Most Anything At A Glance

- By Abigail -

With the gubernatorial election facing us this year, the number of aspirants for office keeps increasing daily as this one and then another announces his candidacy. In Frederick County there is a healthy number of candidates already avowed for the various offices, and the list is still increasing. Of course the fact that practically all of these jobs whose salaries are in the five-digit category, has little to do with the number of office seekers this year . . . so they say. I have noticed among the list of declared candidates, several "old friends" who stabbed their community in the back several years ago and will be recognized by you just by a quick look at the list. Remember the names and I guess the best way to handle them is to eliminate them in the Primary Election this September. Most of these "gentlemen" were defeated at the last election four years ago and we might as well make it two defeats in a row. Don't worry, folks, you'll see their names in print and then the whole sorry mess will come to the forefront once again. Keep yourself alerted.

It's just about the last call for those of you who haven't as yet made your contribution to the annual financial drive of the Vigilant Hose Co. The Firemen set a goal of \$7,000 this year and so far they are about \$1500 short, after conducting the drive for almost two months. The goal is an important one, realistic and not padded at all. New equipment must be purchased in the near future and this equipment will cost many thousands of dollars. This is a "must" and is required by the Underwriters and which has a direct influence on just what you pay for fire insurance. In other words, the better equipment, not necessarily true in dollar volume, would be the safest and surest way to keep damage and trouble at a minimum. Therefore modern and safe equipment must be maintained at all times to obtain insurance rates that we can afford. Anyway, folks, let's help those fire laddies close the books on this year's drive, so if you haven't given so far, will you please lend a helping hand?

Violent electrical storms have been frequenting our area during the past several weeks and at times they are downright vicious and scary. Several fires have occurred and trees struck by lightning. Last Friday a lightning bolt struck Gettysburg's radio tower and did severe damage putting it entirely out of commission. Parts from the Midwest had to be ordered and installed and it is hoped that the station can get under operation in the very near future.

Several weeks ago I politely sought the assistance of the Town Council concerning repair of the water pipe to the Little League Park. Almost immediately the situation was looked into . . . but that was all. They must still be looking because the pipe hasn't been repaired and there is no water for those energetic kids playing baseball in 90-degree weather. There is no drinking water at the field for the youngsters and to me this is intolerable and ridiculous. If I have to be an ole "crab" I will, much against my will, but when you observe sheer negligence such as this, then it is high time that the matter be called to the public's attention. We are calling for this attention right now because the season is almost half over and so far the Town Council has been oblivious of the situation.

INJURES LEG

Harry Swomley, 55, Emmitsburg R2, was listed in satisfactory condition after he was admitted to the hospital Saturday with injuries to his left leg suffered when he cut it on a hay mower he was operating on his farm. He was removed to the hospital in an auto driven by his wife.

Father Kelley New Mount Alumni Secretary

Rev. Charles J. Kelley has been named executive secretary of the National Alumni Association of Mount Saint Mary's College.

The appointment, recently approved by the college's board of trustees, was announced by Monsignor Hugh J. Phillips, college president.

Father Kelley, a former principal of a Catholic high school in South Carolina, joined the Mount faculty last September as instructor in theology and education. Earlier this year he was appointed to the newly created position of director of field education for Mount Saint Mary's Seminary. He will continue his duties with the college and seminary in addition to his work with the alumni.

The National Alumni Association, with more than 5,000 members, has 20 local chapters, mostly along the east coast.

Assigned to Mount St. Mary's by the bishop of Charleston, S. C., Father Kelley is a native of Philadelphia. He was ordained in 1952 at St. Mary's Seminary, Baltimore. In 1953 he was named assistant pastor of St. Peter's Church and a teacher at Ursuline High School in Columbia, S. C. In 1955, when the diocese bought the school from the Ursuline Sisters and renamed it Cardinal Newman High School, Father Kelley was named rector. He was appointed principal in 1961 after earning his Master's degree from Villanova.

While heading the high school in Columbia, Father Kelley was active in leadership positions in the state. He represented private schools of South Carolina as a member of the state committee in the Southern Association of Colleges and Schools. He was also a member of the association's central reviewing committee.

Father Kelley is a son of Mr. and Mrs. Thomas J. Kelley of 782 Cinnamon Street, Philadelphia. He has two brothers, Donald and Rev. Thomas Kelley.

Garden Club Holds Meeting

The Silver Fancy Garden Club met on June 18 at the home of Mrs. George Shower, Taneytown, with 14 members and two guests present. Mrs. Robert Clingan, president, conducted the business meeting. Mrs. Elwood Baumgardner, chairman of the September 11 Flower Show, discussed further plans for the show.

An invitation was received from the Victor Cullen School for Boys to attend Open House on June 24 between 1 and 3 and 7 to 9.

The next meeting of the club will be a picnic at the home of Mrs. Simon Klosky, Emmitsburg, on July 16 at 12:30 p.m.

Co-hostesses for this meeting were Mrs. Neil Hawk and Mrs. Elwood Baumgardner.

Summer Program For Children

A summer program for children through the eighth grade, started Wednesday at the Emmitsburg Middle School. The program is fully supervised and there is no cost to the children.

The school is open for use every day from 9 a.m. to 2 p.m. until August 7. Games, crafts, etc., will be participated in during the program.

Drills used to prepare blocks of ore for blasting at International Nickel's Ontario and Manitoba mines can be extended to drill a continuous hole up to 200 feet long. The super drill rods are made up of two-foot sections,

Commissioners Sign 18 Million Dollar Budget

The Frederick County Commissioners Monday afternoon signed a \$17.8 million operating budget for the county for 1970-71, a figure \$1.4 million in excess of the current year's operating budget.

The total figures include \$189,000 of county funds for the county capital budget, \$299,700 in county funds for operation of the Community College, and approximately \$9,902,000 of county funds for the Board of Education operating budget.

The total operating budget for the Board of Education totals \$15,812,000 of which \$840,000 represents federal programs. Excluding these federal programs, the total operating budget tops the current year's figure by \$1.4 million.

This increase derives from an additional \$900,000 in county appropriations over last year's figure. The remainder of the total \$1.4 million increase comes from an additional \$300,000 in state aid and an added \$200,000 in federal aid, according to county officials.

The total operating budget for the Board of Education approved by the commissioners is more than \$2 million less than requested.

Figures for the total approved allocations in the Board of Education school construction budget were not available Monday, but this section of the budget is financed by available bond money and does not affect the school operating budget.

Final school construction action Monday resulted in approval of funds for 12 projects. Three were rejected, but the total expenditures approved are expected to come close to the Board of Education request of \$6.4 million. Details of the funding will be available this week, according to county officials.

The Board of Education was not the only county funded agency to experience reductions from their request as the county commissioners held the current \$2.55 per \$100 property tax rate.

Total requests submitted to the commissioners at the start of the budget process exceeded \$20.6 million. The FCC request of \$486,225 in county funds was cut by over \$135,000, giving the college a total operating budget of more than \$1.2 million for the 1970-71 year. This total figure includes state and federal funds.

Total requests in the county capital construction budget amounted to \$563,305, with actual funding of \$390,580. Of this total figure, \$189,000 will come from the county with the remainder financed by state and federal funds.

Details on final appropriations for other county agencies and departments will be made available later.

Miss Harner Enlists As Naval Ensign

Mildred Harner, daughter of Mr. and Mrs. Charles B. Harner, Emmitsburg, was commissioned as an Ensign, U. S. Navy Nurse Corps, on June 16, in ceremonies performed at the U. S. Navy Recruiting Station, Washington, D. C. Ensign Harner enlisted in the Navy's Nurse Candidate Program in March 1970, while in training at York Hospital.

Miss Harner reports to the U. S. Naval Station, New Port, R. I. for eight weeks of Officer Candidate indoctrination. She will be assigned to the U. S. Naval Hospital, Great Lakes, Illinois, for duty.

Band Captures First Prize

The Emmitsburg Municipal Band captured first prize money in the Senior Band Competition at the parade Tuesday evening, sponsored by the Woodsboro Volunteer Fire Company. Congratulations to all members for a job well done.

The next parade will be in Gettysburg, Pa., on Saturday, July 4. This is the big one, and all members are especially urged to be present. The bus will leave from the band room at 4 o'clock. Let's go, Redcoats!

A dance floor, fabricated of stain-finish nickel stainless steel, reflects psychedelic lighting for dancing at The Bird's Nest in Twickenham, England. The floor will last for decades, is easy on the feet, easy to clean and is readily transportable.

Miss Wilhide Graduate Nurse

On June 7th, Elizabeth Wilhide received her nursing cap from the University of Maryland's School of Nursing. The convocation was held in the chapel at College Park. On June 5, she graduated from the University of Maryland at the Civic Center, and received her Bachelor of Science degree. She plans to work with diabetic children in Boston, Massachusetts this summer, then return to University Hospital in September.

Lions Club Installs Officers

The installation of newly-elected officers was the main order of business conducted at the regular meeting of the Emmitsburg Lions Club held Monday evening at Mt. Manor Restaurant, President Milton A. Sewell presiding.

The installation was presided over by Victor Jagow, former president of the Thurmont Lions, and past zone chairman, who invested the following officers: President, J. Ralph McDonnell; first vice president, J. Norman Flax; second vice president, Charles F. Stouter; third vice president, Charles R. Troxell; secretary, William H. Kelz; treasurer, Floyd L. Lewis; taitwister, Marvin E. Laws; taitamer, Francis S. K. Matthews, and director, Milton A. Sewell.

Lion Jagow also officially installed Lion Marvin Laws into the club as a transfer from an out-of-state Lions Club.

Taking over the gavel, President McDonnell announced the following standing committees, chairmen only named: Attendance and membership, William H. Kelz; finance, Floyd L. Lewis; administrative, J. Norman Flax; public relations, Arthur Elder; boys' and girls' citizenship and patriotism, Milton A. Sewell; community betterment, Norman J. Shriver; education, Marvin Laws; health and welfare, Milton Sewell; sight conservation, William Kelz; safety, Norman Shriver; greeter, Francis Matthews and Clarence G. Frailcy; program, Norman Flax; agriculture, Norman Shriver and Charles Stouter; by-laws, Charles Troxell.

Following adjournment of the business meeting, Lion Floyd Lewis projected a motion picture film produced by the Gulf Oil Corp.

Goodloe Byron Files For Congress

Goodloe E. Byron, Frederick County attorney and member of the Maryland State Senate, this week announced his intention to seek the Democratic nomination for Congress from Maryland's Sixth District.

Byron cited his intense interest in public service and his desire to participate in the solution of today's problems as the underlying facts behind his decision.

The 40-year-old Byron noted that economic conditions, particularly as they are noticeable in increasing unemployment and continuing inflation, would be a major issue during the 1970 campaign.

In closing Byron stated that he would be speaking on these and other problems in the months ahead.

Starting a power mower is easier when it is done with a rechargeable nickel-cadmium battery-powered ignition system. A built-in generator recharges the battery while the motor is running.

X-Ray Unit To Serve Here Tuesday, July 7

The Mobile X-ray Unit will be operating in the Emmitsburg area on Tuesday, July 7 from 11 a.m. to 2:00 p.m. at the Fire Hall.

Mrs. Chatta Carr is the area chairman. The Emmitsburg Homemakers Club is sponsoring the local health project.

Since the manufacturing plants are closed for vacations on this date additional time has been given at the Fire Hall in order that vacationers may have an opportunity for an x-ray.

If you had a test for histoplasmosis given by the Wilmer Institute at the Walkersville Hi School on February 8 or in the Woodsboro Fire Hall in early March and were unable to have the chest x-ray follow-up on this test on June 20, special arrangement has been made with Wilmer Institute for you to have an x-ray while the unit is in Frederick County in order that the research team may complete this project, said Mrs. Freda S. Doll, executive director of the Frederick County Tuberculosis and Respiratory Disease Assn.

A chest x-ray finds tuberculosis, histoplasmosis and other respiratory diseases as well as respiratory cancer and heart abnormalities.

MRS. ELSIE L. ANDREW

Mrs. Elsie Louella Andrew of Emmitsburg, 80, died Sunday afternoon at the Brookfield Manor Nursing Home in Middleburg. She had been a patient there for three years. She was the wife of the late Russell Andrew, and daughter of the late George and Fannie Lantz Springer.

Survivors include five sons, Stanley Andrew, Richard Andrew, and Charles Andrew, all of Emmitsburg R1, Earl Andrew, Gettysburg, and Joseph Andrew, of Thurmont R2; a daughter, Mrs. Vera Eiker, Emmitsburg R1; 23 grandchildren; five great-grandchildren; and a number of nieces and nephews.

She was a member of the Incarnation United Church of Christ of Emmitsburg. She had been a school teacher for 20 years, having taught last at the Rocky Ridge School.

Funeral services were held on Wednesday at 2 p.m. at the United Church of Christ in Emmitsburg with the Rev. John C. Chatlos officiating. Interment was in the Mountainview Cemetery, Emmitsburg. Wilson Funeral Home, Emmitsburg, was in charge of arrangements.

MRS. ROSA A. RICE

Mrs. Rosa A. Rice, 80, Mountaineer, died at the Frederick Memorial Hospital last Wednesday evening. She was the wife of Roy J. Rice. Born in Pennsylvania, she was the daughter of the late Simon P. and Laura Linebaugh Flohr. She was a member of the Dunkard Brethren Church.

Besides her husband, survivors include a brother, Emory Flohr, Emmitsburg.

Funeral services were conducted from the Creager Funeral Home, Thurmont, Sunday at 2 p.m. Interment was in the United Brethren Cemetery, Thurmont.

Highway Deaths Continue Rise

Seventeen persons were killed on Maryland highways last week, according to the survey published by the State Police. Eight of those killed were drivers, five were passengers, and four were pedestrians.

Alcohol was a contributing factor in three of the deaths, speed in three, and "driver error" in thirteen.

"As usual, there was a wide range of driver errors contributing to the seventeen fatal accidents on Maryland highways last week," noted Lt. Col. W. H. Conroy, Deputy Superintendent of the State Police. "Most of the errors were simply a disregard of basic rules of the road, made more hazardous when combined with excessive speed and/or the influence of alcohol."

Remove clothes from the dryer when tumbling stops to reduce wrinkles, the National LP-Gas Association advises. Overloading the clothes dryer also tends to increase wrinkling and lengthens drying time.

Commissioner Charles E. Collins Files For Re-election To County Office

Charles E. Collins, Democrat, filed Wednesday for reelection to the office of County Commissioner. He is now serving his fourth year as president of the board.

Collins' political career includes serving in the Maryland Legislature for eight years as a member of the Frederick County delegation. During that time he served on the following committees: Agriculture and Natural Resources, Strip Mining, Motor Vehicles, Banking and Insurance, Prisons, Code County Home Rule and Conference Committee with the Md. Senate on Frederick County Local Legislation.

Collins started in the farm machinery business with his father after graduation from the Frederick High School. Later he was employed by the International Harvester Company and later by Frick Company, Waynesboro, Pa. He then formed his own farm machinery distributorship which he operated for twenty years.

When Collins was elected County Commissioner in 1966, he kept his campaign promise to discon-

tinue his business and become a full time County Commissioner. In announcing as a candidate, Collins has reaffirmed that if re-elected he will continue as a full-time Commissioner without outside interests.

He is a member of Taxation and Finance Executive Committee and the Environmental Quality Committee of the National Association of Counties. He is a member of the Governor's Commission on Law Enforcement and the Administration of Justice. He represented the State of Maryland at the Mid-Atlantic Regional Conference on Criminal Justice Cooperation. He is chairman of the Region III Local Planning Board on Law Enforcement and the Administration of Justice. Also chairman of the Frederick County Committee to Promote Employment of the Handicapped and represents Frederick County on the Potomac Water Authority. He is president of the Frederick County Council of Governments and County Liaison Officer for the Department of Forest and Parks for the State of Maryland.

Mr. Collins is a member of the Evangelical Lutheran Church and a teacher of the Young Men's Bible Class. He is also a member of the Urbana Lions Club, Optimist Club of Frederick, Jeffersonian Democratic Club, Elks, Eagles, Moose, New Market Grange, New Market District Volunteer Fire Dept., and Middletown Elementary PTA.

Mr. Collins is married to the former Helen James of Durham, North Carolina. He has one son, Capt. Charles E. Collins, Jr., Regular Army, who is Classification Officer for Automatic Weapons at the Rock Island Arsenal, Rock Island, Ill. Collins has a grandson, Michael Patrick Collins, five years old, and a granddaughter, Laura Maureen Collins, three years old.

Wm. Muir, Jr., Receives West Point Appointment; St. Joseph's Graduate

William C. Muir, Jr., has received an appointment to the United States Military Academy at West Point, N. Y., and will report July 1.

Son of Mr. and Mrs. William C. Muir, Highfield, Md., he is a recent graduate of St. Joseph's High School, Emmitsburg.

Muir was president of the senior class, representative of his class on the Student Council, was a member of the National Honor Society for two years; active in the drama club; business manager of the Guardian, St. Joseph's year book; played varsity basketball. He was an Eagle Scout of Troop 18, Blue Ridge Summit; member of Knights of Dunitus, Hagerstown; member of Hinde Goya Council, Order of the Arrow; Altar Boy and Lector at St. Rita's Church.

Bill also received a four year full scholarship for the Army ROTC program to be used at any college or university of his choice that has the ROTC program, and a scholarship to Mt. St. Mary's College. He was also named in

the following publications for high school students: Merits' Who's Who Among American High School Students; Society of Outstanding American High School Students; and National Register of Outstanding High School Students.

George Mahoney Fires First Salvo In Battle With Senator Tydings

George P. Mahoney has attacked Senator Joseph D. Tydings for sending out "hundreds of thousands of political circulars" at the expense of the taxpayer and estimated that the number of pieces in one week "would have cost me or any other candidate at least \$100,000."

Mr. Mahoney's statement follows:

"During the past week I have received numerous complaints from taxpayers who told me that they had received several copies of a so-called 'newsletter' from the office of Senator Joseph D. Tydings. Several of these taxpayers told me that they had complained to the Senator's office, but still continued to receive the four-page brochures glorifying Senator Tydings mailed 'free of charge.'"

"It cost a lot of money to mail those pieces of propaganda to the taxpayers' expense, and the already overburdened postal clerks and mail carriers had to handle the overwhelming load imposed upon them by the Senator. The bundles and bundles of political circulars represent but a

drop in the bucket compared to the flood of millions of pieces of mail that Senator Tydings has sent out at the taxpayers' expense since he's been in office. Probably nobody can estimate just how much money he has cost the taxpayers with his 'reports to the people.' From past experience I would say that mailing out the many circulars flooding the mails last week would cost me or any other candidate at least \$100,000."

"This is one more reason why Maryland needs a businessman in Washington. Maryland needs a man who knows what it means to meet a payroll, who realizes that federal money comes from working men and women who are the majority of American taxpayers, and who can show politicians how to cut down on the spending that is strangling the taxpayer."

I promise to promote economy in Government when I am elected to the United States Senate, and I promise that I shall not flood the mails with political propaganda to add to the back-breaking load of 'junk mail' already being carried by the letter carrier."

Frederick County Backgrounds

By SAMUEL CARRICK
More Thorndale Scholars

The Declaration of Independence states that "all men are created equal" but to this very day that statement is open to both question and debate. America is "class conscious." During the nineteenth century, before the public school came into its own, this was more apparent for education was not compulsory and certain segments of the population never saw the inside of a school. They were illiterate—and some were content with their lot in life while others were rebels. People of the "better classes" educated their children—the sons were sent to college while the daughters were "finished off" at a private academy—such as Thorndale. These more fortunate ones included only a small part of the population and such a system was destined to fail.

"A house built on sand" cannot long endure and the progress made in universal education is the answer to the past when only a privileged few enjoyed the benefits of "book learning."

In its day, Thorndale School supplied a definite need and the "grandmothers" of the present day who obtained their so-called education there were better off than their sisters of the "lower classes"—who were either illiterate or else attended one of the neighborhood schools for a few terms and, in the main, gained little considering the difficulties and hardships they endured.

Nations, like people, learn the "hard way" and the present system of education is the direct result of a "poor beginning."

The list of "young ladies" who attended Thorndale School is continued at this time—as follows:

May 1853—Mary Naylor, Washington, D. C.—Left April 1855.

May 1853—Maria Naylor, of Washington, D. C.—Left October 1854.

Note: It is quite probable that Mary and Maria Naylor were sisters—both enrolled at the same time and their home was the city

of Washington. There is nothing in the record that gives a clue—but some degree of relationship must have existed.

May 1853—Mary Montgomery, Washington, D. C.—Left October 1854.

May 1853—Mary White, Baltimore, Md.—Left April 1854.

May 1853—Georgia Cockey, of Finksburg, Md.—Left Oct. 1854.

Note: The Cockeys were an old and aristocratic Maryland family. At one time members of the clan owned large estates and on more than one of them the family burial ground is still to be found. The town of "Cokeysville" takes its name from this family.

May 1853—Agnes Stocksdales, Finksburg, Md.—Left Oct. 1854.

Note: There are a number of Stocksdales graves to be found in and around Finksburg. Apparently some members of the family settled in or near Reisterstown, Maryland, for the Methodist churchyard there can boast of several Stocksdales burial plots.

November 1853—Caroline Smith, Cumberland, Md.—Left Apr. 1856.

May 1854—Eliza Darby (returned)—Left October 1856.

May 1854—Eliza Carter, of Charlestown, Va. (returned)—Left October 1856.

Under date of enrollment, November 1854, the following names are given:

Margaret Porter, Baltimore, Md.—Left April 1856.

Virginia Morris, Washington, D. C.—Left October 1856.

Virginia Rudisel, Taneytown, Md.—Left June 1855—Died December 1857.

Note: Apparently the last named, Virginia Rudisel, was a day student. The cause of her comparatively early death is not known nor if she was married or a spinster at the time. There are a number of Rudisels interred in the Lutheran churchyard at Taneytown and it may well be that in this plot the unfortunate Virginia Rudisel is buried.

December 1854—Anne Henderson, Jeff. Cove—Left Aug. 1856.

December 1854—R. Work (place

of residence not given)—Left March 1855.

December 1854—M. Marshall (place of residence not given)—Left March 1855.

December 1854—Mary Clark (place of residence not given)—Left March 1855—Died May 1865.

May 1855—Anne Owings, Annapolis, Md.—Left Oct. 1856—Died October 1860.

Note: The Owings family was an old and honored one in Maryland. They, too, could boast, at one time, of large estates with their wealth solidly based in the land.

The unfortunate Cassandra Van Praddles, who was mysteriously lost at sea in 1815, was the daughter of the Honorable John Owings.

This particular branch of the family is buried in Sherwood Episcopal churchyard at Cockeysville, Maryland.

May 1855—Ann Craven, Annapolis, Md.—Left April 1856.

May 1855—C. Caroline Winchester, Annapolis, Md.—Left October 1856.

May 1855—Sally Longwell, of Westminster, Md.—Left September 1858.

Note: "Miss Sallie Longwell" is still remembered by some of the older residents of Taneytown and vicinity. Apparently she was a "lady of the old school."

"Miss Sallie" is interred in the family plot in Piney Creek Presbyterian churchyard and the inscription from the marker at her grave is as follows:

In memory of Sallie Longwell, daughter of John K. and Sallie

McKaleb Longwell, Born February 10, 1845, Died June 22, 1905. November 1855—Eliza Shriver, Carroll County, Md.—Left Oct. 1856.

Note: A descendant of Andrew (1) Shriver, the pioneer settler in the Conewago Settlement, in what is now Adams County, Pennsylvania. One branch of this family emigrated to Carroll County and there are two old Shriver estates within its borders. One is at Union Mills and the other is located due east. It is known as "Farm Content." There is a family burial ground located on the latter and it is in a remarkably good state of repair.

November 1855—Betty Henderson, Jefferson County, Va.—Left August 1856.

September 18....(?)—Mary Gibson, Jefferson County, Va.—Left October 1856.

September 18....(?)—Janet Hurst, Jefferson County, Va.—Left April 1856.

September 18....(?)—Amelia Murphy, Martinsburg, Va.—Left April 1858.

July 1855—Rose Otterbach, of Washington, D. C.—two months sick—died October 1856.

June 1855—Mary Hassler, of Washington, D. C.—Left April 1856.

May 1855—Kate Likens, Martinsburg, Va.—Left April 1856.

The notes pertaining to Thorndale School and the pupils who attended there will be continued in this series next week.

To Undergo Surgery

Richard VanBrakle, son of Mr. and Mrs. Clarence VanBrakle, of Emmitsburg, was admitted to the Chambersburg Hospital this week where he will undergo surgery to both legs.

The ZIP Column

On Saturday, July 4, our office will be completely closed, as it was on Memorial Day.

Due to economy measures, the mail transportation to and from our office has been cancelled, by our Washington Regional Office, for Independence Day, July 4.

Therefore, our operation will be completely shut down.

As a final reminder, our office will be advanced to a first class status on July 1, 1970.

As stated in previous columns, the only change affecting our patrons, will be that of reduced parcel size, of which full particulars are posted in our lobby.

George E. Rosensteel, PM.

Hagerstown TV

Has Popular

Religious Crusader

Not very long ago the Reverend Bob Harrington, "The Chaplain of Bourbon Street" in New Orleans, conducted a religious crusade in Hagerstown, that was a resounding success every night it took place.

During one of his periods of lesser activity, Rev. Harrington stopped by the new television studios of WHAG-TV in Hagerstown and joined host Ed Klitch in a fast moving, 30 minute interview on the program called "Valley Report."

This program, with the dynamic, entertaining, comic and completely fascinating chaplain of Bourbon Street, Rev. Bob Harrington of New Orleans, will be telecast over NBC in Hagerstown, WHAG-TV, Channel 25 on the UHF Band, Sunday, June 28, at 4 p.m.

Duckling For Dad's Birthday

What to get the Man of the House for his birthday is a perennial problem. But one sure way to mark the day as a memorable occasion is to serve duckling for dinner.

Madras duckling with chutney rice is easy to prepare, and—for an extra flair, add watercress. Well-chilled watermelon or cantaloupe rind on chipped ice lends an aura of elegance certain to spell out your birthday congratulations loud and clear.

Convenience memo: Duckling, ranging from 3½ to 5½ pounds in weight, is readily available in supermarket frozen meat display cases. And your butcher will be happy to quarter the duckling for you. The National Duckling Council suggests you keep a brace of fresh frozen duckling in your freezer. Roasted in your oven or barbecued on your rotisserie, duckling is a delight.

Madras Duckling With Chutney Rice

1 frozen duckling (4½ to 5 pounds) defrosted and quartered	¼ cup finely chopped preserved ginger
2 tablespoons lemon juice	2 teaspoons curry powder
½ teaspoon salt	3 cups hot fluffy seasoned cooked rice
¼ cup honey	¼ cup diced chutney
¼ cup preserved ginger syrup	

Wash, drain and dry duckling quarters. Brush both sides of quarters with lemon juice and sprinkle with salt. Place quarters, skin side up, on rack in shallow roasting pan. Bake in slow oven (325°F.) until meat on drumstick is tender, about 3 hours. Combine honey, preserved ginger syrup, chopped ginger and curry powder to make sauce; mix well and heat. Drain fat from roasting pan at end of 1½ hours and return to oven. Brush sauce over duckling quarters several times during last 30 minutes cooking time. Combine rice and chutney; top with duckling quarters and drizzle with remaining honey-ginger sauce. Yield: 4 servings.

Eyewitness Reports On Kent State

The death of four students in riots at Kent State University in Ohio continues to be used as a rallying "cause" by the Communists and their variegat-

ed combination of followers on and off campuses throughout the nation. Communists provoked the trouble at Kent State, and they made it the "cause" for a nationwide "student strike" against the war in Vietnam. Now that they have drawn into their "cause" many thousands of non-Communist, loyal but mis-informed American youth and a variety of "liberals" in Congress, in universities, and elsewhere, it is important that a balanced story be given to the public on what happened at Kent State, and why.

Congressman Samuel L. Devine, of Ohio, said on the House floor: "Some of the news telecasters and so-called 'anchor-

men' were so carried away with emotionalism, they were just unable to tell but one side of the story. In order that a balanced story of the Kent State University affair be made available, I am submitting the WMNI-TV commentary, broadcast in Columbus, on May 11, 1970."

"Pious Peaceniks" Blamed

"Somebody has their thinking all mixed up (said the WMNI commentator). Ever since that tragedy . . . law enforcement agencies have been taking it on the 'chin.' This time, it's the National Guard troops who were trying to keep Kent State open for the responsible students of that university. We submit, those 30 troops who were forced to fire into a mob of about three or four thousand screaming, rock-tossing students are guilty of nothing more than trying to preserve law and order and their own lives. If there is any blame, it must rest with the 'pious peaceniks' who ignored repeated warnings and persisted in roaming the campus disrupting the whole college routine and endangering the lives of all 19-thousand K-S-U students . . . They are the ones who know how to whip a disinterested crowd into a raging mob. They are the ones who are teaching open revolution right in our college classrooms. They are the ones who should be held accountable for the deaths, injuries and the millions of dollars damage to taxpayer prop-

erty."

Tribute For Agitators! Instead, they are being made into heroes. One of the most vicious inciters of violence, Jerry Rubin, who went to Kent State and harangued Kent's hard-core revolutionaries to a frenzy shortly before the fatal series of riots, had an honor position at the massive Communist called demonstration at the rear of the White House on May 9 (100,000 youth attended); and prominent "liberal" Senators and Congressmen, popular Hollywood "stars," and dedicated Black Panther Marxist-Leninist revolutionary leaders paid tribute to him (more on this later). What, indeed, is in store for a nation that tolerates such conduct and makes heroes of traitors!

A Kent State student, Dennis Durand, from Rochester, N. Y., was interviewed on WROC-TV, Rochester, 48 hours after the incident. He witnessed the whole affair. "The National Guard (the hemmed in group of 30) was surrounded," he said. "They had no escape. There were thousands of students . . . throwing rocks. The Guard had run out of gas. They had no equipment to disperse the crowd. Because rocks were falling among their ranks they gathered in together . . . The students took this as a sign of weakness on the part of the National Guard. They had broken the pig's back! The pigs were running from their stoness. They charged. I heard rifle fire.

I turned around. They (the Guard) were firing from the off-hand position. The firing lasted about 10 to 15 seconds."

Guard Under Attack

Ted Byers, and his brother, Terry, Kent State students from Shelby, Ohio, said: "By Monday afternoon (the time of the tragedy) there were no longer any 'innocent bystanders'—people who remained on the scene had had plenty of warning (of martial law and the illegality of the mob demonstration). Both students said news coverage of the event had been distorted. The students who were killed, said Terry, a Kent Senior majoring in journalism, "weren't in the roped-off, or 'safe' area—anything that happened to them was their own fault." About 1,000 hard-core participants were in the "Commons" battleground area and they were throwing rocks and advancing on the Guard. "Agitators within the crowd kept yelling that the Guardsmen were equipped with blanks, not live ammunition," said Ted Byers. Both students said "the demonstrators began hurling broken bottles, bricks and rocks at the hemmed-in Guardsmen, and advancing. The firing came during this attack."

Harness Racing

Now At Laurel

The famous million-dollar Tartan all-weather racing strip at Laurel Raceway has produced the fastest races in the history of harness racing in Maryland, including two major world championships taken last year.

Horsemen and fans expect that before the 42-night meet, which opened Monday, concludes, new records both on and off the track will take their places beside the exciting past performances already in the books. The 3-M Company, builders of the Tartan strip, completed resurfacing the oval just in time for pre-season training last week, and trainers who have worked their stock over the new surface pronounced it "faster than ever."

It was on the Laurel Tartan that three-time Horse of the Year Nevele Pride, considered by many

the greatest trotter of all time, last year took his 1:58 mile, fastest ever by a trotter on a five-eighths mile track. It was here, too, that Miss Conna Adios equalled her own record 1:57 4/5, fastest clocking by a pacing mare on a five-eighths track.

With the calibre of horses that have survived the opening rounds of the Atlantic Seaboard Circuit pacing series to remain eligible for the \$25,000 division final, the richest race for aged standardbreds in the history of the sport in Maryland, scheduled for Laurel on July 10, new records are almost certain to emerge from the 1970 meet.

Maryland's pioneer harness track, Laurel also holds state records for total attendance and mutual handle, as well as the biggest single night attendance and handle (July 25, 1966, when 15,111 fans poured \$500,020 through the mutual machines), and all are in jeopardy this year.

Last season, 191,063 people visited the convenient Route One plant in 42 nights, and wagered \$12,314,226.00.

Ideally situated midway be-

tween Baltimore and Washington, Laurel has continued its popular 7-30 post time. Again this year, three exciting exactas are offered nightly (5th, 7th and 9th races) in addition to a daily double. There is a nine race card Monday thru Saturday, and every Thursday is Ladies' Night, when distaff fans are admitted to the track for the token fee of 25c.

Ashless To Ashes: A Motorboat's Friend And Foe

Most motorboat fires occur during or just after fueling. The best way to avoid such accidental catastrophes is to learn the easy-to-follow safety fueling tips outlined below:

1. Secure the boat to the fueling dock.
2. No smoking, shut down all motors.
3. Pay attention during fueling. Find out how much fuel you need beforehand (so you don't run it over). Don't let a sightseer wander by with a cigarette.
4. Wipe up all spills. Don't let any fuel get into the bilges.
5. Ventilate afterwards. If you have blowers, run them. Secure fuel tank covers. Let the boat "air" for five minutes.

Following these simple steps may save your nautical investment from going up in ashes. Using ashless motor oils, on the other hand may save you from all the needless expense and aggravation of engine failure. Ashless additives in recently developed high quality oils like Mobil Outboard Super assure your engine of receiving the necessary lubricating efficiency required for most new and high performance outboard motors.

Worth A Fortune

Hunt For Pure White Marigold

The first pure white marigold ever grown could be worth \$10,000 to some lucky gardener this year.

Floriculturists with one of the world's largest seed companies have been experimenting for more than 16 years in an effort to develop a snowy white marigold. They began with a pale yellow variety and have progressed to an almost white bloom with a creamy center. It is so close to perfect white that the scientists feel the breakthrough will come soon.

To speed that day, the seed company has joined forces with a cereal manufacturer to enlist the aid of home gardeners across the continent. Free packets of almost-white marigold seeds will be packed in specially marked boxes of puffed wheat and puffed rice during April and May this spring.

Instructions on the packets will tell how to plant the seeds and will provide details on earning \$10,000 for producing the first pure white marigold. Often called the friendship flower, marigolds are native to America. The late Senator Everett Dirksen campaigned for several years to have it named the national floral emblem of the United States. The usual coloring of marigolds ranges from pale yellow to deep oranges and reds. When a white variety is perfected, who knows what other colors might be produced?

When you can see it

Learning Pill A Possibility
Perhaps someday the chore of studying will be reduced to the effort of taking a pill. Taking an initial step in that direction, researchers at the University of Wisconsin are investigating the mystery of what goes on in the brain when we learn. They have found indications that the brain cells undergo a chemical change during learning and memory implantation, a change that involves

Alternatives To "The Pill"

Should a woman drop the birth control pill, what other way does she prevent pregnancy?
She has a choice of several methods. But most often she selects the one that's highly effective, and even newer than the pill—contraceptive foam. In fact, about a third of the women who have gone off oral contraceptives in the past year started planning their families this way instead. And most of them did so on their doctor's advice—although products like Delfen foam and cream are easily available in drug stores without prescription.
These facts were revealed recently in a survey of over 2,000 women made for Ortho Pharmaceutical Corporation by National Family Opinion. This is an independent consumer research firm.
The survey showed that of all the women using contraceptive foam, 56 percent were on the pill before; 50 percent of cream users took oral contraceptives previously.
Interestingly, women who are aware of these birth control methods are enthusiastic about them—for example, 86 percent of those using the cream say they expect to continue "for as long as I need a contraceptive!"

RESOLUTION

We, Charles E. Collins, Russell Z. Horman, and Wallace E. Hutton, County Commissioners of Frederick County, Maryland, by virtue of power in us vested to hereby levy the sum of two hundred and fifty-four (254) cents on each one hundred dollars (\$100) worth of taxable property in Frederick County, Maryland, for the period of July 1, 1970, through June 30, 1971, and do hereby authorize and empower the County Treasurer of Frederick County to collect from the taxpayers of said Frederick County for the said period the sum of two hundred and fifty-four (254) cents on each one hundred dollars (\$100) worth of taxable property in Frederick County in accordance with the tax list duly compiled and placed in her hands and also to collect and receive such other money as scheduled and otherwise include all additions, deductions, and collections as may come into her hands for the use of Frederick County and to pay all such money over to the respective person entitled to receive the sum upon the order of the County Commissioners agreeable to law in such cases made and provided.
And the said County Treasurer of Frederick County is further authorized to collect the sum of eighteen cents (18c) on each one hundred dollars (\$100) worth of taxable property in Frederick County subject to State taxation, and to pay the same over to the State Comptroller for the use of the State of Maryland, as by law provided.
County taxes are due July 1, 1970 with two percent (2%) discount to be allowed if paid on or before July 31, 1970, and one percent (1%) discount to be allowed if paid in the month of August, 1970. If taxes are paid in September, 1970, no discount shall be allowed and no interest charged. Interest on taxes must be paid if taxes are paid after September 30, 1970, at the rate of one-half (½) of one percent for each month or fraction thereof during which taxes are in arrears from September 30, 1970.
Passed and approved this 1st day of June, 1970.

the manufacture of new molecules of ribonucleic acid (RNA).

Liquid nitrogen, which has a temperature of minus 320 degrees F., is being used by food processors to prefreeze meats and other foods and, paradoxically, help "thaw" the resistance of shoppers to these products. As a result, sales of nitrogen, once an unwanted waste product obtained during the distillation of oxygen from the atmosphere, are zooming, says National Cylinder Gas, Chicago. "The reason consumers are buying more products frozen with nitrogen is that it freezes foods so fast it prevents the formation of large ice crystals that can rupture cell walls and make products mushy. Meats and other products frozen with nitrogen retain their color, texture and taste," one expert said.

A machine for "harvesting" pesky water weeds so they can be used for feed or fertilizer has been designed by a class of Stanford engineering students. The "aquatic weed harvester" could provide a remedy for weed-choked waterways of the Florida Everglades and similar places. The class found it would depend largely upon developing uses for the harvested weeds, since otherwise they would be as much of a nuisance on land as in the water. Harvested water weeds ought to make a good fertilizer or a supplement for cattle feed, the students found, and clearing of the waterways would open them up for navigation, trade and recreation.

Despite the relatively small amount of water in the atmosphere at any given time (about 3,100 cubic miles), land areas receive large amounts of precipitation because atmospheric vapor is being continually renewed by evaporation, reports the U. S. Geological Survey. On the average, a given molecule of water remains in the atmosphere as vapor only about 8 to 10 days.

The first M.D. degree in America was awarded 200 years ago. In 1770, young Robert Tucker received his medical degree from King's College, now Columbia University. The commencement was held in Trinity Church in the country setting of Lower Manhattan. In reporting the ceremony, the New-York Gazette and Weekly Mercury on May 21, 1770, noted that "Robert Tucker, for his singular Merit and Proficiency in Physical Knowledge, had the Degree of M.D. confer'd on him."

Federated Charities Directors Meet

The quarterly meeting of the Board of Directors of the Federated Charities was held on June 16 at the offices of the organization on South Market St., Frederick.

Organized in 1900, Federated Charities, a member of the United Givers Fund of Frederick County, reviewed its services to the city and county over a twelve month period. Among the services rendered to the community were:

A free loan-out service which provided 300 pieces of large and small equipment used by the sick and convalescent.

Free medicines and supplies, with doctors' prescription, and assistance with cost of x-rays, electrocardiograms and expensive prescriptions.

Assistance with grocery, clothing and fuel purchases, including new clothing and shoes for eleven high school youths.

Assistance with food, clothing and household supplies for those left homeless by fire.

The organization which owns the building from which it operates provides space and facilities for other non-profit agencies.

Report of the Federated Charities kindergarten of which Mrs. Raymond Gregoire is principal, revealed that thirty children between the ages of five and six were graduated on May 28 and that space capacity of thirty new children were enrolled for next year with a waiting list of ten.

Melvin M. Engle is current president of the organization. Mrs. C. Thomas Summers is executive secretary.

It's authors, Arnall Patz, M.D. and Richard E. Hoover, M.D., have served on the Society's Board of Directors for a number of years. Dr. Hoover, Chief of Ophthalmology at the Greater Baltimore Medical Center, was

President of the Society from 1959 to 1968, and Dr. Patz, Assistant Professor of Ophthalmology at the Johns Hopkins University School of Medicine, is the newly-elected President and Chairman of the Society's Infants' and Children's Vision Committee.

Designed primarily for all those concerned with the protection of vision of children from infancy through school age, the book presents practical and proven methods for the prevention, early detection and management of vision defects at a time when they may be most effective. It should be helpful to parents as well as to professionals in child health programs.

ident of the organization. Mrs. C. Thomas Summers is executive secretary.

Blind Society Recognized In Book

"Protection Of Vision In Children, a recently published book, gives generous recognition to the Maryland Society for the Prevention of Blindness for its contribution to that field.

Report of the Federated Charities kindergarten of which Mrs. Raymond Gregoire is principal, revealed that thirty children between the ages of five and six were graduated on May 28 and that space capacity of thirty new children were enrolled for next year with a waiting list of ten.

Melvin M. Engle is current president of the organization. Mrs. C. Thomas Summers is executive secretary.

DELIVERY AND DRIVE-IN SERVICE

You know this Direct Distance Dialing that starts July 19?

Yes.

That means for local calls you dial all 7 digits of the telephone number?

That's right.

And for Maryland calls outside the local calling area you dial "1" and then 7 numbers?

You're catching on fast.

And out of Maryland is "1", then the Area Code, and then the number?

GENIUS!

Suppose I forget?

I'm sure C&P has all kinds of reminders.

I've got to admit it, I think I'm going to love Direct Distance Dialing!

Lucky thing, I'd say. It's coming.

agencies and a possible easing of inflationary pressures could result in a resumption of the historically favorable pattern of earnings growth for the industry. There is no question as to demand for electric power; the yardstick of doubling sales each decade should again be easily reached in the 1970's. Greater use of electrical appliances is certain, and the market for home heating is still virtually untapped.

Demand Vs. Capacity

As sales of electricity increase, generating capacity obviously must also increase. Utilities normally operate with a margin of capacity available for peak loads. On the hottest summer day, for instance, when thousands of air conditioners are operating, the overload could easily result in power brownouts or blackouts if sufficient capacity is not available. Over the years this safety margin of capacity has shrunk so that the electric companies are, so to speak, running faster and faster just to hold their place on the treadmill.

One solution to providing a large reserve capacity would be nuclear generating stations. But the lead time for construction of these giant units is steadily widening, and many utilities have been forced to abandon nuclear plans in favor of the more quickly built coal- or oil-fired stations. Lately, therefore, the number of planned starts for nuclear power stations has actually been on the decrease.

Utilities And The Environment

Another problem in which utilities have a large share is anti-pollution. Power generation involves burning fuels that produce air pollutants, mainly sulphur dioxide. Use of low-sulphur-content fuels is now, or soon will be, mandatory in much of the country. Yet to convert plants to the more costly low-sulphur fuels is an expensive proposition, as are precipitators to remove particles from the air.

Thermal pollution of water is another factor to which utilities are sensitive. To a large degree this question often controls plant location. Utilities also find that today they are faced with a not-so-silent majority of citizens concerned with the environment and its aesthetic quality. A high voltage transmission line is admittedly far from a thing of beauty; but again, the alternative is "undergrounding" the line at prohibitive cost. Environment con-

Epilepsy Chapter Holds Banquet

The fourth annual banquet of the Frederick County Chapter for Epilepsy was held recently at the New Market Fire Hall with over 100 in attendance.

Speaker of the evening was Dr. John M. Freeman, Associate Professor of Neurology and Pediatrics at Johns Hopkins Medical School, whose topic was "Some Aspects in the Treatment of Epilepsy, Present and Future." Stating that great progress had been made in the past 100 years in developing chemotherapy for suppressing epileptic seizures, he pointed out that today all but a few extremely severe forms of the disease are now controllable.

Nevertheless, Dr. Freeman indicated that there is a need for greater knowledge concerning epilepsy. The exact mechanism of action of standard anti-convulsants such as phenobarbital and dilantin is not thoroughly understood, nor is the reason known for the recurrence of seizures at unpredictable intervals. Answers

cern is making plant location a community decision rather than a corporate matter, meaning a great deal more time consumed in the process.

The Fuel Problem

As for coal, this country has reserves enough for many years to come, but low-sulphur coal is in short supply and is relatively expensive. And the coal mining industry is under pressure from several directions. When nuclear generation of power seemed assured, few new coal mines were developed and coal mining itself lost much appeal as an occupation. Recently enacted strict safety rules are being rigidly enforced, and costs of implementing the laws, plus higher wage scales, could up coal prices by as much as 30%. A turn to oil or natural gas would be logical, but low-sulphur oil is far from abundant and natural gas is in extremely short supply.

The Regulators Act

As margins of return on capital have diminished over the past few years, utilities have about-faced and applied for rate increases instead of reducing rates as they have so long done. These rate boosts, combined with an easing of interest rates, should permit the industry to raise needed capital to solve some of today's pressing problems and enter the decade ahead with renewed vitality.

to such questions, Dr. Freeman said, are being sought through intensive medical research.

A formal installation ceremony was conducted for the following newly elected officers of the Epilepsy Chapter for the coming year: John A. Derr, president; Joseph A. Urie, vice president; Mrs. Duv Stoner, secretary; Mrs. Frances Fouché, treasurer; Mrs. Mary Puckett, assistant secretary; and Mrs. Frances Gilbert, assistant treasurer. The ceremony concluded with "The Lord's Prayer," sung by Mrs. Charlotte Yarroll Kerrigan.

Rev. George H. Klinefelter gave the invocation and benediction. John Zufall was toastmaster at the banquet and dinner music was provided by William E. Purdum, organist.

Serving on the board of directors of the Frederick County Chapter for Epilepsy are: H. George Baker, Dr. Ruth Baldwin, Dr. U. G. Bourne, Charles E. Collins, Dr. Jesse S. Fifer, Dr. Robert J. Furie, Mrs. John B. Gardiner, Henry Groff, Charles E. Hicks, III, Russell Z. Horman, Wallace E. Hutton, Major Charles V. Main, Mrs. Marvin F. Spencer, Dr. Rex R. Martin, Miss Edna Measel, Frank R. Martin, Dr. Charles G. Spicknall, Mrs. Marilyn Shankle, and Vincent Sakievich.

A major accomplishment of the Epilepsy Chapter during the past year has been the raising of funds to purchase an electroencephalo-

graph for Frederick Memorial Hospital. This sophisticated electronic instrument is used to help diagnose cases of stroke, brain tumor and brain injury as well as for the clinical study of epilepsy. The machine has been ordered from the manufacturer and it is expected to be in operation at Frederick Memorial Hospital before the end of the year.

The Epilepsy Chapter is a member agency of the United Givers Fund of Frederick County, Inc.

I shall outline my position on every issue of this campaign in a series of position papers in the near future.

What joy and triumph, after all, to be sincerely honored by the ones we loved

EARLY SEASON TROUT TACTICS

Any angler in his right mind shouldn't be caught fishing for trout in early April. An April opening usually turns out to be an April Fool joke on the angler rather than a serious beginning for the coming season. Within the population range of our trout, this month is usually cold, windy, wet and prone to sudden snow storms. It is a far cry from the balmy, pleasant days of May and June, spent leisurely wandering on a quiet stream. That's the way trout fishing should be, but you'll never convince the army of anglers held captive throughout a winter and ready to try any kind of fishing just to shake the winter doldrums.

Thus, April each year has become the traditional beginning of the fishing season across the United States from New England to the eastern slopes of the Rockies. And the prey is trout: brook trout, rainbow trout and even the more sluggish brown trout. Rainbows and browns are usually finishing the business that annually guarantees fishermen a fresh brood of trout for the next season. They are running in the streams from lakes and in the rivulets of larger rivers to and from the spawning grounds.

Brook trout are still a long way from their spawning time in the fall and are more likely to be found in the deeper holes of rivers and lakes and a bit on the sluggish side when responding to bait and lures. Even a few lake trout may have entered the streams at this time of year, but it's only a practice run for next fall. Out on the lake, they're rising from the depths and can be taken near the mouths of streams and on shoals where they begin schooling for the year.

Because all fish are still slowed by cold weather and water they're less likely to be feeding by sight than by smell. It's a hint on what to use during the opening weeks. Live bait, the plump garden huckle variety is your best bet. Salmon eggs, or the smelly foamies are also good choices. Some fish will strike spoons and spinners but wet flies and streamers are likely to be your least productive choices at this time of year.

Most streams in April are in a high condition, swollen by melting snow and ice and colored by silt and debris that stuffs them as they pass through farmlands and along highways. The off-colored water is another good reason for using worms to con early season trout into your creel.

The number of ways you can get a worm in front of a trout's nose are almost as varied as the different kinds of tackle available to today's angler. As a youngster, we never heard of gear and bait-casting rods were too cumbersome for our little hands and too filled with bird's nests to be efficient. Our universal fishing equipment was a fly rod and a line that was called upon to deliver everything from flies to worms, minnows, frogs and even the occasional spoon.

A level line, finished off on its terminal end with a short piece of 10-lb. test monofilament, a piece or two of split shot and a No. 6 or 12 hook was my opening day trout weapon. A good present-day outfit might be a Garcia 8-foot, two-piece fly rod (2637) that will handle a level C line or any of the tapering variations and loaded onto the Mitchell 754 single-action fly reel. Long casts in early season aren't usually necessary because most trout streams are on the small side. With bait, you're usually dabbling more than casting. A worm is harder to cast off with such an outfit, even in the clumsiest of hands and the thrill of landing even a small trout is hard to match on any other combination of equipment.

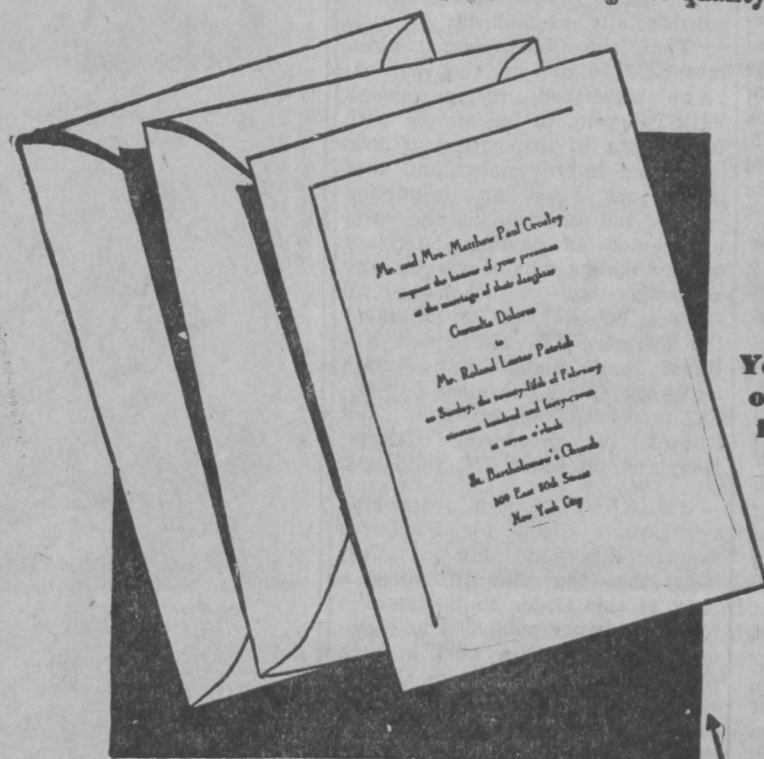

Today however, I'd be more likely to exchange the fly rod for an ultra-light or lightweight fresh water spinning outfit on opening day. One combination like the small, Mitchell 308 and the ultra-light, two-piece 5-foot (2121) spinning rod is an excellent choice. You don't need the room of a ball field to swing the little stick and the sensitivity of the outfit is unsurpassed. It can handle a wide variety of lures like the Abu Reflex or Mitchell and Droppen spinners, and any size glob of garden hackle.

SOCIAL SECURITY NEWS

Social security benefits paid to residents of Frederick County totaled \$891,000 a month as 1969 ended, Carroll A. Jones, social security manager, reported this week.

A benefit increase, signed into law by President Nixon on De-

cember 30, 1969, has since raised the monthly rate of payment by 15 per cent for the 8571 social security beneficiaries in Frederick County, Mr. Jones noted.

Of the social security beneficiaries living in Frederick County, 5,258 are retired workers and their dependents. Another 2187 are receiving benefits as the survivors of workers who have died, and 635 are getting benefits as

disabled workers or the dependents of disabled workers.

Jones pointed out that although the majority of social security beneficiaries are older people, about one out of every four is under age 60.

In the State of Maryland, 85,769 people under age 60 are collecting social security payments each month. The 49,568 who are under 18 are receiving payments because a working father or mother has died or is getting social security disability or retirement benefits.

Of the 7541 who are 18 through 21 years of age, most are getting students' benefits under a provision which permits the continuation of a child's benefits past his or her 18th birthday, and up to age 22 if he or she is attending school full time.

But in this 18 to 22 age group, Jones said, are some other types of beneficiaries, illustrating the broad family protection that is provided working people of all ages under the social security program.

A number are the children of retired, disabled, or deceased workers who became disabled before they reached 18 and who will probably never be able to go to

work and become self supporting. The benefits of these young people, severely handicapped by physical or mental disabilities, will continue indefinitely and benefits are also payable to their mothers if the disabled son or daughter is in the mother's care.

Another small but significant group of youthful social security beneficiaries are those who are receiving social security benefits as disabled workers. Under a 1967 change in the law, disability benefits can be paid to a person who becomes disabled for work even if he has less than five years of work under social security. As little as a year and a half is required in the case of a worker who becomes disabled before age 24.

Rate Increase Denied Blue Cross

Insurance Commissioner Newton I. Steers, Jr., this week disapproved a rate filing made by Maryland Blue Cross for direct-pay subscribers. The filing, originally made on May 21, 1970, would have increased rates 27.4% on the average for subscribers under the standard, co-pay and

community preferred non-group certificates.

The Commissioner had earlier disapproved the filing on the basis that it contained insufficient information. Following the original disapproval, Blue Cross requested a hearing which was granted and held on June 5, 1970.

Mr. Steers ruled, however, that the information given by Blue Cross at the hearing together with further information which he requested at the hearing and was subsequently furnished, was not sufficient to support the rate increase requested.

Commissioner Steers stated: "I have informed Blue Cross that I am aware of its modest financial cushion at the present time and that continuation of the present trend can only lead to bankruptcy of Blue Cross. However, I have also informed Blue Cross that I cannot and will not approve any rate increase unless it creates an incentive for hospitals or their patients to cut costs even if it means the elimination or reduction of some desirable elements in patient care. I cannot and will not sit idly by and allow the present vicious upward spiral in hospital costs to continue unabated.

"I have suggested to Blue Cross that it offer its subscribers a desirable (because subscriber payments would be lower) co-pay option. This would, of course provide patients with an incentive to reduce hospital costs by minimizing the length of stay and services during the stay. There

is presently a co-pay option but the proposal would be designed to sharply increase the small number of subscribers who have selected the co-pay option.

"I have also suggested to Blue Cross that they should reimburse hospitals for out-patient care on a cost basis, such as they now reimburse hospitals for in-patient care. (Currently Blue Cross pays established rates to hospitals for out-patient care even though rates may exceed cost.)

"I have also suggested to Blue Cross that they should, at the time of their next contract negotiations with any hospital, notify that hospital that the reimbursement rate will be based on

cost at the time of that contract negotiation and that any increase thereafter will be limited to a specified percentage such as 6 or 7%. Inasmuch as the figures show hospital costs to be rising somewhere between 15 and 25% per year, hospitals under this plan would simply be forced to cut costs even though it might result in what they regard as a reduction of necessary levels of patient care.

"Blue Cross is opposed to any such limitation on the grounds that it would require a limitation of the benefits it provides to subscribers. We are, therefore, engaged in discussions on how to attain two major objectives.

Defendants

ORDER OF PUBLICATION

This is to give notice that on the 21st day of May, 1970, a Bill to Quiet Title was filed in the Circuit Court for Frederick County by the Plaintiff against the Defendants whose addresses are unknown. The Bill alleges in substance that:

FIRST: That your Plaintiff on or about December 1, 1967, purchased a certain lot or parcel of land from James R. Showe and Barbara Ann Showe, et ux, obtaining possession to same pursuant to a certain deed executed and delivered by the latter to the former and duly recorded among the Land Records of Frederick County, Maryland, in Liber 775, folio 659. The said lot or parcel of land being described therein as follows:

"BEGINNING for the same along the West margin of the Edgewood Church Road at the Southeast corner of the lands described in a deed to Thomas Preston Miller and Erma E. Miller, his wife, from Charles M. Kline, unmarried, dated March 24, 1947, and recorded in Liber No. 462, folio 42, one of the Land Records of Frederick County, Maryland, and running thence in a Southerly direction by and with the West margin of Edgewood Church Road 78.0 feet to an iron pipe marker, thence leaving said Road and running in a Westerly direction 170.0 feet, more or less, to intersect the third line of the aforementioned deed from Charles M. Kline, unmarried, unto Charles Preston Miller and Erma E. Miller, his wife, dated and recorded as aforesaid, and running thence in a Northwest-erly direction by and with the said third line reversed, 147.0 feet, more or less, to the end thereof, and running thence in an Easterly direction by and with the second line described in the aforesaid deed from Charles M. Kline, unmarried, unto Thomas Preston Miller and Erma E. Miller, his wife, 272.0 feet, more or less, to the place of beginning. A certified copy of said deed is hereby incorporated by reference and at-

tached hereto as a part hereof, marked "Plaintiff's Exhibit A."

SECOND: That your Plaintiff, through mense conveyances, etc. (which will more fully appear from the certified copies of deeds filed as "Plaintiff's Exhibit B" incorporated by reference and made a part of said Bill) derives her record title from the devise of Henry Gonso who died on or about October 12, 1915, and whose Will was duly probated and recorded among the Records of the Orphans Court for Frederick County, Maryland, in Liber S.D.T. 2, folio 102.

THIRD: That, however, a deed recorded October 3, 1883, among the Land Records of Frederick County in Liber AF7, folio 479, purports to grant in fee simple, subject real estate from Henry Gonso unto Charles E. Schaffer.

FOURTH: That your Plaintiff and her privies of record title have maintained actual, open, notorious, exclusive, hostile, and continuous possession of subject real estate under said claim of title or ownership from at least March 24, 1947, using said lot and improvements as a place of dwelling.

FIFTH: That your Plaintiff is in actual peaceable possession of subject lands but that the aforesaid deed constitutes a hostile outstanding claim, though not being actively asserted, against her title interfering with her right to absolute ownership and rights of disposition.

SIXTH: By that certain mortgage recorded among the Land Records of Frederick County, Maryland, in Liber 776, folio 204, your Plaintiff has mortgaged subject premises unto the Farmers and Mechanics National Bank.

The relief prayed in the Bill is substantially as follows:

"That the Court decree absolute title to and in the real estate described in paragraph FIRST herein, in fee simple with full rights of disposition of said lands and improvements and that the Court issue an injunction against the assertion by the parties named as parties defendant of any claims whatsoever by any action at law or otherwise, all subject, however, to the rights of the Farmers and Mechanics National Bank under that certain mortgage dated December 1, 1967, and recorded among the Land Records of Frederick County, Maryland, in Liber 776, folio 204.

WHEREUPON, it is ordered by the Circuit Court for Frederick County this 22nd day of May, 1970, that the Plaintiff cause a copy of this Order to be inserted in a newspaper published in Frederick County once a week in each of four successive weeks, before the 27th day of June, 1970, giving notice to the said Defendants of the object and substance of the Bill and warning them to show cause, if any there may be, on or before the 28th day of July, 1970, why a decree should not be passed as prayed.

Firemen Respond

To Several Calls

The Vigilant Hose responded to three fires this week. On Sunday afternoon at 3:30 o'clock, the firemen extinguished a fire in a car operated by Nancy Topper, Emmitsburg. Chief Guy McGaughlin said the blaze apparently was caused by a backfire in the carburetor system. Damage was estimated at \$50.

Thirty-one members of the Vigilant Hose Co. responded to a small grass fire on the Victor Fiery property along the Lime Kiln Rd. at 10:08 Friday night. Chief McGaughlin said the fire was apparently caused by a tossed cigarette.

Emmitsburg and Greenmount firemen were called at 11:13 Friday morning when a shed caught fire at the property of Samuel McNair, north of Emmitsburg on old Route 15. Reports indicated the shed was being razed when a 220-volt wire was inadvertently torn down, igniting the structure.

School Lunch

Program Expensive

One of the biggest food service operations in Frederick County goes on daily as part of the operations of the Frederick County Board of Education. With a budget of over \$1,000,000 and 230 employees as inputs, the system puts out 2,000,000 nutritionally balanced lunches per year to be consumed by Frederick County school children.

The average school day sees 11,000 lunches served; 3,800 of them paid for at 35c per lunch and the rest served free. Free lunches are provided for those children unable to pay because it has been long recognized that "hungry children don't learn."

It was only 24 years ago, in 1946, that the Federal Government began the National School Lunch Program. During physical examinations of draftees in World War II, it had been observed that many men showed signs of nutritional deficiencies. To prevent these difficulties in the future the U. S. Congress provided money and food to school systems to set up school lunch programs. They were to provide a lunch to children that was balanced nutritionally and would provide one-third of the child's daily nutritional needs. The school system was selected as the way to provide this service because it was the only basic institution that reached all of the children.

Early in 1969 Congress broadened the scope of the program by providing money for free lunches. Until then any free lunches served were paid for from school lunch receipts and the cost absorbed locally. This additional Federal and State aid meant many children who had been eligible, but unable to get one, now had a good lunch at school.

Federal aid toward the school lunch comes in two forms: one, a cash contribution of 4c per meal; the other, in surplus foods equal to another 5 cents. Such foods as flour, shortening, dried milk, butter, rice, corn meal, dried beans, and rolled wheat are available at all times. Other foods such as peanut butter, raisins, turkey, various canned foods and fruits, and ground beef are available when the national price structure makes their purchase feasible.

Mrs. Ruth Hauver, Supervisor of School Lunch for the Frederick County Board of Education, feels that the local program has been effective in meeting the objectives set up for it. She does, however, see a number of problems remaining to be solved.

"Despite the best efforts of an excellent staff of school lunch workers, the rising costs of food, labor and equipment are making it impossible to break even," Mrs. Hauver noted. "It appears we will have to ask for an increase in the cost of lunches as our only way out."

Another continuing problem according to Mrs. Hauver has been finding a way to keep the identities of children receiving free lunches from other children. Many ways have been devised by school principals but none has been completely satisfactory.

"Changing food habits of chil-

NOTICE TO BIDDERS

The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids on the construction of a driving range at the Middletown High School, Middletown, Maryland, and an addition to the parking area at the Brunswick High School, Brunswick, Maryland.

Specifications and proposal sheets may be obtained at the Board of Education Office.

Sealed bids will be received at the Board of Education Office until 10:00 A.M. (DST), July 7, 1970.

The Board of Education reserves the right to reject any or all proposals and to waive informalities. BY ORDER OF THE BOARD OF EDUCATION OF FREDERICK COUNTY.

JOHN L. CARNOCHAN, JR.

Secretary-Treasurer

Bid #70-M-3

dren and new methods of processing foods are two other areas where we have to make a real effort to stay on top of the situation," said Mrs. Hauver. "We also would like to begin a pilot operation with 'satellite feeding' so that we would not have to put a large expensive kitchen in each new school," she continued, "but the budget cuts will put that off for at least another year."

Road Painting

Year 'Round Job

At night or in nasty weather, motorists are happy to see that over-present stripe down the center line of the highway.

To keep State roads well marked is a big job requiring lots of time, and money.

This summer, according to William L. Shook, assistant chief engineer for maintenance at the State Roads Commission, the SRC will use 150,000 gallons of paint for highway marking; 100,000 gallons of white paint and 50,000 gallons of yellow.

"One gallon of paint," said Mr. Shook, "will mark 850 feet of typical non-solid centerline. Or, a mile of dashed line requires 6.2 gallons."

Non-solid centerline consists of a 15-foot painted dash and a 25-foot interval.

"It doesn't look that big when you're going by at expressway speeds," Mr. Shook said.

The SRC will paint approximately 13,000 lane miles of State highways this summer.

"We figure it's going to cost about \$700,000," Mr. Shook said. Striping is possible only about 140 days a year. It can't be done during cold months or when the road is wet.

The job is heavily automated now and four paint striping machines are used in Maryland.

White paint in dashes is used to indicate the center of the highway and solid white is used where possible, to indicate the outside edge of the driving surface. Yellow stripes warn motorists of no-passing zones.

Road Commission

Bucks Pollution

As part of its anti-pollution program, the State Roads Commission covers its 87 stockpiles of salt in various parts of the State. David H. Fisher, Chairman Director, of the State Roads Commission, said:

"In the past, we have received reports that some of the salt piles may have caused pollution of streams and damage to plants in some areas and since I have been Chairman I have requested a report from our operations people each spring to make certain our stockpiles are covered," Mr. Fisher said.

This spring the salt report stated that all stockpiles have been covered by either of the following approved methods: (1) polyethylene fabric, (2) four inches or more of sawdust, (3) four inches or more of sand, (4) four

inches or more of stone, (5) four inches or more of cinders.

The salt matter has become acute, Mr. Fisher said, since highway users have demanded free storms and large quantities of the material must be stockpiled to meet an emergency.

"The use of salt," the Chairman said, "to aid in the removal of snow from roadways has become an integral part of normal highway maintenance. It is imperative in the interest of safety and maximum usage of the investment the motorist has made in highway facilities that roadways be maintained as free of ice and snow as possible."

Until a new means of keeping roadways clear is developed, he said, highway departments find it necessary to keep huge quantities of de-icing salts on hand.

There is some concern that salts have an effect on surface runoff and certain plants.

One means of combating the chance of this is to make certain there is no runoff from the stockpiles, Mr. Fisher said. This can be prevented by adequate covering of the stockpile.

Hood To Remain

Girls' College

The Hood College Board of Trustees have voted to drop the words "of women" from the College Charter.

The action taken by the Trustees means that Hood will remain a woman's college, but the legal barrier to taking some steps toward coeducation has been removed in case the college should decide to admit men at a later date.

Commenting on the vote, Dr. Randle Elliott, president of Hood, stated, "After a year of careful study and investigation, we believe that the decision to remain a woman's college represents a wise and prudent course of action at this time. In our judgment the woman's college has an important role to perform in higher education. Even in a period of increasing social emphasis on coeducation, continuing effort should be made to maintain an established institution that provides an opportunity for those who prefer to attend a single-sex college for women. This special type of college supports certain intangible values which receive only token recognition, or which tend to be forgotten in a coed environment. Hood will continue its emphasis on the enrollment of highly qualified women who possess the potential for creativity and leadership."

Local School

Elects New

Student Officers

By LYNNE A. WILLIAR
The "die has been cast" for the officers of the Emmitsburg School Student Council for the coming year, 1970-71. During an assembly on June 11, for the student body, after hearing the candidates' speeches, imparted their votes for their choices.

The high office of vice president was won by Kerry Shorb. He was running against Bonnie Gore and Frank Saylor.

The office of secretary will be taken next year by Wanda Ott as she defeated Debbie Kline and Mike Rosensteel.

Fran Fields was victorious over Rodney Wivell and Sharon Gruber for the office of treasurer.

Frankie Davis edged Laurel Hewitt and Bobby Fitz for historian.

And, lastly, Peggy Long will be the new parliamentarian. Carolyn Wivell and Linda were also vying for this office.

Several awards were also given during the assembly. Lorrie Ginter, for having achieved the highest average in history, received the American Legion History Award, a monetary gift, presented by the Francis X. Elder Post of Emmitsburg.

For his excellence in music, Sarge Bankard was honored with the Music Award, donated by the Emmitsburg VFW.

Bobbie Jean Staub and Dave Harbaugh were awarded certificates from "Time Magazine" for having made the two highest Emmitsburg School scores in the "Time Magazine" Current Events Test.

Tom Fisher received first prize and Jay Graff second, in Mrs. Scott's History Contest. Honorable mention went to Steve Ott and Phyllis Warnken.

In 'Mr. Grandstaff's Spelling Contest, Wanda Pomeroy was awarded the Grand Champion Certificate for the most outstanding performance. Other students also recognized for their spelling excellence were Billy MacKinzie, Ronnie Lookingbill, Dennis Hewitt, Cathy Wivell, Laurie MacKinzie and Sarge Bankard. Four students, namely Tom Fisher, Donald Higgins, Dave Lookingbill and Laurie MacKinzie, were recognized for their perfect spelling records. Another highlight of the assembly was the honoring of Mrs. Mary S. Scott, the retiring reading teacher. The student body presented her with several lovely gifts as a symbol of their gratitude for her many years of devotion to the teaching profession. The assembly was under the direction of Mrs. Polley.

Vacation School Finishes Session

The annual Vacation Church School sponsored by the Emmitsburg Council of Churches will close this evening with a program, exhibit and social hour in the Elias Ev. Lutheran Church.

During the past two weeks, classes have been held in the various churches on the theme "God in My Life." The 3rd and 4th

grades have met in the Methodist Church, the Junior High class met in Incarnation United Church of Christ, and all the other classes were held in the Lutheran Church.

Teachers were: Miss Jane Koontz, Miss Margaret Franklin, Mrs. Audrey Glass, Mrs. Elizabeth Lindsey, Mrs. Larue Harman, Mrs. John Chatlos, Miss Linda Knox, Mrs. Bernice Hampson, Dr. William Meredith and Rev. John C. Chatlos. These teachers were

ably assisted by the following: Miss Patty Eyler, Mrs. Thelma Fair, Mrs. Carol Staub, Miss Vickie Saylor, Mrs. Nancy Andrew, Mrs. Evelyn Ohler, Mrs. Virginia Andrew, Mrs. Anna Margaret Martin and Miss Sharon Kelly. Mr. Luther Zimmerman served as the sexton and Mrs. John Chatlos was the director. The benevolent project of the school was the Seton Day Care Center toward which \$25.00 of the daily offering was donated. The rest of the offerings will go toward the expenses of the school.

New Books Arrive At Library

Attention Teenagers The Emmitsburg Public Library has instituted a new section of books on the Junior High Level, in fact they are marked JH. This section should interest young people from ages 13 to 16 years. The mystery books have been labeled as such and have been put in a separate section. Now when you visit the Library, you will find the book you need much easier.

Young people are reading: "Come Back, Wherever You Are,"

by Lenore M. Weber. "Jane-emily," by Patricia Clapp. A story of early Plymouth. "The Two Sisters," by Honor Arundel. "Talargain," by Joyce Gard. Seventh Century England with the orphan, Talargain. "Spice Island Mystery," by Betty Cavanaugh. An appealing mixture of intrigue, adventure, and romance, this story of a high-spirited West-Indian girl.

Accepted At Music Conservatory

Miss Beverly Jean Davis, daughter of Mr. and Mrs. Allen F. Davis, Emmitsburg, and Miss Gwendolyn Beth Jagow, daughter of Mr. and Mrs. Victor Jagow, Thurmont, have been accepted by Shenandoah College and Conservatory of Music for the Fall semester.

Both Miss Davis and Miss Jagow are recent graduates of Catoctin High School. At Shenandoah they will enroll in the Bachelor of Music Education curriculum.

Shenandoah College and Conservatory of Music are located in

OFF AND RUNNING by John I. Day

A Record Quartet

An odd record not likely to be equalled soon was established at Assiniboia Downs, Winnipeg, last year when Jockey Dick Armstrong rode four winners. Four winners for a rider in one afternoon is not a particularly notable record; Chuck Baltazar rode seven winners one afternoon at Laurel earlier this year. The thing that made Dick Armstrong's feat a bit unique was that his quartet was trained by Carl Anderson, all carried the silks of the Maxwell King Stable and all four were bred by Owner Max Freed and sired by a stallion named Joe Wilson.

There'll be excitement of another sort at Assiniboia this year. The track is currently marking Manitoba's Centennial Year, and for the occasion the track president, J. C. Hardy, has boosted the value of the Manitoba Derby to \$70,000 guaranteed, the largest purse ever offered in Canada with the exception of the historic Queen's Plate at Woodbine. Jockey Armstrong who, according to Publicity Director Bruce Boreham, has, at one time or another, won every Stakes event on the Assiniboia Downs program, would no doubt swap another quartet of winners for a live mount in the Derby on July 15.

Virginia's Shenandoah Valley, seventy miles west of Washington, D. C. The College offers a two-year program leading to an Associate in Arts degree and the Conservatory offers a four-year program leading to the Bachelor of Music, Bachelor of Music Education and Bachelor of Music in Church Music degrees. Shenandoah is related to The United Methodist Church.

Soldier Expresses Duty Tour In Vietnam

Editor, Emmitsburg Chronicle: My husband, Sgt. George Stanley Andrew, Jr., now serving a tour in Vietnam, wrote the following poem while he is there. He is now stationed at Com Rahn Bay. I was wondering if it would be possible to publish the poem and his picture in the Emmitsburg Chronicle, because I was so proud when he wrote his poem and how he wrote I wanted everyone to read it and all who read it, I am sure will be proud of how he feels about our country.

Sincerely yours, Mrs. George Stanley Andrew, Jr.

'But Never Me'

Vietnam is the last place I thought I'd be. As I looked to the future two years ago.

Sure they were drafting my friends "But Never Me". I thought triumphantly—but little did I know

It was March 12th I raised my hand And promised to serve our great land.

Although I didn't like it, I took it in stride

And did my best to develop a pride, For the job I was to do whatever it be.

So here I've been since the 21st of March Doing my job from day to day. Looking forward to when all this will be

Days of the past a fading memory. But though about the Army I sometimes complain,

It has given me values that will always remain. Knowing that I have helped to keep America free

I'll appreciate more what she has to offer me A life of planning with dreams fresh and new

A life of doing to make those dreams come true. And I'll realize that serving is a necessity

If she is to remain 'The Land of Opportunity.'

Seniors Cancel Bus Trip

The bus trip to Kutztown, Pa., on July 2, by the Senior Citizens Club of Emmitsburg, has been canceled. The group hopes to plan another trip in the near future that will be favorable to all members.

The next meeting of the group will be July 21 at the Center. The program will be announced later.

LP-gas lights on the patio, front lawn and along the driveway are decorative and practical. The friendly glow welcomes guests and provides illumination for night-time cookouts and parties.

Dial 447-6221 to report a fire.

Geo. P. Mahoney

Announces Candidacy

The following is the text of the announcement of his candidacy for U. S. Senate made last week by George P. Mahoney at the Belvedere Hotel in Baltimore.

Some have referred to me as a legend in Maryland politics.

They say this because I have received more than 2,300,000 votes—more than any other man, Democratic or Republican, ever received in this state.

The record shows more than this. For example, in one election I won the popular vote, yet lost on the old-fashioned unit vote system that has since been outlawed by the Supreme Court.

On another occasion I tied on the unit vote, and lost on the popular vote.

But I have won three nominations.

These are some of the reasons why I have been called a Legend in My Time.

During the past six months I have toured every one of Maryland's 23 counties and Baltimore City. I have talked to the people and I have listened to them.

I have had the professionals test the tide of public opinion throughout the state.

My friends have given me the benefit of their advice and counsel.

From my tours, from the professionals and from my friends I have learned what I can do to best serve the people of Maryland.

At the same time I have heard the announcements of Governor Marvin Mandel, Attorney General Bill Burch, Comptroller Louis Goldstein and Blair Lee III, our first and next Lieutenant-Governor. All four of these men were on my team in the past, and they were successful. I know they will win this year.

As for me, ladies and gentlemen, I am a candidate for the Democratic nomination for the United States Senate.

Fairfield Fire

Co. Selects Queen

Miss Susan Pecher, 16, daughter of Mr. and Mrs. George M. Pecher, R2, Fairfield, was crowned as the 1970 Fairfield Fire Company queen from among 10 contestants during competition Tuesday evening in conjunction with the company's annual carnival.

Miss Pecher will be entered by the Fairfield department in the annual Adams County Volunteer Firemen's Queen contest during the convention in Bendersville this August.

The new queen received a \$75 check, a bouquet of red roses and her crown from last year's queen, Miss Juanita Lindsey, daughter of Mr. and Mrs. Ralph D. Lindsey, Fairfield R2.

Runners-up in the contest were: first, Miss Yvonne Rodgers, 16, daughter of Mr. and Mrs. T. Eugene Rodgers, Fairfield R2, \$50, and second, \$25, Miss Barbara Reindollar, 16, daughter of Mr. and Mrs. Robert M. Reindollar, Fairfield.

WEATHER REPORT

Temperatures for the Emmitsburg District for the period ending June 19, as reported by Mrs. Lucille K. Beale, local weather observer, were as follows:

	H	L
Saturday, June 13	79	56
Sunday, June 14	77	46
Monday, June 15	70	58
Tuesday, June 16	69	59
Wednesday, June 17	86	65
Thursday, June 18	87	65
Friday, June 19	84	57

Precipitation for the period amounted to 1.60 inches.
