The shouting is over, the votes have been cast. Congratulations folks, more than half of the registered voters braved a wet, dreary day to go to the polls and cast their ballots. This annexation proposal stirred up more interest, talk, opinions, and in some cases, investigative work, than has been seen in this town in quite a while. The Commissioners now know how at least half the taxpayers feel and may be expected to proceed from that point. Again, congratulations to everyone who voted and a big SHAME on those who didn't bother to go to the polls.

I understand that there weren't any "interested citizens" in attendance at this week's meeting of the Burgess and Commissioners. But I've been listening and reading about other small towns and it seems to be the same all over; folks just don't get out and go. "Course, can't blame them lots of times. I've heard many a dull speech and attended many an organizational meeting from which I emerged not one bit more enlightened than when I entered.

There has been a lot of justifiable complaining around town lately about animals that are being allowed to run loose. There was one very small black cat that wandered around the square area for several days but I haven't seen it lately. Hopefully some kind soul took it in and gave it a home. The biggest complaint seems to be about dogs running loose in town. Seems to me that we are spending an ordinance about dogs being let loose to wander about and in some cases, bother other property owners. To those of you who have pets, a plea to take care of them and keep them home. And to those who are being bothered by these free running animals — keep on complaining, somebody will get tired sooner or later and do something about it.

Don't know about the rest of you folks, but I've been getting the chimney cleaned out and the fireplace spruced up, and a supply of wood laid by, and am now hoping that the dang thing will work right when I need it. With all the very serious talk about a heating fuel shortage this winter, getting the old fireplace geared up and ready to go seems to be the most sensible action. After all, there are many of us who were raised in homes heated with wood stoves and fire places and we managed to survive those "primitive" heating conditions. Let's face it, we have all probably gotten a bit spoiled by the comfort and convenience of central heating in most of our homes, but in a cold wintry night a fireplace supplies more than just "heat warmth"; there is a certain something radiating forth that makes one glad to be inside and warm and comfy — it's just not the same with that thermostat that clicks, clicks, automatically.

Sunday marks the start of Fire Prevention Week and Chief McLaughlin has urged home owners to guard against fires and even have a home fire drill. I wonder how many lives could be saved yearly if children were taught at an early age the danger of fire and shown how to get out of the house by themselves in case an older person were unable to get to them. I know of several families that have worked out fire escape routes from their homes and make certain that their children know what to do. It sounds like a good idea to me.

They have five grandchildren and four great-grandchildren. They have resided in Norristown for 25 years.

Voters Turn Down VI Annexation Proposal

More than half the registered voters in the Town of Emmitsburg turned out to vote on the proposed annexation of Viking Ventures Tuesday. Of the 330 ballots cast, 244 voted against, 85 voted for, and one ballot was disqualified.

Although the vote is not legally binding on the town commissioners, it is certain that the commissioners will be guided by the vote and refuse the annexation of Viking Ventures, which would have also included the granting of

The group has recorded the theme and background music for "The Beverly Hillbillies" television series on which Flatt made a number of appearances.

Among the highlights of the Lester Flatt Show are: "The Ballad of Jed Clampett"; "Father's Table Grace" and "The Foggy Mountain Breakdown," as also featured in the original sound track of the "Bonnie and Clyde" movie.

Schools Closed October 12

The public schools of Frederick County will again close by "articulation areas", a secondary school and those elementary schools which feed into it, for a teacher in-service training meeting on one of several dates during October.

Alfred Thackston, Jr., Assistant Superintendent for Instruction, announced the following schedule for these meetings. Area schools affected are: October 12: Catoctin High School; Thurmont Middle, Emmitsburg, Saioillsville and Thurmont Elementary.

According to Thackston, on the dates noted the schools will be closed for pupils, but the teachers will be spending their day in professional meetings, training sessions with their colleagues and outside consultants, and various other activities which contribute to the general upgrading of the instructional program.

An eligible service disabled military retiree not on VA compensation rolls may apply to VA for a \$150 annual clothing allowance if a prosthetic or orthopedic device tends to wear out or tear clothing.

Announce Winners Of Punt, Pass And Kick Competition Held Here

Although the latest proposals by Viking Ventures had been termed "lucrative" for the town by Alan Musselman, planning and zoning consultant to the town, earlier animosity toward the project was most probably a great factor in the decision of the voters.

Viking Ventures has not yet announced whether they will try other means of obtaining the water and sewer facilities; it is understood that the viability of the project rests on whether or not these facilities can be obtained.

Judges for the election were Mrs. Josephine Steinberger, chairman; Mr. John D. White and Mrs. Betty Goulden.

Mike Weimer On Top Judging Team

Mike Weimer, Emmitsburg, was a member of the Maryland 4-H dairy cattle judging team which scored the most convincing win in the Pennsylvania All-American Invitation Dairy Cattle Judging Contest at the Pennsylvania All-American International Dairy Cattle Show last week at the farm Show in Harrisburg.

It was the only repeat in the three divisions of 4-H, FFA and Intercollegiate.

Among the 11 teams competing, only the Md. team had all members among the top five in the individual scoring.

In addition to Weimer, the Maryland team was composed of Denton Lenhart, Thurmont, and Allen Stiles, Westminster. Maryland outdistanced New York 1,794 to 1,737. Kentucky was third.

Save The Monocacy Assn. Holds Picnic

A crowd of almost 200 persons attended a picnic Sunday on land that may be included if the proposed Sixes Bridge Dam is built. The picnic was sponsored by the Save the Monocacy Association on the farm of Kenneth Fields along the bank of the Monocacy River. The picnic offered an opportunity for friends of the Association and legislators to look at the land that may be lost.

Carroll County officials, Frederick County's five man state delegation and County Commissioners Lawrence Dorsey and Donald Lewis were also in attendance.

Talk during the event centered on letter writing campaigns and how to stop the Corps of Engineers' Congressman Goodie Byron, who was not in attendance, has already officially come out against the proposed dam though Congressional action is still pending.

Members of the 17th Regiment of Foot, an amateur revolutionary war group, marched into the picnic grounds attired in British red coats and accompanied by the rhythm of a drummer boy. The three man group loaded and fired their smooth bore muskets over the crowd. The group attended the picnic as a reminder to the picnickers of the history of the region.

The Save the Monocacy Association was organized by residents of the area last spring and has been active in opposing the dam on both local and federal levels. A bill authorizing monies for the design of the Sixes Bridge Dam is now pending in the House of Representatives.

Less than 50 youngsters entered the Punt, Pass and Kick Competition held Saturday and Sunday afternoons, Sept. 29-30, at Emmitsburg Community Field. Competition began Saturday afternoon but was interrupted when heavy rains postponed the 11-13 year age groups until Sunday. The number of spectators seemed to grow on Sunday when it was learned that one local lass had joined the field of competition. Carol Ann Boyle was the only girl to enter, and competed with boys in the 12 year age group. Although not among the winners, Carol Ann was pleased with her efforts and vows to return again next year to give the

Colorfest Weekend Oct. 12-14 Here

From the crowing of "King of the Hoboes", Maury Graham, as Colorfest King Friday evening, until the last tired merry-maker goes to bed Sunday night, a wide variety of special events will highlight the annual Colorfest Weekend activities in this area October 12-14.

Wholesome, mouth-watering food, prepared and served up with loving care by area residents forms a kind of continuing highlight in itself. There is tangy apple-butter, hot and spicy from the boiling pot; fragrant breads, cakes and pastries fresh from the oven; rich home-made ice cream; chicken corn soup; smoked turkey; mountain fried chicken; ham, turkey and oyster suppers; chicken pot pie; apple cider, slippery pot pie, and an abundance of this season's harvest of fresh fruits and vegetables... all spread out for the enjoyment of everyone who will forget calorie-counting for one weekend.

There's a country music jamboree featuring six country music bands playing from 12:30 p.m. to 6:00 p.m. on Sunday at Mt. Tabor Park on Maryland Route 76 at Rocky Ridge. A playground provides diversion for the children and, of course, there's plenty of food.

From 10 a.m. to 6 p.m. on Sunday, the famous Palomella Miniature Horses of Argentina will be shown at the Thurmont Firemen's Carnival Grounds.

At 4 p.m. on Saturday at Emmitsburg, will be the Firemen's Parade, billed as "the biggest and best in the area." And these are only a few examples of the many pleasures awaiting visitors to Maryland's Catoctin Mountains October 12-14 this year, during the Annual Colorfest Weekend.

Town Pressured For Utilities Commitment

The Burgess and Commissioners held their regular monthly meeting Monday evening in the town office.

William Garde, developer of a proposed development on Irishtown Road, appeared and pressed the Commissioners to give immediate assurance that water and sewer facilities would be available for fifty units to be built over the next year. Garde indicated that he thought the town had given him such a verbal commitment when the land was annexed some time ago. Mr. Garde said he needed a letter from the town guaranteeing these

Homemakers Club Installs Officers

Mrs. Franklin gave us many tips and useful information on salad making, keeping in mind the character and consistency of salad greens as well as the nutritive value. Recipe folders were given to each member and everyone is anxious to try some of the tempting salads on their menus.

Weekly Thought

The reason that talk is cheap is that the supply is always greater than the demand.

The Commissioners noted that since their last contact with Mr. Garde on this development the town had instituted a Planning and Zoning Commission and that Mr. Garde would have to receive the approval of this commission before the Town Commissioners could take any action on his request. They also told him that after the recent evaluation of the town's water and sewer capacities, they were uncertain as to whether the town was capable of supplying the utilities and that the matter would have to be taken up with the Consulting Engineers for their opinion.

The total \$4.5 million, 200 residential development is planned for 50 units this year and 100 in the following year. Mr. Garde pointed out that there was a great need for housing in this area and this development would help alleviate the housing crisis in the area while providing jobs and income for the town.

Despite Mr. Garde's pleas, the commissioners refused to consider his request until he had received the approval of P&Z and until the consulting firm could give an opinion.

The Commissioners also heard from Jack Gale of the Frederick County Council on Alcoholism about programs about alcohol abuse which the council is trying to establish.

Ernie Shriver, Chairman of the town Planning and Zoning Commission, informed the commissioners that Alan Musselman, consultant to the town, had arranged a tour for the commissioners and members of the P&Z during which land use in different areas of the county would be observed. The tour will be from 8 a.m. to noon, Thursday, Oct. 4, and will give those attending a better idea of the problems facing the county and other towns in this area and the different ways in which such problems can be handled.

The commissioners also discussed the various meetings at which representatives were needed and wrote a letter to the Board of Education regarding the granting of a 20 foot right of way along South Alley in order that the roadway may be widened.

A request from the fire company that the town rent two portable toilets to be used during Colorfest was approved. The salaries, insurance situation and proposed pension plan for town employees was also discussed.

The Commissioners also decided that Saturday, October 13 would be a free parking day and that it would not be necessary to deposit coins in parking meters on that day. There will also be a "No Parking" zone beginning at 3 p.m. that day; the area effected will be from the town office to Adams Barber Shop.

Letter To The Editor

Editor, Emmitsburg Chronicle:

The Commissioners of Thurmont wish to express their gratitude to the citizens who attended the Thurmont - Emmitsburg Community Show, held September 14 and 15, 1973, at Catoctin High School, for their display of gratitude to the Maryland State Police, by giving them a standing ovation.

This type of display, by the public, to the Maryland State Police, is a very rare occurrence and we, as Commissioners of the Town of Thurmont, are very proud that this type of feeling was shown in this area.

We do know that the Maryland State Police, including Col. Smith and Lieut. Basore and the Troopers present, were very impressed by the ovation.

We further thank the Maryland State Police for taking time out from their busy schedules for the demonstration of their latest equipment such as the helicopter and the K-9 dog car and for also describing various functions in the Police operations.

Every man, from the Commander to the Trooper is to be congratulated.

Sincerely,
The Commissioners
of Thurmont

The historical and genealogical study of the Hoke family, of Pennsylvania and Maryland, is continued at this time.

There are six marked Hoke graves in Elias Lutheran and Reformed churchyard. The inscriptions from five of the gravestones were listed in last week's column. The sixth and last is as follows:

6. In memory of William

Hoke, born 1847, died 1924. Referring to the church records—first to Trinity Lutheran, Taneytown, Maryland, of which Elias congregation was a part until 1851, there are but two Hoke family entries—as follows:

1. Baptized—Aug. 12, 1844—Susanna Margaret Hoke—daughter of Jacob and Eliza Hoke—born Aug. 9, 1843.

2. Baptized—Jefferson Hoke—son of Jacob and Eliza Hoke—born January 14, 1845—baptized April 8, 1845.

A thorough search has been made for the burial place of Jacob Hoke and his wife, Eliza, but without success. If they are buried in Frederick County, no markers remain to designate the spot. "Jacob" was a family name with the Hokes and there is a "Jacob Hoke" interred both at Elias churchyard and in Mountain View Cemetery.

Francis Ann (Rowe) Hoke was a daughter of Joseph and Susan (Baker) Rowe. Her parents are interred in Elias churchyard. Johneh Rowe was a son of Arthur Rowe, a soldier in the War of the American Revolution, whose grave is in old Tom's Creek Lutheran and Reformed churchyard.

Peter and Francis Ann (Rowe) Hoke are buried in Mountain View Cemetery. The inscriptions on their tombstones are as follows:

8. In memory of Frances A. Hoke, wife of Peter Hoke, born September 18, 1835, died November 5, 1903.

The Peter Hokes were the parents of seven children—listed as follows:

1. Calar Hoke—married Oscar D. Frailey of Emmitsburg. They were married by the pastor of Saint James Lutheran church at Gettysburg, Pennsylvania. Both are interred in Mountain View Cemetery.

9. In memory of Oscar D. Frailey, born 1853, died 1932.

Communists Not Trustworthy
The easiest thing for the American government and the American people to do in coping with the mid-century rise of the military colossus, Soviet Russia, is to accept the proposition that the Communist bosses really mean what Brezhnev said they meant in his TV speech to America;

that the USSR wishes to live in peace with the United States in a world in which antagonisms between nations and aggressive imperialistic thoughts evaporate. He said in this June and in the process of wishful thinking the American people wanted to believe him. A great many did. As this column is written

about two months later, I find an Associated Press dispatch from Washington in my morning newspaper: "Three Russian naval vessels led by a cruiser have been sighted in the Atlantic bound toward Cuba. . . the Cruiser Isakov, destroyer Derzky, and a tanker were seen some 400 miles northeast of the Bahamas. . . Meantime three Soviet Bear reconnaissance bombers have left Cuba, apparently bound for Russia after a visit of about a week." Russian Caribbean Base

And in the June 21 report of the House Committee on Internal Security is some chilling testimony given by Luis V. Manrara, who served for years as founder-president of The Truth About Cuba Committee, Inc. I know Luis Manrara. Until Communist Castro took over Cuba, Luis Manrara was one of Cuba's leading citizens, heading an accounting firm and prominently active in Cuba civic and cultural affairs. After fleeing to America in 1960 he became the voice and the symbol of hope of tens of thousands of exiled Cubans living mostly in Florida.

He gave testimony to the House Committee sitting in Miami on October 19, 1972. One of the most significant things he said was: "Today,

Cuba is Soviet territory — an unsinkable missile carrier." I know from conversations with him, based on evidence brought out of Cuba by hundreds of refugees, that he is certain that Russia has some of its 50 - megaton ("Doomsday") missiles in Cuba and that the whole island has been built into an offensive nuclear war base under the complete control of the Russians.

Ervin's Enlightenment
In recent years I have written repeatedly about the danger of this Russian Fortress which well might be used someday in a first-strike war or to force an American surrender. I am passing along these recent developments because Brezhnev's recent dramatic pronouncements increase the danger that his "peace hopes" will be taken as valid by many American citizens—and thus further endanger our future national security.

Senator Sam Ervin, I'm told, got quite a jolt when, after demanding to see a "security-censored" paragraph in a document presented to the Watergate Senate Committee, he was shown the content of the secret paragraph. While badgering Mr. Erlichman for not disclosing the White House censored paragraph and scoffing at the claim of national security considerations he told the press meekly, after seeing

the secret paragraph, that he was satisfied that it should not be publicly disclosed. Indications are that the classified paragraph concerned Soviet Russia.

"Dangerous Basis"
Another significant development was the June 18 statement by former Undersecretary of State George Ball, who served two presidential administrations (Kennedy and Johnson) which at least publicly accepted the "peace" overtures of Soviet bosses. He said: "It is a dangerous basis for Western policy to conclude that the Soviet Union is no longer imperialistic, but dedicated to peaceful maintenance of the status quo. . . there is no reason to think they have put aside their belief in world revolution." President Nixon, while hopeful, continues to emphasize that there is no hard evidence yet that the Russians have discarded their Communist goals. Yet, the Brezhnev visit this summer served to advance the idea that they have.

Dr. Herminio Portell-Villa, Cuban historian and one of Luis Manrara's compatriots, reports: The Soviets are developing Cuba into a major naval operating base. . . "Cienfuegos—the Russian submarine base in the Caribbean—is merely the tip of the Soviet iceberg in the Western

hemisphere," he says. He says that a nuclear plant now is operating in Cuba "capable of producing military quality fissionable (H-bomb) material." The danger of not recognizing these developments is that the U. S. will continue to permit its relative military strength to further dissipate and make our nation vulnerable to further dissipation.

Congressman Goodloe Byron
Maryland—Sixth District

The following questions were typical of the kind asked of me in recent weeks. Letters should be sent to me, c/o U. S. House of Representatives, Washington, D.C. 20515.

Please explain the procedure by which a community may acquire surplus federal property for use as a public park?

Under the Surplus Property Program, States and their political subdivisions may obtain for public park and recreation use Federal properties that are declared surplus to the needs of the Federal Government. Conveyances are made free or at virtually no cost to the recipient. Applications and information is available from the Bureau of Outdoor Recreation, Federal Building, 7th Floor, 1421 Cherry Street, Philadelphia, Pa. 19102.

How do you feel about reconstruction aid for North Vietnam?

I feel that such aid is morally offensive and fiscally irresponsible.

Can a veteran of World War II apply for a home guarantee loan under the G.I. Bill?

Yes, expiration dates on GI loan eligibility were removed in 1970 and eligibility now runs until you have used it. You may obtain the necessary information and forms from your nearest VA office.

Someone told me that all vitamin pills will now be sold as prescription items. Is this true?

Yes and no. Under the Food & Drug Administration's new regulations, vitamin & mineral supplements containing more than 150% of the "recommended daily allowance" will be labeled and sold as over-the-counter drugs beginning in 1975. However, effective this week, high-dosage supplements of Vitamins A & D may be sold only as prescription drugs because of the FDA ruling that "excessive amounts of these two vitamins are known to be toxic."

Do President's normally veto a lot of bills and what is

a "pocket veto"?
By the Constitution the President is allowed 10 days (exclusive of Sundays) from the date of receiving a bill within which to give it his approval if, within 10 days, Congress adjourns and so prevents the return of a bill to which the President objects, that bill does not become law. In many cases, where bills have been sent to him toward the close of a session, the President has taken advantage of this provision, and has held until after adjournment

measures of which he disapproved but which for some reason he did not wish to return with his objections to Congress for their further action. This action is the so-called pocket veto. In recent times, President Eisenhower vetoed 181 bills, 108 of them pocket vetoes; President Kennedy vetoed 21 bills, including 9 pocket vetoes; President Johnson vetoed 30 bills, including 14 pocket vetoes; and so far, President Nixon has vetoed 37 bills, including 18 pocket vetoes.

Post Office Closed Monday In Observance Of Columbus Day

Our office will place on sale today, padded mailing bags as an added convenience to customers.

The mailing bags will be sold in three convenient sizes by window clerks. The bag sizes are 6x10, 10 1/2 x 16, 14 1/4 x 20 inches and are priced at 20, 25 and 30 cents, respectively. The post office will provide special markers for addressing, and staplers for sealing the bags.

This special preparation service is a one stop convenience and a five step process in which the customer purchases a bag, inserts the item, addresses the bag, seals with stapler, and presents it for mailing to destination.

These padded bags are an ideal container for mailing gifts, books, candy, clothing and other similar size item. The postal Service has successfully experimented in the sale of these mailing bags during the past year at selected post offices. As a result of increasing demand for this container, all first class post offices in the Eastern Region will now have this convenient item available to customers.

The primary objective of the bag is to provide another method to assist the United States Postal Service in its continuing efforts to reduce

parcel damage and insure delivery of parcels in good condition. Better service—a satisfied customer.

Our office will be closed on Monday, October 8, 1973, in observance of Columbus Day. There will be no delivery of mail on rural routes.

However, there will be a dispatch and receipt of mail in the morning only. Post Office Boxholders may pick-up their mail until 6 p.m., at which time the main lobby will be locked.

Angus Cattle will be the subject, in our next commemorative 8c stamp, which will be placed on sale, at our office, on Saturday, October 6, 1973.

One hundred years ago, four Angus bulls arrived in Victoria, Kansas, from Scotland, the ancestors of a breed that was to revolutionize beef production. They were introduced into America by George Grant, a Scotchman, who had bought nearly 100,000 acres of grazing land.

This is the first in a series of "Rural America" stamps. Next year there will be two that also mark 100th anniversaries—the introduction of Kansas Hard Winter Wheat into the United States and the establishment of Chautauqua, which enriched cultural lives in small communities. Newly Developed Guidance Program To Be Presented At Workshop

Toward Maturity, a guidance program developed by the Daughters of Charity of the Emmitsburg Province for use with elementary school students and their parents, will be presented at an In-Service Workshop at Saint Charles School, Pikesville, on Saturday, October 6, at 10 a.m.

Toward Maturity represents, according to Sister Jerome Nossell, Councillor for Education, "not a finished product, but the cooperative and dedicated efforts of a group of eleven Daughters of Charity. It is being presented for experimental use during the 1973-74 school year. Evaluation pages are included after each unit so that all teachers who use the materials may have some in-put for its revision."

"In our era the concept of personhood is being particularly stressed," said Sister Adele Francis, Educational for the elementary schools of the Daughters of Charity. "Authenticity, freedom, sexuality, maturity—all these terms are current in today's society. Yet such concepts cannot be considered apart from the personhood to which the Christian must aspire if he is to 'grow to the full maturity of Christ the head.' It is important then that students are helped to become, not merely persons, but Christian persons, with an understanding of all that the term implies."

Toward Maturity has as one of its main objectives to assist parents, as the primary educators of their children, to carry out their God-given responsibility. Each section includes a discussion guide for parents and places strong emphasis on parent involvement in the guidance process. At the end of the school year an opinionnaire will be sent to parents, soliciting their responses as to the suitability of the program with reference to topics chosen, content, and effectiveness of presentation.

"We feel that the erosion

of moral values in our society demands that parents and teachers cooperate in providing for children a solid basis for the choices they will make in their lives," said Sister Adele. "This Pilot Program for our Community Schools is an effort to reinforce our changeless values based on the Gospel message."

Seventeen elementary schools in seven dioceses will use Toward Maturity on an experimental basis this year following In-Service Workshops in four key areas: Maryland, North Carolina, Georgia and Virginia. More than 160 teachers from six elementary schools in the Baltimore-Washington area will be present at the first Workshop on Saturday at Saint Charles in Pikesville.
