Most Anything At A Glance

- By Abigail -

About nine years ago, Mrs. Madelyn Murray, an avowed atheist residing in Baltimore at the time, instituted a suit against the U. S. Courts, in which she questioned the legality of permitting prayer periods in our public schools. Her contention was that this longstanding custom of ours was discriminating, unconstitutional and completely objectionable to persons like herself, forcing them either to participate in this 'deplorable' practice, or to be a 'captive audience'. The U. S. Supreme Court ruled in Mrs. Murray's favor and public prayer was, and still is, banned in our public schools.

As so often happens in issues such as this, the judges bent over backwards to protect the rights of the minority and in so doing, inadvertently took away the rights of the majority (US). This 'robbing Peter to pay Paul', syndrome 'is unjust, inequitable and unacceptable; consequently, we must now fight to regain OUR rights. It certainly is not justice when a minority group is permitted to usurp the legal rights of millions of people simply because their philosophies and religious beliefs, (or lack of same) happen to differ.

One of the basic reasons our forefathers made that perilous ocean voyage so long ago was to escape a tyranny which did not permit freedom of religion—ANY religion. Praying is a very personal thing which one may opt to do or NOT to do. There's no rule under the sun that says anyone must pray. Conversely, there's no rule that says anyone must NOT pray.

This is America and may it always be thus! Everyone in the U.S.A. knows that if Mrs. Murray et al, choose not to pray, there are no Gestapo agents or SS operators spying on them, with awful reprisals in store for anyone not 'conforming'. Could not atheists and/or other opponents of public prayer tolerate, out of deference to that fellow man, a single moment of prayer for those who want it? Could they not utilize this brief moment to quietly think their own thoughts, search their own souls (?) or just plain relax? Apparently the code by which they live does not include tolerance, common decency and respect for other people's rights. We are constantly reminded to: "Do unto others as you would have them do unto you". Whether or not you acknowledge Christ, himself, as the original speaker of these words, does not, at the moment, matter. What does matter is that this is a fundamental and innate principle which we have at the moment of birth—OR SHOULD have! Else how are we to co-exist in peace and harmony with our brothers? Homo-sapiens is a creature of many moods and faces which represent various and divergent races, colors, and philosophies, all of which must be respected and accepted, as long as they are not endangering others.

One cannot help wondering what diabolic pleasure people like Mrs. Murray derived from the hollow court victory which deprived millions of her fellow citizens of something meaningful and important to them.

When the Supreme Court ruled in favor of this woman, who represented roughly 20% of the U. S. citizenry, it unwittingly ruled against perhaps an 80% majority of U. S. citizens, including me. Probably not since the Revolutionary War days have so many people of so many denominations been united in such a strong common bond; our common bond being simply that we are all Americans, and as such, we guard our religious freedom very jealously.

Our common goal: complete restoration of our right to worship freely and that includes praying in our public schools if so desired. Mrs. Madelyn Murray O'hare, even haplessly aided by the Supreme Court, shall not speak for us in this matter! The citizens of our many states have urged our government representatives and Senators

Firemen Observe Fire Prevention Week

—Photos By Paul E. Humerick

Several hundred local children, up to 12 years of age, were given a free ride on the local fire engines and treated to a popsicle donated by the Mason-Dixon Dairy last Thursday evening. The Vigilant Hose Co., in observance of

Fire Prevention Week, sponsored the ride and explained the importance of fire prevention to the youngsters. Red paper hats were distributed among the group and a good time was had by all.

Brute' Ladies Hold Regular Meeting

The October meeting of the Ladies of Brute' Auxiliary, took place Monday evening, Oct. 12. Mrs. Burton Creager, Executive Director of the Education Program of the Frederick County Unit of the American Cancer Society, presented three informative films on cancer: "The Seven Danger Signs," "Time and Two Women," and "Self Examination of Breast Cancer." A question and answer period followed the films with Loretta Sprinkle, R.N., as chairman. Immediately following the films, the President, Lois Hartdagen, presided over a short meeting with thirty-one members in attendance. The meeting opened with prayer, followed by the Pledge of Allegiance. The secretary and treasurer's report were read and approved.

Correspondence was received with a thank-you note from Mrs. Ruth Baker. Letters were received from St. Joseph's High School asking the auxiliary to take an ad in their yearbook; another from the Seton Center asking for delegates from the Auxiliary for the newly formed Emmitsburg Lifelong Learning Council. A letter from the Community Fund asking for a representative from the auxiliary, and also one from Mr. George L. Strahan asking the auxiliary to sell umbrellas.

Action taken on the correspondence was as follows: A donation was voted to the Community Fund and Betty Lupinski volunteered as the auxiliary's representative.

Mother Seton PTA Hears Local Doctor

The monthly meeting of the Parent Teacher's Association of Mother Seton School was held in the school auditorium last Thursday evening with President Pierre Fontaine presiding. A highlight of the meeting was a talk by Dr. George L. Morningstar on the "Brake Parents Plan." This plan is a safety program for children who walk to and from school.

More information regarding this program will be forthcoming and it is hoped to inaugurate the program in the near future.

Sister Mary Xavier, principal, thanked all those who have already contributed items for the coming bazaar and urged other parents to help as this is the principal means of raising funds for the school during the year. The bazaar will be held on November 7 at the school.

Other matters were discussed and after the meeting, refreshments were served to the parents in the school cafeteria.

Colorfest Expected To Draw Huge Weekend Crowd

Catoctin Mountain Park, 5700 acres of Appalachian hardwood forest set aside by the Federal government as a recreation area of the National Park System, is busy preparing for the influx of visitors who will go there October 16, 17 and 18 to witness the annual Fall Coloration, one of the great miracles of Mother Nature. The 7th Annual Catoctin COLORfest is co-sponsored by Catoctin Mountain Park and the Catoctin Mountains Tourist Council. Highlights of the three days of activities include, in addition to viewing the beauty of the scarlet and gold leaves, folk craft demonstrations at the Catoctin Folk Culture Center, interpretive talks, conducted tours of orchards and dairy farms, square dancing, handbell ringers and German folk singers, and old-fashioned church suppers.

A highlight of this year's COLORfest will be the craft demonstrations at the new Folk Culture Center which opened in June. Exhibits include applebutter boiling, blacksmithing, pottery, broom making, riving shake shingles and carpentry, spinning and weaving, and kitchen crafts. A part of the Center, but located apart from it in a mountain glen, is an operating moonshine still. Admission to the Center is free.

Catoctin Mountain Park is located three miles west of Thurmont, Maryland, just off State Route 77. Thurmont is on U. S. Route 15, midway between Frederick and Gettysburg, Pa. The 7th Annual Catoctin COLORfest is held in the Park and the Town of Thurmont.

COLLEGE VISITING DAY

St. Joseph College will hold a "visiting day" for prospective students on Saturday, Oct. 31.

FALL WEEKEND SCHEDULED AT MOUNT

The popular singing group, Delaney & Bonine & Friends will headline the Friday night dance-concert which will begin the Mt. St. Mary's College annual Fall Weekend, October 30-31.

They will be followed on Saturday night by a concert headed by the Canadian rock group, The Guess Who.

Delaney & Bonine & Friends have reached the top echelon of the rock world within the past year. Their first album, "The Original Delaney & Bonine & Friends," has sold exceptionally well.

Delaney (Bramlett) and Bonine (Bramlett) are a husband-and-wife team who have been singing together for the past four years. Their music is a blend of gospel and country rock, and reflects the Mississippi upbringing of Delaney. A current single release, "Soul Shake," is presently at the top of the Top 40 charts.

Some of the more prestigious "Friends" who have travelled with Delaney & Bonine include George Harrison, Eric Clapton, and Joe Cocker.

Performing along with Delaney & Bonine & Friends on Friday night will be The Echoes, a promising New York rock group.

The Delaney & Bonine concert will be held in the Mount Saint Mary's Memorial Gymnasium on Friday, October 30. It will begin at 8:30 p.m. Tickets will be \$3.00 per person.

The public is invited.

President Mrs. L. H. Cregger opened the meeting with a devotional reading, followed by prayer. Bull Stud Farm Open House

Frederick and Carroll County dairymen are invited to the Oct. 22 Open House program at the Maryland-West Virginia Bull Stud Inc., near Frederick, says John I. Troxell, the artificial insemination technician in this area.

The featured speaker on the program will be Dr. Clinton E. Meadows, professor and dairy extension specialist at Michigan State U. He will be talking on managing a high-producing dairy herd.

Dr. Meadows should be well qualified to talk about this subject; he manages a Guernsey herd of 55 cows with a rolling herd average of 15,032 pounds of milk and 731 pounds of fat. The Kellogg herd also has an average classification of 85.4.

Dr. Meadows will be no stranger to his surroundings at the bull stud. From 1947-50 he managed the Arkansas Artificial Breeders. He returned to college at the U. of Arkansas for his B.S. degree before going on to Iowa State for his M.S. and Ph.D. degrees.

Before completing his work at Iowa State he took the position of dairy extension specialist at Michigan State where he has been since. In 1966 Dr. Meadows was named Outstanding Specialist by the Michigan Specialists Assn.

The open house is set to begin at 10 a.m., says John Troxell, with a meeting of the Maryland Artificial Breeding Cooperative and awards to bull stud personnel and inseminators.

After a chicken dinner "with all the trimmings" the bull stud facilities will be open for inspection. A parade of bulls and a review of their records will complete the day's activities.

Further information may be obtained by contacting John I. Troxell, technician, Emmitsburg.

FIREMEN KEPT BUSY DURING PAST WEEK

A fire believed to have been deliberately set in a junked auto off Route 806, near the Mt. St. Mary's College gymnasium, about 10:30 o'clock Tuesday evening, was the object of a Vigilant Hose Co. alarm.

Firemen used booster lines to put out the blaze that destroyed the interior of the wrecked 1954 Chevrolet said to be owned by a Mount student.

Fire Chief Guy R. McGlaughlin was told by college police that the student had junked the auto off the state route after it had been in a collision sometime ago. Chief McGlaughlin said the car appeared to have been a total loss before the fire.

A fire caused slight damage to a washhouse on the John Wivell farm at 3:30 o'clock Friday afternoon on the Keysville Road, two miles southeast of Emmitsburg.

Two pumpers and a rescue vehicle responded and quickly extinguished the blaze. The alarm was the Emmitsburg company's eighth in the nine days.

Fire Chief Guy R. McGlaughlin said the fire apparently originated from sparks on a wooden shed roof on the washhouse. Past-board boxes were being burned in a fireplace inside the building. The Wivell's used a garden hose in an attempt to check the fire that burned out a section of the shed roof and began spreading up a corner of the frame washhouse until firemen arrived on the scene.

A malfunction in a motor disabled a 1961 Buick stationwagon driven by a Thurmont motorist on the Route 15 bypass just north of Mt. St. Mary's College at 9 o'clock Monday evening.

Emmitsburg firemen responded to the alarm involving the southbound car of Roland Shriner, Thurmont. Fire Chief Guy R. McGlaughlin said two unidentified youths driving in their car checked the flames with a fire extinguisher from the car. Firemen arrived soon after and put the finishing touches on the fire.

The fire, Chief McGlaughlin said, originated when oil leaked and caused the motor to over-heat to the point that it burst into flames. Damages to Shriner's auto was estimated at \$150.

ON EXPERIENCE

There is an old cliché which says: "You get experience by making mistakes—and you make mistakes because you lack experience." No question about it, experience is a good teacher; but none of us can live long enough to gain what we need through our own mistakes. It's a little like a quip I heard a successful business man make to a younger chap who always walked around with his hands in his pockets: "Henry, get your hands out of your pockets. You'll never gain anything that way. Get 'em into somebody else's pockets".

Most successful people observe closely and profit from the experience of others, but not all. The only thing some people learn from experience is that they have been wrong again. As a rule, those people who have a background of reasonable success in a variety of efforts are the best prospects to succeed in other areas of endeavor as well.

Broad experience, honesty, integrity, intelligence, industry, and unassailable character are basic prerequisites that every elected candidate should possess.

**COUNTY
COMMISSIONER**

After serving nearly eight years as a member of the Board of County Commissioners of Frederick County, I am concerned more than ever about good, strong local government. Good strong local government to me means:

MAXIMUM INTEGRITY**MAXIMUM HARMONY****MAXIMUM CONSISTENCY**

The lack of any of these means the lack of communication, the lack of communication nullifies good government in which everyone suffers by higher taxes, a bad school system, bad laws, etc.

The willingness of local government to abdicate its responsibilities to the state, does in my estimation, greatly subtract from good strong local government.

I invite you to look at my record and ask any questions you might have. In the future, as in the past, in my decision making, I will be ever mindful of the burdens placed upon the taxpayers. Your support will be greatly appreciated.

Although an ordinary "nickel" is worth only five cents, there are five "nickel" coins valued at \$50,000 apiece. This came about because five unauthorized Liberty Head "nickels" were minted in 1913, the year the Buffalo design took over. The "nickel" is actually 25 per cent nickel and 75 per cent copper.

Strike Dampens

Fourth-Quarter Outlook

By Babson's Reports Inc., Wellesley Hills, Mass., October 15, 1970—The economy apparently bottomed out during the early part of the summer and has now started to move moderately higher. It should be noted, however, that the extended auto strike has dampened prospects for an encouraging continuation of the uptrend during this final quarter of the year. Some of the economic indicators that had shown improvement during the summer—such as housing starts and productivity—did not maintain this strength according to the latest reports. The basic trend still appears to be upward, but the fourth quarter will be influenced powerfully by the auto stoppage.

Real Growth For GNP

Inflation continues to spur Gross National Product and has accounted for most of the expansion this year. In terms of 1958 dollars, however, GNP during the second quarter inched ahead for the first time in two quarters, and probably continued this mild climb in the third quarter. The current final three-month period will probably see sluggishness in both GNP and industrial production.

Improved Profit Margins

There are signs of a turn-about in corporate profits. Second quarter results, for instance, were much better than earlier anticipated, particularly in computers, nonferrous metals, and autos. Corporations have become increasingly aware of how burdensome the many excesses and nonproductive frills added during the 1960s have become. By trimming some of these excesses, general productivity has been stepped up. As a result, many corporations have been able to report substantial betterment in their margins of profit.

Increased Employment And Unemployment

More joblessness and a shorter working week have slowed the upward current in personal income. Total employment continues to expand, but the economy has not been able to absorb all the new entries into the labor force. The result has, of course, been higher unemployment. Income may improve somewhat in the fourth quarter, since we expect a longer working week. On the negative side, dividends will be lower, and there will be fewer extras this year.

Consumer Spending Is Key

Final results for the fourth quarter will depend to a great extent on consumer spending. At present, the consumer is saving at the unusually high rate of 7.6% of his disposable income, with some one-third of fresh increases in this time going into savings. If this cautious attitude persists during the fourth quarter, the economy will have a very difficult time making headway. Recent surveys of consumer confidence, however, have been favorable, indicating that the consumer may save less and spend more in this quarter. Because of this and the continuing increases in disposable income, the average of consumer spending should be

up for the fourth quarter.

Interest Rates Have Peaked

Interest rates have been on the decline since the liquidity crisis caused by the Penn Central bankruptcy. This has been especially true of short-term rates which have brought about the lower prime rate. The expanding monetary policy of the Federal Reserve has been a key factor in these lower rates. The Fed's stated objective for the expansion rate is 4%, but it has actually been much higher than that in recent months. It is felt, though, by some ob-

servers that this swift and aggressive expansion has been politically motivated and may be changed as election time draws closer.

If the Fed maintains the current policy of expansion, it could very well cause a return of the too rapid inflation that might even reach runaway proportions. Opinion of the Research Department of Babson's Reports is that the Fed will tighten up somewhat during the fourth quarter and that interest rates will stay close to present levels.

STATE POLICE LOWER HEIGHT QUALIFICATIONS

Effective October 1, 1970, the minimum acceptable height for a trooper applicant will be 5'9", with weight in proportion thereto, it has been announced by T. S. Smith, Superintendent of the Maryland State Police. This policy, of course, would apply to cadets as well as to troopers.

Many otherwise qualified applicants for the position of Trooper, Maryland State Police, are rejected for employment because of the minimum height requirement, previously established at 5'10". It is felt that a reduction in this requirement would not adversely affect the efficiency of the Maryland State Police, but it would

ORDER OF PUBLICATION

THIS IS TO GIVE NOTICE that on the 22nd day of September, 1970, a Petition of Condemnation was filed in the Circuit Court for Frederick County against certain Defendants all of whom are residents of the State of Maryland, and Julius Ginsburg and Gertrude S. Ginsburg, his wife, whose address is Van Ness Apartments, N., 3001 Veazy Terrace, N.W., Washington, D. C. 20008. The object of the Petition is to condemn in fee simple a parcel of land located in the Seventh Election District of Frederick County, State of Maryland, and the right to trim, cut down, and remove trees on adjacent parcels of land which will be more particularly hereinafter described; that the said land is to be used for the construction, operation, and maintenance of electric transmission lines and appurtenant equipment, in, under, over, and across said parcel of fee simple land. The Petition recites:

1. That the Plaintiff is authorized by law to acquire by purchase or condemnation, any property or right necessary in connection with the construction of electric lines to be used in supplying the public with electric light and power.

2. That on April 29, 1970, the Public Service Commission of Maryland issued an order in Case No. 6286, finding that the construction of the said transmission lines would promote the public convenience and necessity, and thereupon granted the Plaintiff a Certificate of Public Convenience and Necessity authorizing construction of said electric transmission lines, pursuant to the provisions of Article 78, Section 64A of the Annotated Code of Maryland.

3. That the Plaintiff has determined that in order to properly supply the public with electric light and power, it is necessary and proper to construct transmission lines in, over, under, and across a parcel of land 200 feet wide, hereinafter more particularly described, located in the Seventh Election District of Frederick County, State of Maryland, owned by the various Defendants hereinafter more particularly referred to; that it is necessary to acquire the fee simple title to said strip of land in order to construct, operate, and maintain said electric transmission lines and appurtenant facilities; that it is also necessary to acquire two rights of way each 75 feet wide on each side of the parcel of land referred to as the parcel of land in fee simple, in order that the Plaintiff will have the right to trim, cut down, and remove trees on the said rights of way.

4. That the interests of the various Defendants in said parcel of land are more particularly hereinafter set forth as follows: The fee simple title to the land here-

Problem:

"Your-import-might-be-small-but-it-sounds-like-a-big-lawnmower."

And that is a problem. Such unseemly noises from such a small car.

Like that incessant droning in your ears. The chatter. The humming and the drumming. And what sounds like the creaking of 100 rusty hinges.

Little foreign imports are traditionally noisy; they can't help themselves.

WHEREUPON, it is ordered by the Circuit Court for Frederick County this 22nd day of September, 1970, that the Plaintiff caused to be personally served upon the non-resident Defendants Julius Ginsburg and Gertrude S. Ginsburg a copy of this Order of Publication and a copy of the Petition of Condemnation on or before the 31st day of October, 1970, notifying the said Defendants to be and appear in this Honorable Court in proper person or by attorney on or before the 1st day of December, 1970, to show cause, if any he may have, why the relief prayed should not be granted.

Solution:

Pinto

Eut Pinto is built in the Ford tradition. With quiet built-in—not just muffled over.

Resilient rubber cushions insulate Pinto's body from the suspension, eliminating metal-to-metal contact . . . and noise.

Heavy-duty suspension components absorb road noise and vibration.

And the engine has 5 main bearings (not 3 or 4 like on some little imports) to reduce strain and noise, and increase engine life.

And what eliminates noise on a Pinto also eliminates wear and tear on the car. And on your nerves. So your Pinto stays newer, longer. And so do you.

How does that sound to you?

tors on both State and National levels to take up and carry our 'prayer standard' and fight for their constituents' rights. It is both deplorable and tragic that, to my knowledge, no single real floor vote has been taken on this issue. This passivity exists in spite of the fact these same representatives of ours have received scores of proposals and suggestions re: prayers in schools, I've no doubt. They're aware of the petitions signed by many thousands of people like myself, yet continue to ignore us.

In the face of this, it is timely that we go into action on this matter at once, since the November elections are just around the corner. Appearing on our Maryland ballots this year will be a "public reverence" bill. Hopefully, if enough heat and voter pressure are applied, our own State and U. S. Representatives may 'help' us decide for whom to vote, by taking a stand, a STRONG stand on this important issue. It is certainly time some action is taken by them because, to date, as near as I know, most of the hard work in getting the public reverence bill placed on the ballot was done, NOT by our esteemed State representatives whom we elected to work for us, but by a dedicated group known as the "District Back To God Movement", under the determined leadership of its president, Mrs. Bennet Miller. This persevering group, joined by many other states' groups, circulated petitions, (one of which I signed), and started the ball rolling.

It is my understanding that both of our neighboring Virginia's Senators publicly supported prayer amendment action, but that here in our own beloved state of Maryland, such is not the case. Our Republican representatives apparently do not consider the issue important enough to warrant their taking any stand on it. On the Democratic side, I understand Senator Tydings has actually OPPOSED any prayer amendment referendum to the states, and that he supports a "sense of the Senate" measure, which, dear readers, is a plot used by Senators to rid themselves of a "hot potato"—to get themselves "off the hook"—to "pass the buck". Is this the kind of representation we had in mind at the last election?

The time has come for some straight talk and positive ac-

tion. Mrs. Murray and others like her must be returned to her proper status — which is, not ABOVE us, nor BELOW us, but on an equal footing WITH us. She may retain her peculiar (to me) philosophy but not at OUR expense. No more deprivation of ours or our children's rights. One cannot help but wonder if these troubled times might not be less troubled if this woman had not been allowed to take some of our strongest weapons away from our youth, namely: faith, tolerance, loyalty, patriotism, hope and Love, all of which were incorporated in a simple little prayer that

our youths could either say, or not say, at school. At least the choice would be theirs, not some one else's!

Shall we now use our own powerful weapon, our VOTING POWER to spur our State representatives into declaring where they stand on this issue? It would help us a great deal when we step into the voting booth next month to decide whom we want to represent us in Annapolis and the Nation's Capitol next term.

Democrats and Republicans alike! Rise above your party politics and PLEASE, for yours and your children's sakes take

a stand! Force your government spokesmen to shed their miserable cloaks of anonymity and tell you where they stand on the public prayer issue. On election day, when we enter the voting booth, let us not be guid-

ed by our political affiliation but by our CONSCIENCE!

Mr. and Mrs. Clyde J. Eyer, R1, have returned home from a recent vacation in Florida's Silver Spring.
