment at the Presidio.

The officer is a 1964 graduate of St. Joseph's High School, a 1968 graduate of Mt. St. Mary's College, and was employed as a cost analyst with General Foods Corporation in Dover, Delaware, prior to entering Officer Candidate School in September 1968.

Local Man Unhurt As Car Hits Pole

William Bell Weidner, 50, escaped unhurt after crashing his car into a utility pole on N. Seton Ave., at 5:15 p.m. Wednesday evening.

Weidner refused medical treatment following the accident which happened while he was driving north on N. Seton Ave., crossed the center of the road and struck the pole in front of Mrs. Hazel Halm's property.

Emmitsburg Police Chief W. Henry Filler charged Weidner with failing to keep to the right side of the highway. Weidner's car, a 1967 Ford Tudor, was demolished.

J. Ward Kerrigan has returned from a week's visit with Dr. and Mrs. Thomas J. Norris and family in Newton, N. J.

Little Leaguers Eliminated

The Emmitsburg Little League All-Stars were eliminated Monday evening in the Maryland District Two Little League tournament when they bowed to Thurmont 6-0 here.

Terry Eyler, Thurmont pitcher, had a no-hit, no-run game until the final inning when James Green, Emmitsburg catcher, led off the bottom of the sixth inning with a clean single for the lone hit for the losers.

Thurmont put the game on ice with four runs in the third on three hits, a walk and an error. Thurmont 104 001-6-6-0 Emmitsburg 000 000-0-1-3

Batteries: Thurmont, Eyler and Clark; Emmitsburg, Joel Neighours, Brian Bentz (4) and James Green. SO—Eyler 3, Neighours 1, Bentz 5.

County Needs Building Code Architect Says

Frederick County will not achieve its full growth potential unless a county-wide building code is enacted, the county architect asserted Tuesday.

Jack Stann, who assumed the duties of county architect, added, "it is a disservice to the residents of the county that they are not given the protection of a building code."

Stann said Frederick County is one of the few in Maryland without a building code. Neighboring Carroll County with a smaller population than Frederick has a code, he pointed out.

He urged that the county commissioners have an early public hearing on the proposed building code as recommended by the Frederick County Code Committee six months ago.

The committee met for 14 months and issued its unanimous report last January. Before legislation can be enacted by the commissioners, public hearings must be held "and none are in sight," he added.

Stann pointed out how important the code is, citing an instance of improper reinforcement of a basement wall in a home, and another case of 2x2 studding used for supporting walls in a home in the county.

While acknowledging there is some opposition, he compared a building code with planning and zoning, and pointed out that Frederick County development could be hampered without a code.

Stann served as a consultant to the code committee while it was working, and the committee endorsed not only a building code but also plumbing and electrical regulations. They would, if adopted, apply to both new construction and remodeling.

In pointing out his duties, Stann said the position had been authorized since 1955 but not until he was hired last September was the position filled.

His duties, he said, include supervising construction of all public buildings, inspect materials and construction, and keep a record of all county buildings. While the property of the board of education is exempted from the act, the architect has been working cooperatively with the school board on construction and materials used in the new Waverley school.

He has also worked with the parks and recreation commission on the Monocacy River Park and Rose Hill Manor.

Committees Report At K-C Meeting

Grand Knight Eugene R. Rosensteel presided over the regular meeting of Brute Council 1860, Knights of Columbus, held Monday evening in the Council Home.

Thank-you notes were read from the local CYO and the Donald Bowne family.

Ray R. Lauer, six-point program chairman, called on the various committees to report. Gerald Calhoun, Catholic action chairman, reported on the recent shrimp feast; Clyde Eyler, reported on the baseball game trip to Baltimore next month and announced all tickets had been sold. Leonard Gmeiner, social action chairman, reported his committee would visit Cullen School this Sunday at 1:30, all members being invited; Harry Otterson, family picnic chairman, announced the affair would be held shortly with the date to be announced. Thomas Leonard, basketball tournament chairman, gave a progress report and said it was decided to invite public schools in the area to the tournament next March.

Paul A. Keepers, membership and insurance chairman, reported that recently five applications and one transfer into the council had been processed.

On new member, John W. McNavish, was voted into the group. During the meeting the State Warden, Paul A. Keepers, presented Past Grand Knight Ray Lauer with a certificate of merit for his past services. The Grand Knight announced that the annual installation of officers would be held jointly in the Council Home here, with the Frederick Council, on August 24 at 3 p.m.

Short of nuclear war, it would be hard to imagine fire destroying nine American cities in the next 70 years. Yet, the Insurance Information Institute notes that between 1835 and 1908 fire destroyed major portions of New York City, Charleston, S. C., Portland, Me., Chicago, Boston, Jacksonville, Baltimore, San Francisco and Chelsea, Mass.

Knowing how to revive a drowning swimmer may someday save the life of a loved one, says Liberty Mutual Insurance Companies.

Attends Vocational Retail Course

Attending an intensive vocational course in appliance retail business management at the Whirlpool Educational Center in Benton Harbor, Mich., is Robert Scott Rice, Matthews Gas Co., W. Main St., Emmitsburg.

The Whirlpool Educational Center presents workshop courses in all aspects of appliance selling and retail management to sons or daughters of Whirlpool dealers from throughout the nation. Far more than product training, the Educational Center courses cover all phases of selling including financial management, advertising, personnel practices, service and merchandising and scores of other subjects. The seminar, entitled "Am I my father's successor?" is designed to give a practical look at the appliance retail business as a possible career for young men and women whose parents are already in the business.

Mr. Rice resides on Tract Road, Emmitsburg, Md.

OBITUARIES

Warren O. Kugler, 86, W. Main St., Emmitsburg, died at the Montevue Home, Frederick, Sunday afternoon at 1:45 o'clock.

A native of Adams County, he was a son of the late George and Cornelia (Conner) Kugler. His wife, the late Alice C. Shoemaker, died in 1936.

He was a retired plumber and tinsmith.

Surviving are a sister-in-law, Mrs. Goldie Kugler, Emmitsburg, and nieces and nephews.

He was a member of the Elias Lutheran Church, Emmitsburg.

Funeral services were held on Wednesday morning at 10:30 o'clock from the Wilson Funeral Home, Emmitsburg, with the Rev. John C. Chatlos officiating. Interment was in the Mountainview Cemetery.

CRIT JONES

Crit Jones, 69, Detroit, Mich., died Sunday. Born in Greenroad, Ky., he was a son of the late Samuel B. and Ellen Yeager Jones. His first wife, Amanda Smith Jones, died 16 years ago.

He is survived by his second wife, Mrs. Donna Jones; six children, Mrs. William Little of California, Rex Jones of Kentucky, Nelson Jones of Michigan, Samuel Jones of Michigan, and Mrs. John Warthen and Mrs. Raymond Baker, both of Emmitsburg; 27 grandchildren, two great-grandchildren, and four brothers.

Private funeral services were held Wednesday at 2 p.m. at the Wilson Funeral Home, Emmitsburg, with the Rev. John C. Chatlos officiating. Interment was in the Mountainview Cemetery.

DOUGLASS J. HOFFMAN

Douglass J. Hoffman, 62, of Emmitsburg, died Tuesday at Mt. Wilson State Hospital.

Born in New York, he was a son of the late William and Nellie Brennan Hoffman. He served in the merchant marine and was a member of the Catholic Church.

He is survived by a brother, William Hoffman of Chicago; three sisters, Mrs. Adelaide Georgi, and Mrs. Mildred Ulrich, both of Illinois, and Mrs. Ellen Rausch of Arkansas; and a number of nieces and nephews.

Frieds may call at the Creager Funeral Home in Thurmont where prayers will be recited tonight (Friday) at 7:30 p.m. A Requiem Mass will be celebrated at St. Joseph's Church, Emmitsburg, on Saturday at 9:30 a.m. with the Rev. Fr. John King officiating. Burial will be in St. Joseph's Cemetery, Emmitsburg.

Knowing how to revive a drowning swimmer may someday save the life of a loved one, says Liberty Mutual Insurance Companies.

Frederick County Backgrounds

By SAMUEL CARRICK
More Annan Genealogy

It is interesting to note that several branches of the Annan family, descendants of Rev. Robert (2) Annan, still continue to use Tom's Creek Presbyterian churchyard as a burial place. The last person to be interred in this plot apparently died in 1963. True to Scotch instinct they followed tradition.

Now to return to the sixth generation of the Annan family in America. Robert Lewis (6) Annan, M.D., the eldest child of Dr. Andrew (5) and Elizabeth (Mott) Annan, was twice married.

His first wife, Alice Columbia Mott, was a first cousin. She was born in 1844 and died in the year 1878. She is buried with her family, the Motters, in the churchyard of Elias Lutheran Church, Emmitsburg, Md.

After the death of his first "late lamented", Dr. R. L. (6) Annan married into another fine, old Maryland family—the Birnie clan. The second Mrs. Dr. Annan was Hester McNaughton Birnie.

The Birnies were members of Piney Creek Presbyterian Church and many members of the family are interred in that church burial ground. By her first marriage Alice Columbia (Mott) Annan, Dr. Robert L. (6) Annan became the father of six children, as follows:

1. Gertrude (7) Annan . . . Note: The daughter never married and is buried at Tom's Creek Presbyterian churchyard in her parents' plot. The inscription from this marker at her grave follows:

24. In memory of Gertrude Annan, daughter of Robert Lewis Annan, M.D., and Alice Columbia Mott. Born March 11, 1870, died February 28, 1943.

2. Alice Columbia (7) Mott (the namesake of her mother). This second daughter also remained unmarried and is interred in the Presbyterian churchyard. The inscription follows:

25. In memory of Alice Annan, daughter of Robert Lewis Annan, M.D., and Alice Columbia Mott. Born May 12, 1871, died January 17, 1962.

3. Elizabeth (7) Annan . . . Note: This little daughter lived less than four months and is buried with her people in the old

Presbyterian ground.

26. Sacred to the memory of Elizabeth Annan, daughter of Dr. R. L. and Alice C. Annan. Born March 22, 1812, died August 21, 1872.

4. Lewis Mott (7) Annan (named for his maternal grandfather, E. Lewis Martin Mott). Note: The first son of Dr. Robert Lewis (6) and Alice Columbia (Mott) Annan, was born in 1873 and died in 1943. His wife was Effie Emerson.

5. Anna Elizabeth (7) Annan, still living.

6. Andrew (7) Annan. Note: The second son and sixth child of Dr. Robert Lewis (6) Annan and his first wife is interred in the family plot in the Presbyterian burying ground. He was never married. The inscription from his gravestone follows:

27. In memory of Andrew Annan, son of Robert Lewis Annan, M.D., and Alice Columbia Mott. Born June 15, 1876, died June 24, 1960. By his second marriage to Hester McNaughton Birnie, Dr. Robert Lewis (6) Annan became the father of two daughters and one son. The daughter, Amelia Harrig (7) Annan and Elizabeth Mott (7) Annan, are still living and retain active interest in the church of their ancestors.

Robert Birnie (7) Annan, the only son born to Dr. Annan's second marriage, died in 1923 and is interred with his family. This gravestone reads as follows:

28. Rogers Birnie Annan, born May 5, 1866, died September 17, 1923.

Rogers B. (7) Annan was married to Madge Herring and they were the parents of two daughters.

This concludes, for this time, at least, the genealogical notes on the Annan family.

The Emmitt Family
In Tom's Creek Church Presbyterian churchyard there are five marked graves of the Emmitt family, of whom Samuel Emmitt, was the founder of Emmitsburg. If any reliance can be placed on tradition, and in the majority of cases where there is "smoke there is fire" the number of unmarked graves far exceeds that of the marked—at least in the case of the Emmitt clan.

In his excellent History of Emmitsburg Maryland, James A. Helman (1906), has this to say of the Emmitt family.

"Samuel Emmitt, an Irish immigrant, in company with William Shields, who was married to his sister, came into this locality (Emmitsburg) and laid out patents for lands on May 17, 1757. They were not the earliest settlers, they came with the third influx, 1730, 1746, 1757.

"Samuel Emmitt and his wife are buried in the Presbyterian Cemetery in unmarked graves. Their family consisted of the following children:

"1. Agnes Emmitt married William Porter.
"2. William Emmitt, a bachelor, died 1817—dropped dead.
"3. Mary Emmitt.
"4. Abraham James Emmitt.
"5. Josiah Emmitt—born 1765—died June 29, 1821.
"6. Abigail Emmitt—born 1774—died February 13, 1838.

"The Carl property in the Emmitt name was purchased by David Gamble in 1838, now (1906) the George Miller farm; the Carl record of Samuel Emmitt, he was living in 1797."

It is indeed a pleasure to be able to write that the graves of Samuel (1) Emmitt and his wife, Mary Emmitt, are now well marked. The inscription each date—but the dates of birth and death of the founder of Emmitsburg and his helpmate are not known.

The notes on those buried in Tom's Creek Presbyterian Churchyard will be continued in this series next week.

Emmitsburg Maryland, James A. Helman (1906), has this to say of the Emmitt family.

"Samuel Emmitt, an Irish immigrant, in company with William Shields, who was married to his sister, came into this locality (Emmitsburg) and laid out patents for lands on May 17, 1757. They were not the earliest settlers, they came with the third influx, 1730, 1746, 1757.

"Samuel Emmitt and his wife are buried in the Presbyterian Cemetery in unmarked graves. Their family consisted of the following children:

Parish Sponsoring Basketball Teams

St. Joseph's Parish is sponsoring a young men's basketball league again this summer for those who are 15 years of age and over. Three teams have been organized with approximately 20 men participating. Trophies will be awarded at the close of the league to the winning team, the high score, and the Most Valuable Player.

On Tuesday evening, July 22, the first game was played with John Sherwin's "Mod Squad" squeezing by Denny Hess' "Star Trekkers" by a score of 55-48. John Sherwin was the leading scorer for the victors with 19 points, supported by Tom Topper's 10 points and Denney Stahley's 12 points. Bob Adelsberger, with 13 points, was the high scorer for the losers.

On Monday and Tuesday evenings of next week, July 28 and 29, two more games will be played beginning at 8 p.m. On Monday evening John Sherwin's "Mod Squad" will take on Lee Koontz's "Invaders"; on Tuesday evening the "Invaders" will be seeking win No. 2 in a game with the "Star Trekkers".

Give us this day our daily bread.—(Matt. 6:11).

Wherever we live, to be successful we must make the most of our own abilities, talents and energy. Prosperity is more than money, investments, property, education, title position, personal power. It may include all these, but prosperity is the result of our creative productivity. In praying for prosperity, pray as Jesus prayed, "Our Father . . . give us this day our daily bread."

LEGAL RESOLUTION

STATEMENT OF THE EMMITSBURG TOWN BOARD OF BURGESS AND COMMISSIONERS FOR THE INSTALLATION OF WATER METERS.

Under the provision of Section 6 of an Ordinance entitled "Water" calling for installation of Meters, the Burgess and Commissioners have approved the installation of water meters in all homes and businesses and for other users beginning August 5, 1969 and continuing until such a time as all meters are installed. Our local plumbers, Mr. Jason Sanders and Mr. Alfred Hahn have entered into an agreement with the town to do the work of installing these water meters. The effective date for charges based upon meter readings will be contingent upon the time necessary by our local plumbers to complete the installation of the majority of these meters. It is the intention of the Burgess and Commissioners to review the Ordinance concerning charges for metered gallons and if necessary to enact a new Ordinance with respect to such rates.

The purpose of this action by the Board is not only to have those individuals who are using the water pay for it, but also, to conserve the water supply in general.

Those participating in the league are: for the "Mod Squad," John Sherwin, John Neighbours, Mike Smith, Tom Topper, Jeff Wierman, Ed Adelsberger; for the "Star Trekkers," Denny Hess, Marty Williams, Lu Norris, Jim Kieran, Bob Adelsberger, Steve Sanders and Steve Hobbs; for the "Invaders," Lee Koontz, Denny Stahley, George Baker, Steve Kelly, Gary Manning, Jeff Sanders and Leo Orndorff.

Hospital Report

Admitted

Mrs. Lawson Herring, Emmitsburg R1.
Mrs. Shirley Koontz, Emmitsburg R2.
Mrs. Lottie Krietz, Thurmont, R2.

Ernest Staub, Rocky Ridge.
Homer Tyler, Emmitsburg R2.
Robert Little, Emmitsburg.
Mrs. James Bowen, Emmitsburg R2.

Mrs. Evelyn Hartdagen, Emmitsburg.
Carl Angleberger, Emmitsburg.

Discharged

Worth Draper, Emmitsburg.
Mrs. Edward Stouter, Emmitsburg R1.

James Angell, Rocky Ridge.
Mrs. Herman Beall, Rocky Ridge.

Mrs. John Baumgardner and infant son, Fairfield R2.

Births

Mr. and Mrs. John Little, Emmitsburg, daughter, Monday.

Mr. and Mrs. Donald Brown, Rocky Ridge, son, Saturday.

Driver Injured

Samuel W. Musselman, 44, R1, Fairfield, Pa., was injured Monday at 5 p.m. when his car skidded off Pa. Route 116 after turning from Pa. Rt. 16 near Zora. Police said Musselman's car crashed into a concrete bridge abutment causing an estimated \$500 damage. Musselman was held for observation at the Annie Warner Hospital in Gettysburg, where he was taken by the Emmitsburg VFW ambulance.

Splake is a hybrid fish achieved by crossing a male brook trout with a female lake trout.—Sports Afield.

A REAL SOLDIER NOW — Pvt. Eddie Hodges practices parrying with a bayonet at Fort Polk, La. The drill sergeant supervising the young trainee is S/Sgt. Larry D. Clapp of New Castle, Ind. Private Hodges, best known for his role as a Confederate soldier in the Walt Disney movie "Johnny Shiloh," has been acting since he was two. The young actor, from Hattisburg, Miss., also appeared in 405 performances of the original Broadway production "Music Man".

To Take Sex Education Issue To Court

Opponents to sex education both
in Montgomery County and the
state, have incorporated a state-
wide organization with permanent
offices in Rockville.

The Maryland Citizens Commit-
tee for Decency and Morality will
support legal contests now being
entered in Federal courts to re-
solve constitutionality of present

State Board of Education by-laws,
to actively support legislative bills
in the Maryland General Assem-
bly next January dealing with
school subjects, and to serve as
an educational agency to parents
of school-age children.

Rev. Stanley M. Andrews of
Rockville is to serve as President
and executive secretary for the

committee. The committee's of-
fice is located in suite 4 of the
Simmons Building, 706 Rockville
Pike.

Mr. Andrews announced that
the Washington law firm of Dow-
dey, Levy and Cohen has been se-
cured for the proposed Federal
Court lawsuit and the Rockville
firm of McAuliffe and McAuliffe is
handling the incorporation of the
state organization.

The Governor's statement is
"too little—too late" as far as
the Maryland Citizens Committee
on Decency and Morality is con-
cerned. Governor Mandel is try-
ing to avoid a clear cut decision.
His suggestion that parents should
have the right to keep their chil-
dren out of sex education classes
agrees with the stand of the op-
ponents of the courses while his
throwing the responsibility back to
the County Board of Educa-
tion is a craven approach which
some school administrators will
hail with delight. Further, his an-
nouncement that he will reap-
point the present members of the
State Board of Education in July
shows a total disregard of the
responsibilities of the Board. Sure-
ly a Board which did adopt such
a controversial position without a
detailed study of such courses in
other states and a more considered
evaluation of its possible implica-
tion to the state's public school
image among the tax-payers shows
an ineptness and a lack of under-
standing of the interests of the re-
ligious minority who would inevi-
tably oppose such teaching with-
out proper moral guidance.

The Governor frankly said he
hoped that there would be no "ill-
advised legislation" introduced in
the next General Assembly. We
can assure the Governor that leg-
islation already has been drafted
and members of the General As-
sembly have indicated their will-
ingness to introduce and support
the legislation. He may placate
the educational administrators in
Montgomery and Baltimore coun-
ties but there are other counties
rejecting the entire scheme.

Mr. Andrews said that more
protest rallies are being scheduled
throughout the state and that

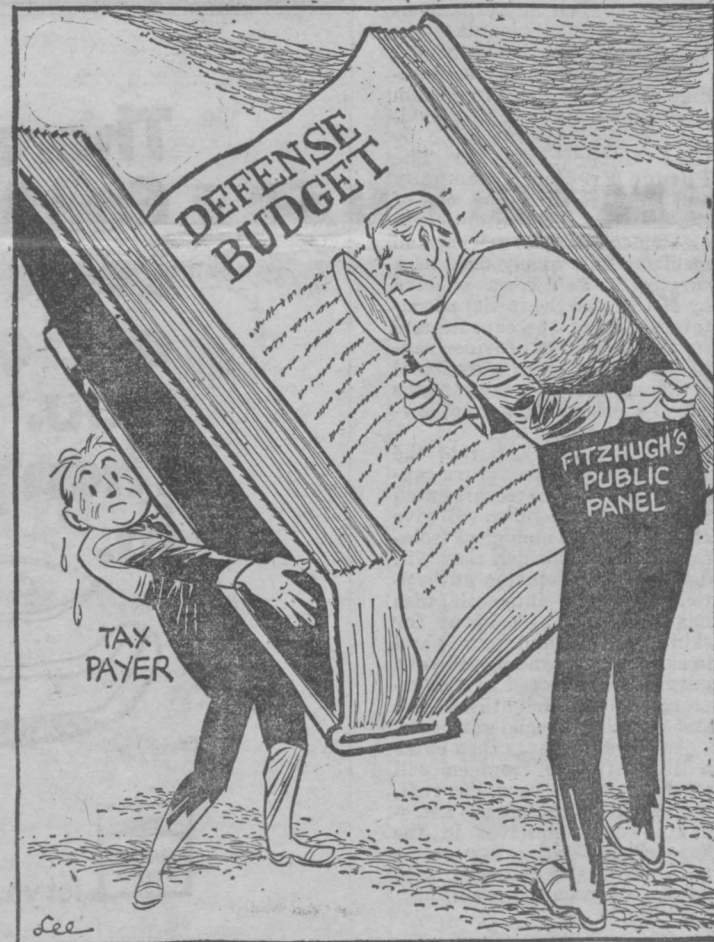

when the General Assembly meets
in January the Citizens Commit-
tee expects a giant state rally and
an all-day meeting at Annapolis
will bring the largest assembly
of protesting citizens that the
state capital has ever seen.

Andrews said he was glad that
the Governor recognized that the
"great majority (of the oppo-
nents) are solid citizens who can-
not be written off as ideological
extremists or as persons who have
a political axe to grind." Unless
the Governor's "blue ribbon com-
mittee" includes members of the
fundamental churches and the op-
position we will consider his at-
tempt a "white-wash."

Rev. Andrews discussed the im-
passe in Montgomery County
where the County Board of Educa-
tion has refused to hold an ex-
tended public hearing as the op-
ponents requested. He said, "It
has been almost a month and the
Board has not even attempted to
reply to the six questions that
they promised they 'would give an
early reply to.'" No official of
the school system or the Board
has communicated in any way with
our Committee so we must assume
they remain implacable and hos-
tile to any legitimate opponents.
They needn't ignore us. We're not
going away, but their hostile at-
titude is producing a most un-
favorable image and the aroused
citizens are going to press their
opposition even more strongly.
Why don't they answer the ques-
tions? What are they afraid of
in their own project?

GOOD! LET'S ALL TAKE A HARD LOOK!

OFF AND RUNNING by John I. Day

Merriwell's Uncle Asher?

From time to time sports
writers have wondered who
Hugo K. Asher was. A horse by
that name happened to have
given John Longden the first of
his 6,032 rides into the winner's
circle at the Salt Lake City Fair
Grounds in 1923, a fact that will
live in racing's record book,
which fails to record for whom
Hugo K. Asher was named.
There is reason to believe,
however, that he might have
been Frank Merriwell's Uncle
Asher. While Merriwell's bio-
grapher, Burt L. Standish, or
Gilbert Patten, was more con-
cerned with Frank's prowess on
the diamond, gridiron and
track, the famed Yale man also
had a glowing career on the
race track.

In "Frank Merriwell's Races,"
published in 1903, Standish
shows Merriwell to be a "triple
threat" on the turf; he might
have been a good TRPB agent,
trainer or jockey. Falling in
love with Nemo, a horse on
which he had caught his be-
loved's runaway carriage,
Frank paid \$1,000 for the steed,
persuaded his guardian that
horse racing "is one of the
grandest sports in the world"
and entered his horse in a race
at Mystic Park. He won the
race, but not before his enemies
had made numerous "dastard-
ly" attempts to lame or poison
his horse. Merriwell came by
his interest in racing naturally
and recalled "My Uncle Asher,
who kindly left me his fortune,
was a crank on fast horses and
he owned a number of them."

Dept. Of Education Holds Meeting

The Maryland State Department
of Education's advisory panel on
contemporary issues, now concen-
trating its attention on family
life and sex education, wants to
hear citizens' views on the Mary-
land sex education program.

Mrs. David Scull, chairman, said
after the panel's second meeting,
held this week, that the group
would particularly like to hear
from students and parents, but
will also welcome the views of
other citizens and groups.

Letters should be addressed to
Mrs. David Scull, 9315 Greyrock
Road, Silver Spring, 20910. She
said those who desire to testify
personally before the panel should
write for an appointment to Dr.
Frederick Brown, Associate State
Superintendent, 600 Wyndhurst
Avenue, Baltimore, 21210.

Also this week the committee
heard Baltimore Municipal Court
Judge Mary Arabian call for more
emphasis on the family life edu-
cation aspects of the program.

Lions Elect International President

W. R. Bryan of Doylestown,
Ohio, was elected President of
Lions International at the As-
sociation's 52nd Annual Con-
vention in Tokyo, Japan, July
2-5. Serving as the 53rd Presi-
dent of the world's largest
humanitarian organization,
Bryan leads some 910,000
members in 23,300 clubs lo-
cated in 145 countries and geo-
graphic areas, throughout the
world.

Lions International is best
known for its aid to the blind
and sight conservation activi-
ties, international relations
programs, and its many com-
munity service projects. 'Unite
Mankind Through Lionism'
will be the primary theme dur-
ing his 1969-1970 Presidential
Year, with special emphasis on
youth programs and the im-
portance of young people in
strengthening world under-
standing.

Judge Arabian was co-chairman
of a Baltimore citizens' advisory
committee in family life educa-
tion in 1964.

The state committee also heard
reports from school officials Ron-
ald Elwell, Baltimore City; Dr.
Robert Schneider, Montgomery
County; and Dr. Benjamin Eber-
sole, Baltimore County, on the pi-
lot programs in those school sys-
tems. Emphasized were program
content, grade placement, and
teachers preparation.

The committee plans to meet
each Tuesday afternoon at the
State Department of Education of-
fices at the Wyndhurst Avenue ad-
dress.

Orosz Appointed To State Committee

Gerald C. Orosz, a veteran fac-
ulty member at Mount Saint
Mary's College, has been nomi-
nated to be a member of the pub-
lications committee of the Maryland
State Teachers Association's High-
er Education Council.

"I sincerely hope you will ac-
cept this appointment and bring
to our organization your talents
and able background," wrote Dr.
Gladys Bradley of Baltimore,
council president.

Orosz, active in many facets
of academic life, has been chair-
man of the education department
since 1952.

Garden Club Holds Meeting

The Silver Fancy Garden Club
held its July meeting at the home
of Mrs. Frank Butler in Taney-
town, Md., with twelve members
present. After the business meet-
ing, which was conducted by the
President, Mrs. Robert Clingan,
Mrs. Andrew Eyster gave a flow-
er arrangement demonstration
which was very informative.

In lieu of the regular monthly
meeting in August, the members
plan on attending workshops giv-
en by other garden clubs in the
vicinity.

Co-hostesses were Mrs. Robert
Clingan and Mrs. Thomas Frailey.

Fire breaks out somewhere in
the U. S. every 13 seconds, the In-
surance Institute reports.

Tax Reports Due This Month

Employers were reminded by Irving Machiz, District Director of Internal Revenue for Maryland and the District of Columbia, that several types of taxes are due on or before July 31, 1969.

Returns are due for the three months ending June 30, 1969, from the following:

Employers who file quarterly Federal tax returns (Form 941) for reporting withholding and Social Security taxes on employees for the second quarter.

Returns from persons liable for quarterly excise tax returns (Form 720) are due July 31, 1969. Excise taxes include taxes on facilities and services, manufacturing excise tax and tax on products and commodities.

Employers using Form 941 are requested to use the Federal Tax Deposit Form 501 while the persons using Form 720 will file FTD Form 504 when making their deposits to a Federal Reserve Bank or an authorized commercial bank. Each should use the preaddressed forms and envelopes received in

the mail. This procedure helps to expedite the handling of the returns and insures proper credit to the account.

When the withholding and social security and excise taxes exceed \$100 a month the depositary receipt system must be used.

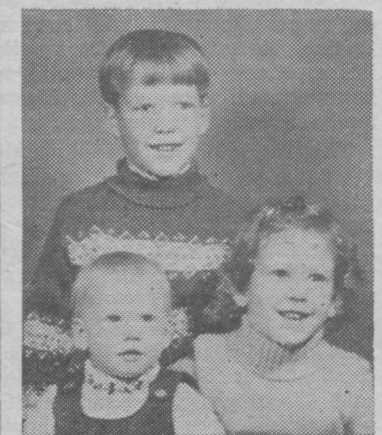

The Federal Deposit Form 501 and 504 should be sent to Federal Reserve or Commercial Banks separately, and the completed returns to the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pa. 19155.

Employers who have domestic servants such as cooks, janitors, maids, chauffeur, and other workers who perform services of a household nature, are subject to social security tax (Form 942) if \$50 or more was paid in wages in the second quarter of 1969.

The Social Security tax on household wages is 4.8 per cent for the employer and 4.8 per cent for the employee. When the quarterly report is filed, a check or money order representing 9.6 per cent of the cash wages reported for the period should be included with the return in the self-addressed envelope.

Citizens Of Tomorrow

This week's Citizens of Tomorrow are as follows:

Pictured above are the children of Mr. and Mrs. Thomas T. Bollinger, W. Main St. They are Josh, 5½, Traci, 3 and Samantha, 1.

Pictured above are Laurie, 1½, and Mark, 6, children of Mr. and Mrs. John L. Warthen, W. Main Street.

Shown above are the children of Mr. and Mrs. Norman Shriver, Jr., R2. They are Pamela, 5, Barbara, 4, and David, 1.

Stanley Dancer, the New Egypt, N. J., reinsman, became the first harness driver to win a million dollars, \$1,051,538 in 1964. By the end of the 1969 race season, Dancer will have upped his life winnings to over \$12 million.

Brothers Lead

Laurel Drivers

Winning and the surname Line-wear have become synonymous at Laurel Raceway in recent years, thanks to a trio of brothers and their father.

The quartet of harnessmen is currently dominating Maryland's pioneer harness track which has reached the midway point in its 22nd year of operation.

Winston Lineweaver, at 26, the oldest of the three brothers, has won the driving championship at Laurel for the past two seasons, and is challenging for an unprecedented third straight, a feat never before accomplished at Laurel.

However, Winston is receiving a heavy challenge from brother Ray, who at 23 is the middle aged of the three Strasburg, Va., native sons. Alvin, at 21, is the youngest, and has also turned in a strong driving performance in the early weeks at Laurel. Father John has spent most of his time watching his years of teaching in action.

And there has been plenty to watch. In the first three and a half weeks at Laurel, both Winston and Ray brought home 14 winners each, with Ray recording double victories on July 1 and 8. Alvin drove seven victors and father John had one winner to give the Lineweaver family a total of 36, or 20 per cent of the first 180 winners at the Route One oval. Through July 15 there had been only two evenings in which a Lineweaver had not reached the winners' circle, opening night, June 23 and Wednesday, July 2.

The Lineweavers brought 18 horses to Laurel, several of which compete weekly in the invitational and preferred competition. They include John Lineweaver's trotter Dewtip, and pacers, Bourbon Chimes, trained and driven by

Alvin, and Mickey Megee, trained and driven by Winston.

Known for their excellent driving, the Lineweavers receive many "catch" drive opportunities. This has helped the family dominate the Laurel Tartan strip although there are several harnessmen on the grounds with larger stables.

Local College

Receives Grant

Mount Saint Mary's College has received a \$5,000 federal grant for purchase of higher education library materials.

Joseph W. Shoemaker, college librarian, said the money will supplement operating funds available for the library's continuing acquisition program, covering purchase of books and microfilm.

The \$5,000 grant comes to Mt. St. Mary's College through the 1969 College Library Resources Program authorized by Title II-A of the Higher Education Act of 1965, administered by the Office of Education, Department of Health, Education and Welfare.

The annual cost of the nation's traffic accidents has about doubled in the last decade.

RECEIVES DEGREE

Mr. Edward Michael Baker, R2, Emmitsburg, was one of 618 students receiving academic degrees from Parsons College, Fairfield, Iowa, during Commencement exercises held recently.

Mr. Baker received a Bachelor of Arts in Business Administration. Former Illinois Senator Paul H. Douglas was commencement speaker for the exercises held in the College's Memorial Fieldhouse.

Fire tends to victimize the very old and the very young. The Insurance Information Institute notes that the highest death rate by fire is among persons 65 years of age or older; the second highest rate among children under 5.

OFF AND RUNNING by John I. Day

More Turcottes Coming

It is possible, but not likely, that a race could be run in which all Jockeys would be named Valenzuela. At last count there were nine of the clan listed, the best known perhaps being Kelso's old friend Ismael (Milo) Valenzuela. The Smiths of course could fill a bigger race but not by much; there are eleven Smiths listed in the American Racing Manual. Now there are the Canadian Turcottes, three of them riding and three more waiting in the wings.

The former lumberjack (!), Ron and his brother Noel are well known as successful jockeys on both sides of the border and now, under tutelage of, and contract to, Pat Remillard, a former star race rider, there is young Rudolph Leonide Turcotte. Young Rudy

says "I have three more brothers that are younger than I am, Roger, 14, Gaetan, 12, and Yves, 9 and all three are hoping for a chance to get started with Mr. Remillard." There are, incidentally, two non-riding Turcotte brothers, Aurel, an accountant, and Camille, a roofing contractor.

When he introduced the latest Turcotte a while back, Remillard said "I remember Ron Turcotte when he was starting out and I'd have to say that Rudy shows much more ability than his older brother did as an apprentice. You mark my words, Rudy will be the leading 'bug' rider on The Jockey Club circuit this season."

**I am an American.
Do not fold, spindle, or mutilate.**

Being an American is comfortable. After all, we do have more than any other country in the world.

But sometimes we get too comfortable. We take our leisure and our prosperity and our freedoms for granted. Sometimes we have to be reminded that it wasn't easy for us to get where we are. That the freedoms we enjoy weren't handed to us on a platter.

Of course, the great majority of Americans have great pride in their country.

Millions of them show their pride by buying U.S. Savings Bonds.

Through regular purchases where they work or bank, they've helped preserve our freedoms by investing in their country.

At the same time, they've been storing up quite a nest egg for themselves.

U.S. Savings Bonds pay a guaranteed return. And your investment is backed by the full faith and credit of the United States of America.

Also, the interest on Series E Savings Bonds isn't subject to state or local income taxes.

You can defer federal taxes on E Bond interest until you redeem the Bond.

If your Bonds are lost, or stolen, or destroyed, we simply replace them without cost.

They're safe.

They're easy.

They're automatic.

And they're also a reminder. A reminder that we all have to work hard to keep what we have.

Investing in your country will do just that.

Think about U.S. Savings Bonds.

It's a way to keep our country from getting folded, spindled or mutilated.

If they're lost, stolen, or destroyed, we replace 'em

**Take stock in America
Buy U.S. Savings Bonds**

Earth's First Defense Against Moon Germs

A commonly used antiseptic will be mankind's first line of defense against any organisms that Apollo 11 astronauts might bring back from the moon.

The decontaminant is Betadine antiseptic, prepared from a chemical complex of polyvinylpyrrolidone-iodine made by GAF Corporation for The Purdue Frederick Company and affiliates. Betadine, one of the most potent antiseptic microbicides known to science and medicine and widely used as a surgical antiseptic, was selected by NASA for the initial decontamination of the capsule and its astronauts. It provides rapid, broad-spectrum germicidal action against micro organisms causing infections in man, lower animals and plants.

Frogmen will leap into the Pacific to secure the return capsule. When the spacecraft hatch is opened, the frogmen will give the astronauts biological isolation garments, which they will don, and the Betadine antiseptic. The same antiseptic that has been used as a spray for skin irritations and wounds and in skin diseases and mouthwash gargles will be used by the astronauts on their entire bodies and over their special garments.

As the astronauts then enter a life raft, the frogmen will spray Betadine over the raft, the spacecraft hatch, the astronauts and themselves in the hope of eliminating any germs that may have returned with the first men on the moon.

New Course To Be Offered

Mr. Alden Phillips, Dean of Career and Continuing Education at the Frederick Community College, announced this week the development of a cooperative program with Montgomery Junior College in Dental Assisting. This unique but functional arrangement will allow Frederick Community College students to enroll in a two-year Associate in Arts degree program in Dental Assisting at Frederick Community College but these students will take the specialized courses in dental training at Montgomery Junior College. Specifically, under this arrangement, students will take the following courses at Montgomery Junior College during the two-year program: Dental Anatomy, Dental Assisting, Clinical Practice, and Dental Office Management. The remainder of the courses will be in General Education (English, Science, Social Sciences) and will be taken at Frederick Community College. To enter this program it is not necessary to have any previous experience in this field.

According to Mr. Phillips, in this day of high costs and increased taxes, this cooperative ar-

angement will allow Frederick Community College to offer a highly specialized training course without investing large sums of money for sophisticated equipment and well-qualified instruction. At this time the number of Frederick County students interested in this program does not justify duplicating of facilities and instructional staff.

The College has been working with the Frederick County Dental Assisting Society and the Frederick County Dental Society in determining the need of the county for this program.

Students interested in entering the Dental Assisting program are to contact Mrs. Jane Jasper, Counselor, Frederick Community College. The phone number is 662-0101.

Beall Criticizes Legislation

Congressman J. Glenn Beall, Jr. (R-6th) criticized "empty shell legislation" last week on the floor of the House of Representatives. This type of legislation involves an increasing number of programs that have been passed providing seed money and promises to prod states into action, only to find the

necessary financial support missing.

As an example, Mr. Beall pointed out that the state of Maryland began a program in 1967 in which it became a partner with the Federal Government under the Clean Water Restoration Act of 1966. Water quality standards were adopted for all the waters of the state and standards and plans for the implementation of policies were approved by the Secretary of Interior. The plan required that all municipalities in Maryland arrange financing and have under construction by 1971 the most advanced sewage purification works available through current technology.

The state committed itself to expenditures of many millions of dollars on the premise that the Federal Government would contribute its share of \$57.5 million dollars for the fiscal years 1968 through 1971. "Instead," Mr. Beall stated, "we can now expect only one-quarter of that amount or \$14 million dollars. Consequently it is most probable that our sanitary facilities fund will go broke in early fiscal 1970 unless this appropriation is increased."

"We in Congress must take a closer look at the costs over long periods of time before making a commitment such as this one," Mr. Beall continued. "Unless we reverse this trend and begin to realize that it is irresponsible to promise money and then not fulfill this promise, we are going to erode the confidence of most of the citizens in our Government."

When we want to help some friend or member of our family, we cannot allow ourselves to become emotionally involved. We can help others when we ourselves remain poised and centered in the Christ in the midst of us. Know that with God there is always a way for things to work out, through spiritual guidance and prayer.

Appreciates Paper's Support

Editor, Emmitsburg Chronicle:

Maryland's highway death rate, compared to last year, is running neck and neck. At the time of this writing, we have had 379 traffic deaths this year compared to 381 last year. In June, we had eighteen fatalities less than the previous year.

I want to thank you for the cooperation you have given to this Commission. While this death rate is bad, without your help we know it could have been much worse. In comparison with the rest of the nation, though, Maryland is still one of the states with the lowest highway fatality rate, thanks to your cooperation. We are indeed very grateful for the assistance that your paper has given to us and our life-saving programs.

As you know, we keep a record of all the accidents that occur. We do not have records of the accidents that did not happen. I believe your paper had a lot to do with many of the accidents that did not happen and it would be nice to think that the Lord does keep a record of accident prevention due to the cooperation of the news media, especially your publication.

Thanks to you again, with kindest personal regards, I am
Very sincerely yours,
Paul E. Burke, Executive
Director, Maryland Traffic
Safety Commission

The nation's insurance companies spend an estimated \$50 million a year to help make the nation's highways safer, the Insurance Information Institute says.

Pretty Hostess

Vice President-elect Spiro Agnew couldn't have had a lovelier escort than "Miss Sunken Gardens", Karol Kelly, when he recently visited St. Petersburg, Florida. Karol presented Agnew with a miniature football inscribed with a special invitation to visit the garden attraction.

LEGAL

NO. 22,458 EQUITY IN THE CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND
Jane E. Dragani
Rt. #4
Frederick County
Mt. Airy, Maryland
VS
Pompeo Dragani
231 North Main Street
Ambler, Pennsylvania

ORDER OF PUBLICATION
The object of this Bill of Complaint is to procure a divorce A VINCULO MATRIMONII by the Complainant, Jane E. Dragani, from the Defendant, Pompeo Dragani.

The Bill states in substance that the Complainant, Jane E. Dragani, is a resident of Frederick County, State of Maryland, where she has resided for more than one year last past; that the Defendant, Pompeo Dragani, is a non-resident of the State of Maryland, and when last heard from was residing at 231 North Main Street, Ambler, Pennsylvania.

The Bill further states that the Complainant and the Defendant were married on the 21st day of March, 1952, at Wilmington, Delaware, by Rev. Willard Purdy, a regularly ordained Minister of the Gospel; that as a result of the said marriage four children were born, namely, Angelo P. Dragani 15 years of age, David R. Dragani 14 years of age, Stephen V. Dragani 10 years of age, and Gregory P. Dragani 8 years of age, all of whom are in the care and custody of your Complainant, and whose care and custody your Complainant seeks; that the Complainant and the Defendant have voluntarily lived separate and apart without cohabitation for more than 18 months prior to the filing of the Bill of Complaint; and that such separation is beyond any reasonable hope of expectation of reconciliation. The Bill prays that the Complainant, Jane E. Dragani, may be divorced A VINCULO MATRIMONII from the Defendant, Pompeo Dragani; and that she may be granted the care and custody of the minor children in these proceedings mentioned; and that the Complainant may be granted such other and further relief as the nature of her case may require.

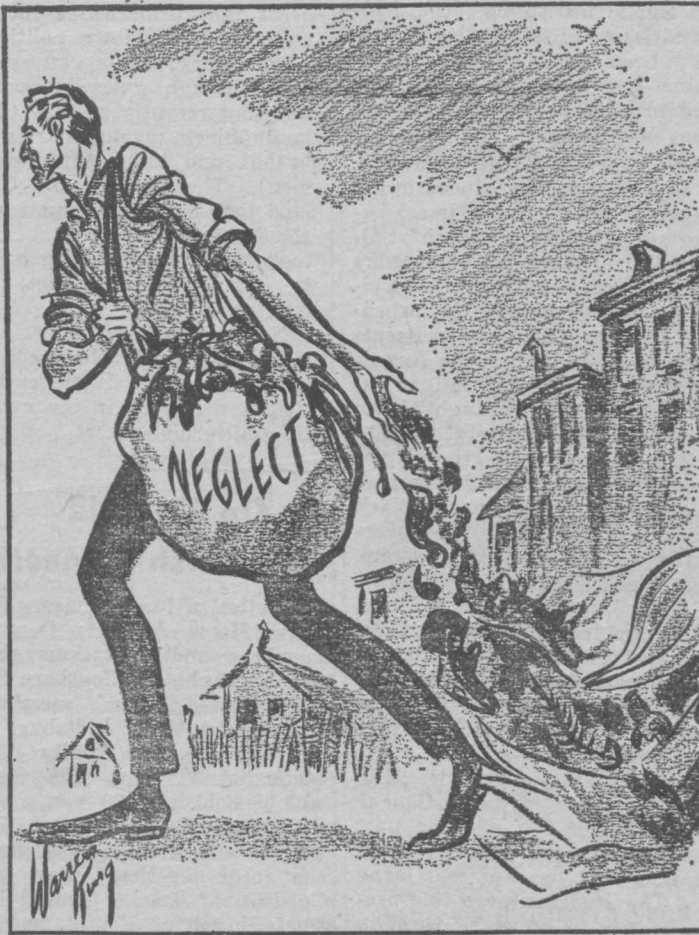

ORDER OF COURT
It is thereupon ORDERED by the Circuit Court for Frederick County, Maryland, on this 7th day of July, 1969, that the Complainant, Jane E. Dragani, by Order of Publication of this Court to be inserted in some newspaper published in Frederick County, Maryland, once a week for four successive weeks on or before the 9th day of August, 1969, giving notice to the said Defendant of the object and substance of this Bill, warning him to be and appear in this Court, in person or by Solicitor, on or before the 9th day of September, 1969, and show cause, if any he has why the Decree should not be passed as prayed therein.

NATIONAL EDUCATION PROGRAM
Searcy, Arkansas

"Something Terribly Wrong!"

The Committee on Public Education of the Fire and Police Association of Los Angeles has published (for strictly limited distribution) a report on "some causes" of "student revolt" on college campuses in California (the pattern of nation-wide turmoil). It shows Communists and their dupes in action, flaunting their Communist flags and establishing on college campuses an incredibly lecherous "code of obscenity." (We described some of it in last week's column.)

The 38-page report covering the public (tax-supported) colleges of California quotes State College Chancellor Glenn S. Dumke as saying the root question facing the higher education faculty, the California legislature, the citizenry of the state is: "Is the campus to be used as a staging area for violent social change or revolution, or is it not?" The report leaves no doubt that at the present time the campuses are being used by revolutionaries determined to destroy the colleges and the American system.

Undermining Values
"Our conclusion is obvious," said the Committee which prepared the shocking document. "There is something terribly wrong in the University of California and the California State College System. The state higher education system is being used to undermine the values of our youth, foment demonstrations and confrontations with civil authorities, and even bring about violence in the streets. The end of the process is

evolution and the barricades. . . . We fail to understand why our students should be subjected to a flood of filth and revolution. We cannot believe that this will in any way be useful to their education, or that the people of the state of California receive any significant return on their enormous investment in public education from these activities. . . . We do not see what the people of California have to gain by taxing themselves to support filthy speech, perversion, revolution, and violence. As public institutions, the Universities and State Colleges have not been established to undermine the social order. In our judgment, this is precisely what they are doing."

"Professor" Eldridge Cleaver
One clipping reproduced in the report (Los Angeles Times) reports: "The University of California announced Wednesday that Black Panther leader Eldridge Cleaver will be the principal lecturer for an experimental course on racism in America to be offered this fall at UC Berkeley." He "taught" the course despite protests of irate citizens. Cleaver is the racist convict who on parole became leader of the revolutionary Black Panthers, dedicated to overthrowing the American system. The Black Panthers are reported to be receiving large sums of money from Communist Cuba and Red China. On ball for alleged participation in another crime while on probation, Cleaver escaped the law last year and is a fugitive.

An item in the report: "The San Francisco State College 'Daily Gater' ran a three part series on the cultivation, preparation, and uses of marijuana. . . . The students were told precisely how to grow the weed in their apartments; how to trim it; the drying and processing of the plant to make a useable end product; how to roll marijuana cigarettes; and uses of pipes for consuming the drug." **Killing Police Advocated**

Another item: "It should occasion little surprise, then, that the same persons who are lead-

ers of revolutionary activities on campus also endorse one of the most blatant writers of perverted obscenity as a candidate for student body president. . . . the connection between sex perversions and revolution has a long history." The report publishes a poem by the student body presidential candidate and a campaign circular, both filled with revolting forms of filth, depravity, and obscenity.

Another item: "In the address given at Cal State LA Earl Anthony (Black Panther) told students that 'America is entering an era of showdown politics in which black people can survive only through guerrilla warfare like that recently seen in Cleveland (Black revolutionaries ambushed and killed three policemen). The brothers in Cleveland took care of business as it should be taken care of. . . . They took to the streets long enough to shoot a few police, then left.'"

No nation can exist long which tolerates the seditious, revolutionary and obscene activities described in the authentic California report.

oring new board members at which they will receive lapel pins. Retiring board members will be presented the cooperative's Leadership Award in recognition of their services.

Nominees for the local Southern States Advisory Board for the Emmitsburg area, are: Robert Martin, Sabillasville; Leo Spenla, Fairfield; John Wivell, and Paul Wivell, both of Emmitsburg. Ladies nominated for the Farm Home Advisory Committee are: Mrs. Robert Baumgardner, Fair-

field; Mrs. James Sanders, Mrs. Richard Valentine, and Mrs. Paul Wivell, all of Emmitsburg.

Three prizes will be awarded to the most original, most comical, and most practical hat made from farm and home products in an Original Farm and Home Products Hat Show.

Co-Op To Hold Membership Meeting

Election of local Advisory Board, Farm Home Advisory Committee members and operations reports will highlight the Southern States Cooperative Annual membership meeting for the Emmitsburg area, on July 29, at Trinity United Methodist Church. The meeting will be held at 8:00 p.m.

Charles E. Brauer of Rocky Ridge, will serve as chairman of the local meeting. Rev. Galen Goodwin of Trinity United Methodist Church of Emmitsburg, will give the invocation. Group singing will be led by Mrs. James Sanders of Emmitsburg.

Local operations and services will be discussed by Ralph D. Lindsey, manager of Emmitsburg Feed & Farm Supply.

R. A. Nickle, Jr. of Baltimore, a member of the cooperative's regional staff, will report on the over-all Southern States operations for the fiscal year, which ended June 30.

One of the highlights of the session will be a Young Family Recognition Ceremony during which a number of local young farm families will receive the cooperative's special Young Farm Family Participation Certificate. The awards will be presented by Manager Lindsey.

There will be a ceremony hon-

STRENGTH FOR THESE DAYS
from The Bible
They who wait for the Lord shall renew their strength. (Isa. 40:31)

We have more strength than we realize. We are capable of standing strong and steadfast, because our strength is of the Spirit. It comes from the Lord of my being. If we need physical strength, God in the midst of us is powerful and life-giving. Draw on this life-giving strength by affirming "We are strong in the Lord and in the power of His might. God power will help us accept His good will and purpose through increased spiritual understanding."

If the Shoe Fits...
How can your varied-size foot fit in a one-size shoe?

The foot's shape and size is different in the morning than at night; different on weight bearing than at rest; different when walking, jumping or running; different in illness than in health; different in summer than in winter.

A foot has many shapes and sizes. Yet it must be fitted to a one-shaped, one-sized shoe. It's a great trick if it can be accomplished. Very few customers appreciate this fact.

Modern science and tanners supply 'upper' materials that yield just enough to accommodate the enlarged foot on weight bearing without discomfort, yet return to the smaller foot size when the foot is inactive.

Expert shoe fitting is far more than selecting the right size. It involves the right 'last', meaning shape, and the right materials and construction. And most of all, it requires a fine skill backed by experience and judgment.

County Teachers' Pay Scale Rates Middle In State

The base salary for county teachers—set at \$6,500 this year after budget cuts by the commissioners—ranks 12th among the 23 counties and political subdivision of Maryland.

It tops the averaging starting pay in Maryland—\$6,476—by only \$24. It also shares the middle-of-road in salaries with three other counties—Calvert, Carroll and St. Mary's.

Of the four counties that border Frederick only Carroll is as low in starting salary for teachers. Montgomery County set a base of \$6,900, Howard set one of \$6,800 and Washington County has a \$6,600 base. Militancy among Maryland school teachers over their salaries was widespread the past spring and probably will be intensified next year.

There were class boycotts in Anne Arundel, Calvert, Charles, and Allegany counties, shunning of extracurricular duties in Caroline and angry grumbling among teachers almost everywhere in the state.

Anne Arundel teachers are pushing a suit to force the school board to talk salary terms again and they plan to hold a mass meeting in September before the schools reopen with a boycott in the background.

The sore point, ironically, was a new law which the teachers thought would help them. Enacted last year, the law requires each local school board to bargain on salaries with representatives of the teachers.

This was done. The problem was that the local governing body holds the purse strings and in most cases reduced the amount requested for education.

The school boards in turn in most cases lowered the salaries they had negotiated originally.

The Maryland State Teachers Association will seek an amendment to the negotiating procedure at the 1970 session of the Maryland Legislature.

It would provide for an early decision on the amount of money to be provided for teacher salaries. If the governing body intends to appropriate less than

was negotiated with the school board, "the employee unit can accept the budget or take whatever legal action it deems advisable," the MSTA states.

A deadline of May 1 would be set as a uniform date for new teacher contracts. This would be two months before the local governing bodies must adopt their budgets. Schools were on the verge of closing for the summer or already finished before the amount of money available for teacher salaries was known this year.

Next year, school boards also will be required to renegotiate with teachers if the original salary agreement is to be changed.

Nun To Attend World Congress

Sister Anna Mae Schaben, assistant professor of art at St. Joseph College, will represent the college at the 1969 triennial World Congress of the International Society for Education Through Art being held in New York City, August 7 through 13. The theme for the Congress is

EXECUTORS SALE

OF REAL ESTATE AND PERSONAL PROPERTY

Pursuant to an Order of The Orphans' Court for Frederick County, Maryland, and by authority granted in the Last Will and Testament of the late Grace A. Lantz, the undersigned Executors of the Estate of Grace A. Lantz, deceased, will offer for sale the below described property on:

SATURDAY, AUGUST 23, 1969

at 11:00 o'clock A. M.

on the premises of the late Grace A. Lantz, located on the West side of State Route 81, adjacent to the Sabillasville Elementary School, in the Hauver's Election District, Frederick County, Maryland.

All that lot or parcel of land, containing approximately 4½ acres, more or less, lying on the West side of State Route 18 in Election District #10, adjacent to the Sabillasville Elementary School, improved with a two-story frame dwelling house, barn and outbuildings. The dwelling house is in good condition, with central oil heating, 1½ baths, and good roof. This real estate being the real estate owned by the late Grace A. Lantz at the time of her death, and being a part of that tract of real estate conveyed unto Winfield S. Lantz by John C. Motter and Robert Biggs, Trustees, by deed dated January 18, 1889, recorded at Liber WIP 6, Folio 685, one of the Land Records of Frederick County, Maryland.

The following items of jewelry will be offered for sale immediately after the sale of real estate:

1 Lady's dinner ring set with 2 diamonds approximately 1.10 carat, set in a 14 carat white gold band

1 Pearl ring in a 14 carat gold setting

1 European cut diamond approximately 2.25 carats set in a 18 carat white gold setting

1 wedding band set in 18 carat gold

TERMS: A deposit of 10% of the purchase price will be required of the purchaser or purchasers on the day of sale on the real estate, balance in cash upon ratification of the sale by the Court. All conveying cost, including revenue stamps, transfer taxes and charges, and any other charges requisite to conveying, shall be at the expense of the purchaser or purchasers. All real estate taxes, state and county, will be adjusted to the date of settlement.

TERMS: For personal property: Cash. No property may be removed until settled for.

FREDERICK J. BOWER and

RICHARD R. BURGEE,

Executors of the Estate of Grace A. Lantz, deceased

Phone: 241-3249

This property may be inspected and more information concerning this property may be obtained by contacting the Executors at 100 West Church Street, Frederick, Maryland, phone 662-5155.

"Education Through Art: Humanism in a Technological Age."

Hailed as the first large international meeting in art education to be held in the United States, the Congress will offer American art educators the opportunity to meet art teachers from widely differing geographical and cultural areas, and to hear presentations on various implications of the meeting's theme.

R. Buckminster Fuller, known chiefly for his invention of the geodesic dome and termed one of the authentic geniuses of the 20th century, will be one of the major speakers. Other speakers include Mario Scher, Minister of Education, Rome, Italy; Seonaid Robertson, University of London Goldsmiths' College, London, England; Jaromir Uzdil, Academy of Fine Arts, Prague, Czechoslovakia; and Kieichi Mori, Chiba University, Chibashi, Japan.

One of the features of the Congress will be the showing of color transparencies of a wide range of art work from schools from many parts of the world. Hosted

by the National Art Education Assn., the Congress headquarters will be at New York's Statler Hilton Hotel.

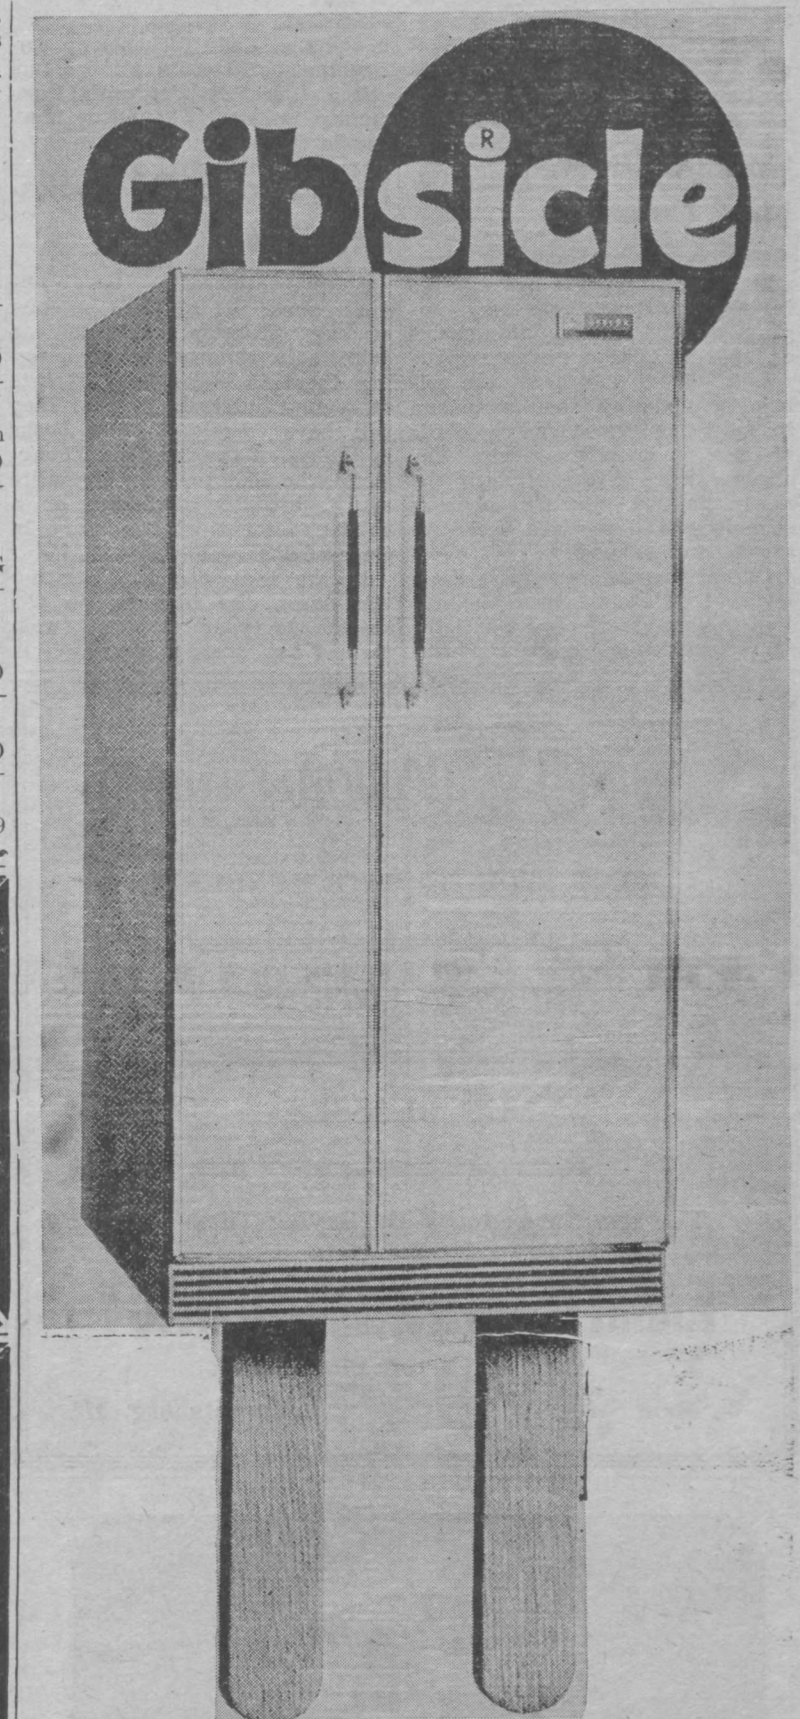

Potomac Edison

Names Planner

A third professional planner joined Potomac Edison's Area Development Department this spring making the staff of planners at the utility as large as that in any other in the country.

The new planner, 31-year-old Leroy R. Burtner, graduated this spring with a master's degree in Community Planning and Urban Design from the University of Virginia.

Planners in the Area Development Department help plan the orderly growth of the company's area to attract new industry and growth. They have compiled various studies of cities, counties, and larger areas that contain growth forecasts and directions, economic predictions, and other factors that affect the future potential of the area.

Gibson side-by-sides are designed in excellent taste. Simply.

Inside. More room to keep more food. In less space. Thanks to special, thin wall insulation.

And no defrosting. Ever. In either the refrigerator or the freezer side.

Outside. Real taste appeal. Three scrumptious flavors: White. Avocado. Coppertone.

See the big Gibsicles now. And get a little Gibside to eat. Free from your Gibson Dealer during Gibside Days!

ENJOY FREE Gibside TREAT

A delicious, frozen Sicle treat is yours just for coming in to see the big Gibside... Gibson side by side refrigerator.

The 6-cent stamp honoring John Wesley Powell, the noted geologist who explored the Colorado River, will be issued August 1, 1969, at Page, Arizona, near the lake that bears his name.

In 1869 Powell led an expedition down the Green and Colorado Rivers, a perilous 1,000 mile, 4 month journey. Major Powell returned to civilization and fame. His career expanded and he is now regarded as the father of the U. S. Geological Survey, the Reclamation Service of the Interior Department, and the Bureau of American Ethnology of the Smithsonian Institution.

This stamp will go on sale at our office, on Saturday, August 2, 1969.

George E. Rosensteel, PM.

College Offers New Courses

Frederick Community College will be offering three new courses in the Electronic Technology program starting in the fall semester, 1969-70. The offerings are the results of the efforts of the college in updating the curriculum to meet the ever-changing needs of the industrial world. The changes were discussed with the newly formed citizen's advisory committee and received their approval and support.

One of the new courses is Electronics I which introduces the student to vacuum tube and transistor characteristics and operating prin-

ciples. This leads to the study of the performance of the devices in various circuit configurations such as operational amplifier and phase inverters.

In the same sequence, Electronics II is another new offering which covers advanced electronics theory concerning the application of tubes and solid state devices in combination with other circuit elements.

To acquaint the student with the latest electronic equipment and techniques, the Electronic Measurement course has been added to the curriculum. It covers the theory and practice involved in the operation and service of laboratory equipment used for the measurement and analysis of electronics circuits.

It was pointed out by Mr. Alden Phillips, Dean of Career and Continuing Education, that some electronic courses are now being offered in the day and late afternoon. It was made possible by the addition of a full-time staff member in the person of Mr. John Wright.

Students interested in enrolling in the Electronic Technology curriculum should contact the Counseling Office at Frederick Community College. The phone number is 662-0101.

New Group Of Books At Library

Many enthusiastic boys and girls joined the library's summer reading program. Parents can help these children by encouraging them to make their reports at regular intervals so that they will have completed eight books by the end of the program. Youngsters who like to draw or write may substitute a picture or a written account of the story in place of the oral report.

If the heat has been getting you down, the library has the answer to your problem (well, part of the answer, anyway). A

small volume by Michael Czinkota tells you "How To Select, Install & Service Air Conditioners." This concise guide gives detailed procedures for installing an air conditioner and for obtaining maximum benefit from the unit. One chapter explains how to keep it operating at maximum efficiency. Diagrams and charts clarify repairing, adjusting, and overhauling for the layman.

"The Complete Book Of Closets & Storage" provides specific solutions for apartment dwellers and homeowners who need more storage space. The after-five carpenter (or his wife) will find ideas for outdoor areas as well as ideas for basement, kitchen, bathroom, and attic. Stanley Schuler's inventive and practical suggestions tell you what to do; his clear instructions tell you how to do it.

Baseball fans take note. A happy mixture of lore and narrative history set the lively pace of "Baseball: An Informal History." Demonstrating the same storytelling talent that captivated readers of "The Year The Yankees Won The Pennant," Douglass Wallop brings to the story of his favorite sport an enthusiasm heightened by his personal acquaintance with Dennis McLain, Maury Wills, Ty Cobb, and other baseball giants.

PARADE JUDGES

Officials of the Guardian Hose Co., Thurmont, this week announced the names of the judges of the big parade scheduled there next Thursday, July 31.

The judges will be Sterling H. White, Emmitsburg; Oscar Baker, Mt. Airy; Robert Braden, Mt. Airy; and Ralph Stottlemeyer, of Thurmont, Md. Thousands are expected to witness the spectacle.

Storm Blacks Out Fairfield Area

Lightning flashing during a storm Sunday afternoon in the Ortanna-Fairfield area struck the Metropolitan Edison Co. substation in that area and as a result hundreds of homes were without electrical power from 4:48 to 5:37 Sunday afternoon.

John Kershaw, manager of the Adams Electric Cooperative which gets power for 1,300 of its members in the Fairfield - Ortanna area from the Metropolitan Edison substation said, "We never have had so many phone calls" as were received at the office after the outage. Reason for so much interest in return of the power at a time when normally many possibly would not even notice the absence of electricity, was that "everybody apparently was watching the moon landing on TV," Kershaw said.

WEATHER REPORT

Temperatures for the Emmitsburg District for the period ending July 18, as reported by Mrs. Lucille K. Beale, local weather observer, were as follows:

	H	L
Saturday, July 12	88	62
Sunday, July 13	86	58
Monday, July 14	89	55
Tuesday, July 15	91	56
Wednesday, July 16	94	57
Thursday, July 17	97	65
Friday, July 18	97	68

Rainfall for the period amounted to .46 of an inch. On Saturday, July 19, 1.06 inches of rain fell.

VFW AMBULANCE

Mrs. Evelyn Hartdagen, Eugene Register and Robert Little, Emmitsburg; Samuel Musselman, of Fairfield, and Mrs. Lottie Kreitz,

Swimming too soon after eating can be a hazardous habit.

Thurmont R2, were transported this week to the Warner Hospital, Gettysburg, via the VFW ambulance. Worth Draper, Emmitsburg, was brought from the hospital to his home in the vehicle. Drivers were Michael Boyle, Donald Byard, James Kittinger and Paul E. Humerick.

FISHING IS FOR THE BIRDS

Some of the best fishermen in the world wear wings.

They are large, tethered birds whose angling ancestry dates back 1300 years. Cormorants, tied to a long cord, are still used to fish rivers and lakes in some parts of the Orient. A metal ring fastened around the bird's neck keeps it from swallowing the catch. A cormorant may fetch its owner 100 to 150 fish per hour; a good catch ratio, anywhere.

Actually, birds of all kinds are important to fishermen, say the angling authorities at Mercury outboards. For birds are helpful in finding fish, and in some instances are beneficial in reducing undesirable species of fish.

Not everyone can have a trained cormorant to do his fishing, but the role birds play in aiding salt-water anglers is well known. A flock of diving, wheeling gulls is often better than some of the new electronic equipment when it comes to locating schools of fish offshore and inshore.

Studies have shown that few warm-water game fish are taken by birds. Herons and other wading birds do their fishing along the edges of lakes and streams. Here they catch sluggish, shallow-water fish such as carp and gar, missing the more alert game fish.

Not all bird-fish relationships are beneficial to man. In some coastal areas, merganser ducks are a menace to salmon populations and in some cases have needed control to halt their excessive predations.

Another place man and birds tangle over fish is around fish hatcheries. Hatchery holding tanks are favorite feeding grounds for birds such as the kingfisher and great blue heron.

Now that the Mercury lads have informed you about the birds and the fish, the next time someone says fishing is for the birds — smile and agree. After all, aren't there times when a cormorant would come in handy?

Sunday Evening, Enjoy Mike Henderson

Meet the Young Farm Families

at Your Cooperative's ANNUAL MEETING

• Yes, you'll meet your old friends and make some new ones too. You'll take part in your business meeting, hear reports on operations, vote for new leaders. But especially, this year, you'll meet some of the outstanding young farm families of the community. They're being given special recognition with this year's meeting theme: "Young Farm Families—Tomorrow's Cooperative Leaders." Do come, and bring a neighbor.
